

ARMY AIR FORCES
GREENSBORO,
NORTH CAROLINA

Sunday
11/15

Dearest Mom:

Well another week gone, I'm in my 40th day of training. If everything goes well I should be on the alert this week, sometimes. No news as to my classification yet. One fellow in my barracks has been made a bombardier-navigator. It's the fellows that have special cases that are notified also the washouts. If you pass and nothing special arises, you are told nothing, so no news is good news.

A fellow in the next barracks is under observation for Scarlet

Fever. If he has it his whole
Barracks will be quarantined
for 20 days. If one more fellow
gets it, the whole squadron will
be quarantined. Boy wouldn't that
be nice? Like hell! We'd never
get out of this dump ~~now~~ ^{then}.

Is it hot in Texas? It sure
is warm here. Yesterday I
sweated like the devil. It's
going to be warm today also.

I saw "Cavalcanal Diary"
Friday night. It was superb.
You should see it. I think I'll
go to town this P.M. and see
"For Whom the Bell Tolls." The pass
system has changed. We can only
get out every fourth day. Now
today we have a pass, and Thursday
will be our next chance, then
Monday, etc. It's worked by groups

ARMY AIR FORCES
GREENSBORO,
NORTH CAROLINA

I think I'll go eat now. I'll see you later, angel.

Boy what a meal. Fried chicken, sweet potatoes creamed corn, chicken soup and ice cream. Really something eh?

Bob Colletti is in camp. He got here with a shipment about 2 weeks ago. They went to Fort Dix for their processing. Also some of their group went to Miami. He's coming over at 1300, it'll be good to see a familiar face.

Well hon, that's all the dirt. Give me some idea what you want for Christmas, beautiful. I love you. Give my love to everyone.
Julia
