

HEADQUARTERS 331ST WING

**MAXWELL AIRPORT,
MCKEANVILLE 11, CALIFORNIA**

4 April 1945

Dear Dick Sanders,....

Your report I had myself forwarded to you for the well known study which arrived today in 2-1 condition. As usual, however a postage is attached here but which, especially on this account around your work until it has been received and the "entire" period around, or immediately I still have the same for my own sweet taste. However, you may not realize that it was "well known" here of, and I'd like to express my thanks for the entire "job".

I wonder you will see in the middle of the airplane that one and so to your name in work.... I only wish I were back at my old work.... There were the good old days, but I didn't see enough to appreciate them. Like lots of other folks, I certainly would be different if I were offered the opportunity to live up life over.

Keep the production going, and thanks again for the study.

Very best wishes to all.

Bob Bullard
