May 2, 1943

Dear Fellow:

Thanks for your letters. It's great to hear about happening back at school. It sort of brings back memories of three days when we were all together, enjoying the same things.

I'm here at Camp Lee, Va. assigned to the Quartermaster Corp and am just completing my basic training. My course at Bryant was very helpful because I think it may afford a chance at Clark's school when I start a technical school.

Tell the science club to keep up the good work. It's things like that which helps the fellow morale the most. I hope we can meet again after this mess is all over and can resume our studies again.

Tell me meet again.

Joseph Monk Mandelso
