

UNITED STATES ARMY AIR CORPS

AVIATION CADET ROBERT A. PATT

Tuesday

mhp d

This is just an old Bryant Alumnus saying "hello" and wanting to thank you for my Easter package. I received your package the day I left for my new field here at Keebler so it did a little more traveling only in our stomachs because it was all eaten before we were many hour on the road.

Well your truck is now further south peeling around with some of those little craters called B-24's Liberator Bombers. We call them flying hot cars. No matter what they are called or what they look like they have a job and they are doing a swell job. That is one plane I would depend upon at any time.

Last January when I was home on a somewhat furlough I dropped in to the college and saw a few familiar faces. I guess all my classmates are busy at work or fighting this war. I had about Passover Seminars and think it pretty tough but that is the

way things go. I had my flying buddy killed last month. I this game you never know who will be next.

I hope the Mr. Tophly is back with you now because he was in Florida when I was home.

I suppose the next time I get back to visit I'll see only girls on the campus because most of the fellows will be pretty busy elsewhere.

Keep up the good work because I know I like to hear from the college and am sure other fellows like to also.

Just -
