had + kept wishing all day that you
could have been down here once up there.

You should see our little tree. We

couldn't get many ornaments + used painted walnuts - what a news it was.

We managed to get point all new the wall of everything. Then we died some popears in red organ ink - well, the idea was his but the popears didn't cooperate. It get all saggyt heavy or fell off the strings - we had tunskidding

around the norm on it, though. we lound some wight strings but no bulbs.

Man, that bed jacket is beautiful! I can hardly wait til wis consent I can wear it. It will be so pretty a I'll sure need something like that then. Judd loves his saks and wallst. He'll wite nead soon. He's Pinishing up his history. On the last unit how. Int that wonderful. 5 and was so sweet - He gave me so many beautiful presents. and as you know an electric niver and a Presto cooker. I think he's already told you everything. We are so excited about the Presto cooker. It's amazing! Foods cook in no time. ux contr believe it - Only takes 8 ninutes Por potators + 1 to 2 nimites for canots-wire still a little slug of it. Makes queer voises when its letting off stram\_ It gives everything a delicious flavor too. Oh. Captain Goult, Le was the

doctor at the Post said w. T. would arrive on the 13th but now our doctor in town said on the 11th. Confusing. We're hoping to the 11th so That Rill can be our anniversary Present.
