

ROBERT A. PATT

AVIATION CADET, UNITED STATES ARMY AIR FORCE

The Bryant Service Club:

I received your Christmas present of two flat tins of fifty cigarettes and I appreciate them very much. My roommates really go for them. It takes no time at all for us to finish them up.

It is always nice to know that there is still that friendship back at college and to know you are thought of once in a while. I guess it helps a lot.

I expected to be at another field this week but I had to be kept over here at Maxwell because all the

The schools are full and just
can't accomodate any more persons. As a
result I am in a pilot detachment. We
have it a little better than the other
cadets because we have been all through
it but that doesn't mean get any picnic.
We do plenty to get tired and there is
very little free time from morning to
night. I am in hopes of being out of
here in a month.

Bob Mitchell is down here with
me and I see him once in a while.

Thanks again for the cigarettes.
