Week End to Feature Ginger Group

Phi Kappa Tau's Fall Week end, November 22 and 23, features The Ginger Group and The Luv-in Kynde.

Friday, the 22nd, the music for the dance at the Rhode Island Yankee Motor Inn will be provided by The Ginger Group. This group is from New York City where they have performed in many of the city's night clubs. One of the reasons for the groups popularity is that it is an all girl band. That's right, four beautiful girls singing and playing the well-known hits of today! The girls put on a fabulous show and their entertaining doesn't end with the end of the show.

On Saturday night there will be another performance by The Ginger Group and they will be

providing continuous music along with The Luv-in Kynde. The Lov-in Kynde also comes from New York City. They have performed in many of the same clubs as The Ginger Group. Their repertory ranges from the modern extended rock, to the well loved soul. Whatever your taste in music, these two groups will play the music you like to hear. Saturday night's performance will be held in the Bryant College Gymnasium. Remember, constant music by two fabulous groups straight from New York City: The Ginger Group and The Luv-in Kynde.

Also as part of the Fall Week end activities is the Pig Chase, Saturday, November 23, starting in the afternoon. Those competing will be fraternities, so-

GLC To Help Biafra

In 1967, students of 164 U. S. colleges and universities responded to news of the severe drought in India by volunteering to raise money for emergency famine relief. The resulting "Food for India" campaigns took the form, on most campuses, of omitting a meal and contributing its cost to the United Nations Children's Fund. The proceeds helped UNICEF curb the incipient famine in the drought-stricken area.

This year, with a bumper crop, the emergency in India has been relieved, at least temporarily. However, UNICEF faces a new crisis in Nigeria/Biafra, where civil war has left millions of children and mothers starving and homeless on both sides of the fighting lines.

Student organizations are now planning to renew their campus fund drives with the focus shifted to Nigeria/Biafra

relief. Frederick A. Day, Jr., of American International College has been appointed National Student Chairman of the Student Food for Nigeria/Biafra campaign. UNICEF, which has launched a worldwide appeal for public contributions, has again endorsed the student drive. Fred Day announced that most of the student "fasts" will take place on campuses throughout the country in late October or early November.

Bryant college's Nigeria/Bia-

fra campaign will take place November 25.

Dr. James M. Nabrit, President of Howard University, has written to all college presidents appealing for their support.

SITUATION DETERIORATING

The millions of children and mothers displaced by the constantly shifting battle lines in Nigeria have become the victims of extreme malnutrition as well as an intensified incidence

of many diseases. As of late summer, the situation had deteriorated to the point where the death toll from starvation had reached an estimated 6,000 deaths per day and was increasing.

UNICEF has conducted long-range child care programs in Nigeria since 1954, and has been sending emergency relief supplies into the fighting zones since last April. Along with other voluntary agencies, including

ANNUAL U. F. DRIVE TO START MONDAY

This year, as every year, Bryant College is holding its annual United Fund Drive. In the past, this drive has been in the form of a "tin can" collection in each classroom. This year it is going to be held in the form of a United Fund basketball contest with the winners of the contest being registered in the Bryant College Hall of Fame. There will be four games going on throughout the week which will go on from Monday noon to Friday noon. The following teams will play:

1. All the Greeks against each other.
2. All the clubs against each other.
3. All the dormitories competing.
4. Commuters-Dorm Students.

The winners in each of these games will be entered into the Bryant Hall of Fame.

The rules for the games are as follows:

1. Every team will receive one basket (two points) for each \$1. contributed.

2. Each team will be given a handicap according to its membership. For every 5 members under the membership of the highest group that they are playing the team gets 1 point handicap. Ex. Weightlifting 130 and Masquers 50. This is an 80-member difference and, therefore, the Masquers would receive a 16-point handicap.

3. All games will run from 12 noon on Monday until Friday at noon.

1st quarter — Completed at Tuesday noon.

Half-time — Wednesday at 12 noon.

3rd quarter — Completed Thursday at noon.

Game over—Friday 12 noon.

4. Each club will be expected to make a pledge to be made up of a collection from its members and possibly from the club treasury.

5. Scoreboards will be placed in the Union.

6. All donations by advisors of the organizations to the

Student Drive will count double.

7. The team with the most points at the end of the game wins.

8. The president of each club, Greek, and dormitory shall be the coach of their team and shall collect and coordinate funds and report at the end of each quarter to the commissioner.

9. The commissioner shall determine all scores and his word shall be final.

Bryant College is the only college in Rhode Island to have its students participate in the United Fund Raising Drive. Last year the student body collected over \$400. It is felt that this year more money should be and will be collected.

The fund raising drive will begin this afternoon with the Student-Faculty football game at the Bryant College athletic field at 3:15 P. M. The charge will be 30 cents per person and 50 cents per couple, with all proceeds going to the United Fund.

STUDENT vs. FACULTY-ADMINISTRATION FOOTBALL GAME

TODAY AT 3:15 P. M.

At the Bryant Athletic Field

ADMISSION: 30c per Person — 50c per Couple

All Proceeds Going to the
UNITED FUND

Help Kickoff United Fund Week

Empty Buildings At Bryant

A few years ago, Bryant felt the need to expand its current plant. The area now known as the Student Lounge above the Book Store was once a game room, but when larger student activity space was needed, this game area was shifted to its present location in the new Activities Building on Power Street.

There, in a more modern atmosphere, it was felt that greater use could be made of these facilities. But, just what use has this building received?

