

UNITED STATES AIR FORCES

Private Oliver Edwards
19th Photographic Mapping
Squadron

Army Air Base
Colorado Springs,
Colorado

January 18, 1943

Thanks to the Bryant College Service Club
for the cigarettes & letter. I got a lift from
both.

It sure is great to see such spirit as this
behind us; it is one of the few things ^{that} helps
moral. Another thing that I feel compelled to mention
is the fact that Bryant students are so far ahead
of other college "Student Bodies" in the country in
thinking of the Men in the Service.

This letter is delayed due to the fact that

I had a change of Posts since my address was
sent to Bryant. It might be interesting to you
to know how the army & air force moves you about.
First it was Fort Stevens, Mass. for induction; then
to the Air Corps Tech. training school at Miami Beach
for Basic Training & Classification; from Miami to Lowry
Field in Denver Colorado for training in aerial Photography.
Then after seven months of training I was sent
to my permanent squadron here at Colorado Springs.
How long we will be here I do not know.

P.S. Say hello to Mr Vinal, Mr Richards and all the other
