Hi my name is Agnieszka
I'm from Marshfield, MA
One of my favorite memories is going
to the beach during a blizzard in
2017 and seeing huge waves.
What was I remember most about it's
memory?

Stars

Illustrations, poems, and activities about stars, the moon, and the sun. You can make your own star picture and learn about the phases of the moon.

There is a saying: "The more you know about something, the less you understand it." That's true about the sun, moon, and stars.

It's hard to believe that the sun is so big and so far away, yet it looks so small. It's hard to believe that the moon is so close, yet it looks so small. It's hard to believe that the stars are so far away, yet they look so close.

It's hard to believe that the sun, moon, and stars are all moving around us, yet they look so still.

It's hard to believe that the sun, moon, and stars are all moving around us, yet they look so still.

It's hard to believe that the sun, moon, and stars are all moving around us, yet they look so still.