Last week, at a special Senate-GLC banquet, Senate President Lander related to members present that the Maintenance Department would prefer that no more groups be allowed on the campus because of lack of room. Therefore, on the surface, it would appear that Bryant buildings are being used to their capacity almost all of the time. However, this is just not the true situation.

It would appear that, generally, the Activities Building is just an office building for college employees, because MOST of the time it is only available from 8:30 A.M. to 4:30 P.M. on weekdays. For a student to use this facility, special arrangements and special procedures ALWAYS MUST be implemented. Just this past week end, the long week end, I wanted to use the building for work on the ARCHWAY, but four times I traveled up to the campus, and four times the building was closed. Could be that I am luckier than most in that I am a commuter, have a car, and can maintain more mobility than a dorm student. But what of the dorm student "stuck" on campus for the long week end, or any week end for that matter? Without a car, he (or she) is in a pretty hapless situation. He has a choice of three things to do at Bryant on the week end — watch TV, study, or eat. No doubt he does all three, and probably leaves the campus once in a while for an occasional movie. It looks like this poor guy is really "stuck".

When the Activities Building was planned, the structure was designed to facilitate more student use of the school's "limited", but available plant, and for the most part, the expenditure has been a loss. So, I will put just one question to any Bryantite who can give an answer. WHY?

Bryant After Hours

By Stephen Russo

"Mary's Baby"

The bride stepped dignantly down the front stairs of her home, looking much too serious for her wedding day. She wore an off-white gown and short veil, there was no great and flowing train—not even a flower girl. Her new mother-in-law seemed to cast a glance of encouragement her way, but it was very faint.

The groom, a tall thin figure in his plain black suit, shook hands and talked to a few friends. He paid little attention to his new wife although his arm was about her waist.

In a few moments they were off on their honeymoon, but something was evidently missing. Tears, there were no tears. The groom's parents (the parents of the bride were not in

attendance) merely walked back into the house as if they had returned from a Sunday stroll.

The bride and groom drove to a motel (about four miles from their parents' home) and would spend the next three days there. Tuesday morning it was back to work.

Yes, Mary was already pregnant, she would bear a child in the same month as her sixteenth birthday. Her husband would leave high school and go to work. There will be no prom for Mary this year (she was in the ninth grade), nor ever again. She is going to be a housewife—and a mother.

I hope that by the time my daughter or son is in Junior or Senior High, the need for sex education at the lower level is finally realized.

Not All "MA's" Alike

To the Editor:

As an "MA" (your designation), I wish to go on record as one who does not share the stated opinions expressed by other "MA's" in the editorial appearing in your November 1 issue.

If BA students are not creative, who in the world plans and builds the beautiful displays for Sno' Queen? The Circus for Freshman Orientation? The exhibits for Student Senate Open House? The special effects during Dormitory sings? These are only the first that come to mind. I understand Dormitory Council is now planning a program which will add to the Christmas season — decorating the dormitory doorways.

If these examples of artistic creativity don't meet the standards of Brown or RISD, how do those two institutions measure up against the practical talents and professional proficiency of Bryant students? When bouquets are passed out, Bryant students may be mentioned in passing; but other colleges participating in Youth Guidance and Progress for Providence activities are well advertised.

How many students in other colleges can ask penetrating and perceptive questions regarding issues and problems which concern them? How many students at other colleges hold down jobs and still maintain satisfactory grades? How many students at other colleges demonstrate self respect and cleanliness in their attire? How many students at other colleges devote the time necessary to work for the improvements that are appearing on our campus, both in the College and the student body.

Not creative? Bah, humbug! Sincerely,
Another "MA"

"Archmate" of the Week

Linda May Dion

This week's "ARCHMATE", Linda May Dion, is a nineteen-year-old senior enrolled in the executive secretary program. Linda resides in Bristol, Rhode Island and commutes to Bryant. Upon graduation she hopes to become an executive secretary in Boston.

Linda feels that "Bryant College is an exceptionally good business college and offers many opportunities to the business minded person". She also takes part in Bryant's social life as a member of SIX sorority.

Linda's perfect man would have to be tall, dark, handsome and understanding. He will also have to be well liked, intelligent and outgoing. Linda added that "he'd have to be well educated to understand me."

Bowling and volleyball are among the sports enjoyed by this week's "ARCHMATE". You'll never have to worry about having something to talk about to Linda because as she says, "Any subject that I talk about is my favorite."

BIAFRA

(Continued from Page 1)

the World Council of Churches and Caritas Internationalis, the Children's Fund works under the co-ordination of the International Committee of the Red Cross.

Initial deliveries of medical supplies to relief teams already working in the area have been supplemented, since early September, by some 5,770 tons of food and drugs which UNICEF has shipped by sea and air. Other shipments are scheduled to follow. Severe logistical problems hamper ICRC's efforts to get aid to the rebel-held region, but as these are resolved, UNICEF must provide a massive stockpile of readily available foods for emergency feeding.

Reflecting UNICEF's principal concerns for children, pregnant women and nursing mothers, its emphasis is on providing high-protein foods such as powdered milk, corn-soy-milk blend (CSM), baby foods, butter oil, and fish protein concentrates. UNICEF has also contributed a number of ground transport vehicles and chartered helicopters to assist ICRC in food distribution.

LONG-TERM NEEDS

Whatever the outcome of the Nigerian conflict, UNICEF foresees severe demands for months and years ahead. Normal farming routines have been disrupted. For the survivors, there will undoubtedly be a substantial delay before crops can be harvested. Immense rehabilitation projects will be needed to restore UNICEF's long-range programs and counter the effects of such a period of deprivation.

