

A Time To Look Back

AND A TIME TO LOCK FORWARD

COLLEGE DEVELOPMENT PLAN . . .

this map represents the early stages of a major college expansion program. As the College grows, specific areas of improvement make themselves left. The increasing number of resident students requires that more dormitory space be provided. The additions to our library should receive immediate consideration. More classrooms are a necessity. Greater dining facilities, enlarged recreational facilities and a new auditorium are on the development agenda.

The past has been generous, the present is good, but the future holds out the prospect for abiding achievements. Given these new tools with which to work, Bryant College is assured a future of progress.
