Received your latest letter a few days ago and it was with a great deal of excitement and eagerness that I read through the letter and list of addresses. I was very sorry to hear of the death of John Hull who was a close friend of mine while at college.

Recently I received a letter from Phil Dorr 41 Class President. Certainly is good to hear from the fellows

I appreciate very much the many kind favors you have done for me. I will try to maintain contact
