

40TH ORDNANCE COMPANY (TNG)  
ORDNANCE SCHOOL  
ABERDEEN PROVING GROUND, MARYLAND

Dear members of the Bryant Service Club:

Thanks, and thanks loads. I received your swell package today (June 22nd) and I noticed that it was mailed on June 7th. The reason for that, is that I have been transferred several times.

Upon arriving at Aberdeen, I was immediately assigned to a basic training company. I finished this blitz training in four weeks and then was transferred to another company to take my technical training. I was going to depot & supply school, and in my third week I was suddenly & unexpectedly assigned to the 40th Ordnance company as the requisition clerk in the Automotive, Wheeled Vehicle Section.

I am receiving a real thorough

training in stock control. It is really furthering my education, in that I am learning the big business of the army.

yes, I'm still a private, but really don't expect to be one long.

Believe it or not, the subject & course I learned at Bryant that has helped me the most so far is typing. Of course, if I didn't have the <sup>other</sup> subjects, I wouldn't be here in the first place.

Almost all of the fellows in our department are either college graduates, or were still attending school, so I feel right at home.

The weather down here is pretty hot compared to what it is where you are.

Before signing off, I would like to thank you all again and hope that you keep up the wonderful work that Miss Blaney has her heart & soul in. To those who are graduating. Congratulations!

Jimmy Goldberg
