Dear Pottie.

You will probably wonder why I'm writing this. but I wanted to find out any information you might have about Hoody.

I can honestly say I like her very much, who knows it might lead to something!

Is she at the present time engaged or about to be? just what is her status with the males in her life.

After all I would hate to make an ass of myself, and what does she think of yours truly.

I will appreciate your cooperation

in this matter also keep it under  
your hat. If you can and will  
tell me anything, write or throw a  
note in one of your letters to  
your future lord and master.

Passionately yours  
(censored)  
Steve
