Graduate

Bryant University offers graduate programs within the College of Arts and Sciences, the College of Business, and the School of Health Sciences.

College of Arts and Sciences

Students wishing to advance their study and practice of the humanities, social sciences, mathematics, and the natural and applied sciences may pursue the following degrees at Bryant: Master of Arts in Communication (p. 8), Master of Arts in Teaching (p. 10), Master of Science in Global Environmental Studies (p. 12), Certificate of Graduate Studies in Managerial Communication (p. 13), Certificate of Graduate Studies in Professional Communication (p. 14), Certificate of Graduate Studies in Public Communication (p. 14) and Certificate of Graduate Studies in Sustainability Practices. (p. 14)

College of Business

The College of Business offers the following degrees: a One Year Master of Business Administration with Specializations (p. 28), a Two Year Master of Business Administration with Specializations (p. 29), Master of Science in Taxation (p. 31), Master of Professional Accountancy (p. 30) and Master of Professional Accountancy with a Tax concentration (p. 31), as well as a Certificate of Graduate Study in Business Analytics. (p. 32)

Students from diverse academic and industry backgrounds join a cohort class of professionals and complete an MBA degree program that is built on best-practices, know-what and know-how curriculum. Students may choose program study tracks that complete the MBA program in one or two years.

Students may specialize the MBA curriculum in the areas of Business Analytics, Global Supply Chain Management, Global Finance, or International Business. A general MBA is also available.

The Master of Science in Taxation (MST) program is geared toward experienced tax professionals, accountants, or attorneys who are seeking an in-depth knowledge of taxation in order to more effectively advise individual and corporate clients.

The Master of Professional Accountancy (MPAc) program is designed to satisfy the "150-hour requirement" necessary for accounting professionals to become certified public accountants. Students can complete the MPAC program in two semesters of full-time attendance. A tax concentration was added to the MPAC program in 2010.

School of Health Sciences

The newly formed School of Health Sciences offers a Master of Science in Physician Assistant Studies (p. 45).

Bryant University Accreditation

The College of Business at Bryant University is accredited by AACSB International--The Association to Advance Collegiate Schools of Business, and is one of only four Rhode Island colleges and universities to have received this prestigious national accreditation. Bryant University is a full member of the Consortium for Undergraduate International Business Education (CUIBE).

Bryant University, which also comprises the College of Arts and Sciences, is accredited by the New England Association of Schools

and Colleges (NEASC). The College of Arts and Sciences at Bryant University is a member of the Association of American Colleges & Universities (AACU), the leading national association that supports the quality, vitality, and public standing of undergraduate liberal education. Bryant is a member of the American Council on Education, the College Entrance Examination Board, and the Educational Testing Service of Princeton, NJ. Bryant has been approved for membership by the American Association of University Women.

Nondiscrimination Policy

Bryant University admits students of any race, gender, sexual orientation, religion, color, national, or ethnic origin to all the rights, privileges, programs, and activities generally afforded or made available to students at the school. It does not discriminate unlawfully on the basis of race, gender, sexual orientation, religion, color, national, or ethnic origin in administration of its educational policies, admission policies, scholarships and loan programs, and athletic and other school- administered programs. In addition, Bryant University does not discriminate unlawfully against the disabled and is in full compliance with the Rehabilitation Act of 1973, as amended. Inquiries/complaints with regard to discrimination on the basis of race, gender, sexual orientation, religion, color, national, or ethnic origin should be directed to the Vice President of Student Affairs, Bryant University, Smithfield, RI 02917-1284, telephone (401) 232-6046. Persons may also contact Director, U.S. Department of Education, Office of Civil Rights, Region One, Boston, MA 02109, regarding the University's compliance with regulations.

Disclaimer

This catalog is reviewed and revised annually to provide up-to-date information to students and other interested parties regarding all aspect of academic and administrative policies. Every reasonable effort has been made to determine that the information contained within its current, correct, and complete. Bryant university reserves the right to make changes whenever necessary.

Consent for use of likeness

Bryant university periodically takes photographs and/or video of students, faculty, alumni, and staff on Bryant's campus and at official Bryant functions conducted off campus. Bryant reserves the right to use these images, likenesses, and/or voice with or without appropriate identification.

Faculty

Tenure and Tenure Track Faculty

Billie S. Anderson, Assistant Professor, Mathematics, B.S. Spring Hill College; M.S. University of South Alabama; M.A., Ph.D., University of Alabama

Roger L. Anderson, Professor, Management, B.S. Augustana College; M.B.A. University of Wyoming; Ph.D. University of Oregon

Madan Annavarjula, Professor, Management, B.S. Gulbarga University, India; M.B.A. Karnatak University, India; Ph.D. Temple University

Asli Ascioglu, Professor, Finance, B.S. Middle East Technical University; M.S. Texas Tech University; Ph.D. University of Memphis

Stanley J. Baran, Professor, Communication, B.A., Ph.D. University of Massachusetts; M.A. Pennsylvania State University

Laurie Bates, Professor, Economics, B.A., M.A., Ph.D. University of Connecticut

Laura Beaudin, Assistant Professor, Economics, Ph.D., M.A., University of New Hampshire; B.A., St. Michael's College,

David Beausejour, Professor, Accounting, B.S., M.S.T. Bryant University; J.D., Suffolk University; C.P.A.

Aziz Berdiev, Assistant Professor, Economics, B.A. Berea College; M.S., Ph.D. University of Kentucky

Kristen M. Berkos, Associate Professor, Communication, B.A., M.A. California State University, Long Beach; Ph.D. Louisiana State University

James Bishop, Professor, Mathematics, B.A., M.A. State University of New York; Ph.D. Northeastern University

Brian Blais, Associate Professor, Science and Technology, B.A. Wesleyan University; Sc.M., Ph.D. Brown University

Dennis M. Bline, Professor, Accounting, B.S.B.A. Indiana University Southeast; M.B.A., Ph.D. University of Arkansas

Andrea Boggio, Associate Professor, Legal Studies, J.S.D. Università Cattolica del Sacro Cuore, Italy; J.S.M., J.S.D. Stanford Law School

Stefanie Boyer, Assistant Professor, Marketing, B.A., M.B.A., Ph.D. University of South Florida

Michael S. Bryant, Associate Professor, Legal Studies, M.S., J.D. Emory University; MA., Ph.D. Ohio State University

Allison Butler, Associate Professor, Applied Psychology, B.S. The College of William Mary; M.Ed. University of Virginia; Ph.D. Boston College

Gregg Lee Carter, Professor, Sociology, B.A. University of Nevada Las Vegas; M.A., M.Phil., Ph.D. Columbia University

David B. Casten, Executive in Residence, Accounting, B.S. Queens College; J.D., L.L.M. Boston University School of Law

Abhijit Chaudhury, Professor, Computer Information Systems, B.Tech., M.Tech. Indian Institute of Technology; Ph.D. Purdue University

Lori Ann Coakley, Associate Professor, Management, B.A. University of California, Santa Cruz; M.B.A. University of Lowell; Ph.D. University of Massachusetts

Maura Coughlin, Associate Professor, English and Cultural Studies, B.A. University of Massachusetts; M.A. Tufts University; Ph.D. Institute of Fine Arts, New York University

Charles P. Cullinan, Professor, Accounting, B.S. Suffolk University; M.S. State University of New York; Ph.D. University of Kentucky; C.P.A.; C.M.A.; C.I.A.

Diya Das, Associate Professor, Management, B.A. University of Calcutta; M.S. University of Delhi; Ph.D. Syracuse University

Amber Day, Associate Professor, English and Cultural Studies, B.A. McGill University; M.A., Ph.D. Northwestern University

Cileine I. de Lourenco, Professor, English and Cultural Studies and Modern Languages, B.A. Austin Peay State University; M.A., Ph.D. Ohio State University

Carol DeMoranville, Professor, Marketing, B.S. The College of William and Mary; M.B.A. Appalachian State University; Ph.D. Virginia Polytechnic Institute and State University

John W. Dietrich, Professor, Political Science, B.A. University of Pennsylvania; M.A., Ph.D. Johns Hopkins University

Robert Farrar, Associate Professor, Accounting, B.S., M.B.A. Northeastern University; Ph.D. University of Massachusetts

Lookman Buky Folami, Professor, Accounting, B.S. Robert Morris University M.S., Ph.D. Georgia State University

Michael Fraleigh, Assistant Professor, Sociology, B.A. University of Montana; Ph.D. Stanford University

Nicole Freiner, Assistant Professor, Political Science, B.A. Alfred University; M.A., Ph.D. Colorado State University

Richard Glass, Professor, Computer Information Systems, B.A. University of Manitoba; M.B.A. University of Western Ontario; Ph.D. Concordia University

Michael J. Gravier, Associate Professor, Marketing, B.A. Washington University St. Louis; M.S. Air Force Institute of Technology; Ph.D. University of North Texas

Thomas Hartl, Assistant Professor, Mathematics, M.A. Mathematics and Physics Ph.D. Mathematics University of Glasgow

Kirsten Hokeness, Associate Professor, Science and Technology, B.S. University of New Hampshire; Ph.D. Brown University

Richard G. Holtzman, Associate Professor, Political Science, B.A. University of California San Diego; Ph.D. University of Texas at Austin

Tony Houston, Associate Professor, Modern Languages, B.A., M.A. University of Kentucky; Ph.D. University of Illinois at Urbana-Champaign

Crystal Jiang, Associate Professor, Management, B.A. Shandong Normal University China; M.B.A. University of Maine; Ph.D. Temple University

Kristin T. Kennedy, Professor, Mathematics, B.A. Manhattanville College; M.S. Georgia Southern College; M.S. Brown University; Ph.D. University of Rhode Island

David Ketcham, Associate Professor, Finance, B.S. University of Vermont; Ph.D. Pennsylvania State University

Kai K. Kim, Assistant Professor, Management, Ph.D. Candidate University of Nebraska; M.S. Northern Illinois University; B.A. University of Utah

Timothy Krumwiede, Professor, Accounting, B.B.A. Cleveland State University; M.S.A., Ph.D. Texas Tech University; C.P.A.

Martha Kuhlman, Professor, English and Cultural Studies, B.A., M.A., Ph.D. New York University

Eileen Kwesiga, Associate Professor, Management, B.A., M.A. Cleveland State; Ph.D. University of Texas at Arlington

Heather Pond Lacey, Associate Professor, Applied Psychology, B.A. California State University M.A., Ph.D. University of Michigan

Gaytha A. Langlois, Professor, Science and Technology, B.A. Eastern Nazarene College; M.A., Ph.D. University of Rhode Island

Qin Leng, Professor, Science and Technology, B.S., M.S., Ph.D. Chinese Academy of Sciences

Hsi C. Li, Professor, Finance, B.A. Tunghai University; M.A. Clark University; Ph.D. University of Massachusetts

Suhong Li, Professor, Computer Information Systems, B.E., M.E. Tianjin University; Ph.D. University of Toledo

Judy Barrett Litoff, Professor, History, B.A., M.A. Emory University; Ph.D. University of Maine

Paul Lokken, Associate Professor, History, B.A., M.A. University of Saskatchewan; Ph.D. University of Florida

David Louton, Professor, Finance, B.S., M.B.A., Ph.D. Michigan State University

Harsh K. Luthar, Professor, Management, B.A. Beloit College; M.B.A. University of Wisconsin-Whitewater; Ph.D. Virginia Polytechnic Institute

Michael F. Lynch, Professor, Accounting, B.S. University of Rhode Island; M.S.T. Bentley College; J.D. New England School of Law; C.P.A.

Bradford D. Martin, Professor, History, B.A. Yale University; M.A. University of Massachusetts/Boston; Ph.D. Boston University

Joseph McCarthy, Professor, Finance, B.S. SUNY at Albany; M.B.A. University of Oregon; D.B.A. University of Colorado

Teresa McCarthy, Associate Professor, Marketing, B.S. University of Massachusetts; M.S. University of Rhode Island; Ph.D. University of Tennessee

Judith McDonnell, Professor, Sociology, A.B. Cornell University; A.M., Ph.D. Brown University

Jane McKay-Nesbitt, Associate Professor, Marketing, B.H.Ec., M.Sc., Ph.D. University of Manitoba

Dan L. McNally, Associate Professor, Science and Technology, B.S. University of Detroit; M.A. (Architecture) M.A. (Business Administration) Webster University; M.S., Ph.D. Michigan Technological University

Sam Mirmirani, Professor, Economics, B.S. National University of Iran; M.S. University of Dallas; M.A., Ph.D. Clark University

Ramesh Mohan, Associate Professor, Economics, B.S., M.S. University of Malaya; Ph.D. Kansas State University

Janet Morahan-Martin, Professor, Applied Psychology, A.B. Rosemont College; M.Ed. Tufts University; Ph.D. Boston College

Christopher Morse, Associate Professor, Communication, B.A., Ph.D. Pennsylvania State University; M.A. Illinois State University

Keith Murray, Professor, Marketing, B.A. Columbia Union College; M.A. Pepperdine University; M.B.A. Boston University; Ph.D. Arizona State University

Peter J. Nigro, Sarkisian Chair and Professor, Finance, B.A. College of the Holy Cross; M.A. University of Southern California; Ph.D. Boston College

Elaine-Marie Notarantonio, Professor, Marketing, B.S. Bryant University; M.B.A. Suffolk University; Ph.D. University of Rhode Island

Alan D. Olinsky, Professor, Mathematics and Computer Information Systems, B.S., M.S. Hofstra University; Ph.D. University of Rhode Island

Kevin Pearce, Associate Professor, Communication, B.A. San Jose State University; M.A. San Diego State University; Ph.D. Kent State University

Chester Piascik, Professor, Mathematics, B.Ed. Rhode Island College; M.S. University of Rhode Island

Janet Prichard, Professor, Computer Information Systems, B.A. Providence College; M.S., Ph.D. University of Rhode Island

Charles Quigley, Professor, Marketing, B.S. University of Vermont; M.B.A., Ph.D. Pennsylvania State University

John T. Quinn, Professor, Mathematics, Sc.B. Brown University; S.M., Ph.D. Harvard University

Andres Ramirez, Associate Professor, Finance, M.B.A. University of Texas Pan American Ph.D. University of South Carolina

Harold Records, Professor, Computer Information Systems, B.S. Cornell University; M.B.A. University of Rhode Island; Ph.D. Cornell University

Christopher Reid, Assistant Professor, Science and Technology, B.Sc. Laurentian University; M.Sc. University of Waterloo; Ph.D. University of Guelph

Thomas J. Roach, Associate Professor, English and Cultural Studies, B.A. Boston College; M.A., Ph.D. University of Minnesota

Michael Roberto, Associate Professor, Trustee Professor of Management, A.B., M.B.A., D.B.A. Harvard University

Christopher J. Roethlein, Professor, Management, M.A. Western New England College; M.B.A. Rensselaer Polytechnic Institute; Ph.D. University of Rhode Island

Saeed Roohani, Professor, Accounting, B.A. Institute of Advanced Accounting; M.B.A. Sol Ross State University; M.S. Louisiana State University; D.B.A. Mississippi State University

Elzotbek Rustambekov, Assistant Professor, Management, B.A. Tashkent State Technical University; M.B.A. Hofstra University; M.S. University of St. Andrews; Ph.D. Oregon State University; Ph.D. Old Dominion University

Wendy Samter, Professor, Communication, B.A. LaSalle University; M.A., Ph.D. Purdue University

Hakan Saraoglu, Professor, Finance, B.Sc., M.B.A. Bogazici University; Ph.D. Michigan State

Phyllis Schumacher, Professor, Mathematics, B.A., M.S. University of Rhode Island; Ph.D. University of Connecticut

James Segovis, Associate Professor, Management; Director, Honors Program, B.A. State University of New York at Cortland; M.B.A. Southern Methodist University; Ph.D. University of Texas at Dallas

Joseph Shaanan, Professor, Economics, B.A. Temple University; M.A., Ph.D. Cornell University

Kathleen Simons, Professor, Accounting, B.S. Edinboro State College; M.S. Eastern Connecticut State University; M.S.T. Bryant University; D.B.A. Boston University; C.P.A.

Kenneth J. Sousa, Associate Professor, Computer Information Systems, B.S. Roger Williams College; M.B.A. Bryant University; Ph.D. University of Rhode Island

Edinaldo Tebaldi, Associate Professor, Economics, B.A. State University of Maringá Brazil; M.A. Federal University of Ceará Brazil; M.A., Ph.D. University of New Hampshire

Jack Trifts, Professor, Finance, B.B.A. University of New Brunswick; M.B.A. Dalhousie University; Ph.D. University of Florida

Joseph J. Trunzo, Associate Professor, Applied Psychology, B.S. Marywood College; M.A., Ph.D. MCP Hahnemann University

John K. Visich, Professor, Management, B.A. Widener University; M.B.A. Goldey-Beacon College; Ph.D. University of Houston

Elizabeth Walden, Professor, English and Cultural Studies, B.A. Hamline University; M.A. University of Virginia; Ph.D. University of Minnesota

Nanci Weinberger, Professor, Applied Psychology, B.S. Lesley College; M.S., Ph.D. Tufts University

Angela Wicks, Associate Professor, Management, B.B.A., M.B.A., Ph.D. University of Houston

Shirley A. Wilson, Professor, Management, B.S. Syracuse University; M.A. University of Akron; Ph.D. Case Western Reserve University

Lawrence H. Witner, Associate Professor, Accounting, B.A. Kenyon College; J.D. University of Akron School of Law; L.L.M. George Washington University; C.P.A.

Yun Xiao, Professor, Modern Languages, B.A. Jiangxi Province Teacher University China; M.A., Ph.D. University of Hawaii at Manoa

Hong Yang, Professor, Science and Technology, B.S. Wuhan College (PR China); M.S. China University of Geosciences; Ph.D. University of Idaho

Elizabeth Yobaccio, Professor, Finance, B.S. Bentley College; M.B.A., D.B.A. Boston University

Sukki Yoon, Associate Professor, Marketing, B.A. Konkuk University; M.A. Michigan State University; Ph.D. University of Illinois at Urbana-Champaign

Srdan Zdravkovic, Associate Professor, Marketing, B.S. University of Evansville; M.B.A. University of Southern Indiana; Ph.D. St. Louis University

Chen Zhang, Associate Professor, Computer Information Systems, B.S. Tsinghua University; Ph.D. University of Alabama

Xiaochuan Zheng, Associate Professor, Accounting, B.S. Renmin University of China; M.S. Graduate School of People's Bank of China; M.S. University of Mississippi; Ph.D. Drexel University

Term Faculty

Joseph A. Capalbo, Lecturer, Mathematics, B.A. Providence College; M.A. Rhode Island College

Giovanna Donoyan, Distinguished Lecturer, Education, B.S., M.B.A. Providence College; M.A.T Rhode Island College; Ph.D. University of Rhode Island

Tammy Duxbury, Lecturer, Accounting, B.S. University of Houston; M.S.T. Bryant University

Heather M. Moon, Lecturer, Modern Languages; Coordinator, Romance Languages, M.A. Middlebury College; A.B. Mount Holyoke College

John Poirier, Lecturer, Management, B.S., M.B.A. Bryant University; M.S. American University

Dirk Primus, Visiting Professor, Management, M.B.A. University Berlin, Business College St. Gallen, DePaul University Chicago, Kelly School of Business, Indiana University; M.Sc. Nuremberg Institute of Technology; Ph.D. Bentley University

Michael E. Salzillo, Lecturer, Mathematics, M.S. University of Rhode Island

Clinical Faculty

Jay Amrien, Clinical Associate Professor, B.S., M.P.A.S. University of Nebraska Medical Center

Brian Bonenfant, Clinical Assistant Professor, A.A. Mississippi Gulf Coast Community College; B.S. University of Massachusetts; M.S. Northeastern University

Tania Fatovich, Clinical Associate Professor, B.S. University of Georgia; M.D., M.S. University of Virginia School of Medicine

Peter King, Clinical Professor, B.A. Kenyon College; M.D. Tufts Medical School

Susan Richmond, Clinical Assistant Professor, B.S. Framington State College; B.S., M.S. Massachusetts College of Pharmacy and Health Science

Carrie Walker, Clinical Assistant Professor, B.S. Saint Francis College;
M.P.A.S. Saint Francis University; M.S. Alderson-Broaddus College

College of Arts and Sciences

College of Arts and Sciences Mission Statement

The faculty and students of the College of Arts and Sciences share the commitment to advancing the study and practice of the humanities, social sciences, mathematics, and the natural and applied sciences. We fulfill our commitment through teaching, scholarship, creative work, and outreach. In faculty and student research, we generate new knowledge. In our teaching, publications, presentations to peers, and engagements with private and public organizations, we disseminate and share our knowledge.

Bryant University's Graduate Programs in Arts and Sciences offer innovative and rigorous theoretical and applied degree programs in the liberal arts. They do so in flexible, student-friendly formats for lifelong learning opportunities designed to prepare graduates who are able to assume the educational, professional, and leadership responsibilities of learned persons in a dynamic and free society. Graduate Programs in Arts and Sciences seek to foster in each student a spirit of inquiry and a quality of scholarship or professional excellence consistent with the highest traditions in graduate work.

President's Day	Monday, February 16

Spring Break	Monday, March 9 through Sunday, March 15
--------------	--

SUMMER SESSION - 2015

Graduate Classes Begin	Wednesday, May 20
Graduate Classes End:	
Monday/Wednesday	Monday, July 13
Tuesday/Thursday	Thursday, July 9
HOLIDAYS:	
Memorial Day	Monday, May 25

Programs of Study

- Master of Arts in Communication (p. 8)
- Master of Arts in Teaching (p. 10)
- Master of Science in Global Environmental Studies (p. 12)
- Certificate of Graduate Study in Managerial Communication (p. 13)
- Certificate of Graduate Study in Professional Communication (p. 14)
- Certificate of Graduate Study in Public Communication (p. 14)
- Certificate of Graduate Study in Sustainability Practices (p. 14)

Masters of Arts in Communication

The Department of Communication offers a diverse academic program with the common mission of fortifying the intellectual and social skills necessary for effective Human Communication. The Department's focus is on oral, written, and mediated Communication skills essential in both professional and personal lives. As such, the Department cultivates in its students the ability to think in creative and critical ways and to effectively communicate the results of that thinking. We are committed to the belief that Communication is essential to preserving democratic human communities. Equally important, as our personal and social realities are created, maintained, and recreated through Communication, the Department stresses not only competent, but also ethical, personal, and mediated Communication.

The Department of Communication offers a Master of Arts degree in Communication with three concentrations: Health Communication, Organizational Communication, and a general M.A. degree with no designated track, which allows students to create their own specializations under the guidance of program faculty. The Master's program consists of thirty credit hours that include core courses and electives in a student's area of specialization, culminating with his/her choice of a master's thesis, a major research project, or comprehensive exams. Placements are available in some of the most prestigious private, non-profit, and governmental organizations in the area. Courses are offered year-round, and students can enroll on a full or part-time basis. In addition, the Department offers Certificates of Graduate Study (CGS) in a variety of specific and general areas of professional communication. To earn a Certificate of Graduate Study, individuals must complete a coherent set of four courses chosen under the guidance of a faculty member.

Learning Objectives

Students graduating with an M.A. degree in Communication from Bryant University should be able to:

- Identify current issues and trends impacting the field of Communication;
- Design and conduct original scholarly or practical research through the complete cycle of preparation, problem definition, inquiry, analysis, and presentation;
- Demonstrate the ability to conduct scholarly or practical research in an ethical and responsible manner.
- Understand the importance of applying advanced communication concepts to scholarly or practical problems outside the academy.

Admission Requirements for Master of Arts in Communication

Applications are accepted and considered at any time. There is no application deadline. To be admitted to the M.A. Communication program, prospective students must:

1. Have a bachelor's degree from an accredited institution. An official transcript is required.
2. Have earned an undergraduate GPA of at least 3.0 (on a 4.0 scale) in the Communication major or the major of some related field.
3. Non-Communication undergraduate majors with an overall GPA of 3.0 may be admitted to the program, but must achieve a 3.0 GPA by the end of six graduate course hours. Depending on their undergraduate degree and/or professional experience, non-Communication degree holders may be asked to take foundational coursework.
4. Submit three letters of reference, at least two of which should be academic references from individuals who can comment on the candidate's ability to be successful as a graduate student.
5. Complete a Graduate School admission application. Go to www.bryant.edu/macom.
6. Submit GRE or Miller Analogies Test score, OR submit a brief essay (approximately 1,000 words) to serve as a sample of the candidate's writing. Go to www.bryant.edu/macom for details of the writing sample.
7. If English is not a candidate's native language, he/she must submit the writing sample.

8. Nonnative speakers may also be required, at the discretion of the Admission Committee, to submit TOEFL scores and/or to meet with the members of the committee for a personal interview.

For more information or to receive an application, contact Dr. Chris R. Morse, Graduate Director of the Department of Communication.

The total number of Master's-level credits required for graduation with an MA in Communication is 30.

"Foundations Courses" and "Foundations Assignments"

Foundations courses may be required for students entering the program with Bachelor's degrees in fields other than Communication. No graduate credits will be awarded for these Bachelor-level courses. Depending upon the individual's undergraduate degree and/or professional experience, either one or both courses may be required. Foundations courses can be taken concurrently with other graduate classes. However, the undergraduate versions (COM 390 and COM 491) must be taken before their graduate counterparts (COM 602 Communication Research Methods and Statistics, COM 601 Communication Theory). Equivalent courses may be taken at another university.

Alternatively, foundations assignments are designed for students who have some background in Communication Theory and/or Research Methods and Statistics (as determined by the graduate faculty) and thus may not need an entire course to bring them up to speed. In such cases, students may be asked to read and discuss with a graduate faculty member seminal readings and chapters that provide a foundation for graduate work in Communication.

Core Courses

COM 601	Communication Theory
COM 602	Communication Research Methods and Statistics

Required for the Health Communication Concentration

COM 603	Health Communication
---------	----------------------

Required for the Organizational Communication Concentration

COM 604	Organizational Communication
---------	------------------------------

Electives

COM 610	Conflict Management and Negotiation in Organizations
COM 611	Communication in Small Groups Applied Theory
COM 612	Media Effects Theory and Research
COM 613	Communication, Persuasion, and Social Influence
COM 614	Ethical Public Communication
COM 615	Culture, Diversity, and Communication
COM 616	Seminar in Instructional Communication
COM 617	Media Ethics
COM 618	Risk and Crisis Communication
COM 619	Global Communication
COM 630	Lifespan Intergenerational Communication
COM 631	Community-Based Campaigns and Public Health
COM 685	Special Topics in Communication
COM 690	Graduate Practicum
COM 697	Directed Study in Communication

Master's Thesis (COM 699)/Culminating Project (COM 698)/Comprehensive Exam

One of these is required of all students. The decision of which is best suited to the student's particular needs and career goals, will be made in conjunction with a Graduate Advisor.

Master's Thesis

The thesis is the written product of a systematic study of a significant problem. It identifies the problem, states the major assumptions, explains the significance of the undertaking, sets forth the sources for and methods of gathering information, analyzes the data, and offers a conclusion or recommendation. The finished project (product) evidences originality, critical and independent thinking, appropriate organization and format, and thorough documentation. Students electing the thesis option should select an Advisor to oversee the project. They will complete a thesis proposal which must be approved by the student's Thesis Advisor and Thesis Committee, consisting of two additional faculty members in addition to the advisor. In some cases, it may be appropriate to include an additional faculty member from outside the department in lieu of a Communication faculty person.

Comprehensive Examination

The comprehensive exam will consist of a series of written questions to be completed over several days for a total of 10 hours to be scheduled by the student's Advisor. It is suggested (though not required) that 6 of the 10 hours should be devoted to the student's declared concentration or track, three should be devoted to the required courses, and 4 should focus on a secondary area of study. After consultation with the student, the student's Advisor will select two additional faculty members to write questions for the student. It is up to individual faculty members to determine if the questions or topics will be provided to the student in advance.

The student is strongly encouraged to meet with each member of his/her Comprehensive Exam Committee to gain guidance for study preparation.

Comprehensive exams are given three times a year, once each semester (usually around the eighth or ninth week of the semester) and during the summer term (the date of which will be determined by the student and his/her Committee members).

The exams are graded pass/fail: credit or no credit. Typically, students will receive their exam results within two weeks. All students will schedule an oral defense of their comprehensive exams. If the student fails one area of the comprehensive exam only, he/she can study and re-take that area as soon as possible. If the student fails two or more areas, he/she must wait until the next time the comprehensive exam is offered. Students may take comprehensive exams twice. No academic credit will be awarded for completion of the comprehensive examination.

Culminating Project Requirements

Students electing the project option should select an Advisor to oversee the project. They will complete a project proposal which must be approved by the student's Culminating Project Advisor and Culminating Project Committee, consisting of two additional faculty members in addition to the advisor. In some cases, it may be appropriate to include an additional outside professional representative on the Culminating Project Committee in addition to faculty. The projects should have real-world application. Students should address a problem or need for an organization. After contacting the organization to gain approval, students

should work to address a particular issue. Examples of a project may include the creation of a workshop manual, documentary video, public relations campaign, computerized or internet training program, or other projects similar in scope or application. Students will submit the final project to their Culminating Project Committee to review. They will then make an oral presentation of the project, which will include an oral defense of the project. Three academic credits will be awarded for completion of the Culminating Project.

Certificates of Graduate Study

The Department offers Certificates of Graduate Study (CGS) in Managerial Communication, Public Communication, and Professional Communication.

To earn a Certificate of Graduate Study, individuals must complete a coherent set of four courses chosen under the guidance of a faculty member. Admission requirements, tuition, and fees per CGS course will be the same as for other M.A. courses. All courses successfully completed in the pursuit of a Certificate of Graduate Study will apply toward the Master of Arts degree for those who are interested in continuing their education.

Master of Arts in Teaching

The Bryant Master of Arts in Teaching (MAT) degree is a learner-centered, competency-based graduate program preparing teachers and trainers to understand and to practice instructional delivery that enhances learning. The MAT is a 30 credit hour, competency-based graduate degree that offers graduate-level content/ subject study and/or Rhode Island Department of Education licensure as a Secondary Teacher (Grades 7-12) in the areas of: Social Studies, English, Biology, General Science, Mathematics, Chinese, Spanish, and Business Education. The emphasis of the MAT is measuring and demonstrating learning outcomes.

As a requirement for teacher certification, all students must demonstrate teacher professional competencies (6.1.1) and teacher content competencies (6.1.2) established by the Rhode Island Board of Regents for Elementary and Secondary Education. MAT students will be assigned a faculty mentor and a host teacher mentor.

Admission Requirements for Master of Arts in Teaching (MAT)

The applicant for admission to the MAT program will:

1. Have a bachelor's degree from an accredited institution of higher education or will receive a bachelor's degree before enrolling in the program.
2. Have completed 30 undergraduate credit hours (or with related areas) in one of the RIDE subject areas (Science, English, Chinese, French, Spanish, Biology, Social Studies, Mathematics, or Business) with the minimum of an overall 3.0 GPA.
3. Meet Rhode Island Department of Education assessment scores for teacher education programs and have an overall 3.0 GPA as an undergraduate. If the student does not meet this criterion, the students must take the Praxis I examination prior to enrolling in the program.
4. Complete a Graduate School admission application;
5. Submit a writing sample – prompt created by the University – to the Graduate Director of the MAT program.
6. Complete a Graduate School Admission Interview.

For more information or to receive an application, contact Giovanna Donoyan, MAT Director, at gdonoyan@bryant.edu.

- For the student admitted into the MAT Program and holding the required 30 credit hours in a secondary subject area the following "education" courses are required:

Coursework

EDU 601	Foundations of Education
EDU 602A	The Art of Teaching Content Reading and Writing
EDU 602B	The Art of Teaching Educational Assessment
EDU 602C	The Art of Teaching Curriculum and Instruction
EDU 603	Teaching Demonstration Teaching
Field Experience	75 hours (not for credit)
EDU 604	Educational Research

- For the student admitted into the MAT Program and holding teacher certification, the following 'education' courses are required:

Coursework

EDU 620	Teacher as Educational Researcher
EDU 621	Teacher as Instructional Leader
EDU 622	Advanced Educational Psychology
EDU 623	Teacher as Curriculum Designer
Internship	300 hour internship required by RIDE

Curriculum Framework

Embedded in all course work, field experiences, and active learning are constructivist learning theories, the conceptual framework of the Bryant MAT. Constructivist learning theories explain learning in terms of change in mental structures and processes involved in acquiring, organizing, and using knowledge. Specifically, constructivist theories are grounded in the following principles:

- Learning and development depend on learners' experiences
- Learners are mentally active in their attempts to make sense of those experiences.

- Learners construct knowledge in the process of developing an understanding of their experiences. Learners should do more than simply record knowledge.
- Learning is enhanced in a social environment.

The MAT curricula are based on National Research Council research-based principles of:

1. Learning for Understanding

- a. Learning with understanding is facilitated when new and existing knowledge is structured around the major concepts and principles of the subject.
- b. Learners use what they already know to construct new understanding.
- c. Learning is facilitated through the use of metacognitive strategies that identify, monitor, and regulate the cognitive processes.
- d. Learners have different strategies, approaches, patterns of abilities and learning styles that are a function of the interaction between their heredity and prior knowledge.
- e. Learners' motivation to learn and sense of self affects what is learned, how much is learned, and how much effort will be put into the learning process.
- f. The practices and activities in which people engage while learning shapes what is learned.
- g. Learning is enhanced through socially supported interactions.

2. Curriculum for Understanding

- a. Structure the concepts, factual content and procedures that constitute the knowledge base of the subject around organizing principles (big ideas) of the domain.
- b. Link new knowledge to what is already known by presenting concepts in a conceptually and logically sequenced order that builds upon previous learning within and across grade-levels.
- c. Focus on depth of understanding rather than breadth of content covered by providing students with multiple opportunities to practice and demonstrate what they have learned in a variety of contexts.
- d. Include structured learning activities that, in a real or simulated fashion, allow students to experience problem solving and inquiry situations that are drawn from their personal experiences and real-world applications.
- e. Develop students' abilities to make meaningful applications and generalization to new problems/contexts.
- f. Incorporate language, procedures, and models of inquiry and truth verification to new problems and contexts.
- g. Emphasize interdisciplinary connections/integration and helping students connect learning in school with issues, problems and experiences that figure prominently in their lives.

3. Instruction for Understanding

- a. Maintain students' focus on the central organizing themes and underlying concepts of the topic.
- b. Careful consideration of what students already know, their ideas and ways of understanding the world - and the patterns of practice they bring with them to the classroom.

- c. Focus on detecting, making visible, and addressing student's often fragile, underdeveloped understanding and misconceptions.
- d. Reflect on understanding of differences in students' interests, motivations, preferences, knowledge, and abilities.
- e. Provide appropriate degrees of explicitness for the situation and abilities of the learners.
- f. Recognize student's preferences for and varying abilities to process different symbols systems, such as language (written and spoken), images, and numerical representation, by employing multiple representations during instruction.
- g. Engage students in worthwhile tasks that provide access to powerful ideas and concepts; move students from seeing only the surface features of problems to seeing deeper, more fundamental principles.
- h. Structure learning environments that allow students to work collaboratively and to gain experience in using the ways of thinking and speaking used by experts in the subject area.
- i. Provide explicit instruction in metacognition.
- j. Use a variety of formal and informal formative assessments to monitor understanding and to target effective instruction.
- k. Create classroom social norms that allow students to experience success and to develop confidence in their abilities to learn.
- l. Plan classroom instruction (discourse) so that students can make conjectures, present solutions, and argue about the validity of claims, thus helping students explore old understandings in new ways, reveal misconceptions, generalize, and transfer their learning to new problems or more robust understanding.

4. Assessment for Understanding

- a. Designed in accordance with accepted practices that include considerations for reliability, validity, and fairness of the inferences that will be drawn from the assessment results.
- b. Aligned with curriculum and instruction that provides factual content, concepts, processes, and skills that the assessment is intended to measure
- c. Designed to include important content and process dimensions of performance in a subject and to elicit the full range of desired complex cognition including metacognitive strategies.
- d. Multifaceted and continuous when used to assist learning by providing students multiple opportunities to practice and receive feedback.
- e. Designed to assess understanding that is both qualitative and quantitative in nature and to provide multiple modalities with which a student can demonstrate learning.

Master of Science in Global Environmental Studies

The Master of Science Degree in Global Environmental Studies is intended for graduate students interested in professional careers in the fields such as environmental management, policy making, NGO development, site assessment, toxics mitigation, renewable energy implementation, energy efficiency improvements, green building technologies, coastal planning, land use assessment, and wetlands protection. The program features a high degree of flexibility for selecting

courses best fitted to a student's career plans, an emphasis on research, data analysis, and publication, opportunities for international collaboration, direct interaction with faculty scholars, and development of technical skills and certification. The program includes collaboration with professors and students at the China University of Geosciences (CUG) at Wuhan, including study abroad opportunities for U.S. students, and a student exchange program for Chinese students. Other international experiences will be developed. A 4 + 1 program offers undergraduate students at Bryant a fast-start option for completing a B.S. and M.S. degree at Bryant, with a specialty focus that will prove to be advantageous for careers in the applied environmental fields, or as preparation for further graduate studies or certification programs.

