Dear Bryant Service Club,

Thanks you for your
greetings and the Alumni
Bulletin.

It was nice hearing
from you, especially my
only being a "rookie"
and only being there a
short time, this however
does not limit my in-
terest in the activities there.

I like it here very much.
I do the work I was
most interested in, office
work, and my superiors
are a fine group of
men.

Once more thank you
Service Club Members, and
keep up the good work.

Sincerely,
George
