# RESEARCH METHODS

## QUALITATIVE

Fieldwork, a methodology of qualitative research, is an engaging means to conduct research. It requires expertise and skill in a number of research methods, and is a vital means to understand and learn about societies, cultures, and insitutions, such as college campuses. Here is a list of some research methods and ideas taught in the course LCS 389: Fieldwork in Local Communities:

Scientific Method  
Background Research  
Literature Review  
Developing Research Questions  
Interviewing  
Participant Observation  
Fieldnotes and jotnotes  
Coding (First and Second Cycle)  
Data Analysis  
Mapping (CIS, Body and Social)  
Sampling  
Self-Reflexivity  
Thick Description  
Ethics in Research  
Human Subjects  
IRB and Informed Consent  
Data Analysis  
Testing Validity  
Generalizability  
Saturation  
Resonance  
Triangulation  
Photography  
Videography  
Community Engagement  
Participatory Action Research  
Deductive, inductive, and abductive reasoning.