Competencies and Learning Objectives

The integrated knowledge, skills, attitude, and judgment gained by the practitioner who completes the M.S. Degree in Global Environmental Studies will enable the graduate to:

1. Use *systems thinking* for incorporating different types of technology and scientific information when making environmental decisions.
2. Analyze *cost/benefit* factors involved in complex environmental problems.
3. Conduct *basic or applied* research that provides a meaningful contribution to the scientific community and society as a whole.
4. Understand and formulate *sustainable solutions*.
5. Accumulate *environmental expertise* necessary to compete for environmental positions in government agencies, private industry, or non-government organizations (NGOs).

In order to prepare graduate students for successful careers in an environment-related field, or to enroll in further graduate study, the faculty are committed to having students accomplish the following learning objectives:

1. Engage in interdisciplinary perspectives
2. Amplify analytical skills
3. Design and conduct experimental research (laboratory and/or field studies)
4. Appraise and grapple with real world problems
5. Extend international experience and widen global outlooks
6. Experience dedicated advising and mentorship
7. Scrutinize and interpret complex environmental systems
8. Interact with environmental professionals

Admission Requirements for Master of Science in Global Environmental Studies

Applications are accepted and considered at any time (there is no application deadline). Students interested in the M.S. in Global Environmental Studies should be aware of the following considerations:

1. Applicants should have a Bachelor's Degree in environmental science or a related field, with courses in biology, chemistry, ecology, geosciences, or applied environmental science.
2. Math background should include calculus and statistics.
3. Students must have a GPA of 3.0 in their major.
4. Applicants with a Bachelor's Degree in a nonrelated field should provide GRE scores (Verbal, Quantitative, and Analytical Writing), and must have an overall GPA of 3.0.
5. Applicants with training outside the environmental sciences, but with professional experience in environmental management, engineering, planning, or NGO work, will receive consideration, but may be requested to provide GRE scores to augment their application package if they did not have an undergraduate major in the sciences.
6. Provisional acceptance is possible with GPAs ranging from 2.75 to 2.90, but such candidates must have a GPA of 3.0 at the end of six credit hours after starting in the M.S. Program.

For more information or to receive an application, contact Gaytha Langlois, Graduate Director for MSGES, Department of Science and Technology, at langlois@bryant.edu.

In order to tailor the program for each graduate student, the foundation and applied courses can be completed in the sequence agreed upon during the admission process, with any changes to the program requiring the permission of the student's Graduate Advisor and notification to the MSGES Graduate Director.

To complete the MSGES degree, seven content courses and three thesis courses are required for the student's degree program. Research and thesis courses are started midway through the program and culminate in an oral defense at the end of the program, prior to graduation.

An intensive 15-month sequence requires careful planning to meet the following guidelines: Fall Semester (3 courses); Winter Session (1 course); Spring Semester (3 courses); and Summer Session (3 courses across two 3-week sessions).

The following courses are available for selection by MSGES graduate students. Some courses are offered in alternative years, but most courses are also available by Directed Study arrangements with individual faculty members, as approved by the MSGES Graduate Director.

Select 7 courses from the following:

SCI 550	Biological Imaging
SCI 551	Instrumental Analysis for Environmental and Life Sciences
SCI 552	Innovation and Global Energy Challenges
SCI 553	GIS Tools Coastal Planning and Climate Change
SCI 554	Conservation in the U.S. and China
SCI 555	Environmental Policy Decision Making and Problem Solving
SCI 557	Environmental Toxicology and Risk Assessment
SCI 558	Global Change and Geochemical Impacts
SCI 560	Systems Modeling
SCI 562	Plant Diversity in Ancient and Modern Environments
SCI 563	Issues in Environmental Science
SCI 564	Biomarkers and Isotope Signals
SCI 565	Green Technology for Sustainability
SCI 566	Global Health Challenges
SCI 692	Graduate Practicum
SCI 697	Directed Study in Science and Technology

Required Thesis Courses:

SCI 590	Research Directed Study
SCI 690	Thesis I Thesis Research
SCI 691	Thesis II Thesis Research Thesis and Oral Defense

Certificate of Graduate Study in Managerial Communication

Certificates of Graduate Study

The Department offers Certificates of Graduate Study (CGS) in Managerial Communication, Public Communication, and Professional Communication.

To earn a Certificate of Graduate Study, individuals must complete a coherent set of four courses chosen under the guidance of a faculty member. Admission requirements, tuition, and fees per CGS course will be the same as for other M.A. courses. All courses successfully completed in the pursuit of a Certificate of Graduate Study will apply toward the Master of Arts degree for those who are interested in continuing their education.

The Certificate of Graduate Study in Managerial Communication is designed for undergraduate degree holders in any academic discipline who are called upon to manage others. Courses focus on effective and ethical means of information transmission and training, persuasion, small group decision-making, conflict management, and intercultural sensitivity and awareness.

The CGS in Managerial Communication consists of the following courses:

Required

COM 604	Organizational Communication
---------	------------------------------

Electives

Select 3 or more of the following:

COM 610	Conflict Management and Negotiation in Organizations
COM 611	Communication in Small Groups Applied Theory
COM 613	Communication, Persuasion, and Social Influence
COM 615	Culture, Diversity, and Communication
COM 616	Seminar in Instructional Communication
COM 619	Global Communication

Upon successful completion of four courses, the student is awarded the Certificate of Graduate Study in Managerial Communication. Students who entered the program with a previously earned graduate degree are awarded the Certificate of Advanced Graduate Study (CAGS) in Managerial Communication.

Certificate of Graduate Study in Professional Communication

Certificates of Graduate Study

The Department offers Certificates of Graduate Study (CGS) in Managerial Communication, Public Communication, and Professional Communication.

To earn a Certificate of Graduate Study, individuals must complete a coherent set of four courses chosen under the guidance of a faculty member. Admission requirements, tuition, and fees per CGS course will be the same as for other M.A. courses. All courses successfully completed in the pursuit of a Certificate of Graduate Study will apply toward the Master of Arts degree for those who are interested in continuing their education.

The Certificate of Graduate Study in Professional Communication is a custom-designed program to meet the student's professional needs. Upon consulting with a faculty advisor for program approval, the student will tailor a four-course sequence most appropriate for career development in the student's professional specialty.

Upon successful completion of four courses, the student is awarded the Certificate of Graduate Study in Professional Communication. Students who entered the program with a previously earned graduate degree are awarded the Certificate of Advanced Graduate Study (CAGS) in Professional Communication.

Certificate of Graduate Study in Public Communication

Certificates of Graduate Study

The Department offers Certificates of Graduate Study (CGS) in Managerial Communication, Public Communication, and Professional Communication.

To earn a Certificate of Graduate Study, individuals must complete a coherent set of four courses chosen under the guidance of a faculty member. Admission requirements, tuition, and fees per CGS course will be the same as for other M.A. courses. All courses successfully

completed in the pursuit of a Certificate of Graduate Study will apply toward the Master of Arts degree for those who are interested in continuing their education.

The Certificate of Graduate Study in Public Communication is designed for undergraduate degree holders who work in the non-profit sector, or as police officers, firefighters, emergency medical personnel, public relations officers, community managers, and other individuals who engage/interact with communities. Courses emphasize communicating with various publics under difficult circumstances where intercultural/intergenerational sensitivity is of particular value.

The CGS in Public Communication would consist of the following courses:

Required

COM 618	Risk and Crisis Communication
---------	-------------------------------

Electives

Select 3 or more of the following:

COM 610	Conflict Management and Negotiation in Organizations
COM 613	Communication, Persuasion, and Social Influence
COM 614	Ethical Public Communication
COM 615	Culture, Diversity, and Communication
COM 630	Lifespan Intergenerational Communication
COM 631	Community-Based Campaigns and Public Health

Upon successful completion of four courses, the student is awarded the Certificate of Graduate Study in Public Communication. Students who entered the program with a previously earned graduate degree are awarded the Certificate of Advanced Graduate Study (CAGS) in Community Service and Safety Communication.

Certificate of Graduate Study in Sustainable Practices

The Department offers a Certificate of Graduate Studies (CGS) in Sustainability Practices.

To earn a Certificate of Graduate Study, individuals must complete a coherent set of courses organized around a theme, courses to be selected with guidance from a faculty advisor and approved by the graduate program director. Admission requirements, tuition, and the fees per CGS course will be the same as for other M.S. courses. All courses successfully completed in the pursuit of a Certificate of Graduate Study will apply toward the Master of Science in Global Environmental Studies (MSGES) degree for those who are interested in further education.

The Certificate of Graduate Study in Sustainability Practices is intended for individuals who would like to experience theory and hands-on experience in best practices for environmental and sustainability management. This blended program (combination online and campus-based coursework) includes four courses, and can be completed in one year. The CGS has a fast-start option open to undergraduate students who have completed at least 90 credit hours. Every organization, whether for-profit or non-profit, private or public, will benefit from having staff with the CGS in Sustainability Practices.

All content courses taught in the MSGES degree program could be utilized for completion of the CGS in Sustainability Practices, but must be assembled under the guidance of a faculty advisor as a coherent theme

(not including SCI 590, SCI 690, and SCI 691, which are thesis research courses).

Examples of a CGS in Sustainability Practices could include:

CGS in Sustainability: Policies

SCI 563	Issues in Environmental Science
SCI 565	Green Technology for Sustainability
SCI 554	Conservation in the U.S. and China
SCI 555	Environmental Policy Decision Making and Problem Solving

CGS in Sustainability: Climate Change

SCI 551	Instrumental Analysis for Environmental and Life Sciences
SCI 552	Innovation and Global Energy Challenges
SCI 553	GIS Tools Coastal Planning and Climate Change
SCI 564	Biomarkers and Isotope Signals

CGS in Sustainability: Environmental Health

SCI 550	Biological Imaging
SCI 564	Biomarkers and Isotope Signals
SCI 566	Global Health Challenges
SCI 692	Graduate Practicum

Upon successful completion of the four selected courses, the student is awarded a Certificate of Graduate Studies in Sustainability Practices.

Application Requirements

Domestic Applicants

Bryant University is committed to enrolling classes of students with strong credentials that show a high promise of professional success. To be admitted to any Bryant graduate program, applicants must be (or about to become) a graduate of an accredited, four-year college or university.

Specific application requirements vary according to the graduate program to which an individual applies. All domestic applicants, regardless of program, are required to submit:

- An application to Bryant University Graduate Programs in Arts and Sciences. Applications should be submitted online.
- Official transcripts from the college or university from which the applicant was awarded his/her highest degree.
- Letters of recommendation. Letters of recommendation should be submitted online.
- Statement of objectives (500 words maximum). The purpose of the statement is to explain why the applicant is applying to Bryant and to the specific program, as well as to illustrate how a graduate degree will help the applicant achieve a future goal.
- A current resume/vita.
- \$80 application fee.

More specific admission requirements appear on program specific sections.

Note: Students who are enrolled full-time (i.e., three courses) are required to forward completed health forms to Health Services and to show proof of health insurance.

International Applicants

Students from across the globe who enroll in Bryant University's Graduate Programs in Arts and Sciences bring valuable perspectives to the classroom. International students must secure the proper visa and enroll in the appropriate number of credits.

International Student Admission Requirements

Specific application requirements vary according to the graduate program to which an individual applies. However, all international applicants, regardless of program, are required to submit:

- Applicants must provide documentation from an academic evaluation agency which indicates that they have earned a degree equivalent to a U.S. bachelor's degree.
- An application to Bryant University Graduate Programs in Arts and Sciences. Applications should be submitted online.
- Official transcripts from the college or university from which the applicant was awarded his/her highest degree, translated into English and converted to a 4.0 scale.
- Letters of recommendation. Letters of recommendation should be submitted online.
- Statement of objectives (500 words maximum). The purpose of the statement is to explain why the applicant is applying to Bryant, and to the specific program, as well as to illustrate how a graduate degree will help the applicant achieve a future goal.
- A current resume/vita.
- \$80 application fee.
- Official TOEFL score for applicants whose native language is not English or whose undergraduate instruction was not conducted in English.

More specific admission requirements appear on program specific sections.

Note: Students who are enrolled full-time are required to forward completed health forms to Health Services and to show proof of health insurance.

Deferred Admission

If an accepted student cannot begin classes in the semester for which he/she applied, the student may defer his/her admission until the next semester. Requests for a deferral must be made in writing to the appropriate graduate director and may be approved for up to one year. If an applicant matriculates into a program within a one-year period, the deposit is applicable toward tuition fees.

Re-admit Policy

If a student withdraws from Bryant and later wishes to resume graduate work, he or she will be required to re-apply and will be responsible for the degree requirements that are in place at the time of re-admission. If the student's file is available, the student will be required to submit a new application, statement of objectives, resume and an \$80 application fee. If the file is not available, a complete application package must be submitted by the applicant. Permission to re-enroll will be granted only after a review of the student's academic record by the Admission Committee within the appropriate graduate program.

- If the student's course(s) were completed within the last three years, all courses, credits and grades previously taken will be applied to the student's degree requirements.
- If the courses are between three and five years old, the courses will be reviewed by the appropriate graduate directors. Those courses that are deemed to still be current by the department will be applied to the student's graduate degree. Those that are not approved will be listed on the student's transcript but not computed in the grade point average calculation, nor counted towards the degree.
- Courses that are five years or older are not generally accepted toward the degree program but will appear on the student's transcript. Neither the credits nor the grades previously earned will be calculated in the student's grade point average.
- Students have 6 years from the time they first enroll in a graduate course to complete the program. Requests for extensions will be processed through the appropriate graduate director and the Dean of the College of Arts and Sciences.

Types of Graduate Admissions

The College of Arts and Sciences recognizes 4 types of students who are eligible to enroll in graduate courses. These are (a) degree students, (b) non-matriculating students (i.e., individuals with "special student status"), (c) non-degree graduate level certificate students, and (d) 4+1 students.

• Degree Students

A degree student is one who has been formally admitted to a program leading to a degree. A Master's Degree applicant may be admitted unconditionally or as a provisional or probationary student.

• Non-matriculating Student ("Special Student Status")

A non-matriculating student is one who does not seek a degree or has not been officially admitted to a graduate degree program. Such a student may enroll in up to two graduate courses without completing the formal application process, and without being required to submit references or applicable test scores to the Graduate Admissions Office. However, transcripts are required. "Special Student Status" application forms should be completed online.

Any student from an accredited institution may apply for special student status once he or she has completed at least 90 credit hours with a minimum overall grade point average of 3.0.

A non-matriculating student may register for courses for which he or she has the prerequisites, unless such registration is restricted by the department or the College of Arts and Sciences. If a non-matriculating student decides to pursue a degree at Bryant University, he or she may petition that previous courses taken at Bryant University may be accepted in meeting requirements for a degree. If the petition is recommended by the department and approved by the Dean of the College of Arts and Sciences, these courses may be counted toward a degree.

Non-matriculating ("Special Students") may only register by completing a Special Student Registration form for courses when seats exist in the section, and may not displace a matriculated student from registering in a course because of space limitations.

• Non-Degree Graduate Certificate Students

Graduate level certificates are graduate courses of study approved by an academic unit designed to provide professional development and career advancement opportunities, to broaden career options, or to enhance an individual's skills or education as part of the process of life-long learning. These certificates are not part of degree programs, although courses

completed as part of a certificate curriculum could be used in meeting degree requirements.

Graduate Certificates are an organized series of graduate courses which may require a minimum of 12, but no more than 17, hours beyond the bachelor's degree. See the individual offerings from each department for more details.

• 4 + 1 Students: Applying to a Graduate Program as an Undergraduate

An initial application to an Arts and Sciences graduate program can occur at any time during a student's enrollment at Bryant University. After completing 75 undergraduate hours, the student must take any graduate standardized tests required by the program and complete his or her formal application for the intended program. There is no application fee. After 92 hours, there is a preliminary audit of the student's progress. If accepted at this time, the student is eligible to enroll in graduate courses (500 and 600 level) during the last 30 hours of his or her studies. Two of these courses can be counted toward the completion of both the bachelor's and master's degrees in the case of 30-hour master's programs; 3 may count toward the completion of both the bachelor's and master's degrees in the case of 36-hour master's programs. The student remains classified as an undergraduate until 122 hours are completed, after which time he or she will be classified as a graduate student.

After completing 122 undergraduate hours and are degree certified, the student is:

1. assessed tuition and fees at the graduate level,
2. eligible for financial aid at the graduate level, and
3. eligible for graduate work study opportunities, or other types of support/recognition that may be available to graduate students.

During the last semester of the undergraduate program, a student may be eligible for a graduate work study opportunity.

Tuition, Fees, and Financial Aid

2014-2015 Tuition, Fees, and Deposits

Tuition:

\$932 per credit hour.

The Bursar's Office participates in Electronic Billing. When the E-Bill is ready for viewing, students will receive an email notification at their Bryant University email address notifying them of the website to gain access to their student account and their E-Bill. The Student Account Center will offer you the option to pay online with a check or credit card (AMEX, VISA, MC, Discover, Diner's Club, JCB, Union Pay, BC Card, and Dina Card), establish reoccurring payments, view current activity, view historical billing statements and much more.

Fees:

An application fee of \$80 must accompany the Graduate Program application. Bryant alumni and 4 + 1 applicants pay no application fee. This fee pays for all matriculation expenses and is nonrefundable.

Deposit:

A commitment non-refundable deposit fee of \$800 is required once admitted to the program. The deposit fee is applied to the student's tuition

bill. International students will not be issued an I-20 until the required commitment deposit is received.

Method of Payment

Payment is due by August 9, 2014 for the fall, January 9, 2015 for the spring, the first day of class for the winter and May 9, 2015 for the summer session.

All checks and money orders should be made payable to Bryant University; envelopes should be addressed to:

Bryant University
P.O. Box 835
Providence, RI 02901-0835.

Students have the option to pay online via the Student Account Center using a credit card. Bryant University will link to a third-party processor, TouchNet. If you use a credit or debit card to pay your bill, you will be assessed a service charge by TouchNet of 2.75 percent of the payment amount each time you make a payment using a credit card.

You also have the option to pay online with a Web Check. There will be no fee associated with the Web Check payment option. A \$25 fee will be assessed to the student's account if a check is returned as uncollectible.

Reimbursement of Graduate Tuition by Third Party

A graduate student enrolling in a course(s) must submit a written letter of authorization from the employer or scholarship foundation (third-party authorization) prior to each registration if that party plans to pay the tuition directly to Bryant University.

The third-party authorization must be submitted to the Bursar's Office each semester. If the employer reimburses the student directly, the student must pay for his/her course by the semester due dates.

In addition, if the third party does not pay the tuition (e.g. when a student does not earn the required grade), the student is responsible for the tuition for that semester.

Late Payment Penalty

A late payment penalty of \$75 may be assessed to the student's account if payment is not made by the semester due date indicated on the bill. A registration and transcript hold will also be placed on the account and students will not be allowed to register for the following semester until their balance is resolved.

Further, in the event that a student does not pay his/her tuition fees and the University finds it necessary to send the unpaid fees to a collection agency for collection, the student will be responsible to pay any reasonable collection fees and/or legal fees associated with said collection of the amount owed to Bryant University.

Course Withdrawals and Refunds

When a student decides to drop or withdraw from one or more courses, there can be clear financial and academic implications to such a decision. Therefore, it is imperative that a student understands and carefully complies with the policies and procedures that follow.

Dropping a Course

A student may drop a course during the Add/Drop period, as posted on the University calendar, and thus the course will not appear on the student's transcript.

Withdrawing from a Course

A student may withdraw from a course after the Add/Drop period and up until the end of regularly scheduled classes, as designated by the university calendar, by making a written request to the Registrar's Office.

When appropriate, it is advisable that prior to withdrawal a student confer with the professor of the course to confirm the soundness of the decision to withdraw; however, such a conference is not mandatory. Professors will be notified of a student's decision to withdraw when the Course Withdrawal Notice has been received.

Tuition Refunds

The complete refund schedule is as follows according to the date that written notice is received:

First Week	80%
Second Week	60%
Third Week	40%
Fourth Week	20%
After fourth week	No refund

All tuition refund and requests to drop a course or withdraw from a course must be made in writing and submitted to the Registrar's Office. The amount of tuition reimbursement is based on the date written notice is received, not when the class was last attended. Telephone calls do not constitute notice. Students can provide documentation by fax (401) 232-6065 or by e-mail to gradprog@bryant.edu. Students are encouraged to confirm that the Registrar's Office received the notification by calling (401) 232-6080.

Given the selective basis by which students are admitted to Bryant's various graduate programs, it is essential to understand that when a student accepts an enrollment in one of Bryant's programs, another applicant who otherwise may have been accepted, has potentially been denied a "seat" in the program. Hence, the rationale of Bryant's formal refund policy is based on costs that are incurred by the institution despite an individual student's decision, for whatever reason, to withdraw. Thus, when and how a student acts on a decision to withdraw from a course may have substantial financial implications as well as academic ones.

Withdrawal from the University

Students retain the right to withdraw from their program of study in which they are enrolled, and thus the university, based on the personal preferences and necessities of the individual. When a student makes a decision to formally withdraw from graduate study at Bryant, a student must submit a University Withdrawal form to the Registrar's Office. Such notice serves to notify the University of a student's intention not to register for future courses.

At such a time in the future as a student desires to resume graduate coursework at Bryant, a re-application and formal admission process is required; thus, it is recommended that a student apply for a leave

of absence from graduate studies when in doubt as to the certainty of continued graduate studies at Bryant.

Work Study Opportunities

Appointment Criteria

Criteria: Although hiring priority for work-study opportunities is given to full-time undergraduate students, a limited number of graduate students may be considered in any given year at some point after the eligible undergraduate applicants are considered. Graduates must be enrolled on a full-time basis (at least 9 credits) and must be carrying at least a 3.0 cumulative GPA to be eligible for consideration. Part-time, auditing or certificate-only students are not eligible to participate in the work-study program. Student workers may work for no more than 20 hours while school is in session during the fall and spring and up to 40 during periods of non-enrollment (i.e. summer and winter, provided the student is not enrolled full-time). Members of the regular University staff are not eligible for student positions in the work-study program. Student positions held by graduate students generally carry specialized or advanced qualifications uncommon to students in undergraduate programs.

Full-time graduate students are also eligible to apply for work specific opportunities with an academic department, usually related to their area of interest or professional background. Some of these competitive positions support faculty and involve conducting academic research or preparing class materials.

Financing Options

William D. Ford Federal Direct Loan Program

Graduate students enrolled in a degree program on at least a half-time basis (6 credits) may be eligible to borrow through the William D. Ford Federal Direct Loan Program. Students must first complete a Free Application for Federal Student Aid (FAFSA) on the web site www.fafsa.ed.gov. (<http://www.fafsa.ed.gov>) Upon receiving confirmation of eligibility from the financial aid office, student borrowers will need to complete on-line Entrance Counseling and a Master Promissory Note (MPN) on the federal web site [www.studentloans.gov](http://studentloans.gov). (<http://studentloans.gov>)

Federal Grad PLUS

In addition to the Federal Direct Loan Program, eligible graduate students may also borrow through the Federal Grad PLUS Program. This may be particularly useful to graduate students in need of additional funding beyond the Federal Direct Loan's annual maximum of \$20,500. The application, entrance counseling and Master Promissory Note must be completed at [www.studentloans.gov](http://studentloans.gov). (<http://studentloans.gov>)

Privately Funded Education Loans

A number of privately funded education loans are available to graduate students through non-profit lenders (generally one per state), as well as some of the larger for-profit lending firms. Further details are available in the Office of Financial Aid. Hours of operation are Monday through Friday during regular business hours.

Veterans Administration Educational Benefits

There are many education assistance programs available to eligible veterans and their dependents. Interested students are encouraged to contact Veterans Affairs at (800) 827-1000 or visit their website

at www.va.gov (<http://www.va.gov>). There is a Veterans Administration Coordinator located in the Registrar's Office.

Private Scholarships

In addition to information readily available through routine web searching, the Office of Financial Aid maintains an up-to-date online listing of scholarship notices from a number of foundations and organizations promoting their programs. These can be viewed by registered Bryant students in the financial aid section of the University's secure myBryant web portal.

Academic Policies and Procedures

Academic Program Planning

Graduate Program academic advisors are available to assist students with registration and the planning and selection of courses. Advisors can also review a student's academic standing as well as program and policy information. Students are encouraged to contact the Graduate Programs office or appropriate graduate director with any questions or concerns.

Academic Load

Graduate students are considered full-time, if they register for nine or more hours during the fall and spring semesters and six or more hours in the summer session.

Transfer Credits

It is the expectation of the College of Arts and Sciences that graduate students will complete all degree requirements at Bryant University. Students who have completed course work prior to matriculation may transfer up to two, three credit courses to their degree program. Transfer credits from an incomplete degree are limited to those taken within the last four years with a grade of 'B' or better from an accredited institution of higher learning. Students who wish to transfer course work should submit an official transcript, a course description and course syllabus to the appropriate graduate director. If the request is approved, the course(s) will be applied to the student's Bryant degree requirements.

If, for extenuating circumstances, a student needs to enroll in a graduate course(s) at an institution other than Bryant, the student must consult with the appropriate graduate program director prior to enrolling in the course. The graduate program director will notify the student regarding approval. In order for the course credits to transfer to Bryant, a course must be taken at an accredited institution of higher learning. Students must earn a 'B' or better and, upon completion of the course, submit an official transcript. While courses approved for transfer appear as "T" on the Bryant transcript, grades of transferred courses are not used to calculate the grade point average.

Time Limitations for Completion of Program

Students are allowed a maximum of six years to complete all requirements of the Arts and Science Graduate programs beginning with the date the student first registers as a graduate degree student. Students in the 4+1 program have seven years from the time of first enrollment in courses as an integrated degree student. Requests for extensions will be processed through the Graduate Programs office.

Directed Independent Study

Directed Independent Study [DIS] coursework is intended to offer the opportunity for greater depth of learning or the supplementation of content otherwise not offered by the Bryant curriculum. Hence, the role of DIS should be considered as an alternate for academic credit in a student's program only when it augments existing courses or provides opportunity for more specialized learning. Stated differently, directed independent study will not be approved when such proposals represent a duplication of existing coursework alternatives or simply course topics justified on the basis of convenience or instructor preference. No more than one directed-independent study is permitted within each graduate student's curriculum.

Any student who registers for a directed independent study course must perform the following steps:

1. The student should contact a department chair or graduate faculty member in the appropriate discipline to request the determination of a faculty advisor to oversee a course in Directed Study.
2. When a faculty advisor has been identified, the faculty member and student are expected to develop a detailed outline of requirements that would satisfy three graduate course credits. A detailed specification of assignments, including time and output expectations needs to be established, including course milestones and evaluation criteria.
3. If the faculty member and graduate student agree on the proposal, both the student and the professor sign an Independent Study Request form and attach the proposal and send it to the chair of the department and the Associate Dean for final approval. A copy of the form and the approved proposal is to be submitted to the Office of the Registrar for registration and recording purposes.
4. The advising faculty member is expected to submit a final grade at the end of the semester.

Auditing a Course

Graduates of any graduate degree program may audit a course as long as prerequisites have been met and there is space available in the course. Students wishing to audit a course should complete an "Audit" request form from the Registrar's Office with permission of the instructor. No credit or quality points are given for the audited course. The grade on the transcript will appear as "AU" (for audit). Students are responsible for paying 100 percent of tuition.

NOTE: Bryant Graduate alumni will pay 50 percent of course tuition to audit a course.

Leave of Absence (Need copy for their policy)

Cancellation of Classes

Cancellation/delay of classes due to weather conditions will be announced over local radio and television stations. A detailed message will also be available by calling the University's emergency line at (401) 232-6002. The announcement to cancel or delay classes will also be available on the university website at www.bryant.edu. When individual classes are cancelled, students will be notified via their Bryant e-mail accounts.

Grading Policies and Academic Standing

Grading System

The graduate programs use the following grading system:

Grade	Grade Points
A	4.0 Excellent
A-	3.7
B+	3.3
B	3.0 Satisfactory
B-	2.7
C+	2.3
C	2.0
F	0.0

NOTE: Values assigned to each letter grade are determined by individual faculty members.

Letter Grades of B-, C+, and C: These grades, though acceptable, represent average performance and thus, must be offset by other higher grades in order to maintain a 3.0 cumulative average and subsequently to graduate from the program. Courses in which a student earns a B-, C+, or C cannot be repeated.

Letter Grade of F: A letter grade of "F" indicates a course failure and remains on the transcript and is included in all future GPA calculations. If an "F" was earned in a core course, the core course must be repeated. If an "F" was earned in an elective, that specific course does not have to be repeated. However, the student must enroll in another elective in order to successfully complete the total number of credits required to earn the degree. The student's transcript will record both course enrollments and grades.

I – Incomplete (because of extenuating circumstances, the instructor has allowed additional time, (e.g. two weeks, to complete the course.) The Incomplete is not included in calculating the GPA. If the Incomplete is not finished before the end of the next regular term (i.e., Fall or Spring terms), the grade will automatically be converted to an F. For purposes of this policy, "end of the next regular term" shall be interpreted to mean the last date on which that instructor's grades must be submitted.

AU – Audit grade. Grade not included in calculation of GPA.

W – Student is allowed to withdraw from a **course** after the add/drop period and up until the end of the 10th week of regularly scheduled classes, as designated by the university calendar, by making a written request to the Registrar's Office with no academic penalty incurred.

WD – Student is allowed to withdraw from a **semester** after the add/drop period and up until the end of regularly scheduled classes, as designated by the university calendar, by making a written request to the Registrar's Office with no academic penalty incurred.

WP – At the discretion of the faculty member, student is allowed to withdraw without penalty after the 10th week of regularly scheduled classes, as designated by the university calendar but prior to the administration of the final exam, by making a written request to the Registrar's Office.

WF – At the discretion of the faculty member, student is allowed to withdraw **WITH** penalty (failing grade) after the 10th week of regularly scheduled classes, as designated by the university calendar but prior to

the administration of the final exam, by making a written request to the Registrar's Office.

GPA Calculations

Only courses taken and credits received in the graduate programs at Bryant University are included in the computation of the grade-point average.

Quality points are determined by multiplying credits by grade points. Grade points are listed in the table above. The grade point average is determined by dividing the total quality points earned by the total credits completed.

Academic Standing

The academic standing measures a student's advancement toward meeting the grade point average requirements for a degree. Students are required to earn a cumulative grade point average (GPA) of 3.0 to successfully complete a graduate program.

If at the completion of the graduate program, the final GPA is below 3.0, a student may petition the Dean of the College to complete a maximum of six additional credits (i.e., two, three credit courses) all to be completed at Bryant to meet the GPA minimum.

Academic Warning

When a student's cumulative GPA falls below a 3.0, an academic warning will be issued by the appropriate graduate director.

Two consecutive semesters of academic warning may result in dismissal from the graduate program within the College of Arts and Sciences. Academic warning status will be reviewed on an individual case basis by the appropriate graduate director and the Dean of the College of Arts and Sciences.

Graduation

During the fall semester preceding their intended graduation, students should complete and submit an online *Application for Graduation* form through their Banner web account. Students who complete their degree requirements during a summer or fall term may participate in commencement exercises of that academic year.

Honors at Graduation

To graduate with honors, a student must attain a grade-point average of 3.75 or better.

Academic Honesty Policy

A high standard of conduct is expected. A graduate student's education is the result of his or her initiative and industry. Each Bryant graduate student, accordingly, understands that to submit work that is not his/her own is not only a transgression of University policy but also a violation of personal integrity.

The academic community, therefore, does not tolerate any form of "cheating" – the dishonest use of assistance in the preparation of outside or in-class assignments.

Ethical Conduct and Plagiarism

Cheating / Plagiarism

As students at Bryant University you are privileged members of an academic institution with high standard for academic integrity and conduct. Student dishonest will NOT be tolerated. Any student who plagiarizes any portion of a research paper, cheats, or shares assignment answers will receive a 0 (zero) for that assignment, a lowering of the final grade, and/or failure in the course. More serious sanctions are also possible. Ignorance of University policy is NOT a valid excuse. If you are not sure whether you are plagiarizing or not, please check with your instructor.

Academic Dishonesty and Plagiarism include but is not limited to:

- Submitting an assignment that has been wholly or partially created by another person.
- Presenting as your own work, the ideas, representations, research, or words of another person without proper acknowledgement (citation) of sources.
- Knowingly permitting your work to be submitted by another student as if it were her or his own work.
- Submitting identically, or substantially, the same assignment to fulfill the requirements of two separate courses.
- Copying from another student's examination, term paper, homework or lab report.
- Misappropriation of examination materials or information/
- Unauthorized communication with another student during or about quizzes.
- Unauthorized access to or the use of the computerized work of others.
- Falsification of data for research projects.
- Turning in another student's name on an assignment when the student failed to contribute.

All violations are subject to disciplinary action. To preserve its commitment to the high standards of intellectual and professional behavior, Bryant University will respect intellectual excellence and expect intellectual honesty.

The following due process procedure shall apply to cases of graduate students involving academic dishonesty:

Step 1

Instructors teaching graduate courses have the explicit responsibility to take action in alleged cases of academic dishonesty. This action may include the following:

- failing grade on assignment or exam
- failing grade for the course
- recommend dismissal from the graduate program and the College of Arts and Sciences

Step 2

The instructor's decision may be appealed by the student to the Arts and Sciences Graduate Faculty Advisory Committee (A&S GFAC). The Committee may recommend to the Dean of the College of Arts and Sciences one of the following alternatives:

- To sustain the instructor's decision
- To place the student on probationary status, as specified by the Committee.
This gives the Committee the right to review and monitor the student's academic performance for the duration of the probation period.
- To recommend dismissal of the student to the Dean of the College of Arts and Sciences
- To restore the individual to the status of a student in good standing

A similar process will be followed in cases of dishonesty other than academic.

Academic Grievance Process

Students who have an academic grievance concerning their final grade in a course are entitled to have their dispute reviewed by a formal and systematic process. Students have sixty (60) days from the time the final grade is posted to initiate their concerns in writing to the professor of the course. The Academic Grievance Process should begin with a good-faith attempt for resolution between the student and professor.

In the event that an issue cannot be resolved between student and professor, the student must subsequently confer with the appropriate program director to seek resolution of the matter.

Failing these first two steps, the student can seek resolution by appealing the matter to the Dean of the College. Prior to an appeal to the Dean, a student must complete a written statement which serves to summarize the basis of the grievance, indicate the resolution process preceding and leading up to an appeal to the Dean, and a documentation of relevant material and correspondence between and among student, professor, and appropriate graduate program director.

If the issue cannot be resolved by the aforementioned steps, the student may request a hearing before the Graduate Student Academic Grievance Committee. The Graduate Student Academic Grievance Committee will report its findings to the Provost for a final disposition. At each stage in the grievance process, a written record that summarizes each party's understanding and disposition is expected.

Graduate Programs Code of Conduct

Bryant University is an educationally purposeful community – a place where faculty, staff and students work together to strengthen teaching and learning on campus. The campus is a place where high standards of civility are set and violations are challenged. Bryant University is a community whose members speak and listen carefully to each other. Bryant University is a place where the sacredness of each person is honored and where diversity is aggressively pursued. Bryant University clearly states both its academic and social expectations. All must accept their obligations as citizens of the Bryant community and expect to be held accountable for behavior as individuals and members of groups. The University is a caring community where the well-being of each member is supported and where service to others is encouraged. All students are expected to obey applicable local state and federal laws as well as the policies of the university. These policies are found in The Student Handbook and the University Policy Manual. All students are subject to disciplinary action for violations. Graduate student violations of policy shall be adjudicated by the Graduate Disciplinary Committee. Procedures applying to this process are found in The Student Handbook.

Behavior and Discipline

The University expects students to assume responsibility for their actions. It also has an equal obligation to protect its educational purpose and the interests of its student body; therefore, it must be concerned with the actions of individuals or groups that are in conflict with the welfare and integrity of the University or in disregard for the rights of other students, faculty, or other members of the University community.

Complete guidelines and policies are found in The Student Handbook. When students enroll at Bryant University, it is assumed that they have a serious purpose and a sincere interest in their own social and intellectual development. It is also assumed that students familiar with the regulations, procedures, and policies set forth at Bryant University have accepted them as a "way of life" during their stay at the University. They are expected to learn to cope with problems intelligently, reasonably, and with consideration for the rights of others; to obey laws and ordinances of the nation, state, and community of which they, as well as the University, are a part; and to conduct themselves peaceably in espousing changes they may consider necessary. As students prize rights and freedoms for themselves, they are expected to respect the rights and freedoms of others.

Students are subject to federal, state, and local laws as well as University rules and regulations. A student is not entitled to greater immunities or privileges before the law than those enjoyed by other citizens generally. Students are subject to such reasonable disciplinary action as deemed appropriate, including suspension and expulsion in appropriate cases for breach of federal, state, or local laws, or University rules or regulations. The principle extends to conduct off campus that is likely to have adverse effects on the University, or on the educational process, or which stamps the offender as an unfit associate for other students.

Harassment

Protection from Harassment — Policy Statement

Bryant University is committed to maintaining a working and learning environment which supports respect for the individual and for academic freedom, where all members of the community can work and learn in an atmosphere that is free from sexual or other types of harassment. It is the policy of Bryant University that no member of the University community, including faculty, staff, students, volunteers, interns, and third party contractors, may subject another to sexual or any other type of harassment.

