

U. S. ARMY AIR FORCES
MAXWELL FIELD, ALA.

Sunday
2050

Dear Mom,

all I have time for is a
short note honey, as
lights are out in 10 minutes.

Boy it's swell here, but
plenty tough. I'm on the
go every minute. I have
30 minutes spare time a
day for recreational purposes
and letter writings, so don't
worry if my letters aren't
coming regularly.

I was issued a Carbine
Rifle here, I also get another
set of underwear and ~~socks~~ 's'
which we are now wearing.
I haven't gotten the cadet
insignia and hat as yet,
we probably won't get them
here.

As I said this field is

beautiful. B-24's, B-17's,
and B-25's fly over all
day long. The houses,
they are houses remind
me of a section of
San Antonio, you know
with those rough tile
roofs and yellow stucco
walls. Everything is
well kept. There is green
grass everywhere, and
flowers. (God what a letter!)

Excuse this monstrosity
but I'm terribly rushed.
Oh, oh, here's lights out.
I love you honey, give
my love to all.

Love devoted son
Fud
