Station Hosp.
Dix

Dear Mom
Just a note to tell you of the latest developments.

Several officers came over last night and introduced themselves - they belong to our unit and had arrived Sunday. Now we have seven doctors and twelve nurses plus chief nurse and they tell us we will meet the enlisted men and other officers at the point of Embarkation.

We are so excited - what a great chance to do our nursing help our boys and our country and travel! We are meeting people from all over the country.

To day we filled out cards stating that we had arrived at our destination safely - it will be sent home if and when we do arrive where ever we are going to be stationed.

Our Chief Nurse told us we are going to a cold climate - the Red Cross is donating flannel pijs. Our new address will be

APR 1999 9/0 PM NYC #629600

Rumors are flying thick and fast
around here, because of the y. fever
chikara and tyma shots we think maybe
we will go through the Panama Canal
However it may be northern Ireland
or Scotland. Wouldn't it be wonderful if
I go to England your beloved country
Who knows - Mom! We have lots of
fun talking about it anyway

Give my love and new address
to all

Write soon
May.