Harassment on the basis of race, color, religion, sex, sexual preference or orientation, gender identity or expression, national origin, age, ethnicity, disability, veteran or marital status undermines the basic principles of the Bryant community and will not be tolerated.

Harassment includes but is not limited to unwelcome verbal, electronic and/or physical conduct directed toward an individual or regarding an individual's race, color, religion, sex, sexual preference or orientation, gender identity or expression, national origin, age, ethnicity, disability, veteran or marital status that has the purpose or effect of humiliating and/or intimidating an individual or hindering and/or interfering with work performance, academic status, or college life. In particular, sexual harassment is defined as unwanted sexual advances, requests for sexual favors, and all other verbal or physical conduct of a sexual nature where: submission to such conduct is made either explicitly or implicitly a term or condition of an individual's employment or academic status; or

submission to or rejection of such conduct by an individual is used as the basis for employment or academic decisions affecting such individual; or such conduct has the purpose or effect of unreasonably interfering with an individual's work or academic performance or creating an intimidating, hostile, or offensive environment in which to work or learn.

Bryant University considers harassment a very serious matter. Any person found to be engaging in harassment, including sexual harassment, or who aids and abets or incites such conduct, will be subject to disciplinary action, up to and including termination of employment or expulsion from an educational program of the University. Further, any retaliation against an individual for filing a complaint or for cooperating in an investigation of such a complaint is similarly prohibited and will not be tolerated.

Reporting Procedures:

Bryant University encourages the reporting of all perceived incidents of discrimination, harassment or retaliation, regardless of the offender's identity or position. To encourage persons to come forward, the University provides several channels of communication, information, and complaint resolution as outlined below.

Information, Counseling and Advocacy:

Anyone may seek advice, information or counseling on any matter, including matters relating to harassment, without having to lodge a complaint. Names and telephone numbers of these resources are listed under "Information/Counseling Resources."

Informal Complaint Process:

Either verbally or in writing, notify the offender firmly and promptly that his or her behavior is unwelcome. While dealing informally with a problem of harassment may resolve the matter more expeditiously and more confidentially, no action can be taken by the University when it is not aware of the harassing conduct. Hence, informal complaint procedures should not be used for severe or habitual cases of harassment.

Formal Complaint/Reporting Process:

When a formal complaint is received, the University will promptly investigate the allegation in a fair and expeditious manner. The investigation will be conducted in such a way as to maintain confidentiality to the extent practicable under the circumstances.

The investigation will include a private interview with the person(s) filing the complaint and with witnesses. The person(s) alleged to have committed harassment would also be interviewed. When the investigation has been completed, the results of that investigation, to the extent appropriate, will be shared with the person filing the complaint and the person alleged to have committed the conduct. If it is determined that inappropriate conduct has occurred, the University will act promptly to eliminate the offending conduct, and where appropriate, will impose disciplinary action.

Resource List

Information/Counseling Resources:

Counseling Services	(401) 232-6045
Health Services	(401) 232-6220

Provost	(401) 232-6060

Information Services Network Acceptable Use Policy

All members of the Bryant University community who use the University computing, information, and communication resources must act responsibly. Every user is responsible for the integrity of these resources under their control. All users of University-owned or University-leased Information Services systems must respect the rights of other users, respect the integrity of the physical facilities and controls, and comply with all licenses and contractual agreements. More information on Information Services Network Acceptable Use Policy can be found at http://web.bryant.edu/~commtech/acceptable_use.html.

E-mail

The University's electronic mail services are University facilities and are intended for use for teaching, learning, research, and administration in support of Bryant University's mission. Bryant University e-mail services may not be used for personal business or personal gain except as permitted by other University policies.

Peer-to-Peer File Sharing

The Copyright Law of the United States (Title 17 U.S. Code) governs the making of copies of copyrighted material. UNAUTHORIZED COPYING IS PROHIBITED! The person using this equipment is liable for any infringement and can be prosecuted or held liable for monetary damages.

Bryant.edu Domain Name

According to the guidelines of the managing body of the top-level .EDU domain space, a registrant of a name in the .EDU domain may not use the .EDU domain for commercial purposes. The use of the "BRYANT.EDU" in any commercial related transaction is a violation of those guidelines. Any student using the "BRYANT.EDU" in any electronic service (e-mail, web, etc.) for commercial purposes jeopardizes his/her privilege to use those services.

Student Services

Cultural and Recreational Opportunities

Bryant University is ideally situated so that students can benefit from the intellectual, cultural, and social opportunities of New England. The University offers a variety of performances, lectures, concerts, events, and major speakers throughout the year.

Just 12 miles away, Providence is one of the largest cities in New England and a cultural and artistic center. Providence's collections of art treasures can be viewed at the Rhode Island School of Design Museum and several other galleries. The Rhode Island Philharmonic Orchestra, the Rhode Island Festival Ballet, and Trinity Square Repertory Company present programs of outstanding artistic merit. The nationally acclaimed Providence Performing Arts Center presents a wide assortment of Broadway shows. The Dunkin' Donuts Center and the Convention Center

in Providence host attractions ranging from college basketball and professional hockey to rock concerts and festivals.

Students who attend summer sessions can take advantage of Rhode Island's many famous summer resorts. The University is less than an hour's drive from Narragansett Pier and Watch Hill, featuring miles of sandy beaches. Newport, noted for its music festivals, scenic ocean drives, and elegant mansions, is only 40 miles away. Boston is just an hour away and offers exceptional cultural and recreational attractions including the Boston Symphony, Museum of Fine Arts, Red Sox baseball, Patriots football, Celtics basketball, and Bruins hockey. New York City is three hours away.

Art Series

The Art Series features a variety of programs designed to enrich the lives of all members of the Bryant community. Visual art displays, performing arts programs, poetry readings, and discounted tickets to the Providence Performing Arts Center are offered every year.

Unistrukture

The modern and functional Unistrukture houses most administrative and academic functions under one roof. There are more than 200 workstations in classrooms throughout the building. A focal point of the Unistrukture is the two-story, plexiglassed-domed Koffler Rotunda, the central gathering place for the Bryant community. The Salmanson Dining Room and Café à la Carte also are located in the Unistrukture. The Graduate Program office is located in the Management Resource Complex (MRC) wing of the Unistrukture.

George E. Bello Center for Information and Technology

The George E. Bello Center for Information and Technology is the centerpiece of Bryant University's campus. The Heidi and Walter Stepan Grand Hall, which serves as a space for exhibitions, receptions, and lectures, has The Linda and Jerry Cerce Media Wall with nine video monitors. A rotunda provides balconied meeting and study spaces. The 72,000-square-foot facility features the C.V. Starr Financial Markets Center, simulating real-life trading scenarios and real-world trading conditions that provide students with cutting-edge, hands-on training. Students, faculty, and staff have access to high-speed computers to support teaching, research, and business planning. All seating areas are equipped with Internet connectivity, and students may opt to use their personal laptops, or they may borrow one on site. In addition, there are reference and multifunction classrooms that can each accommodate up to 40 people with laptops, and 13 team study rooms with laptop power and network access available for small group meetings. The George E. Bello Center is equipped with state-of-the-art high-speed wireless connectivity. Students can roam in or outside the building with their wireless laptops, and maintain a connection to the Internet. For quiet study there is even a traditional reading room. Students also have access to presentation technologies, scanning, and digitation equipment. The Bulldog Bytes Café provides refreshments and computer access in a social setting. Also located in the Bello Center is Laptop Central, which serves as the Student IT Helpdesk and laptop repair center.

The Douglas and Judith Krupp Library

The Douglas and Judith Krupp Library, located within the George E. Bello Center for Information and Technology, is a dynamic learning environment merging traditional library services with extraordinary

technologies. Wired and wireless Internet connectivity is abundantly available throughout the building. Display technologies inform students on local and world events. Seventy computer workstations provide access to over 50 computer software packages in addition to an impressive array of electronic information resources. Laptops, Kindles®, and iPads® are also available for limited loan periods. A variety of spacious, comfortable study areas including study rooms for group projects further enhance the learning experience.

The library houses more than 150,000 items, and current print and electronic journal subscriptions totaling more than 50,000 titles are available via the library's journal portal. Students can access electronic subscriptions and electronic reserve readings from anywhere on campus. Off campus access to electronic resources is available to students via their library account. Available electronic resources include information services such as LEXIS/NEXIS Academic Universe, Proquest, EBSCO, Mergent Online, ARTstor, and the Value Line Research Center. The library's knowledge base is available to students using Google Scholar through the library's link resolver service.

Professional reference librarians are on duty more than 80 hours per week and offer personal assistance and/or group instruction on traditional and electronic resources. Reference librarians are also available electronically using chat room technologies, text messaging, or simply via email or phone. Bryant's membership in Rhode Island's Higher Education Library Information Network (HELIN) provides students access to nearly 5 million additional volumes for easy borrowing and physical access to other HELIN member libraries. The Douglas and Judith Krupp Library is also a member of the Consortium of Rhode Island Academic and Research Libraries (CRIARL) and the Online Computer Library Center (OCLC). Through these library networks, students are able to get additional information needed for their research projects.

The Academic Center for Excellence (ACE) and the Writing Center

The Academic Center for Excellence (ACE) and the Writing Center staff engage in a partnership with students to help them achieve their academic goals. The staff includes a network of full-time and part-time professionals who are specialists in writing, math, English as a second language, academic skills, and learning disabilities. Learning specialists help students find out what learning and study strategies work best for them. Study skills workshops are listed on the ACE website with topics and times. Visit the ACE website (<http://intranet.bryant.edu/portal/academic-success-programs/ace>) to get the most up-to-date information regarding programs and services.

Accommodation for Students with Disabilities

Students with learning disabilities can process academic accommodation requests in the Academic Center for Excellence. To receive academic accommodations, students must submit documentation that describes the nature of the learning disability to the learning specialist at ACE. Diagnostic testing that identifies the existence of the learning disability must have been completed within the past three years. The learning specialist recommends academic accommodations; however, it is incumbent upon the student to schedule an appointment with the learning specialist at the beginning of each new semester to arrange for services. Students with learning disabilities should contact the learning specialist at (401) 232-6746.

Learning Specialists

Specialists provide individualized assistance in study skills development for all students and learning strategy assessments for students with learning disabilities.

Academic accommodations are available for students with documented learning disabilities. Students must schedule an appointment with the ACE Learning Specialist as soon as they register for courses each semester. Documentation guidelines may be accessed here (<http://intranet.bryant.edu/portal/academic-success-programs/learning-disability-and-adhd-services/guidelines-for-documentation-of-specific-learning-disabilities-ld.htm>).

Writing Center

The Writing Center is available to help graduate students strengthen their writing skills. Individual, group, and online instruction are offered, as outlined below:

Group Instruction – Instructional sessions are offered throughout the semester at no cost to students. Groups of students can also meet with a writing specialist (see below) to discuss collaborative projects.

Individualized Instruction – Writing specialists, professionals with an MA and/or PhD in English or writing, are available for individualized consultation.

An English as a second language writing specialist is available to help students for whom English is a foreign language.

Online Instruction – Students can now use e-mail and a dedicated chat room to receive feedback from our staff of professional writing specialists.

To schedule a Writing Center appointment, call (401) 232-6567. For ACE appointments, call (401) 232-6746.

Language and Learning Laboratory

Bryant's advanced Virtual Language and Learning Lab facility provides access to tools and resources that prepare students to communicate in the international business environment. The resources offered from this facility help students develop conversational skills in Chinese, French, Italian, and Spanish.

The Lab offers an instructor's console station, 28 student computer workstations, and international television broadcasts of 150 programs from more than 80 countries. Students can also access the Lab's resources via the Internet from anywhere in the world. Advanced technologies from the Lab include Voice-Over-IP technologies for online group collaboration and tutoring and Video/Audio On-Demand resources that provide self-paced and interactive learning materials.

Amica Center for Career Education

The office of career services offers a comprehensive range of services to graduate students including career decision counseling, assistance with resume writing, interviewing and job search strategies. The career resource library and Alumni Career Network can be used to research careers and companies. A weekly publication lists current job openings – some of which may be appropriate for graduate students.

Michael E. '67 and Karen L. Fisher Student Center

The Fisher Student Center is a vibrant hub for collaboration, experiential learning, and relaxation for the entire Bryant community. The Fisher Center's innovative design features include: leadership pods and collaboration stations to advance new modes of learning; a signature fireplace that creates a central campus common and serves as a functional and symbolic hearth; rehearsal and performance suite; offices and meeting rooms for clubs and organizations such as the Center for Diversity and Inclusion (CDI), Intercultural Center, Hochberg Women's Center, and Bryant Pride Center; expanded dining options; a convenience store; and a bookstore.

The Center for Diversity and Inclusion

The Center for Diversity and Inclusion (CDI) brings leadership, vision, integrity, and a team-oriented philosophy to the diversity and inclusion efforts at Bryant University. The CDI is responsible for leading the University on matters of equity, diversity, and inclusion and will educate the campus community regarding the importance and advantages of a culture that values and supports each member of our community.

The Center for Diversity and Inclusion comprises the professional and paraprofessional staff of the Gertrude Hochberg Women's Center, the Intercultural Center, Disability Services, The PRIDE Center and Campus Ministries/Faith and Spirituality. The CDI staff partners with the Office of International Student and Scholar Services, which reports to the Vice President for International Affairs, to provide support and services to international students.

The Intercultural Center

The Intercultural Center for International Education and Multicultural Affairs (ICC) is the Center for education on international and multiethnic issues at Bryant University. The Center is the place for discourse, resource development and consultation on diversity. It also serves as a resource base for international and multicultural students on campus. The mission of the Intercultural Center has evolved and broadened since its creation in 1977.

The professional educators who staff the Center teach, collaborate with faculty and administrative departments, and counsel and mentor students. The office creates programs and events for the entire campus to enhance appreciation for and awareness of cultural diversity within the Bryant community. The ICC is also responsible for compliance with immigration regulations for undergraduate and graduate F-1 visa students and staff members serve as the advisors to the Multicultural Student Union and the International Student Organization.

The Ronald K. and Kati C. Machtley Interfaith Center

Although Bryant is not religiously affiliated, we recognize the need to provide a special place for people of all faith perspectives to come together to express their spirituality and learn from one another. Designed to inspire all who enter, the Machtley Interfaith Center serves this vital function. Services for various religious faiths, concerts, and speakers discussing topics related to religion and spirituality are featured in this space throughout the year.

Computerized Classroom Resources

Bryant continually upgrades its classroom facilities to ensure that both students and instructors have the latest technology. For example, in the Stanton W. and Elizabeth K. Davis Electronic Classroom, each student works at a computer linked to the Internet and to the instructor's computer. Lecture notes and assignments can be sent electronically from instructor to student, and quizzes and exams can be taken and graded on the computer.

The Unistructure contains several computerized classrooms designed to enhance the teaching and learning environment. In some classrooms, individual students work at PCs networked to the University's computing resources and the Internet. In others, computerized instructor workstations allow for technology-based presentations and instruction. All classrooms are linked to the Internet, which allows instructors to bring real-time, real-world examples directly into the classroom. Bryant's faculty also make use of technology to extend learning opportunities beyond the classroom through electronic discussion groups, e-mail, and by providing class materials via the Web.

Language and Learning Laboratory

Bryant's advanced Virtual Language and Learning Lab facility provides access to tools and resources that prepare students to communicate in the international business environment. The resources offered from this facility help students develop conversational skills in Chinese, French, Italian, and Spanish.

The Lab offers an instructor's console station, 28 student computer workstations, and international television broadcasts of 150 programs from more than 80 countries. Students can also access the Lab's resources via the Internet from anywhere in the world. Advanced technologies from the Lab include Voice-Over-IP technologies for online group collaboration and tutoring and Video/Audio On-Demand resources that provide self-paced and interactive learning materials.

Koffler Center and Communications Complex

Koffler houses Bryant's Communications Complex, a state-of-the-art digital and multimedia TV studio.

Communications Complex – Main Floor – Koffler Technology Center and TV Studio/ Radio Station

- The television studio serves as a pre- and post-production training ground for students enrolled in the communication degree program, those who minor in communication, or any member of the Bryant community who would like to learn more about video production.
- The studio has the capability to broadcast programming on campus.
- The 3,000-square-foot studio has a control room, three advanced multimedia editing/support rooms, and a multimedia classroom.
- The Communications Complex includes a dedicated studio for WJMF, Bryant's student-run radio station, which is broadcast worldwide via the web at WJMFradio.com and locally on 88.7HD2.

Communications Complex – Lower Level

- Sixteen (16) personal computers available for student use.
- Open evening and weekend hours.
- Software is replaced and updated in step with the latest technology.

- Windows is installed on every computer.
- The computers in the labs can print in black and white to the lab printer. An 800-page allowance is granted each year. After that, a 5¢ per page charge, which is applied directly to the student's Banner account. This charge will also apply to the Bello Center printers.

Communications Complex – Upper Level

- Faculty offices from various departments are located on this level.

Student Printing Facilities

- Students can print wirelessly via their laptop to several printers located on campus.
- Printers are available in the following locations: Fisher Student Center, Krupp Library in the Bello Center, and on both the first and second floors of the M-wing in the Unistructure.
- An 800-page free printing allowance is granted each year. After that, a charge of 5 cents per black-and-white page and 50 cents per color page is applied directly to the students Banner account.

The Elizabeth and Malcolm Chace Wellness and Athletic Center

The two-story Chace Wellness and Athletic Center includes a six-lane pool, a multi-windowed 9,000 square-foot fitness center, The Eannarino Family Aerobics and Group Exercise Studio, and four locker rooms. The Mike '67 and Karen Fisher Lobby – a bright and airy atrium – creates an inviting main entrance to the entire athletic complex. The Wellness Center is a vibrant hub of health and recreational activities for the entire Bryant community.

The Gymnasium

Bryant's gymnasium houses athletic offices, exercise rooms, and basketball and volleyball courts. The seating capacity for the gym is 2,600. Many University-wide events are held in the gym, which is available to off-campus programs at certain times during the year.

The Multipurpose Activities Center (MAC)

The Multipurpose Activities Center (MAC) is the site for large University functions and sporting events. The MAC features the Jarvis Varsity Weight Room; racquetball and squash courts; and multipurpose courts for popular intramural sports such as basketball, volleyball, team handball, indoor soccer, and floor hockey.

Athletic Fields and Outdoor Facilities

Thirty-five acres of athletic and recreational fields adjacent to the building include tennis courts, a 400 meter track, a 3.2-mile cross-country course, and playing fields for baseball, soccer, football, softball, rugby, lacrosse, and field hockey. Bulldog Stadium, an outdoor 4,400-seat facility, is used by the football, soccer, and lacrosse teams. Conaty Park, a first-class Division I baseball and softball complex, was opened in April 2012. There is also a golf tee and putting green.

Artificial Turf Field

This is the home field for the field hockey team. Located inside the outdoor all-weather track and adjacent to the newly constructed tennis courts, the turf field serves as a practice facility for all varsity outdoor teams. The lighted field is also available for club sports, intramurals, and night activities.

Athletics and Recreation

Recreation and physical fitness are important components of the Bryant experience. A variety of intramural programs for men and women provide competitive recreation throughout the school year for all students who wish to participate. These programs include Basketball, Dodgeball, Field Hockey, Flag Football, Floor Hockey, Indoor/Outdoor Soccer, Softball, Team Handball, Volleyball, and many more.

Bryant University is a Division I member of the Northeast Conference. Men's teams participate in Baseball, Basketball, Cross Country, Football, Golf, Indoor Track and Field, Lacrosse, Outdoor Track and Field, Soccer, and Tennis. Women's teams participate in Basketball, Cross Country, Indoor Track and Field, Lacrosse, Outdoor Track and Field, Soccer, Softball, Swimming and Diving, Tennis, and Volleyball. Field Hockey and Men's Swimming and Diving compete as Division I members of the Metro Atlantic Athletic Conference.

Club sports include Bowling, Cheerleading, Dance, Men's Ice Hockey, Karate, Men's Volleyball, Racquetball, Men's Rugby, Squash, Ultimate Frisbee, Women's Crew, and Women's Rugby.

Bryant Bookstore & Online Purchases

The Bryant University bookstore is located in the Fisher Student Center. Please call (401) 232-6240 for bookstore hours. Textbooks may also be ordered online at www.efollett.com (<http://www.efollett.com>).

Campus Ministry

The chaplains in Campus Ministry address the spiritual needs of Bryant students and staff. Protestant, Catholic, and Jewish chaplains are available to serve as sources of support, guidance, and spiritual development for all members of the University community.

Health Services

Bryant University Health Services is a nurse practitioner-directed program. Located on the first floor of Residence Hall 16, it is staffed by a part-time physician, certified family nurse practitioners, and health educators.

The University requires that all full-time resident graduate students provide documentation of health insurance. Low cost accident and illness insurance is available for all students who wish to purchase it. Information about this insurance can be obtained at the Health Services Office.

Security/Public Safety

ID and Parking Sticker Policy

Bryant's campus is a secure place to live. Campus security measures include call boxes that dispatch calls directly to Public Safety. Public Safety officers are on duty 24 hours a day, seven days a week. Residence hall exterior doors are locked at night, only accessible to students. Individual key locks are on the door of each room. Visitors are checked in on weeknights and throughout the weekend.

All students are required to have a current parking sticker and student photo ID. These may be obtained in the Department of Public Safety (DPS). In order to obtain a parking sticker, students are required to bring their driver's license and vehicle registration to the Department of Public Safety. Contact the Public Safety office at (401) 232- 6001 for more information.

Campus Media

The student-run media – The Archway and WJMF Radio – play a dual role for the Bryant community. In addition to providing the campus with news, opinions, and entertainment, these organizations give students direct experience with production techniques, editorial practices, and business management.

The Archway

Under student leadership, the college newspaper is published bi-weekly during the academic year. Its research, writing, editing, photography, typesetting, layout, and business management are handled entirely by the student staff.

WJMF

WJMF is Bryant's student-run radio station. Formerly broadcasting at 88.7 FM, the station entered into a partnership with Boston-based WGBH in May 2011 that enabled WJMF to become the first student-run station in the region to be available on several new transmission platforms, including WJMF HD-2 and mobile DTV channels. The partnership also gives Bryant students the opportunity to work alongside WGBH technicians and learn from the best digital and broadcast experts in the business. In exchange, WGBH uses 88.7 FM to rebroadcast its classical programming. (WJMF also can be heard online and via smartphone applications.)

College of Business

College of Business Mission Statement:

We prepare socially responsible thinkers, leaders and innovators for successful professional careers within the global business community.

Professional careers begin where theory and practice intersect. We provide students with a learner-centered environment, a broad knowledge base, the opportunity to develop areas of expertise that are in high demand and to apply their knowledge in practical settings.

- *We prepare thinkers* by offering a broad and multi-disciplinary knowledge base, with in-depth content in one or more specific business disciplines. The business degree experience is focused on the application of foundational theory in business settings. In addition, we develop students' critical thinking skills and ability to grapple with problems at a systemic level.
- *We prepare leaders* by cultivating the development of interpersonal skills and character. The curriculum provides students with numerous opportunities to learn about and practice leadership and collaboration skills, in small and large group settings, and with for-profit and non-profit organizations.
- *We prepare innovators* by presenting students with challenging business issues that allow them to apply their skills to real problems. The curriculum offers opportunities for students to develop creative business solutions and provides them with the necessary tools to successfully adapt to changes in the global business environment.

Graduate College of Business Academic Calendar

FALL SEMESTER – 2014

Bootcamp	Tuesday, September 2 through Sunday, September 7
Convocation	Wednesday, September 3 at 3 p.m.
Fall Semester Begins	Tuesday, September 2
Graduate Classes Begin	Monday, September 8
Add Period Ends	Monday, September 15
Drop Period Ends	Monday, September 22
Columbus Day (no classes)	Monday, October 13
Thanksgiving Recess	Tuesday, November 25 through Sunday, November 30
Graduate Evening Classes End	Thursday, December 11
Graduate Day Classes End	Friday, December 12
Graduate Examination Period	Monday, December 15 through Friday, December 19
Semester Ends	Friday, December 19

WINTER SESSION – 2015

Semester Begins	Saturday, January 3
Semester Ends	Monday, January 12

SPRING SEMESTER – 2015

Bootcamp	Saturday, January 24 and Sunday, January 25
Spring Semester Begins	Thursday, January 22
Graduate Classes Begin	Monday, January 26
Add Period Ends	Monday, February 2
Drop Period Ends	Monday, February 19
President's Day (no classes)	Monday, February 16
Spring Break	Monday, March 9 through Sunday, March 15
Graduate Classes End	Monday, May 4
Graduate Examination Period	Tuesday, May 5 through Monday, May 11
Semester Ends	Tuesday, May 12
Graduate Commencement	Thursday, May 14
Undergraduate Commencement	Saturday, May 16

SUMMER SESSION – 2015

Graduate Semester Begins	Monday, May 18
MST Classes Begin	Monday, May 18
MBA Session I Classes Begin	Monday, May 18
Memorial Day Holiday (no classes)	Monday, May 25
MPAc and MPAc-Tax Boot Camp	Tuesday, May 26 and Wednesday, May 27
MPAc Session I Classes Begin	Thursday, May 28
MBA Session I Final Exam Period	Tuesday, June 30 and Wednesday, July 1
MBA Session I Semester Ends	Wednesday, July 1
4th of July Holiday (no classes)	Thursday, July 2 through Sunday, July 5
MBA Session II Classes Begin	Monday, July 6
MPAc Session I Final Exam Period	Monday, July 6 through Wednesday, July 8
MPAc Session I Semester Ends	Wednesday, July 8
MPAc Session II Classes Begin	Monday, July 13
V.J. Day Holiday (no classes for MBA and MST only, MPAc classes will be held)	Monday, August 10
MBA Session II Final Exam Period	Monday, August 17 and Tuesday, August 18
MBA Session II Semester Ends	Tuesday, August 18
MPAc Session II Final Exam Period	Monday, August 17 through Wednesday, August 19
MPAc Session II Semester Ends	Wednesday, August 19
MST Final Exam Period	Monday, August 17 through Thursday, August 20
MST Semester Ends	Thursday, August 20
Summer Graduate Semester Ends	Thursday, August 20

* **Note:** The MBA Business Practicum (MBA 645) will run for the full Summer Semester from Monday, May 18 through Thursday, August 18. The final exam for the MBA Business Practicum will be held on Tuesday, May 18.

Programs of Study

- One Year MBA Curriculum with Specializations (p. 28)
- Two Year MBA Curriculum with Specializations (p. 29)
- Master of Professional Accountancy (MPAc) (p. 30)
- Master of Professional Accountancy with Tax Concentration (MPAc-TAX) (p. 31)
- Master of Science in Taxation (MST) (p. 31)
- Certificate of Graduate Study in Business Analytics (p. 32)

One Year MBA with Specializations

The Bryant MBA Curriculum

The Graduate School at Bryant University empowers its graduates with the ability to compete and excel in a dynamic business environment. Bryant’s dedicated faculty successfully equips students with the analytical, technological and interpersonal skills required to meet the challenges of working in a diverse and global marketplace.

The learning goals and objectives of the MBA program are:

Goal 1

Graduates of the Bryant Master in Business Administration program will have the ability to communicate effectively as managers. This goal includes the expectation that graduates will be able to demonstrate effective professional writing for business skills, oral communication skills, and will be prepared to make persuasive presentations at a managerial level.

Goal 2

Graduates of the Bryant Master in Business Administration program will have the ability to work and lead in organizational situations to effectively accomplish goals. This goal implies that students will be familiar with their own leadership style, be able to both lead teams effectively as well as work effectively as a member of a team, and, finally, be able to generate quality deliverables from team endeavors.

Goal 3

Graduates of the Bryant Master in Business Administration program shall identify and analyze complex managerial problems/opportunities in dynamic environments using an interdisciplinary approach. Achievement of this goal by graduates includes the ability to identify influential and/or causal factors using appropriate analysis tools; be prepared to effectively use quantitative and qualitative analytic tools; have the ability to propose feasible and/or innovative solutions showing

consideration of multiple disciplines; and, finally, be prepared to make and justify appropriate recommendations.

Goal 4

In a global and cross-cultural context, graduates of the Bryant Master in Business Administration program shall demonstrate knowledge of essential business concepts and management processes with respect to the principal areas of commerce activity, including the discipline-specific areas of accounting, computer information systems, finance, management, and marketing.

Goal 5

Graduates of the Bryant Master in Business Administration program shall have an awareness of and a personal philosophy toward ethical business practice such that they are able to recognize ethical dilemmas, the stakeholders involved, and the consequences of different decisions on these stakeholders. Furthermore, graduates will be able to analyze, critique, and appraise their personal values and ethical standards.

One Year MBA Curriculum with Specializations

The MBA One Year program requires the completion of 40 credits. Specializations are available in Business Analytics, Global Supply Chain Management, Global Finance, International Business or General Management

Business Foundation Courses ¹

Macroeconomics and Microeconomics
Statistics

Core Courses

MBA 515	Management Concepts and Skills
MBA 520	Managing Corporate Enterprise
MBA 521	Leading Effective Organizations
MBA 522	Reporting and Controlling Resources
MBA 523	Managing Information Resources
MBA 524	Managing Financial Resources
MBA 525	Marketing for Competitive Advantage
MBA 526	Value Formation Through Operations
MBA 528	Global Immersion Experience
MBA 645	MBA Business Practicum
MBA 651	Mastering Strategic Analysis

Electives

Specialization Elective 1
Specialization Elective 2
Specialization Elective 3

¹ May be waived based on prior academic experience

MBA Electives

MBA students may elect to specialize in one of five areas, Business Analytics, Global Supply Chain, Global Finance, International Business, or General Management. A specialization area is made up of three, three-credit electives within the specialization discipline. The General

Management specialization is made up of three, three-credit electives from any one of the specialization areas.

Note: Students that specialize in Business Analytics and take an additional course, AA 651, Analytics Capstone will be awarded a joint certificate from Bryant University and SAS in Business Analytics.

MBA Business Analytics Specialization

AA 610	Analytics Methods and Applications
AA 620	Data Mining and Predicative Analytics
AA 630	Data Management and Large Scale Data Analysis

MBA Global Finance Specialization

GFIN 601	Global Financial Management
GFIN 602	Global Financial Institutions and Markets
GFIN 603	Financing the Global Supply Chain

MBA Global Supply Chain Specialization (Choose 3)

GSCM 601	Corporate Social Responsibility in Global Supply Chain Management
GSCM 602	Financing Global Supply Chain
GSCM 603	Advanced Supply Chain Integration
GSCM 604	Logistics of International Trade

MBA International Business Specialization

IB 601	International Business Management
IB 602	Global Human Resource Management
IB 603	International Marketing

Two Year MBA with Specializations

The Bryant MBA Curriculum

The Graduate School at Bryant University empowers its graduates with the ability to compete and excel in a dynamic business environment. Master of Professional Accountancy (MPAc)

The MPAC program combines a solid foundation in accounting with courses that build professional skills. This professionally managed program can be completed in as little as two full-time semesters [summer/summer, summer/fall, fall/spring, or spring/summer].

The MPAC program can also be completed with a tax concentration which is designed for students who want to combine advanced accounting courses with courses in taxation. This program can be completed in as little as two full-time semesters [summer/fall or summer/summer]. Students who complete the MPAC-TAX program may continue on and earn a dual degree by successfully completing six additional tax courses; thereby also earning a Master of Science in Taxation. To earn both degrees, students complete a total of 48 credits.

The MPAC program requires the completion of 30 credits which help to satisfy the 150 hour requirement for CPA licensure, while preparing graduates for successful careers in accounting.

The learning goals of the Master of Professional Accountancy program are:

Goal 1

Analyze accounting situations

1. Recognize accounting issues in business situations
 - a. Identify relevant accounting issues and
 - b. Compare merits of alternatives.
2. Develop appropriate recommendations
 - a. Recognize current professional standards and/or practices and
 - b. Form reasonable conclusions.

Goal 2

Demonstrate effective communication skills for professional accountancy

1. Effectively write in an accounting context.
2. Effectively speak in an accounting context.

Goal 3

Research contemporary accounting topics

1. Demonstrate an ability to locate relevant professional standards and practices for guidance.
2. Identify appropriate keywords to search for current literature.
3. Interpret and explain discipline-based research.

Goal 4

Show effective leadership skills

1. Demonstrate project leadership skills.
2. Apply effective governance principles for accountability.

Required Courses

MPAC 515	Preparing for MPAC Success	0
MPAC 600	Advanced Assurance and Professional Oversight	3
MPAC 605	Corporate Governance in the 21st Century	3
MPAC 615	Project Management for Accounting Leadership	3
MPAC 620	Advanced Accounting Information Systems	3
MPAC 625	Government and Not-For-Profit Accounting	3
MPAC 630	Accounting Theory	3
MPAC 635	Multinational Accounting	3
MPAC 640	Research and Communication	3
MPAC 645	Management Control Systems	3
MPAC 650	Accounting for Income Taxes	3
Total Credit Hours		30

Master of Professional Accountancy with Tax Concentration (MPAc-TAX)

The MPAC program combines a solid foundation in accounting with courses that build professional skills. This professionally managed program can be completed in as little as two full-time semesters [summer/summer, summer/fall, fall/spring, or spring/summer].

The MPAC program can also be completed with a tax concentration which is designed for students who want to combine advanced accounting courses with courses in taxation. This program can be completed in as little as two full-time semesters [summer/fall or summer/summer]. Students who complete the MPAC-TAX program may continue on and earn a dual degree by successfully completing six additional tax courses; thereby also earning a Master of Science in Taxation. To earn both degrees, students complete a total of 48 credits.

The MPAC program requires the completion of 30 credits which help to satisfy the 150 hour requirement for CPA licensure, while preparing graduates for successful careers in accounting.

The learning goals of the Master of Professional Accountancy program are:

Goal 1

Analyze accounting situations

1. Recognize accounting issues in business situations
 - a. Identify relevant accounting issues and
 - b. Compare merits of alternatives.
2. Develop appropriate recommendations
 - a. Recognize current professional standards and/or practices and
 - b. Form reasonable conclusions.

Goal 2

Required Courses

MPAC 515	Preparing for MPAC Success
TAX 600	Individual Income Taxation
TAX 605	Sales and Exchanges of Property
TAX 610	Corporations and Shareholders
TAX 625	Partnership Income Tax Problems

Elective Courses

Select 6 from the following courses:

MPAC 600	Advanced Assurance and Professional Oversight
MPAC 605	Corporate Governance in the 21st Century
MPAC 615	Project Management for Accounting Leadership
MPAC 620	Advanced Accounting Information Systems
MPAC 625	Government and Not-For-Profit Accounting
MPAC 630	Accounting Theory
MPAC 635	Multinational Accounting
MPAC 640	Research and Communication
MPAC 645	Management Control Systems
MPAC 650	Accounting for Income Taxes

Master of Science in Taxation (MST)

The Master of Science in Taxation (MST) is a part time program designed for individuals who have a basic knowledge of the Internal Revenue Code and who seek advanced knowledge of federal and state tax laws and applications. MST applicants should possess a strong academic record and are encouraged to have professional experience.

The learning goals of the Master of Science in Taxation program are:

Goal 1

Graduates of the Bryant Master of Science in Taxation program will have an understanding of individual income taxation, including the ability to demonstrate competency in the areas of income, deductions, credits, and tax computation.

Goal 2

Graduates of the Bryant Master of Science in Taxation program will have an understanding of the tax consequences of acquiring, holding and disposing of property.

Goal 3

Graduates of the Bryant Master of Science in Taxation program will have an understanding of corporate income taxation, including the ability to demonstrate competency in the areas of formation, operation, distributions, and redemptions.

Goal 4

Graduates of the Bryant Master of Science in Taxation program will have an understanding of sub-chapter K taxation (including partnerships, limited liability companies, among other organizations), including competency in the areas of formation, operations, allocations, distributions, and sales of K entity interests.

Required Courses

TAX 600	Individual Income Taxation
TAX 605	Sales and Exchanges of Property
TAX 610	Corporations and Shareholders
TAX 625	Partnership Income Tax Problems

Elective Courses

Select 6 from the following courses:

TAX 615	Estate and Gift Taxation
TAX 620	Tax Practice and Procedure
TAX 640	Advanced Income Tax Problems
TAX 672	Income Taxation of Trusts and Estates
TAX 673	Pension and Profit Sharing
TAX 674	Corporate Reorganizations
TAX 675	Business Tax Planning
TAX 676	Multi State Taxation
TAX 677	Estate Planning
TAX 678	International Taxation
TAX 690	Selected Topics in Taxation

Certificate of Graduate Study in Business Analytics

The Graduate Certificate in Business Analytics (GCBA) is a four course part-time program designed to provide candidates who hold an accredited undergraduate degree with the knowledge, skills and experience to acquire, analyze and apply structured and unstructured data to enhance decision making and to sustain competitive advantage. The focus of the GCBA is in the application of analytics to practical problems. Students will be engaged in analyzing real world data provided by strategic partner organizations and will gain experience with leading edge analytical tools from companies such as SAS.

The GCBA will consist of four required courses. Due to the content and delivery of the courses, students must enroll concurrently in AA 610 and AA 620 during their initial term of study and must enroll in AA 630 and AA 651 during their second term of study.

