Nov. 11, 1943

Dear #Lummi,

First of all I want to apologize for not writing or answering any of your letters. You see around the first of August, I left the States for overseas duty and after some 2 1/2 months I finally arrived at my destination, some where in India. The land of enchantment and untold mysteries, with its mystic beauties, sets a throb in any travelers heart. All of the boys over here have found India an unforseen paradise. India at dawn, India at dusk never loses its magnificence as the sun slowly rises or sets in the sky over this picturesque land.

When I did get here I had a bundle of mail 1 foot high. Your letter was on top, although I did not know it was yours. It was put in a wear-tight envelope because it had so many different addresses on it. It followed me from Ft. Harrison, Ind. to Hornet's, Etc, then to Miami, then up to New York, where it was sent overseas.

It was wonderful news hearing about those Bryant Fishers who were found after reported missing. We all hope and pray that many more of our boys missing in action will be found. Thanks a lot for the list

of Fehlow's address. I often wondered where they all went too.

Things in India aren't so bad though. We get all the cigarettes and tobacco we need, we usually get a ration of American beer each week, besides, gum, candy, toilet articles, and magazines. We also get general U.S. shows direct from the States, including Jack Benny and his cast. Every so often we see an all H.I. show, which really are good. We have several short wave radios and we get broad casts from the United States, England, Italy, South America, and dear old Japan, (all propaganda.)

In closing I would like to say to the members of the B.S.C. that you have my heartiest congratulations on the work you are doing for the Fellows in the Armed Forces. You're doing a fine job. Keep up the good work. I know all the boys appreciate your work. The best of luck to you.