The U.S. Committee for UNICEF, sponsor of the Student Food for Nigeria/Biafra Drive, is a non-governmental, non-profit organization set up to inform the American people about the needs of children in the developing countries and to raise funds to help UNICEF meet these needs.

The United Nations Children's Fund was created in 1946 by the UN to be responsible for the rescue of children in war-torn Europe. As the economy of Europe was restored, UNICEF shifted its emphasis to the needs of the emerging nations. These developing countries are now aided by long term projects in nutrition, health services, disease control, family service and education as well as emergency relief when needed.

WEEK END

(Continued from Page 1)

riorities, and the independents representing their dormitories. The chase consists of catching a greased pig on the run, and carrying him across the designated finish line, in a wagon. The team which takes the least amount of time is the winner. The whole afternoon is exciting and is definitely the most comical show you'll ever see. This event will be held at the Bryant College Athletic Field on Gano Street.

Remember to put these dates aside, Friday night, November 22nd, at the Rhode Island Yankee with The Ginger Group performing all night; Saturday morning, November 23rd, the Pig Chase at Bryant Field; and that night in the gymnasium The Ginger Group and The Luv-in Kynde with continuous music.

In Review: "Testing, Marking, and Make-Ups"

By Paula Pascone

Take a group of eager, conscientious students, a handful of cooperative, interested faculty members, a College Registrar, and a Dean. Seat them at tables arranged in a circle in a congenial atmosphere and serve coffee. What do you get?

An open, honest, relaxed discussion of academic problems on a college campus.

This is exactly what took place at Bryant on Thursday, November 7, in the Narragansett Room of Jacobs Hall. The students represented the Student Senate, Greek Letter Council, Dormitory Council and the general student body. Contributing for the faculty members were Mr. John R. LaFontaine, Mrs. Clarisse Patterson, Mr. Lawrence Shenk, Mr. Richard Reinhardt.

Dean Gulski and Mr. Richard Alberg spoke for the Administration. The discussion focused on "Testing, Marking and Make-ups: Why and Why not?"

On Make-ups Dean Gulski had this to say: "In cases where there are a number of students who would need to take make-ups, it would be difficult for all of them to take it at the same time. It would also be hard to find an appropriate place for the administration for these tests."

The question of whether or not a student should be allowed to make up a test that he missed for a valid reason arose and was answered by "Who should determine what is or is not a valid excuse?" Dean Gulski also pointed out that if a student misses a test, it does not count against him. The final examination simply counts half of the course grade. Therefore, any student who studies regularly and does miss a test for a valid reason, merely has a chance to show his knowledge on the final exam. In conclusion, the present plan of not allowing make-ups eliminates the temptation to "fein sickness", and actually protects the conscientious student.

TEP Sweeps 4 From TKE

By Charlie Turcotte

TEP's bowling team performed very well last week against TKE by taking four out of a possible four points. Congratulations on a job well done go out to Bob Parenteau, Mike Weiner, and Larry Fein with special congratulations to Al Cooper on his fine performance in bowling a fantastic 210.

In other sports news, TEP lost its last game of the season to Phi Sig by a score of 13 to 6. TEP's only touchdown came on a Sloven to Petruzzi combination in the first half. TEP's final record for the season is 2 wins and 5 losses, the 2 victories coming from AOX and DSP. Now that the season is over, I would like to thank all the Brothers who participated and congratulate them on a job well done.

Student study habits were also discussed. In contrasting random courses of study, Mr. LaFontaine mentioned that in any Liberal Arts subject, it was almost impossible to "cram" because the key to success in these courses is not facts but creative ideas, and this is something you cannot derive from a textbook. It can only be obtained through the use of creative thinking.

It was decided that testing should be the responsibility of the individual student; and that if a student has more than one test on any given day, it is his responsibility to be prepared and to have studied throughout the preceding weeks. In any event, faculty members are willing to cooperate and take a democratic vote in the classroom to determine the date and time for the majority of tests.

"SCALING: TO BE?"

Dean Gulski felt that there should always be an even distribution of grades, and there should not be a rule governing the number of failures. This should be left up to the individual instructor. He also pointed out that when the 1.75 minimum graduation cum was raised to 2.0, the faculty was instructed to grade higher and on the up swing. There is no set "scaling policy", as such, because a great deal depends on the individual classes and instructors, and it would therefore be impossible to fix a rule that would apply EQUALLY to everyone.

"CAN A STUDENT APPEAL A GRADE?"

Again, this would be left up to the individual instructor. In cases where a student does wish to appeal a grade, he should go first to the instructors, then possibly to the head of the respective department, and in extreme cases, to the Dean.

On the subject of final examinations, Dean Gulski said that the administration is in the process of revising its policies and it may be feasible in the near future for students to see their final exams after grading

Placement Office Presents Federal Career Day

Representatives from ten Federal agencies will visit Bryant College on Thursday, November 21, 1968. Their purpose will be to provide information and counseling covering Federal Government employment possibilities for college graduates. Known as a Career Day, this occupational presentation will take place between 10:00 A.M. and 3:00 P.M. in the Gymnasium. Participating agencies include the Internal Revenue Service, the Social Security Administration, the Federal Home Loan Bank Board, the Naval Construction Battalion Center, the Small Business Administration, the Defense Contract Administration Services Region, the Veterans Administration, the Newport Naval Base, the U. S. Civil Service Commission and the Defense Contract Audit Agency.