Required Courses:

AA 610	Analytics Methods and Applications
AA 620	Data Mining and Predicative Analytics
AA 630	Data Management and Large Scale Data Analysis
AA 651	Analytics Capstone

Upon successful completion of the four courses, the student is awarded a Certificate of Graduate Study in Business Analytics and a Joint Bryant University / SAS Certificate in Business Analytics. Students who meet the criteria to be admitted to the Masters of Business Administration program at Bryant University will be able to apply nine credits towards the MBA specialization requirements.

Application Requirements

Domestic Applicants

Bryant University is committed to enrolling classes of students with strong credentials that show a high

promise of professional success. To be admitted to any Bryant graduate program, applicants must be (or about to become) a graduate of an accredited, four-year college or university.

Applicants must submit:

- Bryant University College of Business Graduate application. Applicants may obtain an application online, download and print a copy, or request a copy in writing, by phone, or by e-mail.
- Official transcripts from ALL colleges and universities attended.
- One professional letter of recommendation. Recommenders may use the form available online or submit a written recommendation on letterhead.
- Official score on the Graduate Management Admission Test (GMAT).*
- Statement of objectives (500 words maximum). The purpose of the statement is to explain why the applicant is applying to Bryant, the specific program, and how both will help the applicant achieve a future goal.
- A current resume.
- \$80 application fee.
- Interview
Admission interviews (optional) can be scheduled by the Graduate Programs office or by the applicant. An admission interview is part of the application process and aids the Admission Committee in making appropriate admission decisions.

* **The only waivers granted for the GMAT are:**

- MST applicants who are Certified Public Accountants or who are enrolled agents.
- Applicants who hold a doctorate or terminal degree (PhD, MD, JD).
- MPAC applicants from an AACSB accredited program whose cumulative GPA is 3.5 or higher
- Bryant undergraduate students with a major in accounting who earn a final cumulative grade point average of 3.4 or better may waive the GMAT requirement.

Students who are enrolled full-time are required to forward completed health forms to Health Services and to show proof of health insurance.

International Applicants

Students from across the globe who enroll in the Bryant University Graduate School bring valuable perspectives to the classroom. International students must secure the proper visa and enroll in the appropriate number of credits.

International Student Admission Requirements:

- Applicant must provide documentation from an academic evaluation agency which indicates that the applicant has earned a degree equivalent to a U.S. bachelor's degree.
- Bryant University College of Business Graduate application. Applications are available online or a copy of the application can be requested in writing, by phone, or by e-mail.
- Official transcripts from all colleges or universities attended, translated into English and converted to a 4.1 scale.
- One professional letter of recommendation. Recommenders may use the available form online or submit a recommendation on letterhead.
- Official score on the Graduate Management Admission Test (GMAT). GMAT waivers are available to MBA applicants who hold an earned doctorate, MPAC applicants who have earned a 3.5 cumulative

undergraduate GPA from an AACSB accredited institution, or for MST applicants who are certified public accountants or enrolled agents.

- A current resume.
- Interview – An interview (either in person or by phone) is recommended for graduate program applicants.
- Statement of objective (500 words maximum).
- \$80 application fee.
- Official TOEFL score for applicants whose native language is not English or whose undergraduate instruction was not conducted in English.
- International Graduate Student Certification of Finances from international applicants seeking an I-20.

Deferred Admission

If an accepted student cannot begin classes in the semester for which he/she applied, the student may defer his/her admission until the next entry term. Requests for a deferral must be made in writing to the Graduate Programs office and may be approved for up to one year. If an applicant matriculates into a program within a one-year period, the commitment fee is applicable toward tuition fees. The MPAC commitment fee is not applicable toward tuition fees and is non-refundable.

Re-admit Policy

If a student withdraws from Bryant and later wishes to resume graduate work, he or she will be required to re-apply to the Graduate College of Business and will be responsible for the degree requirements that are in place at the time of re-admission. If the student's file is available, the student will be required to submit a new application, statement of objectives, resume and an \$80 application fee. If the file is not available, a complete application package must be submitted by the applicant. Permission to re-enroll will be granted only after a review of the student's academic record by the Admission Committee.

- If the student's course(s) were completed within the last three years, all courses, credits and grades previously taken will be applied to the student's degree requirements.
- If the courses are between three and five years old, the courses will be reviewed by the appropriate department chairpersons. Those courses that are deemed to still be current by the department will be applied to the student's transcript. Those that are not approved will be listed on the student's transcript but not computed in the grade point average calculation.
- Courses that are older than five years old are not generally accepted toward the degree program but will appear on the student's transcript. Neither the credits nor the grades previously earned will be calculated in the student's grade point average.

Non-matriculating Students

A non-matriculating student is defined as a student who is enrolled in a degree program at an institution other than Bryant University and who wishes to take one or more courses at Bryant to transfer to his/her home institution. A non-matriculating student must complete a Special Student Application form and submit a fee of \$80 along with a letter from his/her dean or advisor indicating that he/she has been pre-approved to take a course(s) at Bryant. Non-matriculating students are eligible to select only from Bryant's elective course offerings.

Tuition, Fees, and Financial Aid

2014-2015 Tuition, Fees, and Deposits

Tuition:

One-year MBA	\$1,118 per credit
Two-year MBA	\$1,118 per credit
MPAc	\$1,176 per credit
MST	\$1,176 per credit
Graduate Certificate in Business Analytics	\$1,118 per credit

The Bursar's Office participates in Electronic Billing. When the E-Bill is ready for viewing, students will receive an email notification at their Bryant University email address notifying them of the website to gain access to their student account and their E-Bill. The Student Account Center will offer you the option to pay online with a check or credit card (AMEX, VISA, MC, Discover, Diner's Club, JCB, Union Pay, BC Card, and Dina Card), establish reoccurring payments, view current activity, view historical billing statements and much more.

Fees:

MPAc Commitment Fee	\$250
MBA GIE Travel Fee	\$1,500
Application Fee	\$80

An application fee of \$80 must accompany the Graduate School application. This fee pays for all matriculation expenses and is nonrefundable.

The MPAc students admitted to the Graduate School submit \$250 non-refundable commitment fee.

Deposits:

MBA Commitment Deposit	\$850
MST Commitment Deposit	\$250

MBA students submit a non-refundable deposit of \$850 which represents tuition for the required one-credit course, MBA 515 Introduction to Management Concepts and Skills, and indicates their acceptance of admission and intention to enroll in the Bryant MBA program.

MST students submit a \$250 non-refundable commitment deposit which is applied to the student's tuition bill.

International students will not be issued an I-20 until the Graduate School receives the required commitment deposit.

Method of Payment

Payment is due by August 9, 2014 for the fall, January 9, 2015 for the spring, the first day of class for the winter and May 9, 2015 for the summer session.

All checks and money orders should be made payable to Bryant University; envelopes should be addressed to:
Bryant University
P.O. Box 835
Providence, RI 02901-0835.

Students have the option to pay online via the Student Account Center using a credit card. Bryant University will link to a third-party processor,

TouchNet. If you use a credit or debit card to pay your bill, you will be assessed a service charge by TouchNet of 2.75 percent of the payment amount each time you make a payment using a credit card.

You also have the option to pay online with a Web Check. There will be no fee associated with the Web Check payment option. A \$25 fee will be assessed to the student's account if a check is returned as uncollectible.

Reimbursement of Graduate Tuition by Third Party

A graduate student enrolling in a course(s) must submit a written letter of authorization from the employer or scholarship foundation (third-party authorization) prior to each registration if that party plans to pay the tuition directly to Bryant University.

The third-party authorization must be submitted to the Bursar's Office each semester. If the employer reimburses the student directly, the student must pay for his/her course by the semester due dates.

In addition, if the third party does not pay the tuition (e.g. when a student does not earn the required grade), the student is responsible for the tuition for that semester.

Late Payment Penalty

A late payment penalty of \$75 may be assessed to the student's account if payment is not made by the semester due date indicated on the bill. A registration and transcript hold will also be placed on the account and students will not be allowed to register for the following semester until their balance is resolved.

Further, in the event that a student does not pay his/her tuition fees and the University finds it necessary to send the unpaid fees to a collection agency for collection, the student will be responsible to pay any reasonable collection fees and/or legal fees associated with said collection of the amount owed to Bryant University.

Course Withdrawals and Refunds

When a student decides to drop or withdraw from one or more courses, there can be clear financial and academic implications to such a decision. Therefore, it is imperative that a student understands and carefully complies with the policies and procedures that follow.

Dropping a Course

A student may drop a course during the Add/Drop period, as posted on the University calendar, and thus the course will not appear on the student's transcript.

Withdrawing from a Course

A student may withdraw from a course after the Add/Drop period and up until the end of regularly scheduled classes, as designated by the university calendar, by making a written request to the Registrar's Office.

When appropriate, it is advisable that prior to withdrawal a student confer with the professor of the course to confirm the soundness of the decision to withdraw; however, such a conference is not mandatory. Professors will be notified of a student's decision to withdraw when the Course Withdrawal Notice has been received.

Tuition Refunds

The complete refund schedule is as follows according to the date that written notice is received:

First Week	80%
Second Week	60%
Third Week	40%
Fourth Week	20%
After fourth week	No refund

All tuition refund and requests to drop a course or withdraw from a course must be made in writing and submitted to the Registrar's Office. The amount of tuition reimbursement is based on the date written notice is received, not when the class was last attended. Telephone calls do not constitute notice. Students can provide documentation by fax (401) 232-6065 or by e-mail to gradprog@bryant.edu. Students are encouraged to confirm that the Registrar's Office received the notification by calling (401) 232-6080.

Given the selective basis by which students are admitted to Bryant's various graduate programs, it is essential to understand that when a student accepts an enrollment in one of Bryant's programs, another applicant who otherwise may have been accepted, has potentially been denied a "seat" in the program. Hence, the rationale of Bryant's formal refund policy is based on costs that are incurred by the institution despite an individual student's decision, for whatever reason, to withdraw. Thus, when and how a student acts on a decision to withdraw from a course may have substantial financial implications as well as academic ones.

Withdrawal from the University

Students retain the right to withdraw from their program of study in which they are enrolled, and thus the university, based on the personal preferences and necessities of the individual. When a student makes a decision to formally withdraw from graduate study at Bryant, a student must submit a University Withdrawal form to the Registrar's Office. Such notice serves to notify the University of a student's intention not to register for future courses.

At such a time in the future as a student desires to resume graduate coursework at Bryant, a re-application and formal admission process is required; thus, it is recommended that a student apply for a leave of absence from graduate studies when in doubt as to the certainty of continued graduate studies at Bryant.

Graduate Assistantships

Full-time graduate students are eligible to apply for graduate assistantships with an academic department usually related to their area of interest or professional background. Some of these competitive positions support faculty and involve conducting academic research or preparing class materials. These positions not only enhance the student's experience, they also allow for tuition remission.

Only applicants who have been accepted to a graduate program will be considered for an assistantship.

The total value of the graduate assistantship will be included as gross income to the recipient. Recipients of the assistantship will be required to complete and return an Employee Data Card, W-4 form and Employment

Eligibility Verification (I-9) form to the Human Resources office prior to the award.

At the end of the year, recipients will receive a W-2 form stating the value of the assistantship for tax purposes.

Endowed Scholarships

Graduate Alumni Council Scholarship

This scholarship is awarded to College of Business graduate students who have maintained a 3.5 or better cumulative GPA and who have completed at least six advanced courses of their graduate program by the end of the fall semester. The candidate must demonstrate financial need, as well as work and community service experience. The Graduate College of Business will notify selected candidates.

Kenneth R. and Janet MacLean Scholarship

This scholarship is awarded to a College of Business graduate student demonstrating superior academic performance and proven financial need. A new recipient is chosen each year.

Financing Options

William D. Ford Federal Direct Loan Program

Graduate students enrolled in a degree program on at least a half-time basis (6 credits) may be eligible to borrow through the William D. Ford Federal Direct Loan Program. Students must first complete a Free Application for Federal Student Aid (FAFSA) on the web site www.fafsa.ed.gov. (<http://www.fafsa.ed.gov>) Upon receiving confirmation of eligibility from the financial aid office, student borrowers will need to complete on-line Entrance Counseling and a Master Promissory Note (MPN) on the federal web site www.studentloans.gov. (<http://www.studentloans.gov>)

Federal Grad PLUS

In addition to the Federal Direct Loan Program, eligible graduate students may also borrow through the Federal Grad PLUS Program. This may be particularly useful to graduate students in need of additional funding beyond the Federal Direct Loan's annual maximum of \$20,500. The application, entrance counseling and Master Promissory Note must be completed at www.studentloans.gov. (<http://www.studentloans.gov>)

Privately Funded Education Loans

A number of privately funded education loans are available to graduate students through non-profit lenders (generally one per state), as well as some of the larger for-profit lending firms. Further details are available in the Office of Financial Aid. Hours of operation are Monday through Friday during regular business hours.

Veterans Administration Educational Benefits

There are many education assistance programs available to eligible veterans and their dependents. Interested students are encouraged to contact Veterans Affairs at (800) 827-1000 or visit their website at www.vba.va.gov (<http://www.vba.va.gov>). There is a Veterans Administration Coordinator located in the Registrar's Office.

Private Scholarships

In addition to information readily available through routine web searching, the Office of Financial Aid maintains an up-to-date online listing of scholarship notices from a number of foundations and organizations

promoting their programs. These can be viewed by registered Bryant students in the financial aid section of the University's secure myBryant web portal.

Academic Policies and Procedures

Academic Program Planning

Graduate Program academic advisors are available to assist students with registration and the planning and selection of courses. Advisors can also review a student's academic standing as well as program and policy information. Students are encouraged to contact the Graduate Programs office or appropriate graduate director with any questions or concerns.

Academic Load

Graduate students are considered full-time, if they register for nine or more hours during the fall and spring semesters and six or more hours in the summer session.

Waivers

Applicants accepted to the Graduate College of Business will have their undergraduate and graduate transcripts evaluated for waivers and transfer courses. The following guidelines provide further clarification of our waiver and transfer options.

The College of Business Graduate Programs faculty and administration expects a solid grounding in economics and statistics as an essential element for full preparation to complete the Bryant University MBA program.

MBA 501 Economics for Business

This course may be waived if a student has successfully completed both Micro and Macroeconomics at the college level with a grade of "B" or higher.

MBA 505 Applied Business Statistics

This course may be waived if a student has successfully completed Statistics at the college level with a grade of "B" or higher.

In general this implies that the graduate program will waive a foundation requirement if the course was taken at an accredited institution and covered topics generally reflective of the content for MBA 501 and MBA 505 with an effective window of five years. Foundation courses may be waived that are beyond five years when it is evident that an individual is by virtue of current employment, professional experience, or some other basis conversant with fundamental concepts in one or both of these disciplines [e.g., an individual employed in the finance industry who works in a context that routinely assumes knowledge and use of key economic concepts].

Bryant also reserves the right to require an applicant to retake a foundation course that was taken within the five year window when there is indication of such need. [e.g., the grade earned was less than B].

Acceptable math preparation coursework from Bryant's undergraduate program is MATH 201 [or equivalent]; acceptable economics preparation coursework from Bryant's undergraduate program [or the equivalent from

another accredited institution] include ECO 113 [or equivalent] and ECO 114 [or equivalent].

Transfer Credits

It is the expectation of the Graduate College of Business that graduate students will complete all degree requirements at Bryant University. Students who have completed course work prior to matriculation may transfer up to two, three credit courses to their degree program. Transfer credits from an incomplete degree are limited to those taken within the last three years with a grade of 'B' or better from an institution accredited by AACSB-International.

Students who wish to transfer course work should submit a Transfer of Credit Request along with a course description or course syllabus to the Graduate Program office. The Graduate Program office will forward the request to the appropriate department chair for evaluation. If the request is approved, the course(s) will be applied to their Bryant degree requirements and students will receive an updated curriculum outline. The graduate school will not accept transfer courses that are equivalent to MBA 520 or MBA 521.

If, for extenuating circumstances, a student needs to enroll in a graduate course(s) at an institution other than Bryant, the student must submit a Transfer of Credit Request to the Graduate Program office. The Graduate Program office will coordinate the academic review process and once a decision is made will notify the student in writing. In order for the course credits to transfer to Bryant, a course must be taken at an AACSB-International accredited institution. Students must earn a 'B' or better and upon completion of the course must submit an official transcript to the Graduate Program office.

While courses approved for transfer appear as "T" on the Bryant transcript, grades of transferred courses are not used to calculate the grade point average.

Registration

Only students who have been admitted to the Graduate College of Business may enroll in coursework. Courses in the Master of Business Administration program are designed as a three-semester per year course of study. Thus, students are expected to maintain continuous enrollment throughout their program of study and are expected to proceed through the program with the cohort with which they were admitted.

The Master of Science in Taxation degree is a part-time program. Therefore, students may register for either one or two courses per semester. Understanding the work responsibilities of tax practitioners, students in the MST program are not limited in the number of Leaves of Absence but must complete all degree requirements within a six year time period.

The Masters of Professional Accountancy is a full-time day program which is typically completed in two semesters of full-time enrollment.

The MPAC with a Tax concentration is a full-time program featuring courses that meet in the day and evening. The MPAC Tax is typically completed in two full-time semesters.

Time Limitations for Completion of Program

Students are allowed a maximum of six years to complete all requirements of the MBA, MST, and MPAC programs.

Directed Independent Study

Directed Independent Study [DIS] coursework is intended to offer the opportunity for greater depth of learning or the supplementation of content otherwise not offered by the Bryant curriculum. Hence, the role of DIS should be considered as an alternate for academic credit in a student's program only when it augments existing courses or provides opportunity for more specialized learning. Stated differently, directed independent study will not be approved when such proposals represent a duplication of existing coursework alternatives or simply course topics justified on the basis of convenience or instructor preference. No more than one directed-independent study is permitted within each graduate student's curriculum.

Any student who registers for a directed independent study course must perform the following steps:

1. The student should contact a department chair or graduate faculty member in the appropriate discipline to request the determination of a faculty advisor to oversee a course in Directed Study.
2. When a faculty advisor has been identified, the faculty member and student are expected to develop a detailed outline of requirements that would satisfy three graduate course credits. A detailed specification of assignments, including time and output expectations needs to be established, including course milestones and evaluation criteria.
3. If the faculty member and graduate student agree on the proposal, both the student and the professor sign an Independent Study Request form and attach the proposal and send it to the chair of the department and the Associate Dean for final approval. A copy of the form and the approved proposal is to be submitted to the Office of the Registrar for registration and recording purposes.
4. The advising faculty member is expected to submit a final grade at the end of the semester.

Auditing a Course

Graduates of any graduate degree program may audit a course as long as prerequisites have been met and there is space available in the course. Students wishing to audit a course should complete an "Audit" request form from the Registrar's Office with permission of the instructor. No credit or quality points are given for the audited course. The grade on the transcript will appear as "AU" (for audit). Students are responsible for paying 100 percent of tuition.

NOTE: Bryant Graduate alumni will pay 50 percent of course tuition to audit a course.

Leave of Absence

By virtue of Bryant's MBA program design as a three semester per year plan of study, admitted students are expected to proceed through the program with the cohort they were admitted with at the beginning of their MBA studies. Stated differently, students, upon admission, are expected to complete their MBA degree requirements by continuous enrollment in the time specified by the program in which they entered.

Although leaves of absence from the MBA program are discouraged, it is recognized that occasionally there are significant life-altering events that may result in the need for a student to suspend continuous enrollment from their respective program on a temporary basis.

Consequently, any student who, prior to completion of the MBA requirements, seeks to decline registration for an upcoming semester may do so by registering for a Leave of Absence (LOA) by completing an official LOA form with the Registrar's Office. An MBA student on a leave of absence may re-enter the program on a space available basis. Students are still expected to complete their program within a six year time frame. Students on military deployment are exempt from this policy.

Students in the MBA, MPAC and MST programs who do not plan to register for a given semester should also contact the Director of Operations for Graduate Programs, College of Business.

Cancellation of Classes

Cancellation/delay of classes due to weather conditions will be announced over local radio and television stations. A detailed message will also be available by calling the University's emergency line at (401) 232-6002. The announcement to cancel or delay classes will also be available on the university website at www.bryant.edu. When individual classes are cancelled, students will be notified via their Bryant e-mail accounts.

Grading Policies and Academic Standing

Grading System

The graduate programs use the following grading system:

Grade	Grade Points
A	4.0 Excellent
A-	3.7
B+	3.3
B	3.0 Satisfactory
B-	2.7
C+	2.3
C	2.0
F	0.0

NOTE: Values assigned to each letter grade are determined by individual faculty members.

Letter Grades of B-, C+, and C: These grades, though acceptable, represent average performance and thus, must be offset by other higher grades in order to maintain a 3.0 cumulative average and subsequently to graduate from the program. Courses in which a student earns a B-, C+, or C cannot be repeated.

Letter Grade of F: A letter grade of "F" indicates a course failure and remains on the transcript and is included in all future GPA calculations. If an "F" was earned in a core course, the core course must be repeated. If an "F" was earned in an elective, that specific course does not have to be repeated. However, the student must enroll in another elective in order to successfully complete the total number of credits required to earn the degree. The student's transcript will record both course enrollments and grades.

I – Incomplete (because of extenuating circumstances, the instructor has allowed additional time, (e.g. two weeks, to complete the course.) The

Incomplete is not included in calculating the GPA. If the Incomplete is not finished before the end of the next regular term (i.e., Fall or Spring terms), the grade will automatically be converted to an F. For purposes of this policy, "end of the next regular term" shall be interpreted to mean the last date on which that instructor's grades must be submitted.

AU – Audit grade. Grade not included in calculation of GPA.

W – Student is allowed to withdraw from a **course** after the add/drop period and up until the end of the 10th week of regularly scheduled classes, as designated by the university calendar, by making a written request to the Registrar's Office with no academic penalty incurred.

WD – Student is allowed to withdraw from a **semester** after the add/drop period and up until the end of regularly scheduled classes, as designated by the university calendar, by making a written request to the Registrar's Office with no academic penalty incurred.

WP – At the discretion of the faculty member, student is allowed to withdraw without penalty after the 10th week of regularly scheduled classes, as designated by the university calendar but prior to the administration of the final exam, by making a written request to the Registrar's Office.

WF – At the discretion of the faculty member, student is allowed to withdraw WITH penalty (failing grade) after the 10th week of regularly scheduled classes, as designated by the university calendar but prior to the administration of the final exam, by making a written request to the Registrar's Office.

GPA Calculations

Only courses taken and credits received in the graduate programs at Bryant University are included in the computation of the grade-point average.

Quality points are determined by multiplying credits by grade points. Grade points are listed in the table above. The grade point average is determined by dividing the total quality points earned by the total credits completed.

Academic Standing

The academic standing measures a student's advancement toward meeting the grade point average requirements for a degree. Students are required to earn a cumulative grade point average (GPA) of 3.0 to successfully complete a graduate program.

If at the completion of the graduate program, the final GPA is below 3.0, a student may petition the Dean of the College to complete a maximum of six additional credits (i.e., two, three credit courses) all to be completed at Bryant to meet the GPA minimum.

Academic Warning

When a student's cumulative GPA falls below a 3.0, an academic warning will be issued. Two consecutive semesters of academic warning may result in dismissal from the Graduate College of Business. Academic warning status will be reviewed on an individual case basis by the Director of Operations, Graduate Programs, College of Business. Dismissal decisions will be reviewed by the Dean of the College of Business.

Graduation

During the fall semester preceding their intended graduation, students should complete and submit an online *Application for Graduation* form through their Banner web account. Students who complete their degree requirements during a summer or fall term may participate in commencement exercises of that academic year.

Honors at Graduation

To graduate with honors, a student must attain a grade-point average of 3.75 or better.

Beta Gamma Sigma

Membership in Beta Gamma Sigma is the highest recognition business students anywhere in the world can receive in master's programs accredited by AACSB-International. To be eligible for membership, a graduate student must have earned a cumulative GPA of 3.75 or higher, and rank in the upper 20 percent of the graduating master's class.

Academic Honesty Policy

A high standard of conduct is expected. A graduate student's education is the result of his or her initiative and industry. Each Bryant graduate student, accordingly, understands that to submit work that is not his/her own is not only a transgression of University policy but also a violation of personal integrity.

The academic community, therefore, does not tolerate any form of "cheating" – the dishonest use of assistance in the preparation of outside or in-class assignments.

Ethical Conduct and Plagiarism

Cheating / Plagiarism

As students at Bryant University you are privileged members of an academic institution with high standard for academic integrity and conduct. Student dishonest will NOT be tolerated. Any student who plagiarizes any portion of a research paper, cheats, or shares assignment answers will receive a 0 (zero) for that assignment, a lowering of the final grade, and/or failure in the course. More serious sanctions are also possible. Ignorance of University policy is NOT a valid excuse. If you are not sure whether you are plagiarizing or not, please check with your instructor.

Academic Dishonesty and Plagiarism include but is not limited to:

- Submitting an assignment that has been wholly or partially created by another person.
- Presenting as your own work, the ideas, representations, research, or words of another person without proper acknowledgement (citation) of sources.
- Knowingly permitting your work to be submitted by another student as if it were her or his own work.
- Submitting identically, or substantially the same assignment to fulfill the requirements of two separate courses.
- Copying from another student's examination, term paper, homework or lab report.
- Misappropriation of examination materials or information.
- Unauthorized communication with another student during or about quizzes.

- Unauthorized access to or the use of the computerized work of others.
- Falsification of data for research projects.
- Turning in another student's name on an assignment when the student failed to contribute.

All violations are subject to disciplinary action. To preserve its commitment to the high standards of intellectual and professional behavior, Bryant University will respect intellectual excellence and expect intellectual honesty.

The following due process procedure shall apply to cases of graduate students involving academic dishonesty:

Step 1

Instructors teaching graduate courses have the explicit responsibility to take action in alleged cases of academic dishonesty. This action may include the following:

- failing grade on assignment or exam
- failing grade for the course
- recommend dismissal from the graduate program and the College of Business

Step 2

The instructor's decision may be appealed by the student to the College of Business Graduate Faculty Advisory Committee (GFAC). The Committee may recommend to the Dean of the College of Business one of the following alternatives:

- To sustain the instructor's decision
- To place the student on probationary status, as specified by the Committee.
This gives the Committee the right to review and monitor the student's academic performance for the duration of the probation period.
- To recommend dismissal of the student to the Dean of the College of Business
- To restore the individual to the status of a student in good standing

A similar process will be followed in cases of dishonesty other than academic.

Academic Grievance Process

Students who have academic grievances are entitled to have their dispute reviewed by a formal and systematic process. Students have sixty (60) days from the time the grade is posted to initiate their concerns in writing to the professor of the course. The Academic Grievance Process should begin with a good-faith attempt for resolution between the student and professor.

In the event that an issue cannot be resolved between student and professor, the student must subsequently confer with the chairman of the academic department of the professor in question to seek resolution of the matter. Failing these first two steps, the student can seek resolution by appealing the matter to the Dean of the College.

Prior to an appeal to the Dean of the College, a student must complete a written statement which serves to summarize the basis of the grievance, indicate the resolution process preceding and leading up to an appeal first to the Associate Dean of the College of Business and then to the

Dean, and a documentation of relevant material and correspondence between and among student, professor, and chairman.

If the issue cannot be resolved by the aforementioned steps, the student may request a hearing before the Graduate Student Academic Grievance Committee. The Graduate Student Academic Grievance Committee will report its findings to the Provost for a final disposition.

At each stage in the grievance process a written record that summarizes each party's understanding and disposition is expected.

Graduate Programs Code of Conduct

Bryant University is an educationally purposeful community – a place where faculty, staff and students work together to strengthen teaching and learning on campus. The campus is a place where high standards of civility are set and violations are challenged. Bryant University is a community whose members speak and listen carefully to each other. Bryant University is a place where the sacredness of each person is honored and where diversity is aggressively pursued. Bryant University clearly states both its academic and social expectations. All must accept their obligations as citizens of the Bryant community and expect to be held accountable for behavior as individuals and members of groups. The University is a caring community where the well-being of each member is supported and where service to others is encouraged. All students are expected to obey applicable local state and federal laws as well as the policies of the university. These policies are found in The Student Handbook and the University Policy Manual. All students are subject to disciplinary action for violations. Graduate student violations of policy shall be adjudicated by the Graduate Disciplinary Committee. Procedures applying to this process are found in The Student Handbook.

Behavior and Discipline

The University expects students to assume responsibility for their actions. It also has an equal obligation to protect its educational purpose and the interests of its student body; therefore, it must be concerned with the actions of individuals or groups that are in conflict with the welfare and integrity of the University or in disregard for the rights of other students, faculty, or other members of the University community.

Complete guidelines and policies are found in The Student Handbook. When students enroll at Bryant University, it is assumed that they have a serious purpose and a sincere interest in their own social and intellectual development. It is also assumed that students familiar with the regulations, procedures, and policies set forth at Bryant University have accepted them as a "way of life" during their stay at the University. They are expected to learn to cope with problems intelligently, reasonably, and with consideration for the rights of others; to obey laws and ordinances of the nation, state, and community of which they, as well as the University, are a part; and to conduct themselves peaceably in espousing changes they may consider necessary. As students prize rights and freedoms for themselves, they are expected to respect the rights and freedoms of others.

Students are subject to federal, state, and local laws as well as University rules and regulations. A student is not entitled to greater immunities or privileges before the law than those enjoyed by other citizens generally. Students are subject to such reasonable disciplinary action as deemed appropriate, including suspension and expulsion in appropriate cases for breach of federal, state, or local laws, or University rules or regulations. The principle extends to conduct off campus that is likely to have adverse

effects on the University, or on the educational process, or which stamps the offender as an unfit associate for other students.

Harassment

Protection from Harassment — Policy Statement

Bryant University is committed to maintaining a working and learning environment which supports respect for the individual and for academic freedom, where all members of the community can work and learn in an atmosphere that is free from sexual or other types of harassment. It is the policy of Bryant University that no member of the University community, including faculty, staff, students, volunteers, interns, and third party contractors, may subject another to sexual or any other type of harassment.

Harassment on the basis of race, color, religion, sex, sexual preference or orientation, gender identity or expression, national origin, age, ethnicity, disability, veteran or marital status undermines the basic principles of the Bryant community and will not be tolerated.

Harassment includes but is not limited to unwelcome verbal, electronic and/or physical conduct directed toward an individual or regarding an individual's race, color, religion, sex, sexual preference or orientation, gender identity or expression, national origin, age, ethnicity, disability, veteran or marital status that has the purpose or effect of humiliating and/or intimidating an individual or hindering and/or interfering with work performance, academic status, or college life. In particular, sexual harassment is defined as unwanted sexual advances, requests for sexual favors, and all other verbal or physical conduct of a sexual nature where: submission to such conduct is made either explicitly or implicitly a term or condition of an individual's employment or academic status; or submission to or rejection of such conduct by an individual is used as the basis for employment or academic decisions affecting such individual; or such conduct has the purpose or effect of unreasonably interfering with an individual's work or academic performance or creating an intimidating, hostile, or offensive environment in which to work or learn.

Bryant University considers harassment a very serious matter. Any person found to be engaging in harassment, including sexual harassment, or who aids and abets or incites such conduct, will be subject to disciplinary action, up to and including termination of employment or expulsion from an educational program of the University. Further, any retaliation against an individual for filing a complaint or for cooperating in an investigation of such a complaint is similarly prohibited and will not be tolerated.

Reporting Procedures:

Bryant University encourages the reporting of all perceived incidents of discrimination, harassment or retaliation, regardless of the offender's identity or position. To encourage persons to come forward, the University provides several channels of communication, information, and complaint resolution as outlined below.

Information, Counseling and Advocacy:

Anyone may seek advice, information or counseling on any matter, including matters relating to harassment, without having to lodge a complaint. Names and telephone numbers of these resources are listed under "Information/Counseling Resources."

Informal Complaint Process:

Either verbally or in writing, notify the offender firmly and promptly that his or her behavior is unwelcome. While dealing informally with a problem of harassment may resolve the matter more expeditiously and more confidentially, no action can be taken by the University when it is not aware of the harassing conduct. Hence, informal complaint procedures should not be used for severe or habitual cases of harassment.

Formal Complaint/Reporting Process:

When a formal complaint is received, the University will promptly investigate the allegation in a fair and expeditious manner. The investigation will be conducted in such a way as to maintain confidentiality to the extent practicable under the circumstances.

The investigation will include a private interview with the person(s) filing the complaint and with witnesses. The person(s) alleged to have committed harassment would also be interviewed. When the investigation has been completed, the results of that investigation, to the extent appropriate, will be shared with the person filing the complaint and the person alleged to have committed the conduct. If it is determined that inappropriate conduct has occurred, the University will act promptly to eliminate the offending conduct, and where appropriate, will impose disciplinary action.

Resource List

Information/Counseling Resources:

Counseling Services	(401) 232-6045
Health Services	(401) 232-6220
Student Affairs	(401) 232-6046

Internal Contact List

Vice President for Student Affairs/ Dean of Students	(401) 232-6046
Associate Vice President for Human Resources	(401) 232-6011
Provost	(401) 232-6060

Information Services Network Acceptable Use Policy

All members of the Bryant University community who use the University computing, information, and communication resources must act responsibly. Every user is responsible for the integrity of these resources under their control. All users of University-owned or University-leased Information Services systems must respect the rights of other users, respect the integrity of the physical facilities and controls, and comply with all licenses and contractual agreements. More information on Information Services Network Acceptable Use Policy can be found at http://web.bryant.edu/~commtech/acceptable_use.html.

E-mail

The University's electronic mail services are University facilities and are intended for use for teaching, learning, research, and administration in support of Bryant University's mission. Bryant University e-mail services may not be used for personal business or personal gain except as permitted by other University policies.

Peer-to-Peer File Sharing

The Copyright Law of the United States (Title 17 U.S. Code) governs the making of copies of copyrighted material. UNAUTHORIZED COPYING IS PROHIBITED! The person using this equipment is liable for any infringement and can be prosecuted or held liable for monetary damages.

Bryant.edu Domain Name

According to the guidelines of the managing body of the top-level .EDU domain space, a registrant of a name in the .EDU domain may not use the .EDU domain for commercial purposes. The use of the "BRYANT.EDU" in any commercial related transaction is a violation of those guidelines. Any student using the "BRYANT. EDU" in any electronic service (e-mail, web, etc.) for commercial purposes jeopardizes his/her privilege to use those services.

Student Services

Cultural and Recreational Opportunities

Bryant University is ideally situated so that students can benefit from the intellectual, cultural, and social opportunities of New England. The University offers a variety of performances, lectures, concerts, events, and major speakers throughout the year.

Just 12 miles away, Providence is one of the largest cities in New England and a cultural and artistic center. Providence's collections of art treasures can be viewed at the Rhode Island School of Design Museum and several other galleries. The Rhode Island Philharmonic Orchestra, the Rhode Island Festival Ballet, and Trinity Square Repertory Company present programs of outstanding artistic merit. The nationally acclaimed Providence Performing Arts Center presents a wide assortment of Broadway shows. The Dunkin' Donuts Center and the Convention Center in Providence host attractions ranging from college basketball and professional hockey to rock concerts and festivals.

Students who attend summer sessions can take advantage of Rhode Island's many famous summer resorts. The University is less than an hour's drive from Narragansett Pier and Watch Hill, featuring miles of sandy beaches. Newport, noted for its music festivals, scenic ocean drives, and elegant mansions, is only 40 miles away. Boston is just an hour away and offers exceptional cultural and recreational attractions including the Boston Symphony, Museum of Fine Arts, Red Sox baseball, Patriots football, Celtics basketball, and Bruins hockey. New York City is three hours away.

Art Series

The Art Series features a variety of programs designed to enrich the lives of all members of the Bryant community. Visual art displays, performing arts programs, poetry readings, and discounted tickets to the Providence Performing Arts Center are offered every year.

Unistructure

The modern and functional Unistructure houses most administrative and academic functions under one roof. There are more than 200 workstations in classrooms throughout the building. A focal point of the Unistructure is the two-story, plexiglassed-domed Koffler Rotunda, the central gathering place for the Bryant community. The Salmanson Dining Room and Café a la Carte also are located in the Unistructure.

The Graduate Program office is located in the Management Resource Complex (MRC) wing of the Unistructure.

George E. Bello Center for Information and Technology

The George E. Bello Center for Information and Technology is the centerpiece of Bryant University's campus. The Heidi and Walter Stepan Grand Hall, which serves as a space for exhibitions, receptions, and lectures, has The Linda and Jerry Cerce Media Wall with nine video monitors. A rotunda provides balconied meeting and study spaces. The 72,000-square-foot facility features the C.V. Starr Financial Markets Center, simulating real-life trading scenarios and real-world trading conditions that provide students with cutting-edge, hands-on training. Students, faculty, and staff have access to high-speed computers to support teaching, research, and business planning. All seating areas are equipped with Internet connectivity, and students may opt to use their personal laptops, or they may borrow one on site. In addition, there are reference and multifunction classrooms that can each accommodate up to 40 people with laptops, and 13 team study rooms with laptop power and network access available for small group meetings. The George E. Bello Center is equipped with state-of-the-art high-speed wireless connectivity. Students can roam in or outside the building with their wireless laptops, and maintain a connection to the Internet. For quiet study there is even a traditional reading room. Students also have access to presentation technologies, scanning, and digitization equipment. The Bulldog Bytes Café provides refreshments and computer access in a social setting. Also located in the Bello Center is Laptop Central, which serves as the Student IT Helpdesk and laptop repair center.

