Orientation Program for February Freshmen

The freshman enrollment for the February semester totals approximately 144, with the majority of new students being veterans. These new students come from the six New England states, Indiana, Alabama, Tennessee, and Florida. The foreign student delegation consists of students from Hawaii, Canada, and Venezuela.

On Thursday morning, February 25, all freshmen attended a freshman assembly to help them get acquainted with school officials and members of the faculty. Bob George, president-pro-tem of the Greek Letter Council, gave a summary of the activities and organization of the school newspaper and the student council. Bob George, president-pro-tem of the Greek Letter Council, gave a summary of the activities and organization of the school newspaper and the student council.

The president of the Business Administration and Accounting Club, Joe Peters, told those students about the activities of the club. Mr. Murphy, editor of the GWAY, gave a talk on the activities of the student newspaper. We don't know how many students at this time are reading the student newspaper. The GWAY is a medium-sized newspaper.

The 216 large and medium-sized companies reporting their plans said that they would hire 12,063 freshmen. Three firms hired 11,599 men from 503 classes. The increase is mainly due to engineering and other technical fields, with the significant increase in demand for non-technical personnel in the sales fields.

This suggests," Dr. Endicott says, "that the trend is to a more but not entirely technical labor market. The change in the labor market has necessitated more training for present and future engineers. But starting salaries for those who have completed their training are still below those for technical men about $134. Last year, average starting salaries were at $125 and $250 respectively.

The survey reveals also that the average starting salary for male, general business, and accounting students will represent 27 percent of the starting salaries for technical men to be employed.

For college women, they will be recruited mostly for clerical and retail work and general training programs. The average starting salary for those without training will be about $200 a month. Women chemists and technicians will receive an average of about $100 a month as their starting salary.

Because of recent interest in the business prospects of liberal arts graduates, Dr. Endicott says to this effect: "If a college man really has management potential, will it make a difference in the long run whether he is technically trained or broad­ly trained in the liberal arts?"

Of the 190 replies, 111 companies said they would make no difference; 46 favored technical training, and 12 favored a liberal arts background. Many who answered "no difference" indicated that personal qualities usually determine whether a man is promoted to an executive position that necessary technical training is often provided after employment.
ATTENTION: Parkers

All automobile owners at Bryant are aware of the limited parking facilities surrounding the campus. This unfortunate situation seems to be further compounded by the somewhat improper manner in which some students are parking their automobiles. It has been noted that cars parked on Yokee Orchard Avenue and Field Street, and other now reserved areas, have larger spaces between them than is actually necessary and at times, are taken up the space used normally by two cars. Until such conditions are improved, your cooperation in parking automobiles in a tighter line will be greatly appreciated.

Freshmen Reception

Dr. Henry L. Jacobs, President of Bryant College, and Mrs. Jacobs will give an informal reception to all incoming freshmen students at a Coffee Hour on Monday afternoon, March 12, at 4 p.m. in the college auditorium. Members of the student Senate will assist in welcoming the freshman students.

All freshmen students are urged to attend as this will be an opportunity for them to meet other freshmen and other classes.

Refreshments promise to be delicious, and dancing until coffee hour will be provided by the college orchestra and a male quartet from the Glee Club.

Class of 1974

I think I'll go downtown and put a deposit on a bar.

Class is about like a laundry—
you get out of it just what you put into it—but you've never recognized it.

Rehabilitation of Europe

Topic of K. R. C. Speaker

At a recent meeting of the International Relations Club, Mr. Stanley Scruba, of the United States Mission, talked about the progress being made in his extensive travels through Europe.

Mr. Scruba delivered a speech about present economic conditions and the rehabilitation of European countries. He has visited the countries of Europe, and how these aid programs are working.

He stressed the importance of the United States aid programs as to the rehabilitation of Europe and how these aid programs are working. He has visited the countries of Europe, and how these aid programs are working.

The ARCHWAY

Sigma Lambda Theta
Undeclared in First Round

By Anne Moore

On March 2, girls basketball started off the semester with a bang. The team that day was played by Phi Up and KDK. Both teams were very evenly matched and throughout the entire game the score was almost tied. In the last quarter KDK made a final plunge to take the lead by two points. The final score was 26-24, with Vivian Langlois racking up 16 points for Hark and Danielle and Sullivan KDK. The second game of the afternoon was the big thriller. SIB and Theta matched skills and strength on the court, and it turned out to be quite a game. In the last one or two minutes over the course of the game, the spectators didn't know whether they were watching football or basketball. Neither team would give in, as neither was the black and blue clones, etc., on the players. The score was six and six, and Theta took the lead. Their password was sweet and the SIB girls just couldn't hold them down. During the last two minutes of the game, KDK would up in a tie and Theta would hold them off. The final score was 36-37. High scorer for KDK was Vivian Langlois with 20 points and Gerry Safer for Alpha Phi Kappa with 21.

The second round started next week, and it should be interesting to see what team takes the lead in the second round, but one thing is for sure, it will be the first round being undeclared.

