June 10, 1943

To The Bryant Service Club:

I received your package today for which I want to thank you. Visually lovely, but the feeling behind it means more than anything else. Just to know that you still remembered is something that even money can't buy.

Today, received a letter from one of the Bryant students and was sorry to hear that the naval reserves are now being called for active duty. I had hoped that the Navy reserves would remain at school.

Thanks again for the package and let's hope that this war is over with soon.

As ever,

[Signature]
I am now in ward 20