The primary avenue to Federal Government employment for college graduates is the Federal Service Entrance Examination. It provides successful competitors with an opportunity to be considered for over 200 occupations in some 50 Federal agencies nationwide. Lasting approximately 2½ hours, the test measures verbal abilities and quantitative reasoning power. In addition to the regular testing dates, Bryant College seniors will be able to take the test on a "walk-in" basis at 3:00 P.M. on November 21 in Room 1G of South Hall. This is an opportunity for these seniors to get on eligibility registers early, thereby increasing their chances for selection.

Individuals applying for certain positions, however, are not subject to the Federal Service Entrance Examination. College graduates who desire to work in teaching, the sciences or accounting receive a numerical grade based upon an evaluation of their educational and experience backgrounds. Those stu-

dents should apply to the nearest U. S. Civil Service Commission Interagency Board for application forms.

Those who achieve high scores on the Federal Service Entrance Examination or Graduate Record Examination Aptitude Test also will be eligible for further competition for Management Internships. These are formal training programs to bring candidates with outstanding potential into responsible management positions at an accelerated pace. In addition to the FSEE, eligibility for Management Internships requires successful completion of an oral examination in the form of an oral interview. Excellent recommendations from people familiar with an individual's education and experience are another requisite.

Participating agencies offer employment in numerous occupational specialties. For those with a social orientation, the Veterans Administration and the Social Security Administration should be of interest. Here careers are available in the various health fields, social work and general administration. With these agencies, the young college graduate can find real meaning in the term "involve-ment".

Students with more of a leaning toward business in the context of government should consider the challenges offered by the Internal Revenue Service, the Small Business Administration, the Federal Home Loan Bank Board and the Defense Contract Audit Agency. These agencies have a particular interest in young people trained in accounting, bank examining, financial analysis, tax collection and auditing are all career possibilities. Moreover, each of these organizations provides broad paths to employee development.

The Defense Contract Administration Services Region, the Naval Construction Battalion Center and the Newport Naval Base also seek people trained in business. Through the Federal Service Entrance Examination, the young college graduate can find positions with these agencies in procurement, contract administration, personnel, financial management and several other areas.

Finally, the U. S. Civil Service Commission will have representatives available for the Bryant College Career Day. From the FSEE, the Commission fills various positions in personnel management, staffing, investigation and examining. The Commission representatives will also have general information about employment requirements and application procedures for the large number of federal agencies unable to be present for the Career Day.

Beta Sigma Omicron

By Sharon DeMerchant

In our first bowling game of the season, we defeated AST 3 out of 4 games. Special thanks go to Elaine Paliotta on her great 205 score on one game. Great work Elaine keep it up.

Our SMOKER is getting closer! It will be Tuesday, November 19, at 7:00 above the bookstore. The Sisters have planned an enjoyable evening. All Freshmen and Independents are invited to attend and get better acquainted with the Sisters.

Congratulations to Betty Tokarz for being appointed Chaplain.

Plans are underway for our Christmas TEA, which will be held on Sunday, December 15.

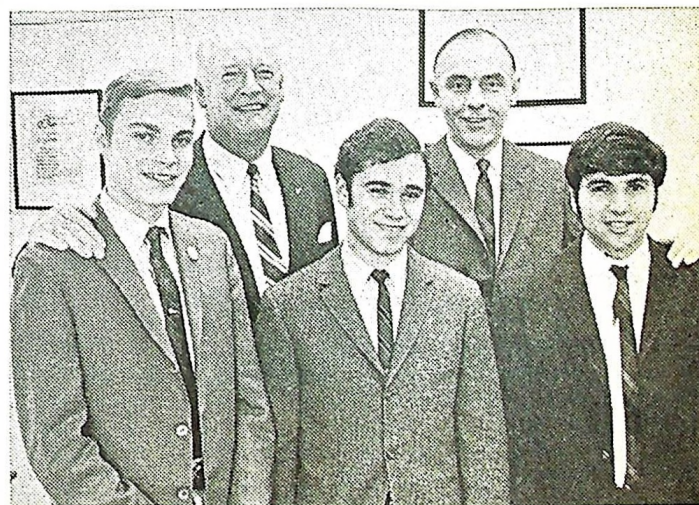

Remember: OUR SMOKER, TUESDAY, NOVEMBER 19 ABOVE THE BOOKSTORE!!

has been completed. More information will be released after a final decision has been made. "WARNINGS: CAN THEY BE ELIMINATED?"

It is an Administrative (not a faculty) rule for the grades to be in at a given date before the Warning Period. Mr. Alberg, College Registrar, explained the warning system and its purposes. In brief, "it (the warning system) is a necessary evil. It shows how the student is doing, and whether or not he is making academic progress." This information is vital for students on scholarships, veterans on the GI bill, and for parental review. Basically, it is for the peace of mind of the parents and those who are putting a student through school financially.

In review, the dialogue did not actually "solve" any problems or gripes, but it did clear the air between the faculty and the students and present each with the opposite side of the coin.

If nothing else, it established an open and honest rapport between the administration and the students.

Recent recipients of the Rhode Island Hospital Trust Company scholarship award are pictured here with Mr. Clarence H. Gifford, Jr., President of Hospital Trust, and Dr. Schuyler Hoslett, President of Bryant; from left are Dean Johnson, Thomas Massaro, and Steven Menissian.