The formal initiation of officers, February 6, the sisters held a successful fund sale at Stephens, and they are scheduling another to be held on March 25. The Alpha Phi Kappa basketball fundraiser is being held at the gymnasium. The money is raised to help with the college. A lot of money is collected by the Alpha Phi Kappa basketball team.

BRYANT CHRISTIAN ASSOCIATION has chosen their officers for the second semester. Their officers are: Kitty Kilpatrick—President, W. W. West—Vice President, G. Partington—Treasurer, and Gladys Kehl—News Representative. The movie "The Second Best Team" will be screened at the Students Union Building on April 10. At the basketball game last week, KDK scored 22-12. A new officer was elected for the second semester.

THE NEWSMAN CLUB held its first meeting Thursday, March 4, at Alumni Hall. The guest speaker for the meeting was Father Brocchi of St. John's. A very interesting speech and movie were shown. Everyone enjoyed the program. Plans were also made for a St. Patrick's Day party to be held on March 17.

FEBRUARY 13 marked International Women's Day. The day was observed by the second annual Women's Day. The event was held to promote women's rights and equality.

The theme for this year's Women's Day was "Building a Better World for Women."

The event was held at the Women's Center, and a variety of activities were organized to encourage women to get involved in their communities. There were workshops on leadership and career development, as well as opportunities for women to connect with each other and build relationships.

The goal of the event was to empower women and encourage them to take an active role in shaping the world. The event featured keynote speakers, panel discussions, and opportunities for networking.

Throughout the event, there was a strong emphasis on creating a supportive and inclusive environment for all women. The organizers worked to ensure that the event was accessible to women of all ages, backgrounds, and experiences.

The Women's Center provided a range of resources and support to help women succeed in their personal and professional lives. They also offered a range of programs and services to promote women's health and well-being.

Participants in the event included women from all walks of life, including students, professionals, and community leaders. The event was well-attended, and there was a strong sense of camaraderie and shared purpose among the participants.

Overall, the event was a success, and the organizers were pleased with the turnout and engagement. They hope to continue building on this momentum in the future to promote women's rights and equality on a broader scale.

What's Next?

With the new semester starting, the focus will shift to getting the word out. The sisters hope to reach as many students and alumni as possible. They will be using various methods to promote their events, including social media, email, and flyers. The sisters are also planning to host a variety of events to engage with the community.

Course Offered in Electric Typewriting

This semester, for the first time at Bryant College, an electric typewriting course is being offered. Because of the time flexibility and the added advantage of only advanced students taking this 6-week training program. Through this course, students will learn the basics of electric typewriting, including typing techniques, word processing, and document formatting. The course will provide hands-on training and practical experience to help students develop their typing skills.

Who's This?

With the new semester starting, the students are getting ready to welcome the new students and alumni. The sisters hope to have a great turnout at their events. They will be reaching out to a variety of organizations and clubs to get the word out. The sisters are also planning to host a variety of events to engage with the community.

Final Results: Girls' Bowling

The final results of girls bowling are as follows:

Ist Round

Sigma Iota Beta

Sigma Iota Kappa

Kappa Delta Kappa

Phi Upsilon

Alpha Phi Kappa

Sigma Lambda Theta

Phi Upsilon

Kappa Delta Kappa

Phi Upsilon

The high three of the season was 139 taken by SIB. SIB also took the championship in their final game.

The five top bowlers of the season were as follows:

Feather Eaton—SIB—146

Carol Kain—SIB—131

Joan Coleman—Alpha Phi—122

Pat Coleman—New Britain—114

Pat Gosselin—New Britain—114

A bowling team that will soon become known is the future bowling team. The sisters hope to continue building on their success in the upcoming season.

How Do You Like to Meet Captain Herbert W. Wirth

He's here, on campus now—

To show you how to:

$500 a year...

become an officer

in the air force...

get a head start in aviation...

be a part of a great flying team...

as an Aviation Cadet,

in the U.S. Air Force.

For more information on the career opportunities in aviation, please contact the program director at the School of Engineering in your area.

Music Grapevine
by Gladys M. Kiten
STAR OF THE WEEK;
"The Week" is known as the "Town Crew"—can you (and who) is (and who)?
* Who, even yourself, John Ray.
Born on January 19, 1937, in Dublin, Ohio, John Ray was working as a ca-
man in a soda fountain, a carboy in a ban-
ner shop, and then a sinkman in a metal shop.
After receiving some voice training, he began
recordings for the Columbia label.

Shorthand Award Pins, Who's Next?
Who will be the next ad-
anced shorthand student to re-
sign a Gregg Expert Shorthand
Award, a difficult task?
Vivian Langlois, a fourth semes-
ter junior, Sec. II, accounting major.
Vivian did over 90 words per minute, depend-
ing on her course.
Shorthand pins will be awarded to the advanced students with the highest num-
ber of syllables per minute.

Training in Good Government
With a renewal for the second successive year and an increase in
amount to $16,000 of the Citizenship Training Project Grant from the
Maurice and Laura Falk Foundation of Pittsburgh, Pa., Boston University
has already started its second year of "grass roots training" in the prac-
tical working of local, state and national government, according to Presi-
dent Harold C. Case.

As I See It
