Dear Bryant,

It was indeed a surprise and a pleasure to receive that nice package of candy you sent. I really enjoyed it immensely as did the other boys in the office that helped me eat it.

I imagine old Bryant has changed considerably since we left it. I heard that Skatt House noted for the "valve" when we were there has changed ours to the more sedate side...
now and has girls there, it's a change, I imagine!

Some of the boys still write from all over the world; Jim Saucer is on Tinian, Donald Lubenstein is on Saipan, both in the Marianas. Dave Kaufman is now a St. as a bombardier-navigator training in Texas and Jerry Goldberg is at St. Louis, Washington. I imagine I'm about the farthest away from Bryant here in India, halfway around the world.

Give my regards to the faculty. Thanks again!

Bob Bernstein
