AIR CORPS TECHNICAL SCHOOL
KEESLER FIELD, MISSISSIPPI

Bryant Service Club,

I have finally settled down for basic training & have been classified for the Air Corp Quartermaster and after basic, which is only 6 weeks in the Air Corp, I expect to be shipped out to one of the colleges for administration training. However, at the present I am in the midst of a basic training ^{period}, which by no means is easy. They certainly maintain there is hr. a day schedule. Keesler Air field is a fine technical training base, and it has its good points. However, it is a little overcrowded so I warn anyone back home, see all the movie you can, all the dance you can attend do so, and be with your girls after because they will only be a luxury.

in the Army. Well I'm signing
off for now. I hope to receive
the Bryant news.
