Dear Friends:

Your very welcome package containing two flat "fifties" of Camels came today. Thanks a lot.

If things are the same in Providence as they are here in Washington Camels are hard to get and those that you sent were very gladly received.

As I'm still here in Washington fighting the bloody Battle of the Potomac and we will be here until they can get Woves to replace us.

There is a slight change in my address. Am now 42c instead of 43c.

Thanks again for the smokes and a happy Easter to you all.
