August 27 1942

Dear Service Club

It's been some time now since I've left the United States. I would have some of my former comrades and all I want to say is that I will appreciate receiving the news that it's possible for me to correspond with you in my former circumstances. Goodbye my old friends here. Both are now in the hands of the United States. Goodbye business, understand, it is the Navy and Army well. How's the facility coming along? No letter come and naturally coming soon.

Behind my former want to thank you about for the few letters you've already sent me. There isn't much to say way of appreciation here & I hope letters to come from the US. Highly Appreciated. We're coming along ok. We're stationed in Hawaii.

Well, hope August is coming along and that's fine. Don't say goodbye, when I shall say it I can't forget it saying hello to say well, anyway, it's 1942 and want to wish you all good luck and continued health.

As Ever
