My dearest Johnny:

I received your V-mail of the 30th and was very sorry to hear from you, lovely. Glad to know you're feeling so good.

The Johnny, you write swell letters. I miss 'em, they make me feel so if I knew you for a long time. Especially since you were so considerate in telling me about my birthday with money and when to write me you were swell phone. I really appreciate that, and I'd hope to meet you on your trip.

So you and Walt played eleven games of checkers? Boy, you both have a great deal of patience. I can't play so much. However it's a small game. Of course I hope the reason you lost some of the games was because you thought of me and you said: "But, I'll bet you're not telling me the truth!" Then you enclosed a picture of yourself taken on Easter Sunday in a spring cool day. I hope you like it. You can tell Charlie you can see this picture. By the way, I sent it large!
cut it down. I'm getting some photographs made at a studio so of the turn out they are actually for I used to only about 3x5 or something like that! We shall see.

Last Thursday night I played "woo" from night school so to and went to a stage show in Times Square N.Y.C. with a friend of Waltz and mine same a furrage. We had some sentence with another couple and saw "Early to Bed". It was a musical comedy and very good. The chorus girls were really beautiful can you imagine that?? I shot after gun!! Also last night, I went to the city and saw "Up in Arms" with Jimmy Kaye and it was terrific! If it plays overseas I'm sure to see it from Kaye is unusually funny.

Well, sweetie I pray for you when I play for you and the boys because so you can be sure that I'll do my best for you in school. I'm going to have a senior from home that will formal. I guess this will be fun and I think you know that being so far away I wish you were here. I am writing this letter in a notebook and I think you know that the J. C. I have one more paper to write as secretary and I feel I need to go to school or Sept 1926
probably explain things it.
I didn't think I told you before
honey.

Perhaps you've heard about
Teledoc Transfer I took to New York.

Well it opens for the summer
season next Saturday and guess I'm
looking forward to going someday
City and Wall and I will take
you there. It is like Coney Island
but only about 1/2 an hour
from my home. Yes, I'll take you
on all the dark rides and what
am I saying? I'm really getting
naughty, huh? I hope you didn't
mind too much, darling.

Nothing else to tell you
that I'll soon don my stock
shower, which I love
summer.

Well honey, I'll close for
now and will write you soon
after this letter. Be written
long.

Love & Kisses

P.S. I hope you can understand
my writing.

Well back you're swell in one
letter.