The Douglas and Judith Krupp Library

The Douglas and Judith Krupp Library, located within the George E. Bello Center for Information and Technology, is a dynamic learning environment merging traditional library services with extraordinary technologies. Wired and wireless Internet connectivity is abundantly available throughout the building. Display technologies inform students on local and world events. Seventy computer workstations provide access to over 50 computer software packages in addition to an impressive array of electronic information resources. Laptops, Kindles®, and iPads® are also available for limited loan periods. A variety of spacious, comfortable study areas including study rooms for group projects further enhance the learning experience.

The library houses more than 150,000 items, and current print and electronic journal subscriptions totaling more than 50,000 titles are available via the library's journal portal. Students can access electronic subscriptions and electronic reserve readings from anywhere on campus. Off campus access to electronic resources is available to students via their library account. Available electronic resources include information services such as LEXIS/NEXIS Academic Universe, Proquest, EBSCO, Mergent Online, ARTstor, and the Value Line Research Center. The library's knowledge base is available to students using Google Scholar through the library's link resolver service.

Professional reference librarians are on duty more than 80 hours per week and offer personal assistance and/or group instruction on traditional and electronic resources. Reference librarians are also available electronically using chat room technologies, text messaging, or simply via email or phone. Bryant's membership in Rhode Island's Higher Education Library Information Network (HELIN) provides students access to nearly 5 million additional volumes for easy borrowing and physical

access to other HELIN member libraries. The Douglas and Judith Krupp Library is also a member of the Consortium of Rhode Island Academic and Research Libraries (CRIARL) and the Online Computer Library Center (OCLC). Through these library networks, students are able to get additional information needed for their research projects.

The Academic Center for Excellence (ACE) and the Writing Center

The Academic Center for Excellence (ACE) and the Writing Center staff engage in a partnership with students to help them achieve their academic goals. The staff includes a network of full-time and part-time professionals who are specialists in writing, math, English as a second language, academic skills, and learning disabilities. Learning specialists help students find out what learning and study strategies work best for them. Study skills workshops are listed on the ACE website with topics and times. Visit the ACE website (<http://intranet.bryant.edu/portal/academic-success-programs/ace>) to get the most up-to-date information regarding programs and services.

Accommodation for Students with Disabilities

Students with learning disabilities can process academic accommodation requests in the Academic Center for Excellence. To receive academic accommodations, students must submit documentation that describes the nature of the learning disability to the learning specialist at ACE. Diagnostic testing that identifies the existence of the learning disability must have been completed within the past three years. The learning specialist recommends academic accommodations; however, it is incumbent upon the student to schedule an appointment with the learning specialist at the beginning of each new semester to arrange for services. Students with learning disabilities should contact the learning specialist at (401) 232-6746.

Learning Specialists

Specialists provide individualized assistance in study skills development for all students and learning strategy assessments for students with learning disabilities.

Academic accommodations are available for students with documented learning disabilities. Students must schedule an appointment with the ACE Learning Specialist as soon as they register for courses each semester. Documentation guidelines may be accessed here (<http://intranet.bryant.edu/portal/academic-success-programs/learning-disability-and-adhd-services/guidelines-for-documentation-of-specific-learning-disabilities-ld.htm>).

Writing Center

The Writing Center is available to help graduate students strengthen their writing skills. Individual, group, and online instruction are offered, as outlined below:

Group Instruction – Instructional sessions are offered throughout the semester at no cost to students. Groups of students can also meet with a writing specialist (see below) to discuss collaborative projects.

Individualized Instruction – Writing specialists, professionals with an MA and/or PhD in English or writing, are available for individualized consultation.

An English as a second language writing specialist is available to help students for whom English is a foreign language.

Online Instruction – Students can now use e-mail and a dedicated chat room to receive feedback from our staff of professional writing specialists.

To schedule a Writing Center appointment, call (401) 232-6567. For ACE appointments, call (401) 232-6746.

Language and Learning Laboratory

Bryant's advanced Virtual Language and Learning Lab facility provides access to tools and resources that prepare students to communicate in the international business environment. The resources offered from this facility help students develop conversational skills in Chinese, French, Italian, and Spanish.

The Lab offers an instructor's console station, 28 student computer workstations, and international television broadcasts of 150 programs from more than 80 countries. Students can also access the Lab's resources via the Internet from anywhere in the world. Advanced technologies from the Lab include Voice-Over-IP technologies for online group collaboration and tutoring and Video/Audio On-Demand resources that provide self-paced and interactive learning materials.

Amica Center for Career Education

The office of career services offers a comprehensive range of services to graduate students including career decision counseling, assistance with resume writing, interviewing and job search strategies. The career resource library and Alumni Career Network can be used to research careers and companies. A weekly publication lists current job openings – some of which may be appropriate for graduate students.

Michael E. '67 and Karen L. Fisher Student Center

The Fisher Student Center is a vibrant hub for collaboration, experiential learning, and relaxation for the entire Bryant community. The Fisher Center's innovative design features include: leadership pods and collaboration stations to advance new modes of learning; a signature fireplace that creates a central campus common and serves as a functional and symbolic hearth; rehearsal and performance suite; offices and meeting rooms for clubs and organizations such as the Center for Diversity and Inclusion (CDI), Intercultural Center, Hochberg Women's Center, and Bryant Pride Center; expanded dining options; a convenience store; and a bookstore.

The Center for Diversity and Inclusion

The Center for Diversity and Inclusion (CDI) brings leadership, vision, integrity, and a team-oriented philosophy to the diversity and inclusion efforts at Bryant University. The CDI is responsible for leading the University on matters of equity, diversity, and inclusion and will educate the campus community regarding the importance and advantages of a culture that values and supports each member of our community.

The Center for Diversity and Inclusion comprises the professional and paraprofessional staff of the Gertrude Hochberg Women's Center, the Intercultural Center, Disability Services, The PRIDE Center and Campus Ministries/Faith and Spirituality. The CDI staff partners with the Office of International Student and Scholar Services, which reports to the Vice

President for International Affairs, to provide support and services to international students.

The Intercultural Center

The Intercultural Center for International Education and Multicultural Affairs (ICC) is the Center for education on international and multiethnic issues at Bryant University. The Center is the place for discourse, resource development and consultation on diversity. It also serves as a resource base for international and multicultural students on campus. The mission of the Intercultural Center has evolved and broadened since its creation in 1977.

The professional educators who staff the Center teach, collaborate with faculty and administrative departments, and counsel and mentor students. The office creates programs and events for the entire campus to enhance appreciation for and awareness of cultural diversity within the Bryant community. The ICC is also responsible for compliance with immigration regulations for undergraduate and graduate F-1 visa students and staff members serve as the advisors to the Multicultural Student Union and the International Student Organization.

The Ronald K. and Kati C. Machtley Interfaith Center

Although Bryant is not religiously affiliated, we recognize the need to provide a special place for people of all faith perspectives to come together to express their spirituality and learn from one another. Designed to inspire all who enter, the Machtley Interfaith Center serves this vital function. Services for various religious faiths, concerts, and speakers discussing topics related to religion and spirituality are featured in this space throughout the year.

Computerized Classroom Resources

Bryant continually upgrades its classroom facilities to ensure that both students and instructors have the latest technology. For example, in the Stanton W. and Elizabeth K. Davis Electronic Classroom, each student works at a computer linked to the Internet and to the instructor's computer. Lecture notes and assignments can be sent electronically from instructor to student, and quizzes and exams can be taken and graded on the computer.

The Unistructure contains several computerized classrooms designed to enhance the teaching and learning environment. In some classrooms, individual students work at PCs networked to the University's computing resources and the Internet. In others, computerized instructor workstations allow for technology-based presentations and instruction. All classrooms are linked to the Internet, which allows instructors to bring real-time, real-world examples directly into the classroom. Bryant's faculty also make use of technology to extend learning opportunities beyond the classroom through electronic discussion groups, e-mail, and by providing class materials via the Web.

Language and Learning Laboratory

Bryant's advanced Virtual Language and Learning Lab facility provides access to tools and resources that prepare students to communicate in the international business environment. The resources offered from this facility help students develop conversational skills in Chinese, French, Italian, and Spanish.

The Lab offers an instructor's console station, 28 student computer workstations, and international television broadcasts of 150 programs

from more than 80 countries. Students can also access the Lab's resources via the Internet from anywhere in the world. Advanced technologies from the Lab include Voice-Over-IP technologies for online group collaboration and tutoring and Video/Audio On-Demand resources that provide self-paced and interactive learning materials.

Koffler Center and Communications Complex

Koffler houses Bryant's Communications Complex, a state-of-the-art digital and multimedia TV studio.

Communications Complex – Main Floor – Koffler Technology Center and TV Studio/ Radio Station

- The television studio serves as a pre- and post-production training ground for students enrolled in the communication degree program, those who minor in communication, or any member of the Bryant community who would like to learn more about video production.
- The studio has the capability to broadcast programming on campus.
- The 3,000-square-foot studio has a control room, three advanced multimedia editing/support rooms, and a multimedia classroom.
- The Communications Complex includes a dedicated studio for WJMF, Bryant's student-run radio station, which is broadcast worldwide via the web at WJMFradio.com and locally on 88.7HD2.

Communications Complex – Lower Level

- Sixteen (16) personal computers available for student use.
- Open evening and weekend hours.
- Software is replaced and updated in step with the latest technology.
- Windows is installed on every computer.
- The computers in the labs can print in black and white to the lab printer. An 800-page allowance is granted each year. After that, a 5¢ per page charge, which is applied directly to the student's Banner account. This charge will also apply to the Bello Center printers.

Communications Complex – Upper Level

- Faculty offices from various departments are located on this level.

Student Printing Facilities

- Students can print wirelessly via their laptop to several printers located on campus.
- Printers are available in the following locations: Fisher Student Center, Krupp Library in the Bello Center, and on both the first and second floors of the M-wing in the Unistructure.
- An 800-page free printing allowance is granted each year. After that, a charge of 5 cents per black-and-white page and 50 cents per color page is applied directly to the students Banner account.

The Elizabeth and Malcolm Chace Wellness and Athletic Center

The two-story Chace Wellness and Athletic Center includes a six-lane pool, a multi-windowed 9,000 square-foot fitness center, The Eannarino Family Aerobics and Group Exercise Studio, and four locker rooms. The Mike '67 and Karen Fisher Lobby – a bright and airy atrium – creates an inviting main entrance to the entire athletic complex. The Wellness Center

is a vibrant hub of health and recreational activities for the entire Bryant community.

The Gymnasium

Bryant's gymnasium houses athletic offices, exercise rooms, and basketball and volleyball courts. The seating capacity for the gym is 2,600. Many University-wide events are held in the gym, which is available to off-campus programs at certain times during the year.

The Multipurpose Activities Center (MAC)

The Multipurpose Activities Center (MAC) is the site for large University functions and sporting events. The MAC features the Jarvis Varsity Weight Room; racquetball and squash courts; and multipurpose courts for popular intramural sports such as basketball, volleyball, team handball, indoor soccer, and floor hockey.

Athletic Fields and Outdoor Facilities

Thirty-five acres of athletic and recreational fields adjacent to the building include tennis courts, a 400 meter track, a 3.2-mile cross-country course, and playing fields for baseball, soccer, football, softball, rugby, lacrosse, and field hockey. Bulldog Stadium, an outdoor 4,400-seat facility, is used by the football, soccer, and lacrosse teams. Conaty Park, a first-class Division I baseball and softball complex, was opened in April 2012. There is also a golf tee and putting green.

Artificial Turf Field

This is the home field for the field hockey team. Located inside the outdoor all-weather track and adjacent to the newly constructed tennis courts, the turf field serves as a practice facility for all varsity outdoor teams. The lighted field is also available for club sports, intramurals, and night activities.

Athletics and Recreation

Recreation and physical fitness are important components of the Bryant experience. A variety of intramural programs for men and women provide competitive recreation throughout the school year for all students who wish to participate. These programs include Basketball, Dodgeball, Field Hockey, Flag Football, Floor Hockey, Indoor/Outdoor Soccer, Softball, Team Handball, Volleyball, and many more.

Bryant University is a Division I member of the Northeast Conference. Men's teams participate in Baseball, Basketball, Cross Country, Football, Golf, Indoor Track and Field, Lacrosse, Outdoor Track and Field, Soccer, and Tennis. Women's teams participate in Basketball, Cross Country, Indoor Track and Field, Lacrosse, Outdoor Track and Field, Soccer, Softball, Swimming and Diving, Tennis, and Volleyball. Field Hockey and Men's Swimming and Diving compete as Division I members of the Metro Atlantic Athletic Conference.

Club sports include Bowling, Cheerleading, Dance, Men's Ice Hockey, Karate, Men's Volleyball, Racquetball, Men's Rugby, Squash, Ultimate Frisbee, Women's Crew, and Women's Rugby.

Bryant Bookstore & Online Purchases

The Bryant University bookstore is located in the Fisher Student Center. Please call (401) 232-6240 for bookstore hours. Textbooks may also be ordered online at www.efollett.com (<http://www.efollett.com>).

Campus Ministry

The chaplains in Campus Ministry address the spiritual needs of Bryant students and staff. Protestant, Catholic, and Jewish chaplains are available to serve as sources of support, guidance, and spiritual development for all members of the University community.

Health Services

Bryant University Health Services is a nurse practitioner-directed program. Located on the first floor of Residence Hall 16, it is staffed by a part-time physician, certified family nurse practitioners, and health educators.

The University requires that all full-time resident graduate students provide documentation of health insurance. Low cost accident and illness insurance is available for all students who wish to purchase it. Information about this insurance can be obtained at the Health Services Office.

Security/Public Safety

ID and Parking Sticker Policy

Bryant's campus is a secure place to live. Campus security measures include call boxes that dispatch calls directly to Public Safety. Public Safety officers are on duty 24 hours a day, seven days a week. Residence hall exterior doors are locked at night, only accessible to students. Individual key locks are on the door of each room. Visitors are checked in on weeknights and throughout the weekend.

All students are required to have a current parking sticker and student photo ID. These may be obtained in the Department of Public Safety (DPS). In order to obtain a parking sticker, students are required to bring their driver's license and vehicle registration to the Department of Public Safety. Contact the Public Safety office at (401) 232- 6001 for more information.

Campus Media

The student-run media – The Archway and WJMF Radio – play a dual role for the Bryant community. In addition to providing the campus with news, opinions, and entertainment, these organizations give students direct experience with production techniques, editorial practices, and business management.

The Archway

Under student leadership, the college newspaper is published bi-weekly during the academic year. Its research, writing, editing, photography, typesetting, layout, and business management are handled entirely by the student staff.

WJMF

WJMF is Bryant's student-run radio station. Formerly broadcasting at 88.7 FM, the station entered into a partnership with Boston-based WGBH in May 2011 that enabled WJMF to become the first student-run station in the region to be available on several new transmission platforms, including WJMF HD-2 and mobile DTV channels. The partnership also gives Bryant students the opportunity to work alongside WGBH technicians and learn from the best digital and broadcast experts in the business. In exchange, WGBH uses 88.7 FM to rebroadcast its classical programming. (WJMF also can be heard online and via smartphone applications.)

School of Health Sciences

Healthcare is the fastest-growing sector of the United States economy, employing more than 18 million people. In 2012, Americans spent a collective \$2.9 trillion on healthcare, from hospital stays to prescription drugs.

Bryant's School of Health Sciences is well positioned to capitalize on imminent healthcare issues, such as an aging population, insurance regulations, and declining medical school enrollments. The School of Health Sciences prepares students to be leaders and innovators in an industry that continues to evolve and change.

This new academic initiative builds on the University's core expertise as a business school. A large number of Bryant's 40,000 alumni have carved successful careers in the medical field.

The Master of Science in Physician Assistant Studies (p. 45) is at the heart of the University's School of Health Sciences, a significant and strategic commitment to education innovation.

Physician Assistant Program Academic Calendar

Term 1 - 2015

Classes Begin	Monday, January 5
Classes End	Tuesday, March 31
HOLIDAYS:	
Martin Luther King Day	Monday, January 19

Term 2 - 2015

Classes Begin	Thursday, April 2
Classes End	Thursday, June 25
HOLIDAYS:	
Memorial Day	Monday, May 25

Term 3 - 2015

Classes Begin	Monday, June 29
Classes End	Monday, September 21
HOLIDAYS:	
Labor Day	Monday, September 7

Term 4 - 2015

Classes Begin	Wednesday, September 23
Classes End	Monday, December 21
HOLIDAYS:	
Columbus Day	Monday, October 12
Veteran's Day	Wednesday, November 11
Thanksgiving Break	Thursday, November 26 through Friday, November 27

Programs of Study

- Master of Science in Physician Assistant Studies (p. 45)

Physician Assistant Program

Physician Assistant Mission

To improve universal access to health care by graduating highly competent and confident Physician Assistants prepared to provide exceptional quality, patient-centered ethical health care in a collaborative environment.

Bryant University Physician Assistant Program Vision

The Bryant University Physician Assistant program will:

- Graduate top performing physician assistants from a rigorous program
- Prepare physician assistant students to perform in any clinical environment
- Engage physician assistant students in the pursuit of lifelong learning
- Instill in our students a desire to seek roles in leadership
- Ensure commitment to furthering the success of our profession

Goals of the Bryant University Physician Assistant Program

1. Prepare our physician assistant students to excel in all of the competencies required for PA practice by providing a rigorous and supportive program in which to develop the knowledge, interpersonal, clinical, and technical skills, professional behaviors, and clinical reasoning and problem solving abilities necessary to clinical care
2. Prepare our physician assistant students to meet the needs of our health care system by providing a strong primary care experience caring for under-served populations and by developing an understanding of the health care delivery and payment systems that affect health care access, outcomes, and potential disparities
3. Develop and support our physician assistant students' commitment and ability to serve in leadership roles as advocates for patients and the PA profession
4. Develop and strengthen our physician assistant students' skills and habits critical for life-long learning and continuous practice-based self-improvement
5. Facilitate achieving our program's mission, vision, and goals by integrating and supporting diverse perspectives throughout the curriculum, including global and inter-professional perspectives, in order to best serve the needs of our diverse patients and communities

Bryant University Physician Assistant Program Accreditation Status

The ARC-PA has granted Accreditation-Provisional status to the Bryant University Physician Assistant Program sponsored by Bryant University. Accreditation-Provisional is an accreditation status granted when the plans and resource allocation, if fully implemented as planned, of a proposed program that has not yet enrolled students appear to demonstrate the program's ability to meet the ARC-PA Standards or when a program holding Accreditation-Provisional status appears to

demonstrate continued progress in complying with the Standards as it prepares for the graduation of the first class (cohort) of students. Accreditation-Provisional does not ensure any subsequent accreditation status. It is limited to no more than five years from matriculation of the first class.

Physician Assistant Program Curriculum

Courses by Semester

The physician assistant program is a 27-month, 126 semester hour course of study leading to a Master of Science in Physician Assistant Studies degree.

The program consists of 9 terms:

First Year

First Term

PA 501

Physiology and
Pathophysiology

3

PA 502

Clinical
Pharmacology

3

PA 503

Human
Anatomy

4

Application Requirements for PA Class of 2017

CASPA

The Bryant University Physician Assistant Program participates in the Central Application Service for Physician Assistants (CASPA). Students applying to the Bryant PA Program must follow the application instructions on the CASPA Website. (www.caspa.org (<http://www.caspa.org>))

Supplemental Application

The Bryant University PA Program requires a supplemental application in addition to the CASPA application. This application will be provided to applicants who meet the minimum admissions requirements for the Bryant University PA Program after initial review of their CASPA application.

Admissions Requirements

Applicants must hold a baccalaureate degree from a regionally accredited institution.

- All coursework must be completed prior to July 1, 2014.
- Applicants must have maintained an overall undergraduate minimum 3.0 GPA
- Applicant must have maintained a prerequisite GPA of 3.0

Applicant must complete the Graduate Record Exam (GRE)

- No minimum is required on the GRE, but performance will be used to determine eligibility and competitiveness
- Testing must have been from within the last 5 years

The applicant must document at least 2,000 hours of direct patient care experience

- Documentation must be submitted on the supplemental application
- Direct patient care involves the actual one-on-one care of a patient.
- The following is a partial list of examples of areas of direct healthcare
 - Military medics, corpsmen, health services technicians, and medical technicians
 - Nurses
 - Emergency Medical Technician and Paramedics
 - Emergency room technicians
 - Medical Scribes
 - Physical and Occupational Therapists
 - Respiratory Therapists
 - Medical Assistant

The applicant must complete the following minimum pre-requisite classes*:

Biology with lab	8
Chemistry with lab	8
Human Anatomy & Physiology (maybe taken separately)	8
Microbiology	3
Biochemistry or Organic Chemistry with Lab	3/4
Psychology	3
Statistics	3

* Note: summary and survey courses are not permitted.

Background Investigation

All successfully admitted students must undergo a criminal background investigation. The PA Program will provide the accepted student access to the necessary criminal background investigation process. A felony conviction may prevent the student from completing clinical rotations at our affiliated healthcare organizations; therefore may prevent admission to the PA Program. Some additional non-felony convictions may prevent students from gaining certification, licensure or credentialing as a healthcare provider. In the event of such a conviction, the Program will contact the applicant to discuss the matter prior to matriculation. Neither the program, nor its personnel are responsible for ensuring that an applicant will be eligible for NCCPA certification, state licensure or credentialing at any healthcare facility. Applicants with a criminal history

should investigate the laws, regulations and statutes applicable to the state and facility in which they intend to practice.

Screening for drugs of abuse

Students may be required to submit to a drug screen at any time during the program. Our affiliated Healthcare Facilities require negative drug screening prior to starting clinical rotations.

A positive drug screen for any substance not legally prescribed to the student will result in dismissal from the PA Program. Students who refuse to submit a drug screen will likewise be dismissed. Students who screen positive for drug use during clinical rotations may be subject to criminal action as required by the state or institution.

Technical Standards

Matriculated Students must meet all technical standards required for program completion with or without reasonable accommodations for documented disability.

Physical abilities: In very basic terms, the physician assistant student must be able to carry out the physical tasks necessary to elicit a patient's history and perform a physical exam, including the ability to observe/see the patient and physical exam findings, hear physical exam findings such as lung and cardiac sounds, and possess the coordination and manual dexterity to examine the patient such as palpation of the abdomen and to use the medical equipment routine to patient encounters such as a stethoscope. Additionally, the student must be able to stand for prolonged periods of time necessary for example, in surgical rotations, and have the strength necessary to provide emergent interventions such as CPR.

Cognitive abilities: The physician assistant student must have the cognitive abilities required to elicit and understand a patient's history, obtain and interpret physical exam findings, formulate a reasonable assessment and partner with the patient in the development of diagnostic and treatment plans. The PA student must also therefore be able to learn and understand, remember and apply the course content necessary to care for patients.

Behavioral abilities: The physician assistant student must have the behavioral abilities, including the interpersonal and communication skills, required for interacting with patients, the supervising physician, and other members of the health care team to be able to deliver care in a patient centered, professional, ethically sound manner.

Americans with Disabilities Act

Bryant University complies with the Americans with Disabilities Act (ADA) of 1990. The ADA prohibits discrimination against qualified individuals with disabilities on the basis of that individual's disability. Not only does Bryant comply with the ADA, but Bryant also considers this compliance to be a reaffirmation of the University's long-standing nondiscrimination policy. To this end, Bryant bases all of its admissions decisions on an applicant's qualifications to perform the essential functions of the physician assistant student role, with or without reasonable accommodations that do not impose an undue hardship on the University.

Bryant University does not discriminate unlawfully against the disabled and is in full compliance with the Rehabilitation Act of 1973, as amended.

Inquiries/complaints with regard to disabled student issues should be addressed to the Director of Health Services, Bryant University, Smithfield, RI 02917 (401-232-6220), who has been designated by

Bryant University to coordinate the institution's efforts to comply with the regulations implementing Section 504.

Persons may also contact the Director, US Department of Education, Office of Civil Rights, Region One, Boston, MA 02109, regarding the University's compliance with regulations.

Attend an on-site interview

Applicants who are deemed as likely successful candidates by the PA Program Admissions Committee will be invited to Bryant University for a one day interview and campus tour. This is the ideal chance for potential students to not only impress upon the faculty their strong interest in becoming a physician assistant, but also why they are a good fit for the Bryant University PA Program. Students should thoroughly prepare for this interview.

The Selection Process and Program Preference

The Bryant University Physician Assistant Program developed its Mission and Goals to reflect our commitment to help decrease health care disparities and increase access to health care for currently underserved populations. Our strategy to accomplish this goal is to support the admission and enrollment of future clinicians who have demonstrated a similar commitment to these philosophies. While the Program does not extend preference to any particular individual or group, application materials are scored during the file review and interview process using a scoring system that awards points to any applicant demonstrating evidence of a commitment to the philosophies embodied by the Program's Mission and Goals.

Applicants are screened and competitively ranked based on the following criteria:

Academic Preparation

Overall and Science GPA (science + overall/2)	0 - 5 points
---	--------------

GRE Quantitative	0 - 5 points
------------------	--------------

GRE Verbal Reasoning	0 - 2.5 points
----------------------	----------------

GRE Analytical Writing	0 - 1 point
------------------------	-------------

Interpersonal and Communication Skills and Professionalism

CASPA Narrative	0 - 2 points
-----------------	--------------

Supplemental Essay	0 - 2 points
--------------------	--------------

References	0 - 2 points
------------	--------------

Resume/CV	0 - 2 points
-----------	--------------

Interviews

Four interviews	0 - 2 points per interview
-----------------	----------------------------

On-site essay	0 - 2 points
---------------	--------------

International Applicants

For applicants who have earned degrees outside of the United States, in addition to the general application requirements, the following prerequisites must be completed prior to applying:

- TOEFL score within the previous 2 years of at least 100 (internet-based) to demonstrate proficiency in English

- A certified degree and course-by-course evaluation of foreign transcripts to ascertain equivalences to United States educational standards. www.wes.org (<http://www.wes.org>)

Deferred Admission

The Bryant University PA Program does not offer deferred admission.

Withdrawal

Students retain the right to withdraw from their program of study in which they are enrolled, and thus the University, based on the personal preferences and necessities of the individual. When a student makes a decision to formally withdraw from graduate study at Bryant, a student must submit a University Withdrawal form to the Registrar's Office. This action serves to notify the University of a student's intention not to register for future courses. The student should also notify the Program Director in writing of their intent to withdraw from the program. At such a time in the future as a student desires to resume graduate coursework at Bryant, a re-application and formal admission process is required.

Re-admit Policy

If a student withdraws from the Bryant University PA Program and later wishes to resume coursework, he or she will be required to re-apply to the PA Program via CASPA and will be responsible for the degree requirements that are in place at the time of re-application.

- Any previously completed coursework from the Bryant University PA Program must be repeated upon re-admission

Course Waivers

Transfer credits may not be applied towards Physician Assistant Program coursework and the Program does not award advanced standing/ placement based on prior coursework.

Tuition, Fees and Financial Aid

Tuition and Fees (2015)

Tuition Class of 2017	\$85,000 for the entire 27-month program*

-------------------------	---------

RIAPA Membership	\$25.00
------------------	---------

* Fees are subject to change due to cost fluctuations.

Tuition Deposit

Accepted applicants to the PA Program submit an \$800, non-refundable deposit which is applied to the student's tuition bill. This deposit indicates their acceptance of admission and intention to enroll in the Bryant University PA Program.

Tuition and Method of Payment

The Bursar's Office participates in Electronic Billing. When the E-Bill is ready for viewing, students will receive an email notification at their Bryant University email address notifying them of the website to gain access to their student account and their E-Bill. The Student Account Center will offer you the option to pay online with a check or credit card (AMEX, VISA, MC, Discover, Diner's Club, JCB, Union Pay, BC Card, and Dina Card), establish reoccurring payments, view current activity, view historical billing statements and much more.

All checks and money orders should be made payable to Bryant University; envelopes should be addressed to:

Bryant University
P.O. Box 835
Providence, RI 02901-0835.

Students have the option to pay online via the Student Account Center using a credit card. Bryant University will link to a third-party processor, TouchNet. If you use a credit or debit card to pay your bill, you will be assessed a service charge by TouchNet of 2.75 percent of the payment amount each time you make a payment using a credit card.

You also have the option to pay online with a Web Check. There will be no fee associated with the Web Check payment option. A \$25 fee will be assessed to the student's account if a check is returned as uncollectible.

Tuition Refunds

The Bryant University Bursar will manage all refunds of tuition. Fees are not refundable.

A student withdrawing from Bryant University must contact the PA Program Director, and complete a voluntary withdrawal form in the Registrar's Office in order for his/her withdrawal to be official.

Tuition refunds will be calculated as follows:

1st week of classes	80%
2nd week of classes	60%
3rd week of classes	40%
4th week of classes	20%
After 4th week of classes	No refund

Due to the nature of the PA Program, single courses may not be dropped or added. All coursework must be completed in sequence.

Living Expenses, Travel and Transportation

Students are responsible for arranging their own housing accommodations, transportation, and any expenses associated with travel and relocations occurring as a requirement of the program. During the didactic phase of the program, students will need to commute to Providence to attend Gross Anatomy at the Warren Alpert Medical School of Brown University, simulation exercises at Rhode Island Hospital, and other travel as deemed necessary by the program. During the clinical phase most time will be spent at Supervised Clinical Practice Experiences. The greater majority of these rotations will occur at healthcare facilities within 50 miles of the program, however students must be prepared to travel to sites outside of this radius.

Insurance

Students will be required to obtain health insurance as well as liability insurance through Bryant University. The program includes the cost of these policies in Student Fees and will arrange coverage for enrolled students once they matriculate.

Financial Aid

The Bryant University Office of Financial Aid will coordinate financial aid for any student requiring student loans.

In order to be eligible for financial aid, a student must complete the Free Application for Federal Student Aid (FAFSA). This document is used to determine eligibility for federal and institutional aid. <http://www.fafsa.ed.gov/>

After completing the application, students are encouraged to contact the Bryant University Office of Financial Aid and speak with a Financial Aid Counselor.

Office of Financial Aid
Phone: (401) 232-6020
Email: finaid@bryant.edu
<http://www.bryant.edu/admissions/cost-and-financial-aid/contact-a-financial-aid-counselor.htm>

Financing Options

William D. Ford Federal Direct Loan Program

Graduate students enrolled in a degree program on at least a half-time basis (6 credits) may be eligible to borrow through the William D. Ford Federal Direct Loan Program. Students must first complete a Free Application for Federal Student Aid (FAFSA) on the web site

www.fafsa.ed.gov. (<http://www.fafsa.ed.gov>) Upon receiving confirmation of eligibility from the financial aid office, student borrowers will need to complete on-line Entrance Counseling and a Master Promissory Note (MPN) on the federal web site www.studentloans.gov. (<http://www.studentloans.gov>)

Federal Grad PLUS

In addition to the Federal Direct Loan Program, eligible graduate students may also borrow through the Federal Grad PLUS Program. This may be particularly useful to graduate students in need of additional funding beyond the Federal Direct Loan's annual maximum of \$20,500. The application, entrance counseling and Master Promissory Note must be completed at www.studentloans.gov. (<http://www.studentloans.gov>)

Privately Funded Education Loans

A number of privately funded education loans are available to graduate students through non-profit lenders (generally one per state), as well as some of the larger for-profit lending firms. Further details are available in the Office of Financial Aid. Hours of operation are Monday through Friday during regular business hours.

Veterans Administration Educational Benefits

There are many education assistance programs available to eligible veterans and their dependents. Interested students are encouraged to contact Veterans Affairs at (800) 827-1000 or visit their website at www.va.gov (<http://www.va.gov>). There is a Veterans Administration Coordinator located in the Office of Academic Records and Registration.

Private Scholarships

In addition to information readily available through routine web searching, the Office of Financial Aid maintains an up-to-date online listing of scholarship notices from a number of foundations and organizations promoting their programs. These can be viewed by registered Bryant students in the financial aid section of the University's secure myBryant web portal.

Academic Policies and Procedures

The physician assistant program is a 27-month, 126 semester hour course of study leading to a Master of Science in Physician Assistant Studies degree.

The didactic portion of the PA program is designed in a sequential fashion, with each term building on the previous term's coursework. All required assignments for each class must be completed by the end of the term in order to progress to the following term. Failure to do so will result in the student being placed on Academic Probation and necessitate Remediation. Failure to remediate successfully may result in deceleration or dismissal.

The program must be completed within 5 years of initial entry/matriculation.

Requirements for progression in and completion of the program

Requirements for progression and completion of the program depend on the student demonstrating the learning outcomes and competencies,

including professionalism, for each course, and for the program overall during the summative evaluation.

In order to progress through the program, students must maintain an average of 3.0 GPA per term and must pass each course and/or rotation.

Failure to maintain a 3.0 GPA per term will result in being placed on Academic Probation. If the student fails to maintain this minimum for more than two terms or rotations, they are subject to dismissal.

If the student fails to meet criteria for progression and decelerates, all coursework/ required program components must be completed within 5 years of initial matriculation.

Policies and procedures for remediation and deceleration

Remediation

1. Remediation for failed test:
 - A test score of <75 will result in a notification of the Academic Support and Remediation Committee and a request for the student to meet with both the assigned advisor and the course director to address the low score and to develop a study/ remediation plan to address the learning deficits. The student will then take another test with similar content to the failed test, within ten days from the initial test. A passing score on this retest will result in the assignation of the minimum passing score of 75. Failure will result in an average of the two test scores and placement on Academic Probation. The student may only take up to two retests per term.
2. Remediation for failed course in the didactic year
 - Minimum passing grade for each course during the didactic year is a "C" (i.e. 75 or above) and an overall GPA of 3.0 must be maintained for each term in the didactic year. Failure of a course will result in the student being placed on Academic Probation. The student will be followed by the Academic Support and Remediation Committee and will meet with the student advisor and course coordinator to fulfill the remediation plan. The student will then complete a remediation exam, which must be completed within 10 days of the course failure. Unsuccessful completion of the test will result in failure to progress to the next term and therefore deceleration. Passing the test will allow the student to progress to the next term, however, the student will remain on Academic Probation. No more than two failing courses can be remediated during one term. Failure to remediate successfully will result in deceleration and more than two failures in one term will result in dismissal from the program.
3. Remediation for a failed clinical rotation
 - During the clinical year the minimum required grade to pass each rotation is a "B" (i.e. 83 or above). Failure to obtain a "B" will necessitate repeating the failed rotation after the remediation plan has been successfully completed. The student's faculty advisor and the Director of Clinical Education will develop the remediation plan. Failing the remediation plan or failing the repeat rotation will result in dismissal. No more than two clinical rotations may be repeated: more than two failures of clinical rotations will result in dismissal.

Deceleration

- Failure to successfully fulfill the requirements of the assigned remediation plan after having failed a class/course during the didactic

portion of the program will result in deceleration, where the student will have to make up the class during the next regularly scheduled offering. Since PA courses are offered in a sequential fashion, each building on the previous courses, failure to pass a class during the didactic year will result in the student not being able to proceed to the next terms' courses. The student will therefore have to join the next year's class/ cohort.

- During the clinical year, the student who fails a rotation (up to two) and remediates successfully will have a delayed graduation date, but does not have to furlough for a year to rejoin clinical rotations as is necessary in the didactic year.

Cancellation of Classes

Cancellation/delay of classes due to weather conditions will be announced over local radio and television stations. A detailed message will also be available by calling the University's emergency line at (401) 232-6002.

The announcement to cancel or delay classes will also be available on the university website at www.bryant.edu. When individual classes are cancelled, students will be notified via their Bryant e-mail accounts. Any cancelled classes will be rescheduled by the Program and may occur outside of normal scheduled class hours, to include evenings and weekends.

Credit Hour

Each academic term is twelve weeks in length, however, the semester hours assigned represent workload equivalent to sixteen calendar weeks.

Grading System

The graduate programs use the following grading system:

Grade	Grade Points
A	4.0
A-	3.7
B+	3.3
B	3.0
B-	2.7
C+	2.3
C	2.0
F	0.0

Progression Requirements

Requirements for progression and completion of the program depend on the student demonstrating the learning outcomes and competencies, including professionalism, for each course, and for the program overall during the summative evaluation. In order to progress through the program, students must maintain an average of 3.0 GPA per term and must pass each course and/or rotation. Failure to maintain a 3.0 GPA per term will result in being placed on Academic Probation. If the student fails to maintain this minimum for more than two terms or rotations, they are subject to dismissal. If the student fails to meet criteria for progression and decelerates, all coursework/ required program components must be completed within five years of initial matriculation. Only courses taken and credits received in the graduate programs at Bryant University are included in the computation of the grade-point average.

Quality points are determined by multiplying credits by grade points. Grade points are listed in the table above. The grade-point average (GPA) is determined by dividing the total quality points earned by the total credits completed

Student Employment

Employment by the student while enrolled in the program, while not prohibited, is strongly discouraged. The program is one of intense study with educational activities routinely scheduled from Monday through Friday 8am to 5pm during the didactic year (not including independent study) and becomes even more rigorous and time intensive during clinical rotations the following year. Absences secondary to work are not considered excused. Unexcused absences are considered unprofessional behavior and may result in grade penalties and potential deceleration and/or dismissal if professional and academic standards are not met. Students who have been placed on Academic Probation are prohibited from working during their time on probation. Non-adherence to this policy will risk immediate dismissal. Students are not required to work for the Physician Assistant program.

