

Sept. 11, 1943

Dear Miss Blaney,

While Copman is busy organizing a orchestra so that we might enjoy a few dances here at William & Mary I thought I'd drop you a note and give you his address so that he too might have a copy of the Ledger.

My copy hasn't gotten here yet but I expect it any day now. I'd like to thank you for it now for I know you realize how I'd enjoy reading it.

Mae and I have been together ever since we left Bryant. The army chose to send us here for further training in the field of engineering and once again we're able to ramble

to an from classes, pass + flunk tests
and criticize professors. Naturally we
don't lead the life of "Joe College" every-
thing is still army or G. I. Plenty of
drill, rigorous physical program and a
greatly accelerated scholastic schedule.

I'm rather envious of Bryant
and its abundance of Women and
from all reports I understand their
quite a beautiful lot. but we
were waiting for the girls to return
here in about 2 weeks 600 will arrive
so I haven't much ^{right} to appear envious.
However we'd be glad to get back
and finish our job there. It won't be
long now.

Sincerely,
John Finkle.

Williamsburg, Va.

It isn't Dave Kaufman as you wrote me.
I don't know his serial no. but its not
necessary.
