

9/14/43

My dear Miss Blaney,

Just a few days ago I received your most welcome letter of May 30. It arrived rather late due to the various changes of address which have taken place.

I left Camp Lee several months ago & since then have been to N. P. & - Virginia Polytechnic Institute - and now am stationed at Penn State College as an engineer in the A. S. T. Program. The life has been rather

pleasant and the oppor-
tunities plentiful. Every-
thing has been made
rather easier by the con-
tinued attention to our
wellfare of this club &
many others. Thanks
to you & all those who
have backed you up.
Thanks also for the
list of my buddies in
the service. I appreciate
it really.

Being back at school
has brought back many
of those pleasant memories
at Bryant. Hope I can get
back there soon to complete
what I started. as ever,
Mario Rogue