Graduation

Students who successfully complete all of the degree requirements for the Physician Assistants Program with a cumulative GPA of 3.0, with no course grade lower than a C and within 5 years of matriculation will be eligible for graduation.

Honors at Graduation

To graduate with honors, a student must attain a grade point average of 3.75 or better.

Pi Alpha

Pi Alpha is the national Physician Assistant honor society organized for the promotion and recognition of both PA students and graduates. Membership signifies the inductee's significant academic achievement and honors them for their leadership, research, community/professional service and other related activities. The society also encourages a high standard of character and conduct among students and graduates. Current students of accredited PA programs with chapter status through Pi Alpha may be considered for student membership by demonstrating the following: minimum GPA of 3.5 and excellence in research, publishing, community/professional service, or leadership activities.

Academic Honesty Policy

A high standard of conduct is expected. A graduate student's education is the result of his or her initiative and industry. Each Bryant graduate student, accordingly, understands that to submit work that is not his/her own is not only a transgression of University policy but also a violation of personal integrity.

The academic community, therefore, does not tolerate any form of "cheating" – the dishonest use of assistance in the preparation of outside or in-class assignments. Such violations including, but not limited to, plagiarism are subject to disciplinary action. To preserve its commitment to the high standards of intellectual and professional behavior, Bryant University will respect intellectual excellence and expect intellectual honesty.

The following due process procedure shall apply to cases of graduate students involving academic dishonesty:

Step 1

Instructors teaching graduate courses have the explicit responsibility to take action in alleged cases of academic dishonesty. This action may include the following:

- failing grade on assignment or exam
- failing grade for the course
- recommend dismissal from the Graduate School

Step 2

The instructor's decision may be appealed by the student to the Graduate Faculty Advisory Committee (GFAC) (medical). The Committee may recommend to the Physician Assistant Program Director one of the following alternatives:

- To sustain the instructor's decision
- To place the student on probationary status, as specified by the Committee.

This gives the Committee the right to review and monitor the student's academic performance for the duration of the probation period, and recommend one of the following alternatives:

- To recommend dismissal of the student to the Interim Provost
- To restore the individual to the status of a student in good standing

A similar process will be followed in cases of dishonesty other than academic.

Academic Dismissal

Student progress is tracked weekly by the Academic Support and Remediation Committee (ASRC). Upon recognition of a student's failure to meet minimum standards for progression, the ASRC will notify the Program Director. The Program Director will prepare a Letter of Dismissal for signature by the Provost. The Provost will make the final decision based on the information provided by the PA Program and forward the signed letter back to the Program Director. The Letter of Dismissal shall be hand delivered to the student by the Program Director. In the event that the Letter of Dismissal cannot be hand delivered to the student, it will be mailed to the student's permanent address of record via Registered Mail. The process for appeal will be outlined within the Letter of Dismissal.

Academic Grievance

Grievances related to grades should be first directed to the course coordinator who assigned the grade. If a satisfactory conclusion is not reached, the student may submit a written appeal to the Academic Support and Remediation Committee for further evaluation. Students may further appeal in writing to the Program Director.

Non-Academic Grievance

Grievances that do not involve academic progress must be submitted in writing to the Program Director.

Final Appeal

For academic and non-academic grievances, the final authority for dismissal falls under the authority of the Interim Provost. Any student facing dismissal from the program may request that their grievance be forwarded to the Interim Provost for final review.

Graduate School Code of Conduct

Bryant University is an educationally purposeful community – a place where faculty, staff and students work together to strengthen teaching and learning on campus. The campus is a place where high standards of civility are set and violations are challenged. Bryant University is a community whose members speak and listen carefully to each other. Bryant University is a place where the sacredness of each person is honored and where diversity is aggressively pursued. Bryant University clearly states both its academic and social expectations. All must accept their obligations as citizens of the Bryant community and expect to be held accountable for behavior as individuals and members of groups. The university is a caring community where the well-being of each member is supported and where service to others is encouraged. All students are expected to obey applicable local state and federal laws as well as the policies of the university. These policies are found in the Graduate Catalog and the University Policy Manual. All students are subject to disciplinary action for violations. Graduate violations of policy shall be adjudicated by the Graduate Disciplinary Committee.

Behavior and Discipline

The University expects students to assume responsibility for their actions. It also has an equal obligation to protect its educational purpose and the interests of its student body; therefore, it must be concerned with the actions of individuals or groups that are in conflict with the welfare and integrity of the University or in disregard for the rights of other students, faculty, or other members of the University community.

Complete guidelines and policies are found in The Student Handbook. When students enroll at Bryant University, it is assumed that they have a serious purpose and a sincere interest in their own social and intellectual development.

It is also assumed that students familiar with the regulations, procedures, and policies set forth at Bryant University have accepted them as a “way of life” during their stay at the University. They are expected to learn to cope with problems intelligently, reasonably, and with consideration for the rights of others; to obey laws and ordinances of the nation, state, and community of which they, as well as the University, are a part; and to conduct themselves peaceably in espousing changes they may consider necessary. As students prize rights and freedoms for themselves, they are expected to respect the rights and freedoms of others.

Students are subject to federal, state, and local laws as well as University rules and regulations. A student is not entitled to greater immunities or privileges before the law than those enjoyed by other citizens generally. Students are subject to such reasonable disciplinary action as deemed appropriate, including suspension and expulsion in appropriate cases for breach of federal, state, or local laws, or University rules or regulations. The principle extends to conduct off campus that is likely to have adverse effects on the University, or on the educational process, or which stamps the offender as an unfit associate for other students.

Non-Academic Dismissal

Students are expected to obey applicable local, state and federal laws as well as the policies of Bryant University and are not entitled to greater immunity or privilege before the law than that enjoyed by ordinary citizens. As they prize rights and responsibilities for themselves, students are expected to respect the rights and responsibilities of others. For infractions of laws, regulations, policies and standards, students may be subject to disciplinary action up to and including expulsion from the University. Such disciplinary action may be imposed for violations which

occur off campus when the violation may have an adverse effect on the educational mission of the University. Violations of University Student Code of Conduct will be handled in accordance with the Student Code of Conduct outlined in the current Bryant University Student Handbook.

Violations of the PA Program Honor Code will not be tolerated. Students accused of engaging in non-professional behavior are subject to non-academic probation or dismissal. The student or faculty member who suspects non-professional behavior or violation of the honor code are required to notify the suspected party of the offense as well as notify the Graduate Faculty Advisory Committee (medical) of the offense. The GFAC (medical) will investigate the offense and make a recommendation to the Program Director.

The Program Director will determine if the offense should be managed by the Program or if it meets a violation of the University Code of Conduct. If an offense meets the tenets of the University Code of Conduct, the case shall be referred to the Office of the Dean of Students. Suspected criminal activity shall also be reported to DPS. If an offense violates the PA Program Honor Code, but does not require reporting to the Dean of Students, the PA Program Director, working with the GFAC (medical) shall determine if the offense warrants probation or dismissal. A student placed on non-academic probation shall have a letter placed in their academic file and shall meet with their advisor to determine a remediation plan. If the student fails to remediate, or commits further offenses, the case shall be forwarded to the Interim Provost for a recommendation for dismissal.

A student case that warrants dismissal shall be forwarded to the Interim Provost for a recommendation for dismissal. The Interim Provost will make the final decision based on the information provided by the PA Program and forward the signed letter back to the Program. The Letter of Dismissal shall be hand delivered to the student by the Program Director. In the event that the Letter of Dismissal cannot be hand delivered to the student, it will be mailed to the student's permanent address of record via Registered Mail. The process for appeal will be outlined within the Letter of Dismissal.

Harassment

Protection from Harassment — Policy Statement

Bryant University is committed to maintaining a working and learning environment which supports respect for the individual and for academic freedom, where all members of the community can work and learn in an atmosphere that is free from sexual or other types of harassment. It is the policy of Bryant University that no member of the University community, including faculty, staff, students, volunteers, interns, and third party contractors, may subject another to sexual or any other type of harassment.

Harassment on the basis of race, color, religion, sex, sexual preference or orientation, gender identity or expression, national origin, age, ethnicity, disability, veteran or marital status undermines the basic principles of the Bryant community and will not be tolerated.

Harassment includes but is not limited to unwelcome verbal, electronic and/or physical conduct directed toward an individual or regarding an individual's race, color, religion, sex, sexual preference or orientation, gender identity or expression, national origin, age, ethnicity, disability, veteran or marital status that has the purpose or effect of humiliating and/or intimidating an individual or hindering and/or interfering with work performance, academic status, or college life. In particular, sexual

harassment is defined as unwanted sexual advances, requests for sexual favors, and all other verbal or physical conduct of a sexual nature where: submission to such conduct is made either explicitly or implicitly a term or condition of an individual's employment or academic status; or submission to or rejection of such conduct by an individual is used as the basis for employment or academic decisions affecting such individual; or such conduct has the purpose or effect of unreasonably interfering with an individual's work or academic performance or creating an intimidating, hostile, or offensive environment in which to work or learn.

Bryant University considers harassment a very serious matter. Any person found to be engaging in harassment, including sexual harassment, or who aids and abets or incites such conduct, will be subject to disciplinary action, up to and including termination of employment or expulsion from an educational program of the University. Further, any retaliation against an individual for filing a complaint or for cooperating in an investigation of such a complaint is similarly prohibited and will not be tolerated.

Reporting Procedures:

Bryant University encourages the reporting of all perceived incidents of discrimination, harassment or retaliation, regardless of the offender's identity or position. To encourage persons to come forward, the University provides several channels of communication, information, and complaint resolution as outlined below.

Information, Counseling and Advocacy:

Anyone may seek advice, information or counseling on any matter, including matters relating to harassment, without having to lodge a complaint. Names and telephone numbers of these resources are listed below:

Counseling Services: 401-232-6045

Health Services: 401-232-6220

Student Affairs: 401-232-6046

Vice President for Student Affairs/Dean of Students:
401-232-6046

Associate Vice president for Human Resources: 401-232-6011

The full policy and reporting procedures can be found in the Bryant University Student Manual and on the Bryant Website at <http://policies.bryant.edu/general.htm#harassment>.

Informal Complaint Process:

Either verbally or in writing, notify the offender firmly and promptly that his or her behavior is unwelcome. While dealing informally with a problem of harassment may resolve the matter more expeditiously and more confidentially, no action can be taken by the University when it is not aware of the harassing conduct. Hence, informal complaint procedures should not be used for severe or habitual cases of harassment.

Formal Complaint/Reporting Process:

When a formal complaint is received, the University will promptly investigate the allegation in a fair and expeditious manner. The investigation will be conducted in such a way as to maintain confidentiality to the extent practicable under the circumstances.

The investigation will include a private interview with the person(s) filing the complaint and with witnesses. The person(s) alleged to have committed harassment would also be interviewed. When the investigation has been completed, the results of that investigation, to the extent

appropriate, will be shared with the person filing the complaint and the person alleged to have committed the conduct. If it is determined that inappropriate conduct has occurred, the University will act promptly to eliminate the offending conduct, and where appropriate, will impose disciplinary action.

Information Services Network Acceptable Use Policy

All members of the Bryant University community who use the University computing, information, and communication resources must act responsibly. Every user is responsible for the integrity of these resources under their control. All users of University-owned or University-leased Information Services systems must respect the rights of other users, respect the integrity of the physical facilities and controls, and comply with all licenses and contractual agreements.

http://web.bryant.edu/~commtech/acceptable_use.html

1. Acceptable use of E-mail

The University's electronic mail services are University facilities and are intended for use for teaching, learning, research, and administration in support of Bryant University's mission. Bryant University e-mail services may not be used for personal business or personal gain except as permitted by other University policies.

Student Services

Cultural and Recreational Opportunities

Bryant University is ideally situated so that students can benefit from the intellectual, cultural, and social opportunities of New England. The University offers a variety of performances, lectures, concerts, events, and major speakers throughout the year.

Just 12 miles away, Providence is one of the largest cities in New England and a cultural and artistic center. Providence's collections of art treasures can be viewed at the Rhode Island School of Design Museum and several other galleries. The Rhode Island Philharmonic Orchestra, the Rhode Island Festival Ballet, and Trinity Square Repertory Company present programs of outstanding artistic merit. The nationally acclaimed Providence Performing Arts Center presents a wide assortment of Broadway shows. The Dunkin' Donuts Center and the Convention Center in Providence host attractions ranging from college basketball and professional hockey to rock concerts and festivals.

Students who attend summer sessions can take advantage of Rhode Island's many famous summer resorts. The University is less than an hour's drive from Narragansett Pier and Watch Hill, featuring miles of sandy beaches. Newport, noted for its music festivals, scenic ocean drives, and elegant mansions, is only 40 miles away. Boston is just an hour away and offers exceptional cultural and recreational attractions including the Boston Symphony, Museum of Fine Arts, Red Sox baseball, Patriots football, Celtics basketball, and Bruins hockey. New York City is three hours away.

Art Series

The Art Series features a variety of programs designed to enrich the lives of all members of the Bryant community. Visual art displays, performing arts programs, poetry readings, and discounted tickets to the Providence Performing Arts Center are offered every year.

Unisttructure

The modern and functional Unisttructure houses most administrative and academic functions under one roof. There are more than 200 workstations in classrooms throughout the building. A focal point of the Unisttructure is the two-story, plexiglassed-domed Koffler Rotunda, the central gathering place for the Bryant community. The Salmanson Dining Room and Café à la Carte also are located in the Unisttructure. The Graduate Program office is located in the Management Resource Complex (MRC) wing of the Unisttructure.

George E. Bello Center for Information and Technology

The George E. Bello Center for Information and Technology is the centerpiece of Bryant University's campus. The Heidi and Walter Stepan Grand Hall, which serves as a space for exhibitions, receptions, and lectures, has The Linda and Jerry Cerce Media Wall with nine video monitors. A rotunda provides balconied meeting and study spaces. The 72,000-square-foot facility features the C.V. Starr Financial Markets Center, simulating real-life trading scenarios and real-world trading conditions that provide students with cutting-edge, hands-on training. Students, faculty, and staff have access to high-speed computers to support teaching, research, and business planning. All seating areas are equipped with Internet connectivity, and students may opt to use their personal laptops, or they may borrow one on site. In addition, there are reference and multifunction classrooms that can each accommodate up to 40 people with laptops, and 13 team study rooms with laptop power and network access available for small group meetings. The George E. Bello Center is equipped with state-of-the-art high-speed wireless connectivity. Students can roam in or outside the building with their wireless laptops, and maintain a connection to the Internet. For quiet study there is even a traditional reading room. Students also have access to presentation technologies, scanning, and digitation equipment. The Bulldog Bytes Café provides refreshments and computer access in a social setting. Also located in the Bello Center is Laptop Central, which serves as the Student IT Helpdesk and laptop repair center.

The Douglas and Judith Krupp Library

The Douglas and Judith Krupp Library, located within the George E. Bello Center for Information and Technology, is a dynamic learning environment merging traditional library services with extraordinary technologies. Wired and wireless Internet connectivity is abundantly available throughout the building. Display technologies inform students on local and world events. Seventy computer workstations provide access to over 50 computer software packages in addition to an impressive array of electronic information resources. Laptops, Kindles®, and iPads® are also available for limited loan periods. A variety of spacious, comfortable study areas including study rooms for group projects further enhance the learning experience.

The library houses more than 150,000 items, and current print and electronic journal subscriptions totaling more than 50,000 titles are available via the library's journal portal. Students can access electronic subscriptions and electronic reserve readings from anywhere on campus. Off campus access to electronic resources is available to students via their library account. Available electronic resources include information services such as LEXIS/NEXIS Academic Universe, Proquest, EBSCO, Mergent Online, ARTstor, and the Value Line Research Center. The

library's knowledge base is available to students using Google Scholar through the library's link resolver service.

Professional reference librarians are on duty more than 80 hours per week and offer personal assistance and/or group instruction on traditional and electronic resources. Reference librarians are also available electronically using chat room technologies, text messaging, or simply via email or phone. Bryant's membership in Rhode Island's Higher Education Library Information Network (HELIN) provides students access to nearly 5 million additional volumes for easy borrowing and physical access to other HELIN member libraries. The Douglas and Judith Krupp Library is also a member of the Consortium of Rhode Island Academic and Research Libraries (CRIARL) and the Online Computer Library Center (OCLC). Through these library networks, students are able to get additional information needed for their research projects.

The Academic Center for Excellence (ACE) and the Writing Center

The Academic Center for Excellence (ACE) and the Writing Center staff engage in a partnership with students to help them achieve their academic goals. The staff includes a network of full-time and part-time professionals who are specialists in writing, math, English as a second language, academic skills, and learning disabilities. Learning specialists help students find out what learning and study strategies work best for them. Study skills workshops are listed on the ACE website with topics and times. Visit the ACE website (<http://intranet.bryant.edu/portal/academic-success-programs/ace>) to get the most up-to-date information regarding programs and services.

Accommodation for Students with Disabilities

Students with learning disabilities can process academic accommodation requests in the Academic Center for Excellence. To receive academic accommodations, students must submit documentation that describes the nature of the learning disability to the learning specialist at ACE. Diagnostic testing that identifies the existence of the learning disability must have been completed within the past three years. The learning specialist recommends academic accommodations; however, it is incumbent upon the student to schedule an appointment with the learning specialist at the beginning of each new semester to arrange for services. Students with learning disabilities should contact the learning specialist at (401) 232-6746.

Learning Specialists

Specialists provide individualized assistance in study skills development for all students and learning strategy assessments for students with learning disabilities.

Academic accommodations are available for students with documented learning disabilities. Students must schedule an appointment with the ACE Learning Specialist as soon as they register for courses each semester. Documentation guidelines may be accessed here (<http://intranet.bryant.edu/portal/academic-success-programs/learning-disability-and-adhd-services/guidelines-for-documentation-of-specific-learning-disabilities-ld.htm>).

Writing Center

The Writing Center is available to help graduate students strengthen their writing skills. Individual, group, and online instruction are offered, as outlined below:

Group Instruction – Instructional sessions are offered throughout the semester at no cost to students. Groups of students can also meet with a writing specialist (see below) to discuss collaborative projects.

Individualized Instruction – Writing specialists, professionals with an MA and/or PhD in English or writing, are available for individualized consultation.

An English as a second language writing specialist is available to help students for whom English is a foreign language.

Online Instruction – Students can now use e-mail and a dedicated chat room to receive feedback from our staff of professional writing specialists.

To schedule a Writing Center appointment, call (401) 232-6567. For ACE appointments, call (401) 232-6746.

Language and Learning Laboratory

Bryant's advanced Virtual Language and Learning Lab facility provides access to tools and resources that prepare students to communicate in the international business environment. The resources offered from this facility help students develop conversational skills in Chinese, French, Italian, and Spanish.

The Lab offers an instructor's console station, 28 student computer workstations, and international television broadcasts of 150 programs from more than 80 countries. Students can also access the Lab's resources via the Internet from anywhere in the world. Advanced technologies from the Lab include Voice-Over-IP technologies for online group collaboration and tutoring and Video/Audio On-Demand resources that provide self-paced and interactive learning materials.

Amica Center for Career Education

The office of career services offers a comprehensive range of services to graduate students including career decision counseling, assistance with resume writing, interviewing and job search strategies. The career resource library and Alumni Career Network can be used to research careers and companies. A weekly publication lists current job openings – some of which may be appropriate for graduate students.

Michael E. '67 and Karen L. Fisher Student Center

The Fisher Student Center is a vibrant hub for collaboration, experiential learning, and relaxation for the entire Bryant community. The Fisher Center's innovative design features include: leadership pods and collaboration stations to advance new modes of learning; a signature fireplace that creates a central campus common and serves as a functional and symbolic hearth; rehearsal and performance suite; offices and meeting rooms for clubs and organizations such as the Center for Diversity and Inclusion (CDI), Intercultural Center, Hochberg Women's Center, and Bryant Pride Center; expanded dining options; a convenience store; and a bookstore.

The Center for Diversity and Inclusion

The Center for Diversity and Inclusion (CDI) brings leadership, vision, integrity, and a team-oriented philosophy to the diversity and inclusion efforts at Bryant University. The CDI is responsible for leading the University on matters of equity, diversity, and inclusion and will educate the campus community regarding the importance and advantages of a culture that values and supports each member of our community.

The Center for Diversity and Inclusion comprises the professional and paraprofessional staff of the Gertrude Hochberg Women's Center, the Intercultural Center, Disability Services, The PRIDE Center and Campus Ministries/Faith and Spirituality. The CDI staff partners with the Office of International Student and Scholar Services, which reports to the Vice President for International Affairs, to provide support and services to international students.

The Intercultural Center

The Intercultural Center for International Education and Multicultural Affairs (ICC) is the Center for education on international and multiethnic issues at Bryant University. The Center is the place for discourse, resource development and consultation on diversity. It also serves as a resource base for international and multicultural students on campus. The mission of the Intercultural Center has evolved and broadened since its creation in 1977.

The professional educators who staff the Center teach, collaborate with faculty and administrative departments, and counsel and mentor students. The office creates programs and events for the entire campus to enhance appreciation for and awareness of cultural diversity within the Bryant community. The ICC is also responsible for compliance with immigration regulations for undergraduate and graduate F-1 visa students and staff members serve as the advisors to the Multicultural Student Union and the International Student Organization.

The Ronald K. and Kati C. Machtley Interfaith Center

Although Bryant is not religiously affiliated, we recognize the need to provide a special place for people of all faith perspectives to come together to express their spirituality and learn from one another. Designed to inspire all who enter, the Machtley Interfaith Center serves this vital function. Services for various religious faiths, concerts, and speakers discussing topics related to religion and spirituality are featured in this space throughout the year.

Computerized Classroom Resources

Bryant continually upgrades its classroom facilities to ensure that both students and instructors have the latest technology. For example, in the Stanton W. and Elizabeth K. Davis Electronic Classroom, each student works at a computer linked to the Internet and to the instructor's computer. Lecture notes and assignments can be sent electronically from instructor to student, and quizzes and exams can be taken and graded on the computer.

The Unistructure contains several computerized classrooms designed to enhance the teaching and learning environment. In some classrooms, individual students work at PCs networked to the University's computing resources and the Internet. In others, computerized instructor workstations allow for technology-based presentations and instruction. All classrooms are linked to the Internet, which allows instructors to bring real-time, real-world examples directly into the classroom. Bryant's faculty

also make use of technology to extend learning opportunities beyond the classroom through electronic discussion groups, e-mail, and by providing class materials via the Web.

Language and Learning Laboratory

Bryant's advanced Virtual Language and Learning Lab facility provides access to tools and resources that prepare students to communicate in the international business environment. The resources offered from this facility help students develop conversational skills in Chinese, French, Italian, and Spanish.

The Lab offers an instructor's console station, 28 student computer workstations, and international television broadcasts of 150 programs from more than 80 countries. Students can also access the Lab's resources via the Internet from anywhere in the world. Advanced technologies from the Lab include Voice-Over-IP technologies for online group collaboration and tutoring and Video/Audio On-Demand resources that provide self-paced and interactive learning materials.

Koffler Center and Communications Complex

Koffler houses Bryant's Communications Complex, a state-of-the-art digital and multimedia TV studio.

Communications Complex – Main Floor – Koffler Technology Center and TV Studio/ Radio Station

- The television studio serves as a pre- and post-production training ground for students enrolled in the communication degree program, those who minor in communication, or any member of the Bryant community who would like to learn more about video production.
- The studio has the capability to broadcast programming on campus.
- The 3,000-square-foot studio has a control room, three advanced multimedia editing/support rooms, and a multimedia classroom.
- The Communications Complex includes a dedicated studio for WJMF, Bryant's student-run radio station, which is broadcast worldwide via the web at WJMFradio.com and locally on 88.7HD2.

Communications Complex – Lower Level

- Sixteen (16) personal computers available for student use.
- Open evening and weekend hours.
- Software is replaced and updated in step with the latest technology.
- Windows is installed on every computer.
- The computers in the labs can print in black and white to the lab printer. An 800-page allowance is granted each year. After that, a 5¢ per page charge, which is applied directly to the student's Banner account. This charge will also apply to the Bello Center printers.

Communications Complex – Upper Level

- Faculty offices from various departments are located on this level.

Student Printing Facilities

- Students can print wirelessly via their laptop to several printers located on campus.
- Printers are available in the following locations: Fisher Student Center, Krupp Library in the Bello Center, and on both the first and second floors of the M-wing in the Unistructure.

- An 800-page free printing allowance is granted each year. After that, a charge of 5 cents per black-and-white page and 50 cents per color page is applied directly to the students Banner account.

The Elizabeth and Malcolm Chace Wellness and Athletic Center

The two-story Chace Wellness and Athletic Center includes a six-lane pool, a multi-windowed 9,000 square-foot fitness center, The Eannarino Family Aerobics and Group Exercise Studio, and four locker rooms. The Mike '67 and Karen Fisher Lobby – a bright and airy atrium – creates an inviting main entrance to the entire athletic complex. The Wellness Center is a vibrant hub of health and recreational activities for the entire Bryant community.

The Gymnasium

Bryant's gymnasium houses athletic offices, exercise rooms, and basketball and volleyball courts. The seating capacity for the gym is 2,600. Many University-wide events are held in the gym, which is available to off-campus programs at certain times during the year.

The Multipurpose Activities Center (MAC)

The Multipurpose Activities Center (MAC) is the site for large University functions and sporting events. The MAC features the Jarvis Varsity Weight Room; racquetball and squash courts; and multipurpose courts for popular intramural sports such as basketball, volleyball, team handball, indoor soccer, and floor hockey.

Athletic Fields and Outdoor Facilities

Thirty-five acres of athletic and recreational fields adjacent to the building include tennis courts, a 400 meter track, a 3.2-mile cross-country course, and playing fields for baseball, soccer, football, softball, rugby, lacrosse, and field hockey. Bulldog Stadium, an outdoor 4,400-seat facility, is used by the football, soccer, and lacrosse teams. Conaty Park, a first-class Division I baseball and softball complex, was opened in April 2012. There is also a golf tee and putting green.

Artificial Turf Field

This is the home field for the field hockey team. Located inside the outdoor all-weather track and adjacent to the newly constructed tennis courts, the turf field serves as a practice facility for all varsity outdoor teams. The lighted field is also available for club sports, intramurals, and night activities.

Athletics and Recreation

Recreation and physical fitness are important components of the Bryant experience. A variety of intramural programs for men and women provide competitive recreation throughout the school year for all students who wish to participate. These programs include Basketball, Dodgeball, Field Hockey, Flag Football, Floor Hockey, Indoor/Outdoor Soccer, Softball, Team Handball, Volleyball, and many more.

Bryant University is a Division I member of the Northeast Conference. Men's teams participate in Baseball, Basketball, Cross Country, Football, Golf, Indoor Track and Field, Lacrosse, Outdoor Track and Field, Soccer, and Tennis. Women's teams participate in Basketball, Cross Country, Indoor Track and Field, Lacrosse, Outdoor Track and Field, Soccer, Softball, Swimming and Diving, Tennis, and Volleyball. Field Hockey and

Men's Swimming and Diving compete as Division I members of the Metro Atlantic Athletic Conference.

Club sports include Bowling, Cheerleading, Dance, Men's Ice Hockey, Karate, Men's Volleyball, Racquetball, Men's Rugby, Squash, Ultimate Frisbee, Women's Crew, and Women's Rugby.

Bryant Bookstore & Online Purchases

The Bryant University bookstore is located in the Fisher Student Center. Please call (401) 232-6240 for bookstore hours. Textbooks may also be ordered online at www.efollett.com (<http://www.efollett.com>).

Campus Ministry

The chaplains in Campus Ministry address the spiritual needs of Bryant students and staff. Protestant, Catholic, and Jewish chaplains are available to serve as sources of support, guidance, and spiritual development for all members of the University community.

Health Services

Bryant University Health Services is a nurse practitioner-directed program. Located on the first floor of Residence Hall 16, it is staffed by a part-time physician, certified family nurse practitioners, and health educators.

The University requires that all full-time resident graduate students provide documentation of health insurance. Low cost accident and illness insurance is available for all students who wish to purchase it. Information about this insurance can be obtained at the Health Services Office.

Security/Public Safety

ID and Parking Sticker Policy

Bryant's campus is a secure place to live. Campus security measures include call boxes that dispatch calls directly to Public Safety. Public Safety officers are on duty 24 hours a day, seven days a week. Residence hall exterior doors are locked at night, only accessible to students. Individual key locks are on the door of each room. Visitors are checked in on weeknights and throughout the weekend.

All students are required to have a current parking sticker and student photo ID. These may be obtained in the Department of Public Safety (DPS). In order to obtain a parking sticker, students are required to bring their driver's license and vehicle registration to the Department of Public Safety. Contact the Public Safety office at (401) 232- 6001 for more information.

Campus Media

The student-run media – The Archway and WJMF Radio – play a dual role for the Bryant community. In addition to providing the campus with news, opinions, and entertainment, these organizations give students direct experience with production techniques, editorial practices, and business management.

The Archway

Under student leadership, the college newspaper is published bi-weekly during the academic year. Its research, writing, editing, photography, typesetting, layout, and business management are handled entirely by the student staff.

WJMF

WJMF is Bryant's student-run radio station. Formerly broadcasting at 88.7 FM, the station entered into a partnership with Boston-based WGBH in May 2011 that enabled WJMF to become the first student-run station in the region to be available on several new transmission platforms, including WJMF HD-2 and mobile DTV channels. The partnership also gives Bryant students the opportunity to work alongside WGBH technicians and learn from the best digital and broadcast experts in the business. In exchange, WGBH uses 88.7 FM to rebroadcast its classical programming. (WJMF also can be heard online and via smartphone applications.)

Course Descriptions

Accounting (ACG)

Courses

ACG 690. Special Topics in Accounting. 3 Credit Hours.

This course is designed to allow a three-credit graduate elective course in contemporary topics and issues in accounting. The course will allow students to examine current issues with greater detail than is possible in the usual course offering.

ACG 691. Directed Independent Study in Accounting. 3 Credit Hours.

The course is designed to allow an individual academic program to be tailored to fit the unique interests of a graduate student. At the initiation of the graduate student, the faculty member and student will develop an academic plan that is submitted to the College of Business Graduate Program office for final approval.

Actuarial Mathematics (AM)

Courses

AM 540. Actuarial Mathematical Models and Stochastic Calculus. 3 Credit Hours.

The primary goal of this course is to provide the student a background in the mathematics of stochastic processes, risk, and financial economics as it relates to actuarial models. The underlying foundation of this course is the mathematics and economics of the pricing of financial options. As part of providing the framework for this field of study, advanced concepts such as Brownian Motion, the Black-Scholes Model, and the modeling of stochastic interest rates will be investigated. Taking this course will make it possible for the student to prepare for Society of Actuaries Exam MFE and the Casualty Actuarial Society Exam 3F.

Prerequisites: AM 342 or FIN 465.

Applied Analytics (AA)

Courses

AA 610. Analytics Methods and Applications. 3 Credit Hours.

This course serves as an introduction to the field of analytics. It covers the core concepts and applications of analytics in different areas. Students will be exposed to the concepts and tools of analytics, namely, data querying and reporting, data access and management, data cleansing, statistical programming, and statistical analysis of large data sets. Quantitative topics covered include descriptive statistics, regression analysis, forecasting, text mining, and data visualization and mining. Each of these statistical concepts will be applied to real world problems by utilizing case studies and appropriate data sets. The program will not focus on formulas; instead students will use the statistical and data mining software packages SAS Enterprise Guide and Enterprise Miner for much of their analysis. Students will also use SAS Forecast Server and SAS Visualization Analytics where appropriate.

AA 620. Data Mining and Predictive Analytics. 3 Credit Hours.

This course will focus on applying data mining methodologies and predictive analytics tools to extract useful patterns from large bodies of data and on interpreting the results in order to take reasoned action to solve problems. Students will work with large data sets from organizations in several different domains and analyze the data using SAS Enterprise Miner. Topics covered include: introduction to data mining concepts, data mining applications, the data mining process, profiling and predictive modeling, decision trees, neural networks, cluster analysis, association analysis and text mining. Students will also be introduced to visualization techniques and applications. An emphasis in this course will be placed on segmentation strategies and techniques.

AA 630. Data Management and Large Scale Data Analysis. 3 Credit Hours.

This course is an introduction to the principles and techniques for data acquisition, storage and management. In this course, students will learn how data is stored, accessed, and eventually analyzed. Basic components of database systems, and how data is accessed using SQL will be discussed. The design considerations for more comprehensive data storage systems such as Data Warehouses and Hadoop will also be covered. Lastly, the course will discuss representation methods and techniques that increase the understanding of complex data. Emphasis will be placed on the identification of patterns, trends and differences from data sets across categories, space, and time. SAS Enterprise Miner and Visualization Analytics will be used during this course.

AA 651. Analytics Capstone. 3 Credit Hours.

The Analytics Capstone course provides students with the opportunity to apply the knowledge and skills that they have acquired during the GCBA to realistic problems that involve very large data sets ("Big Data"). In addition to using the techniques students have learned in the previous courses, students will be introduced to other important topics related to Big Data such as Hadoop, map-reduce, association rules, large scale supervised machine learning, streaming data, clustering algorithms, and NoSQL systems (Cassandra, Pig, Hive), as well as SAS software packages. The course will culminate with a final project based on a large data set. Students will present the results of their analysis and recommendations to other students in the class and where appropriate to the organization that sponsored the project. Topics in project management will be presented during the course to help students organize their capstone project.

Communication (COM)

Courses

COM 551. Graduate Writing Workshop. 1 Credit Hour.

This course is a self-paced, hybrid class designed to teach students the basics of good writing, with special attention to scholarly writing.

COM 590. Introduction to Research Methods. 1 Credit Hour.

This online, self-paced course is intended as an introduction to the area of communication research methods for those students whose undergraduate study did not provide this background. It provides students with some of the concepts and ideas important to understanding and conducting research in Communication.

COM 591. Studies in Comm. Theory. 1 Credit Hour.

This is a self-paced, online course designed to introduce students with little or no coursework in Communication to the major theories used in the study of mass and human communication and to provide them with an understanding of the process of generating theory and knowledge about communication.

COM 601. Communication Theory. 3 Credit Hours.

This course provides students with an in-depth examination of the sub-fields of Mass and Interpersonal Communication. Major epistemological and theoretical approaches will be examined. Students will become conversant in the discipline's intellectual roots and they will develop the ability to use communication theory in their own research or chosen profession.

COM 602. Communication Research Methods and Statistics. 3 Credit Hours.

This course is designed to acquaint students with the basic concepts and issues involved in quantitative research methods and statistics. Students will become familiar with the scientific method, learning the proper terminology/concepts used in quantitative research. They will also be introduced to the tools and techniques of data analysis in social science research. These will consist of a variety of statistical procedures and tests of statistical inference. The end result of this course should be an improvement in students' ability to conduct sound research and analyze the work of others. Throughout the course, the ethics of quantitative research design and analysis will be emphasized.

Session Cycle: Spring

Yearly Cycle: Annual.

COM 603. Health Communication. 3 Credit Hours.

The overall goal of this class is to provide a foundation of relevant theories, research, practices, campaign processes, and current issues related to Health Communication. Health Communication, as a sub-discipline of Communication, generates new insights about communication as a process and health as a state of being. Health communicators, as translators, depend upon existing policy and knowledge about health and health-care to guide activities, and identify gaps between policy and practice.

COM 604. Organizational Communication. 3 Credit Hours.

This course is designed to introduce students to concepts in the study of professional communication in organizations. Students will examine major theoretical approaches including classical theories, system theories, cultural theories, and critical theories. Students will also examine organizational and relational challenges confronting organizations with an emphasis on the application of these principles in organizational settings.

COM 610. Conflict Management and Negotiation in Organizations. 3 Credit Hours.

Conflict is an ever-present component of any decision-making environment. By surveying relevant theory and research-- as well as applying the principles of such theory and research in actual simulations and case studies--students will (a) understand the multiple roles that communication plays in the processes of conflict management, negotiation, and mediation in organizations, (b) explore the elements and processes of negotiation and mediation, and (c) develop alternative models, theories, and ways of thinking about conflict and dispute management in organizations.

COM 611. Communication in Small Groups Applied Theory. 3 Credit Hours.

Much of what we do in life, we do in groups. Thus, the purpose of this course is to (a) give students a better understanding of the communicative practices that make a small group successful, and (b) provide students with the tools to diagnose and rectify potential obstacles to good group work. The class will provide students with an understanding of the major theories, issues, and concepts related to the study of communication in small groups. Particular attention will be paid to effective decision-making and leadership. We will deal primarily with task-oriented small groups--that is, groups with a specific objective to achieve, information to share, a problem to solve or a decision to make.

COM 612. Media Effects Theory and Research. 3 Credit Hours.

This course provides an integrated approach to learning about (a) the theories examining the effect of mass media and (b) the critical framework for evaluating communication research (mainly focusing on the empirical research process). The goal is to provide students with a solid understanding of major Mass Communication theories, as well as insight into how to conduct research to assemble knowledge. One major philosophical tenet of this class is that one of the most effective ways to learn is by being actively involved in the subject matter ("learning by doing"). Students will participate in a group project that will allow them to apply the principles of research learned in class and get hands-on experience conducting a research project in a creative and collaborative way.