GUEST LECTURER EXPLAINS ESP

By Kiven Johnson

On November 4, 1968, one hundred twenty people at Bryant College were placed at the threshold of super natural powers with questioning thoughts of whether ESP (extra sensory perception) could be true or not. Rev. Lawrence Jaffa dissolved some of the doubt in this parapsychological phenomenon (psi) by proving the existence of his having extraordinary psychic powers. The first power of psi he endeavored to convey to us was precognition (predicting future events). With this in mind he picked out five people who walked through the auditorium door before the program began, and stated what they would ask or what their reaction would be. One that impressed everyone the most was the prediction about a girl sitting in the fifth row, sixth seat; he stated that she had a thorough knowledge on the subject of ESP and she came to the lecture as a check up on her knowledge of the subject. Mr. Jaffa stopped in the middle of the program and asked her publicly if his prediction was right. She replied, "Yes, I've studied this subject and came in hoping that I could participate in the program." Her wish of participating came true and became a dramatic factor in the proving of ESP to the audience.

Rev. Jaffa's lecture explained

the five parts of ESP, which he put on the blackboard and put an asterisk beside the ones which he possessed. In his explanation he stated that he preferred the term extra instead of super natural powers. The five parts are listed below in the same manner that he listed them:

- *1. Mental telepathy—reading thoughts of others.
- *2. Clairvoyance—"clear seeing"—being able to visualize things that are happening some distance away.
3. Clair audience—being able to hear voices of persons who are beyond the sense of hearing—usually of a warning nature.
4. Precognition—predicting future events.
- *5. Psychokinesis—"mind over matter"—objects being influenced by the human mind or the human mind being influenced by objects.

Mr. Jaffa proved two of the above ESP, clairvoyance and mental telepathy—through a process which he calls "picture reading." He did this by asking people to give him professionally taken black and white photographs of people whom the submitter of the picture would know very well. In turn Mr. Jaffa would look into the eyes of the person and then have the

statements about the person verified by the submitter of the picture. Rev. Jaffa got about 75% of the statements about the various people correct; this is 25% above the chance average, which is remarkable in comparative terms of what some ESP people would know about a person.

If you feel that you are less fortunate because you don't have ESP, don't! For Rev. Jaffa uncovered a cosmic plan under the assumption that everyone possesses ESP, but it is not necessarily developed. This plan consists of the following three steps:

1. You have to believe: "God is in His heaven and all's right with the world; 2. you have to feel related to everything in the Universe; and 3. develop careful (caring) observation. Rev. Jaffa stated with certainty that if you followed this cosmic plan to ESP you would eventually attain the goal of being able to use your extra natural powers.

It was evident from those attending this ESP lecture that they found it a rewarding and interesting experience. Because of this I especially express my gratitude to the Psychology Club for sponsoring Reverend Jaffa with his bright personality and enabling him to share his special gifts with us.

Cortell's Critical Corner

Cortell's roving critical eye takes another movie under its scrutiny. This week it was "Barbarella" playing at the Avon.

The movie opens and we see Barbarella suspended in weightlessness in her rocketship. As she begins taking off her space-suit, the movie credits begin to roll by. After the first few credits go by, your attention is riveted on Barbarella; she has taken her spacesuit off and is completely nude. Man, you wouldn't have noticed, if the credits said W.C. Fields was in the movie. And so the movie progresses. She changes in and out of practically nothing throughout the entire movie. Moving from one scene to another, you can hardly wait to see what she isn't wearing next.

Aside from Jane Fonda's nudity, and practically everyone else in the movie as well, it has very little to offer the viewer, except for creativity and imagination, both of which perhaps have gone a bit too far. The story line is very thin; the scenes are

fragmented. It is sort of like a futuristic Wizard of Oz. Barbarella is looking for a lost Astronaut turned evil. In the process of her search she is accosted by flesh-eating dolls, man-eating parakeets, and the Pleasure Machine that pleasures you to death.

I must say I felt it was a definite waste of Miss Fonda's talents. It is a fun movie; grown-ups playing make believe and liking it so much they spent a fortune on special effects.

However, there are a few things I have to say that are on the plus side of the board. The color was truly fantastic; it was like a kaliedescope I must also give credit to the imaginative quality of the picture. It takes a great creative talent to make a movie such as "Barbarella" or any movie, for that matter, dealing with fantasy.

One final comment; the movie ad says "See Barbarella do her own thing" and believe me she does, she does!

Janice Cortell

Phi Ep Plans Top Smoker

The brothers are making final plans for our Annual Spaghetti Supper, Saturday, November 16. This will be one of the highlights of the semester's activities.

Tuesday, November 19, the BEST SMOKER is being planned. Not only will the freshman and independents have another opportunity to meet the brothers, but they will have the opportunity to meet Mr. Sam D. Shapiro, Sam is one of Phi Epsilon Pi's Grand Councilors, who was Senator Edmund Muskee's Campaign Manager for the Vice-Presidency for the United States. Mr. Albert 'Hank' Greenstone, our Executive Director, will be the keynote speaker.

William Kirschenbaum, regional field director, and Alan Kibofsky, President of the Inter-Fraternal Council at Brooklyn College, who is a 'Phi Ep', will be there. We will present a Smoker that will afford freshman and independents the best opportunity to see a fraternity on our campus. So remember, Tuesday night at 7:00 p.m. in the Auditorium at the Student Activities Building. Now that

you have seen the rest—SEE THE BEST — PHI EPSILON PI FRATERNITY.

Congratulations go out to Beta Sigma Omicron Sorority. Tomorrow the BSO girls celebrate their first anniversary. Happy Anniversary BSO.

Student Visiting Govt. Agency

Charles Bradley, a senior Accounting Major, is at this time the guest of the U.S. General Accounting Office in Washington, D.C. Mr. Bradley was appointed for this honor by Dr. Charles Goulston, Accounting Department Chairman.

While in Washington, Mr. Bradley will tour the main facilities there, learn of the major functions of this government department through conferences and discussions with the various directors, and visit some of the major audit sites in the area.

