

A friendly wave - December 28, 1943
To The Bryant Sewice Club:

I received your grand package of hard, delicious candy about a week before Christmas and enjoyed it immensely. I certainly appreciated your thoughtfulness and thanks so much.

The work you are doing is something that will long be remembered, for it is just such people as you that keep us, in the service, driving toward our purpose - Victory and lasting peace.

This is beautiful country here but can't be compared to good, old New England especially the ocean. Our quarters are situated directly across the Abington Cemetery and any time

during the day can be seen
Leis' Mansion overlooking the
city. This is damp, windy weather
and unbearably hot and
sticky in the summer.

I was home in August on a
seven-day leave and am
counting the days until I go
home again, which won't be
until May. Audrey Ketyler is
stationed in Washington and
we have had many a talk
together concerning our beloved
college and she gave me all
the news - what has been
happening since I left. Much to
my surprise I found strange
events had occurred such as
new teachers, many of the girls
were married, engaged or joined
the service, which I had known
and paid around with.

Keep up the good work, Ryan's
Service Club and God bless
you all. A Very, Happy and
Prosperous New Year & Just
Another WAVE - Eleanor Eldredge