COM 613. Communication, Persuasion, and Social Influence. 3 Credit Hours.

This course introduces graduate students to the study of social influence in communication. We will examine theoretical developments in social influence, considering their implications for message design, and source and channel selection. Special attention will be paid to understanding the validity of social influence theory for understanding persuasion outcomes in a variety of contexts. The theories addressed in this class posit important relationships about cognitive and societal processes. For communication scholars, these theories help to explain, predict, describe, and may be used to contribute to the outcomes associated with the design of various messages, the use of particular sources, and the selection of different channels to disseminate the messages. These will be the overarching areas of study in this course.

COM 614. Ethical Public Communication. 3 Credit Hours.

This course presents theories of Public Relations and its practice by business (both profit and non-profit), government, and any other type of organization, large or small. The emphasis is on learning the processes of developing, disseminating and measuring situation-specific, effective, and ethical informational pieces and/or campaigns targeted to the right audiences. The challenges and opportunities offered by traditional media, social and other "new" media will be addressed.

COM 615. Culture, Diversity, and Communication. 3 Credit Hours.

As Martin and Nakayama (2009) note, "We live in a rapidly changing world in which intercultural contact will continue to increase, creating a heightened potential for both conflict and cooperation." This class is designed to explore the theory and research explicating the challenges and benefits of living in a multicultural world. In particular, it is concerned with cultural diversity and with understanding and identifying the problems that occur when persons from different cultures engage in face-to-face communication. Cross-cultural communication and cultural competence are becoming important skills not only in interacting with others, but also in helping to define individual identities. This course will focus on how Culture and context impact a variety of individual, relational and societal issues.

COM 616. Seminar in Instructional Communication. 3 Credit Hours.

Designed for either beginning or experienced classroom teachers and organizational trainers, this course examines those communication variables and strategies which contribute to greater teacher/trainer effectiveness. Emphasis is on the design of instructional or training packages as well as directed research in instructional communication.

COM 617. Media Ethics. 3 Credit Hours.

This course combines practical and theoretical aspects of ethics in the context of advertising, public relations, journalism, and mass media entertainment. The course examines successes and failures of a wide variety of ethical dilemmas and their implications for the media and society.

COM 618. Risk and Crisis Communication. 3 Credit Hours.

The need to assess, understand and implement an effective communication strategy following a risk or crisis event is becoming increasingly important in our society. Whether it is responding to and dealing with the fallout from an environmental disaster, determining how to warn the public about a potential health hazard, or addressing a crisis in an organization, the need for an effective communication plan and its successful implementation is high. This course will examine the many intricate parts in the process of risk and crisis communication and explore key factors that impact this process.

COM 619. Global Communication. 3 Credit Hours.

This course examines the major issues in global communication through analyses of international news and information flows, media imports/exports, privatization and globalization within communication industries and the various models of global media systems. Students will evaluate the social and economic impacts of ICTs, the shifting relationships between developed and developing countries, and the socio-economic trends associated with globalization of media, and explore concepts such as nationalism, regionalism, globalization, and cultural identity.

COM 630. Lifespan Intergenerational Communication. 3 Credit Hours.

This course will introduce students to how intergenerational communication and health intersect across the entirety of people's lives. It will also introduce students to the life-span perspective of human communication. As such, students will investigate the theoretical propositions of this approach, its value in understanding family and health experiences, as well as how to apply it to better understand such experiences. Throughout the course, students will also explore communication as a developmental phenomenon, the nature of communication during transitional experiences, and the longitudinal implications of communication on our health and well-being.

COM 631. Community-Based Campaigns and Public Health. 3 Credit Hours.

This course is designed to introduce theoretical and pragmatic views for the conduct of health campaigns that use a community-based approach. Students will examine theories linked to agenda-setting, uncertainty management, norms, and authority and control as frameworks to consider values that guide health communication. The ethical dilemmas that arise in decisions about planning, implementing, and evaluating communication in community-based health campaigns will be introduced and applied to our review of health communication theory, research, and practice. Community-based health campaigns target multiple audiences, use multiple communication channels, and target multiple health-related outcomes. A community-based approach to health campaigns demonstrates the interdisciplinary nature of Health Communication and illustrates why it has come to be viewed as an integral component of health promotion and health-care activities.

COM 685. Special Topics in Communication. 3 Credit Hours.

The graduate program in Communication offers special topics courses as needed. Our faculty members are well attuned to disciplinary changes as well as changes in the career and academic needs of our students. This course grants the program the ability to remain flexible in offering courses that meet those needs.

COM 690. Graduate Practicum. 3 Credit Hours.

Graduate education is enhanced by practical application of its learned material. Thus, this course is designed to provide practical experience in some communication-related setting, scholarly or professional. That experience can be in either a for-profit or a not-for-profit organization. The Practicum is intended to provide the student with an opportunity to acquire in-field knowledge and experience. Because academic credit is awarded for this experience, the student must gain academic knowledge as well as practical experience. The Graduate Practicum must be approved by the instructor, the Graduate Advisor, and the Department Chair.

COM 697. Directed Study in Communication. 3 Credit Hours.

This course permits the student to pursue a communication area of interest and relevancy. The work will be performed under the supervision of a faculty member who will help design the program of study and the requirements to be met by the student. All directed studies must be approved by the Graduate Director and the Chair of the Department, who will be supplied with a title for and description of the course, its requirements and grading criteria, and a preliminary list of readings.

COM 698. Culminating Project. 3 Credit Hours.

The Culminating Project is a written product of a systematic addressing of a problem or need of an organization that has real-world application. It identifies the problem, states the major elements involved, explains the significance of the undertaking, sets forth solutions to the problem, details their implementation, and assess their effectiveness. The completed project evidences originality, critical and independent thinking, appropriate organization and format, and thorough documentation.

COM 699. Thesis. 3 Credit Hours.

The thesis is the written product of a systematic study of a significant problem. It identifies the problem, states the major assumptions, explains the significance of the undertaking, sets forth the sources for and methods of gathering information, analyzes the data, and offers a conclusion or recommendation. The finished project (product) evidences originality, critical and independent thinking, appropriate organization and format, and thorough documentation.

Computer Information Systems (CIS)

Courses

CIS 690. Selected Topics in CIS. 3 Credit Hours.

This course is designed to allow a three-credit graduate elective course in contemporary topics and issues in computer information systems. The course will allow students the opportunity to examine currently issues with greater detail than is possible in the usual course offering. Recent offerings have included Computer Ethics, Artificial Intelligence, Decision Support Systems, and Multimedia.

CIS 691. Directed Independent Study in CIS. 3 Credit Hours.

This course is designed to allow an individual academic program to be tailored to fit the unique interests of a graduate student. At the initiation of the graduate student, the faculty member and the student will develop an academic plan that is submitted to the College of Business for final approval.

Economics (Graduate) (ECN)

Courses

ECN 690. Selected Topics in Economics. 3 Credit Hours.

This course is designed to allow a three-credit graduate elective course in contemporary topics and issues in economics. The course will allow students to examine current issues with greater detail than is possible in the usual course offering.

ECN 691. Directed Independent Study in Economics. 3 Credit Hours.

The course is designed to allow an individual academic program to be tailored to fit the unique interests of a graduate student. At the initiation of the graduate student, the faculty member and student will develop an academic plan that is submitted to the College of Business Graduate Program office for final approval.

Education (EDU)

Courses

EDU 601. Foundations of Education. 3 Credit Hours.

EDU 601 is the gateway course to the MAT Program. The class focuses on the history of American education, legal issues related to PK-12 education, trends and developments in PK-12 teaching and learning, the Common Core State Standards, the research cycle and the student's development of an Essential Question in teaching and learning, theories of learning and motivation, developmental characteristics of learners, individual differences, teacher behavior, assessment and socio-cultural influences on learning and schooling. RI Professional Teaching Standards are included. Designed for students who do not hold teacher certification.

EDU 602A. The Art of Teaching Content Reading and Writing. 3 Credit Hours.

EDU 602A guides subject teachers to teach reading and writing in their subject area. The CCSS as well as subject standards are analyzed and applied to specific strategies in reading and writing. RIDE Literacy Policy (2012) and assessments of content-based reading and writing are studied. Effective local and national models will be discussed. Field Experience of 10 hours outside class is required. RI Professional Teaching Standards are included. On-going development of Essential Question. Designed for students who do not hold teacher certification.

EDU 602B. The Art of Teaching Educational Assessment. 3 Credit Hours.

EDU 602B guides teachers in understanding and designing effective ways to assess their students. Teachers learn different types of classroom assessments and how these types inform classroom instruction. Formative and summative assessments are analyzed and aligned to the CCSS. Basic principles of testing and measurement are reviewed. Content-specific assessments are designed and critiqued. Field Experience of 10 hours outside the class is required. Essential Question clarification and begin review of literature. RI Professional Teaching Standards are included. Designed for students who do not hold teacher certification.

EDU 602C. The Art of Teaching Curriculum and Instruction. 3 Credit Hours.

EDU 602C is a comprehensive study of curriculum standards and instructional methods. Included in the study is unit planning based on Understanding by Design (UbD) and aligned to state/CCSS standards. Students learn how to differentiate instruction based on students' learning style, interests, background knowledge and readiness. Field Experience of 10 hours outside the class is required. Assessment: Interactive journal, unit of study using UbD, class presentation, belief statement on instruction. RI Professional Teaching Standards are included. On-going development of Essential Question. Designed for students who do not hold teacher certification.

EDU 603. Teaching Demonstration Teaching. 6 Credit Hours.

EDU 603 is a twelve week internship or Demonstration Teaching course in which the students teach in an area public school under the guidance of a Host Teacher from the school and the Clinical Supervision by the University. The Students are expected to teach a minimum of 3 instructional periods per day. Students plan instruction, deliver instruction, assess students' understanding/knowledge/ skills/disposition following a Standard-based, CCSS curriculum. RI Professional Teaching Standards are included as well as RI Professional Responsibility Standards. On-going development of Essential Question. Designed for students who do not hold a teacher certification.

EDU 604. Educational Research. 3 Credit Hours.

EDU 604 is completed during the EDU 603 course, Demonstration Teaching. Over the MAT experience, students have been gathering information reviewing literature, investigating an action research topic, field testing the topic and finalizing conclusions and recommendations. Students will be encouraged to write their project in a format suitable for publication in a professional, peer-reviewed journal. The project must connect to course work studies and the RI Professional Teaching Standards. Students enrolled in EDU 604 will meet one-on-one with the instructor. It is expected that students meet several times during Modules 1, 2, 3, 4, 5 and 6 with the instructor. Designed for students who do not hold a teacher certification.

EDU 610. Special Topics in Curriculum Development Chinese Language and Culture. 3 Credit Hours.

EDU 610 is an introductory graduate course that explores Chinese history, culture and language. Students will design an Understanding by Design (UbD) unit of study on Chinese history and culture appropriate for elementary or secondary-level students in American public schools or Chinese Heritage schools.

EDU 620. Teacher as Educational Researcher. 3 Credit Hours.

EDU 620 is designed for teachers who hold state certification. The course investigates the role of the teacher as a researcher including: types of research, statistical measures of research, action research and protocols for evaluating student work, and grading practices. Students will apply scientifically researched-based definition to a review of instruction, curriculum and assessment. Assessment: Interactive journal, development of a 1 hour teach-back, presentation to class and mentor EDU 604 *CORE reading/writing reviews. Designed for students who hold teacher certification only.

EDU 621. Teacher as Instructional Leader. 3 Credit Hours.

EDU 621 will focus on the teacher as a team, department and/or building instructional leader. Practices in professional development and Adult Learning Theory will be explored and evaluated. Designed for students who hold teacher certification only. Prerequisites: EDU 620.

EDU 622. Advanced Educational Psychology. 3 Credit Hours.

EDU 622 will evaluate and apply learning theories in depth to the classrooms they teach. Students will evaluate strategies that differentiate learning, motivate student learning, creating productive classrooms and assessing learning. The course includes working with academically able students. Assessment: Interactive journal, development of a 1 hour teach-back, presentation to class. CORE reading/writing review and mentor EDU604. Designed for students who hold teacher certification only.

Prerequisites: EDU 620 and EDU 621.

EDU 623. Teacher as Curriculum Designer. 3 Credit Hours.

EDU 623 explores multiple unit study of Standard-based curriculum using the UbD format and integration with differentiated strategies. Connections to technology are included in the multiple units. The course expects that the units developed are practiced in classrooms and that the teacher shares feedback/findings with the class. Designed for students who hold teacher certification only.

Prerequisites: EDU 620, EDU 621 and EDU 622.

Finance (FIN)

Courses

FIN 690. Selected Topics in Finance. 3 Credit Hours.

This course is designed to allow a three-credit graduate elective course in contemporary topics and issues in finance. The course will allow students to examine current issues with greater detail than is possible in the usual course offering.

FIN 691. Directed Independent Study in Finance. 3 Credit Hours.

This course is designed to allow an individual academic program to be tailored to fit the unique interests of a graduate student. At the initiation of the graduate student, the faculty member and the student will develop an academic plan that is submitted to the College of Business for final approval.

Global Finance (GFIN)

Courses

GFIN 601. Global Financial Management. 3 Credit Hours.

This course deals with the theories and principles of global management. It develops a framework for evaluating the opportunities, costs, and risks of operating in the global markets for goods, services, and financial assets. Topics include the rationale for hedging currency risk, treasury management of international transactions, managing transaction exposure to currency risk, managing operating exposure to currency risk, foreign market entry and country risk management, multinational capital budgeting, multinational capital structure and cost of capital, and corporate governance. Students will explore global financial management by analyzing case studies and preparing a country analysis report for market entry.

GFIN 602. Global Financial Institutions and Markets. 3 Credit Hours.

The markets and institutions of international finance have, in recent years, undergone significant changes. This course will compare and contrast the structure and trends of both US and International financial markets and institutions. Topics include international money and capital markets, foreign exchange markets, emerging markets, the changing roles of financial institutions, the internationalization of financial services, global interest rates, developments in derivatives markets (e.g. credit default swaps), bank valuation methodology, global housing markets and funding (securitization vs. covered bonds), universal banking, non-bank financial institutions, technological change, international financial crises, as well as the coordination and impacts of regulation on financial services (e.g., Dodd Frank, Basel III, and Solvency II). Extra emphasis will be placed on incorporating current events thru extensive use of the Wall Street Journal and the Financial Times. These topics will be presented using a combination of interactive lectures and discussions.

GFIN 603. Financing the Global Supply Chain. 3 Credit Hours.

In 1973 world merchandise exports were a mere \$579 billion dollars. By 2010, the figure was \$14,851 trillion dollars. The advent of globalization and the economic development of emerging countries have created nothing short of a revolution in the physical supply chain. This course will examine the developments and opportunities of the parallel but critically important flow of funds that support the flow of goods. The course will be delivered relying heavily on cases and group discussion. Specifically, the course will look into current knowledge and trends in the following areas: International trade finance (Letters of Credit, bill of lading, export insurance, export factoring, forfeiting, export credit agencies), international cash management, Insurance, credit risk & risk management, capital investment decisions related to the global supply chain, sources and strategies of supply chain finance.

Global Studies (GLOB)

Courses

GLOB 597. Directed Graduate Study in Global Studies. 3 Credit Hours.

This course is an opportunity to do independent, in depth study or research for graduate school credit. The student works on an individual basis under the direction of a member global studies faculty. The main requirement of the course is the development of a substantial paper or project. This is a 500 level graduate course. Permission of instructor is required.

Global Supply Chain Management (GSCM)

Courses

GSCM 601. Corporate Social Responsibility in Global Supply Chain Management. 3 Credit Hours.

This course will focus on the strategic impact of corporate social responsibility on the global supply chain. The goals of this course are to provide students with an in-depth knowledge of the various types of supply chain events that are connected to corporate social responsibility and the strategic best practices to mitigate these events. Lectures will provide a theoretical basis and illustrate the practical application of concepts. Cases, articles from academic journals, short videos, assignments, and one exam will be utilized to reinforce the subject matter and provide a variety of learning modes.

GSCM 602. Financing Global Supply Chain. 3 Credit Hours.

In 1973 world merchandise exports were a mere \$579 billion, by 2010 the figure was \$14.851 trillion. The advent of globalization and the economic development of emerging countries have created nothing short of a revolution in the physical supply chain. This course will examine the developments and opportunities of the parallel but critically important flow of funds that support the flow of goods. The course will be delivered relying heavily on cases and group discussion. Specifically the course will look into current knowledge and trends in the following areas: International trade finance (Letters of Credit, bills of lading, export insurance, export factoring, forfeiting, export credit agencies); international cash management; Insurance, credit risk and risk management; capital investment decisions related to the global supply chain; and sources and strategies of supply chain finance.

GSCM 603. Advanced Supply Chain Integration. 3 Credit Hours.

A key challenge to successful supply chain management is coordination of activities across the supply chain. This course will provide strategies for supply chain design by identifying the appropriate level of integration and coordination to improve the long-term performance of the individual companies and the supply chain as a whole. Topics include demand forecasting, integrated business management (sales and operations planning), demand management and CPFR, demand planning, and relationship management. Hands-on learning will take place within a global supply chain management simulation.

GSCM 604. Logistics of International Trade. 3 Credit Hours.

This course provides basic preparation in transportation economics and management as well as international transport and logistics. This course provides basic knowledge of import and export requirements for making contracts, payments, insurance, managing risk, arranging transportation, dealing with customs, and international trade law and theory. The course is taught in two modules: International Transport and Logistics, and Logistics Analysis. Attention is given to how transportation pricing and tradeoffs work, shipper and carrier strategies, and logistics processes for moving goods and people internationally. Students will quantitatively develop and assess strategies for transportation and network planning, inventory decision making, facility location planning, and vehicle routing. The course objectives are based on a partial list of the exam requirements for the Certification in Transportation and Logistics (CTL) professional credential offered by America's oldest logistics profession organization, The American Society of Transportation and Logistics (AST&L).

Prerequisites: MBA526.

GSCM 691. Directed Independent Study in Global Supply Chain Management. 3 Credit Hours.

The course is designed to allow an individual academic program to be tailored to fit the unique interests of a graduate student. At the initiation of the graduate studies, the faculty member and student will develop an academic plan that is submitted to the director of the College of Business for final approval.

History (HIS)

Courses

HIS 563. The United States in the 1970s and 1980s. 3 Credit Hours.

This course explores the major political, social, cultural, and economic shifts in American life during the 1970s and the 1980s. Special areas of focus include the ascendancy of conservatism, the retreat of liberalism, rising economic inequality, women's and gay liberation, the expanding role of the media in American politics, the veneration of corporate America, and expressions of such in the era's popular culture. The relationship of popular history and collective memory with "objective" historical analysis constitutes another area of emphasis.

Prerequisites: This course is a 500 level graduate content course.

Permission of the instructor is required

Session Cycle: Spring

Yearly Cycle: Annual.

HIS 564. United States and China, 1931-1945. 3 Credit Hours.

This course examines the cultural, political, and military dimensions of the complicated wartime alliance between the United States and China during the World War II era. It focuses on the period from the Japanese invasion of Manchuria in September 1931 until early 1950 when the Chinese government seized the U.S. consulate in Beijing after the United States refused to recognize the People's Republic of China. Students explore both primary and secondary sources as they untangle the multifaceted relationship between the United States and China during this critical era in history. The course also examines how and why a major wartime ally became a major adversary during much of the Cold War era. This course is a 500 level graduate course. Permission of the instructor is required.

HIS 597. Directed Graduate Study in History. 3 Credit Hours.

This course is an opportunity to do independent, in depth study or research for graduate school credit. The student works on an individual basis under the direction of a member of the history faculty. The main requirement of the course is the development of a substantial paper or project. This is a 500 level graduate course. Permission of the instructor is required.

International Business (IB)

Courses

IB 601. International Business Management. 3 Credit Hours.

This course is designed to survey, analyze and appreciate the opportunities and challenges surrounding an international business environment. It focuses on the importance of cultural dynamics as well as legal, political, geographic, and environmental factors. Theories, information and research findings which are useful in understanding different aspects of managing multinational operations are discussed. It will provide a foundation for students interested in exploring career opportunities in international business.

IB 602. Global Human Resource Management. 3 Credit Hours.

This course addresses the human side of management, with emphasis on what makes a manager effective in a global business environment. Readings, case analysis, experiential exercises, and intensive discussion build students' understanding and management skills. The course explores basic issues in management and special circumstances that arise when management must reach across cultural and national boundaries. The course focuses on three inter-related skill sets. The first is making good decisions; many managers rely on intuition to make decisions. We discuss the pros and cons of intuition, and ways to benefit from intuition without succumbing to the pitfalls. We also discuss ethical management, with attention to ethics in a global business context. The second skill set includes skills and knowledge needed to manage people and relationships. An effective manager is an able negotiator, knows how to successfully navigate the network of informal relationships, and understands what motivates people. The third skill set involves understanding teams and organizations, and how effective organizational change can be designed and implemented. This skill set requires knowledge of organizational design, team dynamics, positive and negative influences on learning and change, and power and politics in organizations.

IB 603. International Marketing. 3 Credit Hours.

This course provides managerial orientation to the topic of global marketing in today's complex, rapidly changing international business environment. A key focus is developing competitive advantage by creating customer value. Course participants will gain a fundamental understanding of marketing strategy and marketing analysis (i.e. customer, competitor and company analysis) as well as an appreciation of the basic strategic issues involved in market segmentation, market targeting, and market positioning in the international arena. The major tactics/ tools used by global marketers to facilitate the management of their international marketing plans (i.e. product development, pricing strategies, marketing communications, distribution management) are also examined. Throughout the course, an emphasis is placed on developing skills for entering new markets and sustaining or growing current markets.

Legal Studies (LGLS)

Courses

LGLS 543. Legal Ethics. 3 Credit Hours.

Thinking deeply about the nature of "the Good" is the starting point for investigating the purposes of law. To This end, Legal Ethics introduces the student to the leading ethical systems that have guided human thought about the Good. Using examples from both U.S. and international law, the course helps the student to integrate an understanding of ethical systems and theories of moral development into the study of law broadly considered. This is a 500 level graduate content course. Permission of the instructor is required.

Session Cycle: Spring

Yearly Cycle: Annual.

LGLS 597. Directed Graduate Study in Legal Studies. 3 Credit Hours.

This course is an opportunity to do independent, in-depth study or research for graduate school credit. The student works on an individual basis under the direction of a member of the Legal Studies faculty. The main requirement of the course is the development of a substantial paper or project. This is a 500 level graduate course. Permission of instructor is required.

Literary and Cultural Studies (LCS)

Courses

LCS 541. Film Theory. 3 Credit Hours.

This is a course in film theory, which approaches film as both an art form and a social practice. It provides an opportunity to learn film theory, hone skills of visual analysis, and to develop understanding of the social, cultural and political contexts of film and visual culture. It focuses on the production of rich and lucid analyses of film text through a mix of writing and classroom presentations. This is a 500 level graduate content course. Permission of the instructor is required.

Session Cycle: Spring

Yearly Cycle: Annual.

LCS 568. Comics and Graphic Novels. 3 Credit Hours.

This course provides an overview of the history of comics and the critical conventions associated with what is now termed "the graphic novel."

Graduate students are responsible for creating and implementing a lesson plan, and completing a research paper at the end of the course.

LCS 569. Political Satire. 3 Credit Hours.

This course examines the place of political satire within contemporary culture. It focuses on a wide variety of satiric texts on television, in film, on stage, online, and in print. The course also explores contentious questions about satire, including whether it contributes to political understanding and engagement or merely circulates cynical withdrawal. Students will contemplate why satirical material is so popular right now, and, ultimately, what this tells us about the current state of politics, citizenship and debate. This is a 500 level graduate course and permission of the instructor is required.

Management (MGT)

Courses

MGT 690. Selected Topics in Management. 3 Credit Hours.

This course is designed to allow a three-credit graduate elective course in contemporary topics and issues in management. The course will allow students to examine current issues with greater detail than is possible in the usual course offering.

MGT 691. Directed Independent Study in Management. 3 Credit Hours.

This course is designed to allow an individual academic to allow an individual academic program to be tailored to fit the unique interests of a graduate student. At the initiation of the graduate student, the faculty member and the student will develop an academic plan that is submitted to the College of Business for final approval.

Marketing (MKT)

Courses

MKT 690. Selected Topics in Marketing. 3 Credit Hours.

This course is designed to allow a three-credit graduate elective course in contemporary topics and issues in marketing. The course will allow students to examine current issues with greater detail than is possible in the usual course offering.

MKT 691. Directed Independent Study in Marketing. 3 Credit Hours.

This course is designed to allow an individual academic program to be tailored to fit the unique interests of a graduate student. At the initiation of the graduate student the faculty member will develop an academic plan that is submitted to the College of Business for final approval.

Master of Business Admin. (MBA)

Courses

MBA 501. Economics for Business. 3 Credit Hours.

This course introduces the basic principles, problems, and policies fundamental to advanced courses in the graduate business program. Major emphasis will be placed on the institutions of the economy, supply and demand analysis, national income accounting, price theory, income theory, monetary and fiscal policies, market structures, and industrial organization. With the increasing interdependence among national economies playing an important role in today's business world, the concepts and problems uniquely associated with the international environment will also be examined.

MBA 505. Applied Business Statistics. 3 Credit Hours.

This course in statistical techniques covers inferential statistics including confidence interval estimates of means, proportions, and variances; hypothesis testing for means, proportions, and variances; the chi-square test of independence, decision analysis, analysis of variance, regression and correlation; and model building.

MBA 515. Management Concepts and Skills. 1 Credit Hour.

This course provides all entering MBA students with a foundation of key management perspectives and skills that will heighten student opportunity for successful program completion. During an intensive, multi-day course, MBA students will be exposed to and participate in instructional sessions addressing technology, research resources, team-building, leadership, communication skills, and case analysis exercises.

MBA 520. Managing Corporate Enterprise. 3 Credit Hours.

Successful management of a corporate enterprise begins with a coherent, well-defined strategy. This course develops the knowledge and skills necessary to analyze, formulate and implement strategy effectively. The course will address the complexity of leading a business in this era of globalization, social and technological change, and dynamic firm and industry boundaries.

MBA 521. Leading Effective Organizations. 3 Credit Hours.

This course emphasizes the importance of understanding the diverse ways that people interpret and respond to situations, emphasizing the complexity of organizational problems, especially in project-oriented, team-based environments. It discusses ways to align individual behavior with the organizations mission and objectives and encourages decision making that is consistent with established models of effective leadership and standards of ethical behavior. It equires students to create personal leadership development profiles and self-improvement plans for their professional practice to aid in the career development.

MBA 522. Reporting and Controlling Resources. 3 Credit Hours.

This course emphasizes the role of accounting in controlling the operations of an organization and the relationship between cost, profits and volume, decision making techniques using accounting data, and the use of programmed budgets as a control mechanism.

MBA 523. Managing Information Resources. 3 Credit Hours.

This course emphasizes knowledgeable and effective use of information systems, IS decision making, knowledge management, and information systems as an element of corporate strategy development.

MBA 524. Managing Financial Resources. 3 Credit Hours.

This course emphasizes the tools and techniques necessary for sound financial decision making including the time value of money, risk and return, capital budgeting, working capital management, and acquisition of long-term capital.

MBA 525. Marketing for Competitive Advantage. 3 Credit Hours.

This course emphasizes markets, innovation and opportunities, consumer characteristics affecting demand, marketing institutions, ethics and government business relations, product planning and pricing problems, distribution channels, promotion, and competitive strategy.

MBA 526. Value Formation Through Operations. 3 Credit Hours.

This course emphasizes the theories and techniques used to manage world class operations for competitive advantage including: operations strategy, process design, quality, inventory control, and project management.

MBA 528. Global Immersion Experience. 3 Credit Hours.

The Global Immersion Experience has been designed to embed the knowledge and skills needed for today's managers to operate effectively in a globalized world. The course typically encourages students to explore a given country or region in depth and in the process become aware of the economic opportunities and pitfalls in doing business in that country/region. Students will be able to take this experience and apply it to a different country. An important aspect of GIE is a student project with an overseas firm in the destination country that builds on the first semester of academic study covering areas of strategy/leadership, supply chain management and accounting/finance. The Global Immersion Experience is required for the One Year MBA program and optional but highly recommended for the Two Year MBA. While class meetings for MBA 528 begin in the fall term, the GIE takes place during the winter term and entails travelling to a foreign country for approximately ten days.

MBA 621. Business Consulting. 3 Credit Hours.

The central idea is that consulting services, both internal and external to business organizations are useful, are in high demand, and are lucrative. The course is intended for students who wish to understand and use consulting principles and practices for competitive advantage, whether as an intrapreneur, entrepreneur, or a traditional consultant. The course introduces the taxonomy and nature of consulting, provider models and business forms such as feasibility studies, proposals, contracts, reports, and billing practices. It includes the strategic application of technology for improved productivity and performance. It helps students to understand and apply methods of thinking, process analysis, client relations, and reporting that are essential to effective consulting.

MBA 645. MBA Business Practicum. 3 Credit Hours.

Students will work with a corporation or non-profit organization to develop and implement solutions to business problems or plans to exploit business opportunities. Teams will work closely with company executives to develop a project that adds value to the firm and provides students with hands-on experience working with a company.

MBA 651. Mastering Strategic Analysis. 3 Credit Hours.

This MBA Capstone course emphasizes managerial decision-making that involves all aspects of a firm and crosses all functional lines, focusing on the integration of acquired knowledge for strategy development.

MBA 690. Selected Topics in Business. 3 Credit Hours.

This course is designed to allow a three-credit graduate elective course in contemporary topics and issues in business. The course will allow students to examine current issues with greater detail than is possible in the usual course offering.

MBA 691. Directed Independent Study in Business. 3 Credit Hours.

This course is designed to allow an individual academic program to be tailored to fit the unique interests of a graduate student. At the initiation of the graduate student, the faculty member and the student will develop an academic plan that is submitted to the College of Business for final approval.

Master of Prof. Accountancy (MPAC)

Courses

MPAC 515. Preparing for MPAC Success. 0 Credit Hours.

This course is designed to provide entering MPAC students with the skills necessary to be successful in a graduate accounting program. Emphasis is placed on the use and applicability of case analysis. Students will garner an understanding of the use of the critical expectations of a graduate level program.

MPAC 600. Advanced Assurance and Professional Oversight. 3 Credit Hours.

This course is designed to provide students with more in-depth knowledge of advanced audit and assurance topics. Emphasis will be placed on the varying roles the AICPA, SEC, and PCAOB play in the governance and oversight structure of the public accounting profession. The application of judgment in various auditing contexts will also be stressed through case analysis.

Prerequisites: Auditing Concepts, or equivalent.

MPAC 605. Corporate Governance in the 21st Century. 3 Credit Hours.

Corporate governance of a large company is complex, involves many stakeholders, and often subject to laws and regulations of many jurisdictions. In 2002, the United States Congress passed Sarbanes-Oxley Act - a substantial change in laws governing the capital markets since 1934. This law plays a mitigating role between laws and ethics of corporate governance. The corporate governance issues are also impacted by globalization of business (e.g., International Financial Reporting Standards, IFRS and globalization of capital markets) and applications of information technology in the corporate reporting supply chain such as XBRL. The course addresses these topics and their roles in shaping compliance with corporate governance rules and regulations in the global economy.

MPAC 615. Project Management for Accounting Leadership. 3 Credit Hours.

Successful and long-term career advancement in any profession will require the transition from this operational level perspective a management-oriented focus. At some point, organizational initiatives are implemented by assembling the various technical tasks required to complete the project's deliverable. However, an important facet of the "assembly" is to arrange the tasks in the proper sequence coupled with the necessary time and resource requirements. The focus of this course will be to leverage the technical skills gained through the various undergraduate accounting and business courses and the development of a new, project-level approach. Using an analogy, the goal of this course will transform the student's perspective of a project from 1,000 feet to 30,000 feet.

MPAC 620. Advanced Accounting Information Systems. 3 Credit Hours.

This course focuses on competencies required to effectively and efficiently manage a complex business entity; using the technology as an enabler. The course challenges students to define or redefine AIS in light of new technological developments. Specifically, this course exposes students to advanced topics related to ERP systems, such as data structure, information retrieval, application controls and test of transactions in an ERP system.

MPAC 625. Government and Not-For-Profit Accounting. 3 Credit Hours.

This course studies accounting problems and procedures pertaining to federal, state, and local governments as well as other funded entities (hospitals, universities, and non-profit organizations). Common financial and fund accounting principles, including those peculiar to funded activities will be compared.

MPAC 630. Accounting Theory. 3 Credit Hours.

To fully understand the process and products of financial accounting, one needs to understand the underlying concepts and choices that were made in arriving at currently accepted standards. The purpose of this course is to understand the role of accounting theory in setting accounting standards and to explore possible alternatives and the implications of those alternatives on policy and decision makers. In this course we will examine the nuances of the commonly used terms, along with the choices available to standard setters and the rationale for the existing accounting standards. Topics of discussion will include the development of accounting theory and international accounting theory. We will also look closely at the recognition of income, and the balance sheet accounts. The course will have a research component using FARS.

MPAC 635. Multinational Accounting. 3 Credit Hours.

In this course, students examine the external and internal reporting problems associated with multinational business entities. This course includes an overview of the institutional structures that have evolved in response to international accounting problems; a review of relevant literature in the field; and the development of analytical skills for addressing international accounting policy issues.

MPAC 640. Research and Communication. 3 Credit Hours.

This course introduces students to accounting, audit, tax and other financial databases used for professional research. Students will begin developing the skills necessary to conduct appropriate professional research and translate this research into an organized and effective piece of oral or written communication. This course also analyzes the unique characteristics of business communication. Students use their knowledge to create several pieces of standard written business correspondence using appropriate supporting technology. Oral communication is studied with an emphasis on planning and presentation in different business settings.

MPAC 645. Management Control Systems. 3 Credit Hours.

This course examines the establishment of control systems in the modern organization that consider organizational goals and objectives, strategy, policy, control, and systems. Students go beyond the accounting system into the realm of management decision making.

MPAC 650. Accounting for Income Taxes. 3 Credit Hours.

This course will provide those students not intending to pursue careers as tax professionals with an understanding of corporate taxation and the ability to apply the financial accounting standards relating to income tax. The course highlights areas (income, deduction, gain, loss, and credit) where financial accounting and tax accounting differ. Topics include current and deferred tax expense and benefit, temporary differences, carry forwards, deferred tax assets and liabilities, valuation allowances, business combinations, investment in subsidiaries and equity method investments, tax allocations, presentation and disclosure, and implementation of accounting for uncertain tax positions.

MPAC 691. Directed Independent Study in Professional Accountancy. 3 Credit Hours.

This course is designed to allow an individual academic program to be tailored to fit the unique interests of a graduate student. At the initiation of the graduate student the faculty member will develop an academic plan that is submitted to the College of Business for final approval.

Mathematics (MATH)

Courses

MATH 509. Number Theory. 3 Credit Hours.

This course will cover topics such as divisibility, prime numbers, Fundamental Theorem of Arithmetic, Euclid's Algorithm, Pascal's Triangle, Fibonacci numbers, congruences and residue classes, Diophantine equations, Euler's Phi Function, Fermat's Last Theorem, and Pythagorean Triples. A major application in the course will be to Cryptography. This is a 500 level graduate course. Permission of instructor may be required.

Session Cycle: Spring

Yearly Cycle: Annual.

MATH 535. Geometry. 3 Credit Hours.

Since the time of Euclid (330 BC) the study of Geometry has been regarded as a foundation of western education and the preferred context in which to teach young adults the purpose and value of logical thinking. This course offered to provide undergraduate level mathematics education students and others and introduction to and a mastery of both the classical and analytic aspects of Euclidean Geometry. The ideas of point, line, plane, triangle, quadrilaterals, parallelism and lack of it, similarity, congruence, area, volume and Loci will be formally presented through an axiomatic method using definitions, postulates and geometric proofs. The structure, the pedagogy and the presentation of the above topics will also be emphasized throughout the course. This is a 500 level graduate course. Permission of instructor is required.

Session Cycle: Spring

Yearly Cycle: Annual.

MATH 555. SAS Programming and Applied Statistics. 3 Credit Hours.

This course provides an introduction to SAS programming and covers the material required for the SAS Base Programming Exam. The first part of this course focuses on the following key areas: reading raw data files and SAS data sets; investigating and summarizing data by generating frequency tables and descriptive statistics; creating SAS variables and recoding data values; subsetting data; combining multiple SAS files; creating listing, summary, HTML, and graph reports. The second part of this course focuses on how to manage SAS data set input and output, work with different data types, and manipulate data. Specifically, this part of the course discusses using the DATA step to control SAS data set input and output, combine SAS data sets, summarize data, process data iteratively with DO loops and arrays, and perform data manipulations and transformations. A comprehensive real-world data project is required along with a presentation to the class and other interested parties of key aspects of the project with an analysis of the results. This is a 500 level graduate course. Permission of instructor may be required.

Session Cycle: Spring

Yearly Cycle: Annual.

MATH 560. Applied Data Mining. 3 Credit Hours.