As part of the Archway's continuing program of features for students, a complete description of Mr. Bradley's two-day trip will appear in next week's issue.

Phi Kappa Tau

By Dave Huggins

PHI KAPPA TAU defeated Phi Sigma Nu and Delta Sigma Phi to make their record 6-0. Congratulations to the team on a fine season so far.

The Phi Taus are working hard on plans for Fall Week End. The week end is a great time; so you should all plan on going. The groups featured this year are "The Ginger Group" from New York and "The Loving Kind." The date is November 22 and 23 and tickets will go on sale during the week of the 18th. Be sure to get your ticket early before they're sold out.

There will be a social gathering this afternoon, and the brothers hope to see all you Freshmen and independents attend.

Your Chance to Question Our State Representatives

The World Affairs Council of Rhode Island presents:

Four distinguished diplomats representing Latin-America, Asia, Europe and Africa.

Mr. Hoyt Ware, Public Affairs Advisor, Bureau of Inter-American Affairs will discuss: "The Importance of Latin America".

Mr. Howard T. Robinson, Labor Advisor, Bureau of East Asian and Pacific Affairs will discuss: "The Social Struggle in Viet-Nam".

Mr. Arthur Tienken, Alternate Country Director for The Congo, Rwanda, Burundi, Malagasy Republic, and Mauritius, Bureau of African Affairs, will discuss: "Areas of Current African Dilemma".

Mr. Eugene Kieberov, Desk Officer for Finland, Bureau of

European Affairs, will discuss: "America and Eastern Europe: Last Year, Today, Next Year".

Thursday, November 21 — Wayland Manor 5:30 P.M. Reception in The Wayland Room—6:00 P.M. Dinner (\$3.50 Inc. Tax and Tip).

7:00 P.M. Meeting (for Meeting only Council Members free—Non-members 50 cents). Dinner reservations, call 421-8622.

This state department conference is sponsored by the Providence Journal-Bulletin in cooperation with the World Affairs Council of Rhode Island. Each of the four diplomats will be requested to speak for ten minutes so that the major part of the program will be confined to questions from the audience.

ATTENTION, SENIORS

November 21 will mark Federal Career Day at Bryant College. Representatives from a dozen Federal agencies will be here to talk to students about opportunities in various branches of the federal government.

Federal Agencies Represented:

1. Internal Revenue Service
- Social Security Administration
- Federal Home Loan Bank Board
- Naval Construction Battalion Center
- Small Business Administration
- Defense Contract Administration Services Region
- Veterans Administration
- Newport Naval Base
- U. S. Civil Service Commission
- Defense Contract Audit Agency

This is not a recruitment drive and in no way obligates the student. These agents will be in the gym on November 21 from 10 A.M. - 3 P.M. with free brochures and pamphlets. The Federal Service Entrance Examination (F.S.E.E.) will be given on this date starting at 3 P.M., Alumni Hall, Room L-1.

Bryant's Young Democrats on the Move

By Nancy Harris

The life of a Bryant College Young Democrat is filled with many interesting activities and happy memories. Our meetings are held informally, yet there is a sense of purpose pervading the atmosphere. Early this year the club voted to support the State Democratic Ticket of Rhode Island and then things really began to happen.

Some of the members of the Young Dems had already begun to work for candidates in their own districts but many of us had not. Therefore, we volunteered to work downtown with the Licht and Garrahy staffs. We started off by taking district phone books apart and making a listing of each resident and his phone number. It may sound like tedious work, but there were quite a few jokes told and there was always plenty of coffee, soda, doughnuts, and of course pizza.

The next week we participated in a motorcade to the airport to greet Senator Muskie. Once at the airport we handed out Licht and Garry flags, pamphlets, and postcards to all of the spectators. We also had big signs giving Senator Muskie a welcome from Bryant College. We were able to shake hands with the Senator and our photographer took some close-up shots of him.

Later on in the campaign, postcards had to be addressed and phone calls had to be made. The Bryant students acted as supervisors and took care of any problems and questions that the girls making the campaign calls could not handle. During a break I was able to have coffee with Senator Garrahy and some members of the Licht family. The general topic of discussion was Jackie Kennedy's forthcoming marriage to Mr. Onassis.

We were extremely lucky that Judge Licht accepted our invitation to speak at Bryant since he had a full campaign schedule. Two days before his speech, we got busy and distributed posters all over the school advertising the Judge's coming. The next day we distributed Licht flyers around campus. The day of his speech the Young Dems set up the gym and during his speech we acted as ushers and usherettes.

As the campaign drew to a close, the Licht and Garrahy staffs were busy stuffing campaign literature into envelopes. Over ten thousand envelopes had to be stuffed, addressed, sealed, and stamped. I put stamps on five hundred envelopes and other members of the club did the same. Later that same day eight of us drove to Garden City, Ann & Hope, and War-

wick Shopper's World to distribute literature.

Election night the excitement and the crowds kept growing as our candidates edged closer and closer to victory. The high point of the entire campaign was when we realized that all of our efforts had helped to win the election overwhelmingly for the Democrats.

Our activities are far from over now that the election has ended. We are planning a trip to Washington during the semester break and we are working on plans to visit the Congress (hopefully in session) and to hold a dance. Our next meeting is on Monday, November 18 in L-1, and anyone who is interested in being a person on the move with a purpose is welcome to attend.

S I B

All of the sisters would like to thank all those who attended our smoker Tuesday night. There was a very good turn-out, and the buffet afterwards was a lot of fun.