This course introduces students to the current theories, practices, statistical tools and techniques in "data mining," which embodies cutting-edge methods to reveal competitive insight, market advantage and strategic opportunities by employing SAS Enterprise Miner software with real-world case studies. This course will cover the most useful statistical tools in data mining such as cluster analysis, logistic regression, classification trees, and neural networks. In addition, a comprehensive real-world data project will be required along with a presentation to the class and other interested parties of key aspects of the project with an analysis of the results. This is a 500 level graduate course and permission of the instructor is required.

Prerequisites: 2 semesters of statistics equivalent to MATH 201 and MATH 350.

MATH 561. Applied Multivariate Statistics. 3 Credit Hours.

After a review of ANOVA, the course covers analysis of covariance, discriminant analysis, principal components and factor analysis, multivariate analysis of variance (MANOVA), logistic regression, and cluster analysis. SAS is used throughout the course. A major project that entails analyzing "real" multivariate datasets along with a formal report and presentation of the results will be required. This is a 500 level graduate course. Instructor permission may be required.

Session Cycle: Spring

Yearly Cycle: Annual.

MATH 570. Design and Analysis of Experiments. 3 Credit Hours.

The objective of this course is to familiarize students with fundamental concepts in the design and statistical analysis of experiments using Analysis of Variance. Several analysis of variance models will be introduced including Between-Subject (Random-Measures) designs, Within-Subject (Repeated Measures) designs, Factorial designs, and Mixed designs. Students will learn how to choose an appropriate design. Additional topics will be addressed including multiple comparison procedures, power considerations, sample size, and checking assumptions. SAS will be utilized for the statistical analysis and the course will be approved for one of the four courses necessary for SAS certification. A thorough understanding of the methods, concepts, and interpretation of results will be emphasized. Students will design and analyze an experiment as part of the course. This is 500 level graduate course and permission of the instructor is required.

Prerequisites: Two semesters of statistics equivalent to our MATH 201 and MATH 350.

MATH 575. Applied Analytics Using SAS. 3 Credit Hours.

This course will include an in depth preview of applied analytical approaches, challenges, and solutions. A hands-on approach will be emphasized throughout the semester. A brief review of analytical techniques through material covered in M350 or AM 332 will be included, as well as an introduction to further analytical tools such as multivariate analysis, predictive modeling, time series analysis and survey analysis. SAS Enterprise Guide Software will be introduced and utilized for applying hands-on analysis to real world data problems. The course is project focused and 100% of the students' grade will be based on three projects. This is a 500 level graduate course. Instructor permission may be required.

Session Cycle: Spring

Yearly Cycle: Annual.

Physician Assistant (PA)

Courses

PA 501. Physiology and Pathophysiology. 3 Credit Hours.

Physiology and Pathophysiology is a three credit course which is sequenced with the Clinical Pharmacology course. It is offered in the first term of year one of the Master of Science in the Physician Assistant Studies Program. This course reviews the basic principles of physiology and provides an introduction to pathophysiology following an organ system approach. This course is divided into two sessions: the first session is five and one-half weeks in duration and precedes a four-week anatomy block, followed by a second session of two and one-half-weeks duration. It is expected that the material covered during the initial session will be reinforced by the anatomy subsequently presented. Readings covering patient case scenarios during the anatomy block will be used to help reinforce and integrate these topics.

PA 502. Clinical Pharmacology. 3 Credit Hours.

Clinical Pharmacology is a three credit course and is sequenced with the Physiology & Pathophysiology course. It is offered in the first term of year one of the Master of Science in Physician Assistant Studies Program. The course covers the basic principles of pharmacology and the clinical application to pharmaceutical therapeutics.

PA 503. Human Anatomy. 4 Credit Hours.

Gross Anatomy is a four credit course that is offered as a one month block in the first term of year one in the Master of Physician Assistant Studies Program. Through lectures and linked dissection laboratory experience, the course examines human morphology, the related embryology and function across the major organ systems.

PA 504. Clinical Laboratory. 2 Credit Hours.

Clinical Laboratory is a two credit course that is offered during the first term of year one in the Master of Science in Physician Assistant Studies Program. It is designed to be sequenced with the concurrently taken Physiology/Pathophysiology and Pharmacology courses. This course explores the indications, methodology and interpretation of common and important clinical laboratory tests used to assess and manage disease across the organ systems.

PA 505. Research Methods. 1 Credit Hour.

Research Methods, is a one credit course offered in the first term during year one of the Master of Science in Physician Assistant Studies Program. This course provides the framework for using medical literature in evidence-based medicine, including how to search, interpret, and evaluate research studies.

PA 506. Genetics. 1 Credit Hour.

Medical Genetics is a one credit course offered in the first term of the year one of the Master of Physician Assistant Sciences Program. The course describes the application of genetics to medical care. It covers the basic principles of medical genetics and molecular mechanisms of disease that serve as the foundation for understanding the effective assessment and management of diseases that have an identified genetic component. The rapidly expanding medical model of "personalized medicine" is largely based on the growth of our knowledge of the genetic components of diseases and genetic variation among patients affecting treatment success.

PA 510. Clinical Medicine I. 5 Credit Hours.

Clinical Medicine, offered as a series spanning year one of the Master of Science in Physician Assistant Studies Program, provides an organ systems based approach to the assessment and management of common and important diagnoses, following the NCCPA Content Blueprint. Clinical Medicine I and II are offered in the second term, Clinical Medicine III and IV are offered in the third term, and Clinical Medicine V and VI are offered in the fourth term.

PA 511. Clinical Medicine II. 5 Credit Hours.

Clinical Medicine, offered as a series spanning year one of the Master of Science in Physician Assistant Studies Program, provides an organ systems based approach to the assessment and management of common and important diagnoses, following the NCCPA Content Blueprint. Clinical Medicine I and II are offered in the second term, Clinical Medicine III and IV are offered in the third term, and Clinical Medicine V and VI are offered in the fourth term.

PA 512. History and Physical Examination. 3 Credit Hours.

History and Physical Examination is a three credit course that is offered in the second term of year one of the Master in Physician Assistant Studies Program. The course covers the basic principles and techniques for obtaining and documenting a history and performing a physical exam. The course is sequenced to follow the anatomy course completed in the first term, and to coincide with the start of the Clinical Medicine and Clinical Correlations courses, where history and physical examination subject matter will be reinforced and practiced. There is an associated laboratory time for practice, reinforcement and refinement of the history and physical examination concepts and techniques taught in the lecture course.

PA 513. Electrocardiography. 1 Credit Hour.

Electrocardiography is a one credit course that is offered during the second term of year one in the Master of Science in Physician Assistant Studies Program. The course encompasses the fundamentals of obtaining and interpreting an electrocardiogram.

PA 514. Diagnostic Testing and Imaging. 1 Credit Hour.

Radiology and Diagnostic Testing is a one credit course offered during the second term of year one of the Master of Science in Physician Assistant Studies Program. Topics covered include the basic principles of radiologic modalities, scope of imaging modalities and the utilization of common and important radiologic and ancillary studies.

PA 515. Behavioral Medicine. 2 Credit Hours.

Behavioral Medicine is a two credit course that is offered during the second term of year one in the Master of Science in Physician Assistant Studies Program. Topics covered include basic principles of behavioral health as a discipline and the diagnosis and management of common and important psychiatric disorders.

PA 516. Clinical Correlations One. 2 Credit Hours.

Clinical Correlations is a series of courses sequenced in conjunction with the Clinical Medicine series and is offered during the second, third and fourth terms of year one of the Master of Science in Physician Assistant Studies Program. Students practice and apply clinical information learned concurrently in the Clinical Medicine courses to patient care scenarios in a small group format.

PA 520. Clinical Medicine III. 5 Credit Hours.

Clinical Medicine, offered as a series spanning year one of the Master of Science in Physician Assistant Studies Program, provides an organ system based approach to the assessment and management of common and important diagnoses, following the NCCPA Content Blueprint. Clinical Medicine I and II are offered in the second term, Clinical Medicine III and IV are offered in the third term, and Clinical Medicine V and VI are offered in the fourth term.

PA 521. Clinical Medicine IV. 5 Credit Hours.

Clinical Medicine, offered as a series spanning year one of the Master of Science in Physician Assistant Studies Program, provides an organ system based approach to the assessment and management of common and important diagnoses, following the NCCPA Content Blueprint. Clinical Medicine I and II are offered in the second term, Clinical Medicine III and IV are offered in the third term, and Clinical Medicine V and VI are offered in the fourth term.

PA 522. Pediatrics. 4 Credit Hours.

Pediatrics is a four credit course that is offered in the third term of year one of the Master of Science in Physician Assistant Studies Program. The course covers the assessment and management of common and important pediatric diseases and disorders as well as general pediatric growth, development and health maintenance.

PA 523. Orthopedics. 4 Credit Hours.

Orthopedics is a four credit course that is offered during the third term of year one in the Master of Science in Physician Assistant Studies Program. Topics covered include basic principles of orthopedic care as a discipline and the assessment, diagnosis and management of common and important orthopedic injuries and conditions.

PA 524. Public Health and Dental Medicine. 1 Credit Hour.

Public Health and Dental medicine is a one credit course that is offered in the third term of year one of the Master of Science in the Physician Assistant Studies Program. The course presents an overview of the core concepts of public health and the US health care delivery system. During this course, students will also complete the "Smiles for Life: A National Oral Health Curriculum" on-line modules.

PA 525. Clinical Skills. 1 Credit Hour.

Clinical Skills is a one credit course offered in the third term of the year one of the Master of Science in Physician Assistant Studies Program. The course includes lecture instruction and hands-on practice of the procedural skills common to Physician Assistant practice. Two hours per week include lecture and practice time.

PA 526. Clinical Correlations Two. 2 Credit Hours.

Clinical Correlations is a series of courses sequenced in conjunction with the Clinical Medicine series and is offered during the second, third and fourth terms of year one of the Master of Science in Physician Assistant Studies Program. Students practice and apply clinical information learned concurrently in the Clinical Medicine courses to patient care scenarios in a small group format.

PA 530. Clinical Medicine V. 5 Credit Hours.

Clinical Medicine, offered as a series spanning year one of the Master of Science in Physician Assistant Studies Program, provides an organ system based approach to the assessment and management of common and important diagnoses, following the NCCPA Content Blueprint. Clinical Medicine I and II are offered in the second term, Clinical Medicine III and IV are offered in the third term, and Clinical Medicine V and VI are offered in the fourth term.

PA 531. Clinical Medicine VI. 5 Credit Hours.

Clinical Medicine, offered as a series spanning year one of the Master of Science in Physician Assistant Studies Program, provides an organ system based approach to the assessment and management of common and important diagnoses, following the NCCPA Content Blueprint. Clinical Medicine I and II are offered in the second term, Clinical Medicine III and IV are offered in the third term, and Clinical Medicine V and VI are offered in the fourth term.

PA 532. Emergency Medicine. 6 Credit Hours.

Emergency medicine is a six credit course that is offered in the fourth term of year one of the Master of Science in Physician Assistant Studies Program. The course focus surrounds the assessment and management of common and important injuries, conditions and complaints of patients presenting for emergency care.

PA 533. Surgery. 3 Credit Hours.

Surgery is a three credit course that is offered in the fourth term of year one of the Master of Science in Physician Assistant Studies Program. The course covers the assessment and management of common and important surgical diseases and disorders, including care in the preoperative, operative and postoperative settings.

PA 534. Medical Ethics and Law. 1 Credit Hour.

Medical Law and Ethics is a one credit course that is offered in the fourth term of year one in the Master of Science in Physician Assistant Studies Program. It provides an overview of the core ethical principles which guide medical practice and the laws that apply to health care practitioners.

PA 535. PA History and Professional Issues. 1 Credit Hour.

PA History and Professional Issues is a one credit course that is offered in the fourth term of year one in the Master of Science in Physician Assistant Studies Program. The course reviews the history of the Physician Assistant profession and the core professional issues and principles of current health care delivery that apply to Physician Assistant practice.

PA 536. Clinical Correlations Three. 2 Credit Hours.

Clinical Correlations is a series of courses sequenced in conjunction with the Clinical Medicine series and is offered during the second, third and fourth terms of year one of the Master of Science in Physician Assistant Studies Program. Students practice and apply clinical information learned concurrently in the Clinical Medicine courses to patient care scenarios in a small group format.

PA 601. Inpatient Internal Medicine Supervised Clinical Practice Experience. 4 Credit Hours.

This required course is a 5-week clinical rotation on an inpatient medicine service. The student will function as an active member of the inpatient clinical team, responsible for comprehensive patient assessment and involvement inpatient care decision making, resulting in a detailed plan for patient management.

PA 602. Outpatient Internal Medicine Supervised Clinical Practice Experience. 4 Credit Hours.

This required rotation in Internal Medicine is a five (5) week experience in the management of common and/or important conditions and complaints of the Internal Medicine patient. The student may be required to travel to the clinic and/or hospital during his/her rotation time. The student should plan on being involved in patient care, including taking call and associated educational opportunities, for on average 60 hours per week with a maximum 80 hours per week. Specific schedules are determined by the rotation site/preceptor.

PA 603. Family Medicine Supervised Clinical Practice Experience. 4 Credit Hours.

This required rotation in Family Medicine is a five (5) week experience in the management of common and/or important conditions and complaints of the Primary Care patient. The student may be required to travel to the clinic and/or hospital during his/her rotation time. The student should plan on being involved in patient care, including taking call and associated educational opportunities, for on average 60 hours per week with a maximum 80 hours per week. Specific schedules are determined by the rotation site/preceptor.

PA 604. General Surgery Supervised Clinical Practice Experience. 4 Credit Hours.

This required rotation in General Surgery is a five (5) week experience in the management of common and/or important surgical conditions. The student may be required to travel to the clinic, outpatient surgery center and/or hospital facility during his/her rotation time. The student should plan on being involved in patient care, including taking call and associated educational opportunities, for on average 60 hours per week with a maximum 80 hours per week. Specific schedules are determined by the rotation site/preceptor.

PA 605. Pediatrics Supervised Clinical Practice Experience. 4 Credit Hours.

This required rotation in Pediatrics is a five (5) week experience in the management of common and/or important conditions and complaints of the pediatric patient. The student may be required to travel to the clinic, and/or hospital during his/her rotation time. The student should plan on being involved in patient care, including taking call and associated educational opportunities, for on average 60 hours per week with a maximum 80 hours per week. Specific schedules are determined by the rotation site/preceptor.

PA 606. Obstetrics and Gynecology Supervised Clinical Practice Experience. 4 Credit Hours.

This required rotation in Woman's Health/OBGYN is a five (5) week experience in the assessment and management of common gynecologic and obstetric conditions and complaints. The student may be required to travel to the clinic, outpatient surgery center and/or hospital facility during his/her rotation time. The student should plan on being involved in patient care, including taking call and associated educational opportunities, for on average 60 hours per week with a maximum 80 hours per week. Specific schedules are determined by the rotation site/preceptor.

PA 607. Psychiatry Supervised Clinical Practice Experience. 4 Credit Hours.

This required rotation in Psychiatry is a five (5) week experience in the management of psychiatric conditions and complaints. The student should plan on being involved in patient care, including taking call and associated educational opportunities, for on average 40-60 hours per week with a maximum 80 hours per week. Specific schedules are determined by the rotation site/preceptor.

PA 608. Emergency Medicine Supervised Clinical Practice Experience. 4 Credit Hours.

This required rotation in Emergency Medicine is a five (5) week experience in an Emergency Department. The student will function as an active member of the clinical team, responsible for comprehensive patient assessment and involvement inpatient care decision making, resulting in a detailed plan for patient management. The student should plan on being involved in patient care, including associated educational opportunities, for on average 60 hours per week with a maximum 80 hours per week. Specific schedules are determined by the rotation site/preceptor.

PA 609. Orthopedics Supervised Clinical Practice Experience. 4 Credit Hours.

This required rotation in Orthopedic Surgery is a five (5) week experience in the management of injury and illness of the musculoskeletal system. The student may be required to travel to the clinic, outpatient surgery center and/or hospital facility during his/her rotation time. The student should plan on being involved in patient care, including taking call and associated educational opportunities, for on average 60 hours per week with a maximum 80 hours per week. Specific schedules are determined by the rotation site/preceptor.

PA 610. Dermatology Supervised Clinical Practice Experience. 4 Credit Hours.

This required rotation in Dermatology is a five (5) week experience in the management of common dermatologic conditions and complaints. The student may be required to travel to the clinic, outpatient surgery center and/or hospital facility during his/her time on rotation. The student should plan on being involved in patient care, including taking call and associated educational opportunities, for an average 40-60 hours per week with a maximum 80 hours per week. Specific schedules are determined by the rotation site/preceptor.

PA 611. Elective Supervised Clinical Practice Experience. 4 Credit Hours.

This required elective rotation is a five (5) week experience in the management of common and/or important conditions and complaints relevant to the particular chosen elective specialty. The student may be required to travel to the clinic and/or hospital during his/her rotation time. The student should plan on being involved in patient care, including taking call and associated educational opportunities, for an average 60 hours per week with a maximum 80 hours per week. Specific schedules are determined by the rotation site/preceptor.

PA 612. Mini Clinical Supervised Clinical Practice Experience. 4 Credit Hours.

This required rotation includes ENT, Ophthalmology and Diagnostic Imaging and is a five (5) week experience in the assessment and management of common and/or important ENT and Ophthalmology conditions and complaints. Diagnostic Imaging is an introduction to the multiple modalities available for patient evaluation. The student may be required to travel to a clinic, outpatient surgery center and/or hospital facility during his/her rotation time. The student should plan on being involved in patient care, including taking call and associated educational opportunities, for on average 40-60 hours per week with a maximum 80 hours per week. Specific schedules are determined by the rotation site/preceptor.

Political Science (POLS)

Courses

POLS 556. The Presidency in Modern American Politics. 3 Credit Hours.

The presidency today is widely perceived as the centerpiece of the American political system. But this notion is very different than that originally outlined in the U.S. Constitution. What has brought about this change? What strengths and weaknesses characterize the modern presidency? How has this transformation impacted the separation of powers? What does the popular image of the president as "chief decider" signify for democratic government? These questions and more guide this exploration of the presidency in modern American politics. This is a 500 level graduate content course. Permission of the instructor is required.

Session Cycle: Spring

Yearly Cycle: Alternate Years.

POLS 562. International Relations. 3 Credit Hours.

In this course students analyze the nature of the modern nation/state system, and the resultant struggle for power, including power politics, balance of power, and war and peace. This course covers the bases and limitations of national power as well as international law, international organization and diplomacy. This is a 500 level graduate content course. Permission of the instructor is required.

Session Cycle: Spring

Yearly Cycle: Alternate Years.

POLS 563. Ethics in International Affairs. 3 Credit Hours.

"All's fair in love and war" used to effectively summarize global politics, but, in recent years, moral considerations have become major, but still controversial, components of many policy discussions. This course will examine issues such as the ethical constraints on the use of force, human rights norms, issues created by global inequality and by development programs, and ethical implications of the global economy and multinational corporations. This course is a 500 graduate program. Permission of instructor is required.

Session Cycle: Spring

Yearly Cycle: Alternate Years.

POLS 597. Directed Graduate Study in Political Science. 3 Credit Hours.

This course is an opportunity to do independent, in depth study or research for graduate school credit. The student works on an individual basis under the direction of the political science faculty. The main requirement of the course is the development of a substantial paper or project. This is a 500 graduate level course. Permission of instructor is required.

Science and Technology (SCI)

Courses

SCI 550. Biological Imaging. 3 Credit Hours.

This course will address how biological characters and concepts are illustrated through various kinds of imaging technologies. Using plants as examples, morphological and anatomical characters at both macro- and micro- levels will be illustrated and interpreted through various imaging technologies, and their biological and environmental significance will be also discussed. This course will provide you with a basic overview of imaging technologies and their applications in the biological sciences, particularly in relation to scientific publications and reports. Emphasis will be placed on hands-on practice of these technologies, resulting in a portfolio of completed projects. Students will be grouped to complete final products generating publishable biological imaging on research samples. This is a 500 level graduate content course. Permission of instructor is required.

SCI 551. Instrumental Analysis for Environmental and Life Sciences. 3 Credit Hours.

This course will cover the principles behind a variety of instrumental analytical techniques that are in use in the environmental and life sciences. The principles behind techniques such as gas chromatography (GC), nuclear magnetic resonance (NMR), inductively coupled plasma (ICP), mass spectrometry (MS), infrared and UV spectroscopy, and high performance liquid chromatography will be discussed. These topics will be explored in relation to their utility in answering scientific problems in the environmental and life sciences. Students will develop a theoretical knowledge of the principles of various chemical analysis instrumentation and how it can be applied to environmental and biological problems. This is a 500 level graduate course and permission of the instructor is required.

SCI 552. Innovation and Global Energy Challenges. 3 Credit Hours.

This course will explore the challenges of providing a sustainable energy supply to support increasing world population and growing economies, and will focus on global energy systems, renewable energy sources, distributed power networks, diversification of energy supply, and increased energy efficiency. By examining the energy issues that preoccupy world decision makers, such as dwindling fuel resources, deteriorating electrical grids, externalization of costs, subsidies for existing energy corporations, extreme pollution and environmental degradation associated with mining, drilling, transport, operations, and waste disposal, students will develop an international perspective and multidisciplinary frame with which to approach needed changes in direction. Innovative approaches are needed throughout the entire energy distribution system, including changes in fuel procurement, processing, usage, and cost analyses that account for the entire fuel cycle and minimization of external costs. Breakthroughs in control systems, materials management, green building technology, carbon sequestration techniques, and algal biofuel production are just a few examples of promising new avenues for energy developments that will be assessed. This is a 500 level graduate course and permission of the instructor is required.

SCI 553. GIS Tools Coastal Planning and Climate Change. 3 Credit Hours.

This course provides background and training in the utilization of Geographic Information System (GIS) tools for tracking climate change effects on coastal ecosystems, with a particular emphasis on how coastal planners can predict the extent and likelihood of significant alteration of coastline geomorphology or ecosystem dynamics. Advance planning can reduce the impact of these changes on residents and natural inhabitants. Case studies of coastal regions around the world will be explored. This is a 500 level graduate course.

SCI 554. Conservation in the U.S. and China. 3 Credit Hours.

As one of the major environmental issues, conservation captures the attention of both scientists and the general public. National parks in the U.S. and China preserve spectacular examples of the best biological and geological resources on our planet. This course provides basic scientific information behind these natural wonders and presents and analyzes conservation issues using an interdisciplinary approach. Through reading, discussion, and lectures, students will gain insights into the critical role that national parks play in the preservation of natural resources, as well as protecting cultural and historic values. Using selected national parks as case examples, students will learn how to assess scientific data underlying environmental debates and will examine how these issues are connected to society and business. This is a 500 level graduate content course. Permission of the instructor is required.

SCI 555. Environmental Policy Decision Making and Problem Solving. 3 Credit Hours.

This course will present an overview of environmental policy alternatives, emphasizing the interrelationship of science, business, and government in policy formation and implementation. Global issues will be included, with special attention directed toward international efforts to achieve consensus on sustainable growth policies that encompass economic realities, technological innovation and a sensible legal and regulatory framework. This is a 500 level graduate course. Permission of the instructor is required.

SCI 557. Environmental Toxicology and Risk Assessment. 3 Credit Hours.

The generation of hazardous wastes and our potential exposure to them is increasing. This course will provide the student with the fundamentals of hazardous substances and wastes in relation to chemistry, environmental chemical processes, and toxicology. It is designed for students who are interested in various aspects of hazardous substances and wastes, including regulation, treatment, remediation, biological effects, chemical phenomena, transport, source reduction, and research. Experimental exercises will be integrated throughout the course to reinforce lecture topics. This is a 500 level graduate course. Permission of the instructor is required.

Session Cycle: Spring

Yearly Cycle: Alternate Years.

SCI 558. Global Change and Geochemical Impacts. 3 Credit Hours.

The course provides an in-depth understanding of global changes in the atmosphere, biosphere, and hydrosphere in the past and present. Using both geological and biological records, the course examines the evidence that depicts the environmental impacts of global changes, especially climate changes. Using molecular isotope technology and its research applications in the environmental sciences, the course covers both theoretical and experimental aspects of issues at the global scale. Current issues in geological, paleobiological, and organic geochemical applications will be examined, with a focus on global changes and how isotope techniques are used in different scientific disciplines to characterize and quantify these patterns. This is a 500 level graduate course and permission of the instructor is required.

SCI 559. Foundations in Pharmaceutical Science. 3 Credit Hours.

This course is intended to provide an advanced introduction and coherent overview of pharmaceutical science concepts for students interested in pharmaceutical and medical science, including the fundamental principles that underlie all disciplines in the pharmaceutical sciences, along with an understanding of the field of pharmacology and the process by which laboratory research findings are transformed into usable products. This is a 500 level graduate course. Instructor permission maybe required.

Session Cycle: Fall

Yearly Cycle: Alternate Years.

SCI 560. Systems Modeling. 3 Credit Hours.

Complex systems are characterized by a large number of locally-interacting parts which exhibit behavior qualitatively different from the individual parts. Such systems are best explored numerically, because analytical solutions are often lacking. In this course students will explore many such systems, from meteorology and climate, to ecology, economic and neural systems. In the global environment, there is a growing need for comprehending complex systems found at the border between order and chaos, in contexts of environment and society. Modeling exercises will be integrated throughout the course to reinforce lecture topics. This is a 500 level graduate course. Permission of the instructor is required.

Session Cycle: Spring

Yearly Cycle: Annual.

SCI 562. Plant Diversity in Ancient and Modern Environments. 3 Credit Hours.

This course addresses the origin and diversity of plants and their key role in shaping ancient and modern environments. Plants are the main "producers" in the Earth's ecosystems and are the major proxy for studies of environmental change. The course will provide detail about the major plant groups, and an in-depth understanding of the origin, evolution, and diversification of these groups. Through examining the change of global vegetation through temporal and spatial transitions, and the role of plants in shaping, adapting, and recording ancient and modern environments, the co-evolution between plants and global environment will be covered. This is a 500 level graduate course. Permission of the instructor is required.

SCI 563. Issues in Environmental Science. 3 Credit Hours.

This course provides an understanding of current environmental problems and a familiarity with innovative developments to solve them. Current issues from the following subject areas will be discussed: climate change, energy, land degradation, air and water quality, population growth, resource depletion, and wildlife management. Guest speakers will describe their work and provide insight on specific environmental issues and the future of the environmental science field. Students will research proposed solutions to various current environmental problems and evaluate the potential effectiveness of their approaches. This is a 500 level graduate content course. Permission of the instructor is required. Session Cycle: Spring Yearly Cycle: Alternate Years.

SCI 564. Biomarkers and Isotope Signals. 3 Credit Hours.

This course provides an in-depth understanding of state-of-the-art isotope technologies and their applications in the environmental sciences. Both theoretical and experimental aspects will be examined, with an emphasis on current issues surrounding compound-specific isotope geochemistry, and how these isotope techniques are used in different scientific disciplines and their impact on a student's future environmental career also will be emphasized. Additionally, the course will explore how technical skills and knowledge about isotope chemistry can be utilized in different environmental assessments. This is a 500 level graduate course. Permission of the instructor is required. Session Cycle: Fall Yearly Cycle: Alternate Years.

SCI 565. Green Technology for Sustainability. 3 Credit Hours.

Chemical Processes provide valuable products and materials in various industries ranging from health care to transportation and food processing, yet they generate substantial quantities of wastes and emissions, which cost tens of millions of dollars annually to safely manage. This course investigates cost-effective utilization of chemical processes in ways that minimize pollution at the source and reduce impact on health and the environment, by creating sustainable systems in manufacturing, transportation, building, and energy production. Environmental risk-based costs and benefits are also explored, including the rationale, benefits, and implementation problems of green technology innovations. Experimental exercises will be integrated into the course to reinforce lecture topics. Prerequisites: One 200-level and one 300-level course in environmental science or permission of the instructor and junior standing. This is a 500 level graduate course and permission of the instructor is required.

SCI 566. Global Health Challenges. 3 Credit Hours.

This course will explore the unique global health challenges we are facing today. As the world becomes increasingly globalized, the status of health worldwide has begun to decline. This course will present some of the complexities facing the global health community from a variety of perspectives. A brief history of global health will be given, with particular attention to environmental degradation, especially the correlation between these changes and adverse effects on health and disease transmission. Social issues including literacy and cultural values will also be discussed in relation to effects on health. Selected communicable diseases and zoonotic and emerging diseases will be highlighted, along with current efforts to stop the spread of these diseases within the global community. Selected epidemiological studies will be emphasized to ensure that students are able to comprehend and appraise research in this field. This is a 500 level graduate content course.

SCI 570. Immunity and Disease. 3 Credit Hours.

This course will provide a broad introduction to the rapidly advancing study of immunity and disease. Starting with a survey of basic immunological principles, the course will explore the importance of the molecular and cellular factors involved in immune responses. Key methodologies used by immunologists and the practical applications of this research for the medical community will be discussed, including the role of immunity in cancer treatment and the causes of autoimmune disorders. This is a 500 level graduate course and permission of the instructor is required.

SCI 590. Research Directed Study. 3 Credit Hours.

This course is intended to assist graduate students in designing research experiments, identifying technology and instrumentation necessary to support the experimentation, conducting and verifying initial pilot studies, and exploring possible funding sources. The course will culminate in the submission of the graduate student's proposal for graduate research project to his/her thesis committee, along with a summary of equipment and supply needs to support the research project.

SCI 690. Thesis I Thesis Research. 3 Credit Hours.

This course is intended for graduate students carrying out thesis research, in conjunction with the Master of Global Environmental Studies, under the guidance of the Thesis Committee. This is the first part, 3 credits, toward the 6 credit hour thesis research requirement. During the course of both courses students will complete the laboratory experiments, analyze experimental data and findings, prepare and submit the thesis, and complete the oral defense.

SCI 691. Thesis II Thesis Research Thesis and Oral Defense. 3 Credit Hours.

This course is intended for graduate students carrying out thesis research, in conjunction with the Master of Science in Global Environmental Studies, under the guidance of the Thesis Committee. This is the second part, 3 credit hours, toward the 6 credit hour research requirement. During the course of both courses, students will complete the laboratory experiments, analyze experimental data and findings, prepare and submit the Thesis, and complete the oral defense.

SCI 692. Graduate Practicum. 3 Credit Hours.

Graduate education is enhanced by practical application of its learned material. Thus, this course is designed to provide practical experience in some setting, scholarly or professional, related to global environmental studies. That experience can be in either a for-profit or a not-for-profit organization. The Practicum is intended to provide the student with an opportunity to acquire in-field knowledge and experience. Because academic credit is awarded for this experience, the student must gain academic knowledge as well as practical experience. The Graduate Practicum must be approved by the instructor, the MSGES program director, and the department chair.

Prerequisites: Student must have completed six hours of graduate coursework in Global Environmental Studies before taking the Graduate Practicum.

SCI 697. Directed Study in Science and Technology. 3 Credit Hours.

This course permits the student to pursue an area of interest and relevancy in global environmental studies and/or sustainability. The work will be performed under the supervision of a faculty member who will help design the program of study and the requirements to be met by the student. All directed studies must be approved by the Graduate Director and the Chair of the Department, who will be supplied with a title for and description of the course, its requirements and grading criteria, and a preliminary list of readings. This course is a 600-level graduate course. Permission of the instructor is required.

Sociology (SOC)

Courses

SOC 597. Directed Graduate Study in Sociology. 3 Credit Hours.

This course is an opportunity to do independent, in depth study or research for graduate school credit. The student works on an individual basis under the direction of a member of the sociology faculty. The main requirement of the course is the development of a substantial paper of project. This is a 500 graduate course. Permission of the instructor is required.

Tax (TAX)

Courses

TAX 600. Individual Income Taxation. 3 Credit Hours.

This course examines the federal tax statutes, regulations, rulings, and leading cases applicable to individual and other tax papers, with special emphasis placed upon understanding the federal income tax system and the source of tax law. Areas covered include definition of gross income, deductions, nonbusiness and business taxpayers, the identity of the taxable person, and accounting methods and periods.

TAX 605. Sales and Exchanges of Property. 3 Credit Hours.

This course studies tax consequences arising from disposition of property using a detailed analysis of the treatment of capital gains, deferred payment sales, basis, amount realized, dispositions by gift of inheritance, nonrecognition exchanges, mortgages, and installment sales. Time is also devoted to the study of recapture provisions of the Internal Revenue Code.

TAX 610. Corporations and Shareholders. 3 Credit Hours.

This course examines the taxation of corporations and shareholders. Emphasis is placed on corporate formations, the corporate capital structure, stock redemptions, and accounting for income taxes. Various types of corporate distributions are also examined in detail.

TAX 615. Estate and Gift Taxation. 3 Credit Hours.

This course examines federal estate and gift taxes through an intense study of statutes, regulations, and case law, and explains practical applications in estate planning.

TAX 620. Tax Practice and Procedure. 3 Credit Hours.

This course reviews the administration of the Internal Revenue Code by the Internal Revenue Service and other federal tax agencies. Students will study procedural problems with respect to treasury regulations, requests for administrative rulings, assessment of deficiencies and penalties, closing agreement, tax liens, civil and criminal cases, transferee liability, claims for refund, information conferences, and hearings before the appellate Division of the IRS and the Tax Court of the U.S.

TAX 625. Partnership Income Tax Problems. 3 Credit Hours.

This is an intensive analysis of income tax problems encountered in the organization, operation, reorganization, and dissolution of partnerships. It includes recognition of partnership status for tax purposes and problems created by death or retirement of a partner, sale of a partnership interest, and distribution of partnership assets, and determination of the amount and nature of partner's share in partnership income or loss.

TAX 640. Advanced Income Tax Problems. 3 Credit Hours.

This course addresses advanced problems of corporations and shareholders. Topics include accumulated earnings tax, personal holding companies, complete liquidations (one month and one year), collapsible corporations, S corporations, liquidation of subsidiaries, affiliated and controlled groups, and consolidated return problems, plus an overview of corporate reorganization.

Prerequisites: TAX 610.

TAX 672. Income Taxation of Trusts and Estates. 3 Credit Hours.

This course covers income taxations of trusts or estates, plus the tax treatment of grant or trusts, income in respect of a decedent, assignment of income, and accumulation trusts.

TAX 673. Pension and Profit Sharing. 3 Credit Hours.

This is a intensive analysis of tax implications of deferred compensation; emphasis on qualified and unqualified pension and profit-sharing plans including eligibility and participation of employees, funding, benefits, and plan administration (including fiduciary responsibility). Also considers IRAs, Roth IRAs, Section 88 restricted property, statutory stock options, and other alternatives to qualified plans.

TAX 674. Corporate Reorganizations. 3 Credit Hours.

This course is a study of mergers and acquisitions that combine different corporations, the special problems or transactions that result in the division of a single corporation, provisions of the Internal Revenue Code that relate nonrecognition of gain or loss, and the treatment of basis and boot. Landmark cases and leading judicial doctrines that deal with the need for business purpose and continuity of interest are examined.

Prerequisites: TAX 600, TAX 605, and TAX 610.

TAX 675. Business Tax Planning. 3 Credit Hours.

This course presents business problems to which students find classroom solutions after independent or group research. Topics discussed include the formation of corporations with consideration given to securities, professional service corporations, dividends, stock redemptions, and the purchase and sale of businesses. Actual and hypothetical fact patterns are used by students to plan and structure transactions. A student is given a set of facts that is used to conduct a business as a sole proprietorship, a partnership, or a corporation and eventually to liquidate this entity.

Prerequisites: TAX 600, TAX 605, and TAX 610.

TAX 676. Multi State Taxation. 3 Credit Hours.

Various states have adopted revenue-raising statutes that vary from income taxes, franchise taxes, license taxes and business profits taxes. A company doing business in more than one state must develop tax planning strategies that can reduce its overall state tax burden. This requires an understanding of the wide disparity of methods used to determine a state's taxable income and the tax rates imposed on that income. This course examines the tax structure in the State of Rhode Island. In addition, it covers nexus and its role in multi-state taxation. It discusses the sales, payroll, and property appointment factors used to allocate income amongst the states; the unitary method of state taxation; domicile concepts; and state taxation of e-commerce. The Uniform Division of Income for Tax Purposes Act and the Multistate Tax Compact will also be covered.

TAX 677. Estate Planning. 3 Credit Hours.

This course provides intensive consideration of the marital deduction, lifetime gifts, use of trusts, selection of trustees, valuation problems, apportioning the tax burden, charitable deduction, deferred compensation plans, and life insurance.
Prerequisites: TAX 615.

TAX 678. International Taxation. 3 Credit Hours.

This course covers the special tax rules that apply to cross-border transactions between the United States and its trading partners. The U.S. taxation of foreign-source income earned by U.S. taxpayers (outbound taxation) and the U.S. taxation of U.S.-source income earned by foreign taxpayers (inbound transaction) is studied in detail. Topics include: sourcing of income and deductions; transfer pricing; extraterritorial income exclusion; subpart F income and the foreign tax credit.
Prerequisites: TAX 610.

TAX 690. Selected Topics in Taxation. 3 Credit Hours.

This course is a three-credit graduate elective in contemporary topics and issues in taxation. Students examine current issues in greater detail than is possible in the usual course offerings.

TAX 691. Directed Independent Study in Tax. 3 Credit Hours.

This course is designed to allow an individual academic program to be tailored to fit the unique interests of a graduate student, the faculty member and the student will develop an academic plan that is submitted to the College of Business for final approval.