For all of you thirsty people, Sib will be having a happy hour this afternoon. We'll be meeting in front of the Wigwam at 3:00.

Peggy Zerrilli

Tau Kappa Epsilon

Our 1968 annual TKE smoker went off without a hitch and congratulations to Steve Genden and Murray Copp for a job well done. The program was carried out flawlessly and the first-time-at-Bryant-forward-march-to-the-Bottomside was a unique experience for everyone. What better way to meet a fraternity than at a very relaxing pub — far from the maddening sounds of a second-rate band in a matchbox auditorium. Who is the one — TKE is THE ONE!!

TKE Over ZBT 14-13

Last week our football team came from behind twice to beat a tough ZBT club by the score of 14-13. It was a rough, determined effort by both sides and the team showed Ace that yes — we can come from behind and win a game. Trav and Dex tallied to passes and clutch-kicking by Trav was the margin of victory. Mick Kistner came back from a disastrous first half and called the shots — honorable mention players forever!

Keep on the lookout for more TKE hall parties with one this week end and one right before the Christmas holidays. Ask your friendly frater for further information.

Alpha Phi Kappa

By Donna Lewis

Phi Kappa Tau and Alpha Phi Kappa are putting on their annual Fall Week End this coming Friday, Saturday, and Sunday. It will prove to be the best ever. We have put a lot of time and effort into making this a great success. Friday there will be a dance at the Yankee Motor Inn. Saturday there will be a pig chase, which is always a lot of laughs. Saturday night there will be a dance in the gym, not to mention all the other activities of the week end. We have two very good bands scheduled for both nights: The Luvin Kynde and The Ginger Group. We hope to see you all there! You'll be sorry if you miss it.

APK is proud to say that they are undefeated in Volleyball. We played Theta last week and our most outstanding player, Sheryl Cofman, served 10 unreturnable serves in a row. Our brothers are also doing a great job in football. Unfortunately Phil Walker injured his knee in the game against Phi Sig and was unable to play in the Beta game. You're doing a great job PKT—keep it up.

Ellen Harper has taken Lynn Engelhardt's place as President of the sorority, and we elected Gail Kendall as our new Vice President. Congratulations to both of you.

FEDERAL CAREER DAY

THURSDAY, NOVEMBER 21 -- GYMNASIUM

Visit with Representatives from the following Agencies:

Internal Revenue Service
Social Security Administration
Small Business Administration
Veterans Administration
Newport Naval Base

Naval Construction Battalion Center
U. S. Civil Service Commission
Defense Contract Audit Agency
Federal Home Loan Bank Board
Defense Contract Administration Services Region

Walk-in Federal Service Entrance Examination

THURSDAY, NOVEMBER 21, 1968

at 3:00 P.M. in Room 1G of South Hall

Athletic Club to Present Open House

The Bryant College Athletic Club recently opened its doors to allow the members to use the facilities for the first time this year. The club purchased \$500 worth of new equipment this past month to go along with the weight lifting room's new coat of green paint. Within the next few weeks, the club plans to hold an OPEN HOUSE for the administration, faculty, and student body.

The club's football team (7-2) felt rather badly about its sec-

ond loss to the Appleby Hall Football Team, but they were not kept depressed too long as they walloped Scott House 20-2. Donny Anderson scored two touchdowns and Gary Lapier scored the other with the passing of Rob Daughton, who also kicked the extra points. The team will conclude its season on Tuesday, November 12, against Gardner Hall.

The bowling team has continued its way of winning as it has

trounced most of the league (?). We hope that they will bring the club an excellent record to follow incoming years.

Our monthly meeting was held November 6, to discuss business and introduce our new adviser, Mr. Robert Helmbrecht, who was warmly received. We are filing a petition to Dr. Hostlett for reimbursement of recently purchased equipment and for wrestling mats for the college.

Elmo's Profootball Predictions

By Elmo Upset

The results of last week's games are in fans, and Elmo, your ace pigskin prognosticator, picked a total of 9 winners out of 12 games and 1 tie for a .750 percentage. For the reason the totals read 78 winners out of 110 games and 3 ties for a percentage of .709.

The biggest surprise in last week's games was the stunning upset victory of the New York Giants over the Dallas Cowboys by a score of 27-21. The Giants were 17-point underdogs going into the game, but the combination of the passing of Fran Tarkenton and the defense coming up with the big play stopped the Cowboys. The loss by the Cowboys cuts their margin to a lead of 1 game over the Giants.

The hottest team in Pro-football, the Chicago Bears, continued their winning ways with a 21-19 victory over the San Francisco 49ers. The Bears were hurt by the loss of their star halfback and best runner in Pro-football, Gayle Sayers, with a knee injury. He is out for the rest of the season.

It looks as though the Green Bay Packers will have a wait

until next year after suffering another defeat to the Minnesota Vikings. The Packers have been plagued by many injuries this year.

In the A.F.L., the New York Jets have a 3½-game lead over Houston in the Eastern Division with 5 games to go. The Jets look like a shoo-in for the Eastern Division title. The Western Division race continues to be a close one between Oakland, Kansas City, and San Diego.

After consulting the many possibilities on my ouija board, here is the way I see this week's games:

Chicago over Atlanta
Cleveland over Pittsburgh
Dallas over Washington
Minnesota over Detroit
Los Angeles over San Francisco
Green Bay over New Orleans
New York over Philadelphia
Baltimore over St. Louis
Kansas City over Boston
Miami over Cincinnati
Houston over Denver
Oakland over New York
San Diego over Buffalo

Now it is back to the ouija board for next week's predictions.

Senate Spotlight:

Douglas E. Stark

This week's column highlights a senator who is well deserving of high praise. Doug Stark, President of the 110-member organization known as Delta Omega, hails from Rochester, New York. He is a seventh-semester Accounting major, maintaining a cumulative average of 2.94.

Doug worked in inventory control this past summer at Gleason Works in Rochester, and I personally have had the pleasure of working with Doug on Freshman Orientation.

His cheerful, likeable personality has earned him the respect and friendship of many of his classmates at Bryant.

We all wish him the best of luck in his remaining career at Bryant and in his chosen profession upon graduation in June.

Paula Pascone

Delta Sigma Phi

By D. J. DeSousa

Special congratulations go out this week to our honorary Brother, Rich Blake. Good luck, Rich. We know you will work hard for Delta Sigma Phi and that you will certainly be a credit to our fraternity.

The big, white "Whale" finally got harPOONED. All the Brothers would like to extend their sincerest best wishes to Brother Bob Haigh and Pam on their recent engagement. Congratulations, and good luck in

the future, Bob.

Last week our football team lost their game — 17 to 3. Actually we played a fairly good game. Carbonetti kicked a field goal? The game was much tighter than the final score indicated.

Last weekend was Delta Sig's first annual KAT Week End. I felt it was such a booming success that we will make this affair a monthly affair, at least. More about this next week.

Alpha Sigma Tau

AST lost in volleyball to APK last Monday. Come on girls, let's shape up! It's still not too late. Our joint happy hour with SIB didn't materialize last week, but we hope that plans can be made for another one soon.

Plans are in the making for

our Yucca party and our Tea. Dates will be announced at a later time. All freshmen and independents are invited.

Congratulations to our brother Bob Haigh who got engaged. We're all happy for you, brother. Until next week . . .

Inside Sports

By Buddy Meyer,
Sports Editor

As we draw to within two and one half weeks before the beginning of another basketball season, I feel it appropriate at this time to make some comments about the 1968-69 edition of the Indians.

From observing the Indians at practice I feel this is the best Bryant team I have seen "potential" wise. I feel this team is better than the 1966-67 team which went undefeated. Not saying anything derogatory about the 66-67 team, but this year's team has much more balance than the team of two years ago. This year we have great speed in the backcourt with Veterans Ben Billie and Don Gray holding down the fort. In front court we have returning scorers Dave Greenblatt and Joe Goddard. Last year Dave had a scoring average of 12.5 and Joe an average of 10.8. Also among the high scorers were backcourt men Gray (17.2) and Billie (15.2). Last year's center, George Yates, who scored an average of 14.9 points a game, is also returning. Added to last year's five starters are returning ace reserves, Ed McManus, Ralph "Hams" Johnson, and Dave DeSousa. Added to this year's roster are transfer students George Peckham (6'2"), Bill Zillox (6'3"), Bob Chuprevich (6'3") and Herb Garrett (5'10"). With a squad such as I mentioned, there is no doubt in my mind that even with a more difficult schedule this year, we will have an outstanding record and win another trip to the NAIA regional tournament. The only difference about the tournament this year is that we are going to win the regionals.

I have also observed this year's freshman basketball team. To put it briefly — they look good. It is the best frosh team Bryant has ever had. The team may lack height, but it has some very good shooters and is very fast. I recommend that everybody come to the frosh games this year because you will see some little Injuns being grown for the big tribe. Bryant is continuing to build its basketball fortunes and as far as I can see they will stay up high for a long time to come.

Phi Sig Beats TEP

By Brian Kent

Phi Sig ran over TEP last week by the score of 6 to 13. Bob Baxter ran in for the first touchdown after Willis Vermilyea completed a pass to the 1-yard line. The extra point was converted by Danny Davidson. The second touchdown came with another pass to Willis Vermilyea, and Bob Baxter again made the six points.

Phi Sig and Chi Gam held a combined party on Waterman Street last week. Everyone had a great time at the party. We hope that in the near future more combined parties will be held between the fraternities on campus.

Phi Sig's hall party will be coming up soon; so look for announcements or ask any brother for the time and place.

Beta Over AOX 13-Zip

Sports was Beta's thing last week. Our football team beat AOX 13-0 in a terrific defensive battle. Outstanding players were blocking backs Jeff Bauer and Bob Stosse, quarterback Dom Cerminaro, and ends Dave Riccutte and Duck DeCrescenzo. Everyone did a great job and it was a well deserved win.

Then, in a thrilling battle, Beta's new bowling team under the able direction of Captain Joe Campbell lost four straight to ZBT. Steve (Pins) Eaton, Rick (Gutter) Larson, and the fourth man played their hearts out but to no avail. Better luck next time.

Belated congratulations go to Dennis Fiore, Dave Riccutte, Tom Paskual and Ron Rothstein on their pinnings over Personality Week End.

"The KAPS Are Coming!"

By Paula Pascone, Historian

First of all, the sisters of KDK hope all had a GREAT time at our Smoker last night. I know all the freshmen girls did . . . and of course the sisters had a FANTABULOUS time!!!

In respect to tonight, Brother George says it's a "Mystery Ride" . . . what's so mysterious about it? We all know where we're going.

Tomorrow night of course the ZEEBES and the KAPS are having a hall party. I'd like to

give you more information, but they never tell me anything. If any of you would like to know about it, ask any ZEEB.

Our Happy Hours are still going strong . . . actually they're just a continuation of the first happy hour . . . we haven't stopped flying yet!

I'd like to say that if any of you are especially interested, it took six hours (360 minutes) to make those flowers for our Smoker. I should know!
