Dear Students,

I'm honestly ashamed of myself for not answering sooner and for not acknowledging the receipt of your gift—but time really flies in the air corps.

I left home January 30th and spent 1 month at Atlantic City. Then 4 months at the 60th CTD at the U. of Pittsburgh where I had quite a wonderful time. Then 1 month at Nashville where I was classified as a pilot (I hope) and then 6 weeks here at Maxwell for pre-flight. We another 2 weeks I'll leave for primary and some actual flying.

Just received your Memorial Day letter, and honestly, it was great to get news from school.

Too bad about Johnny Hull. It was wonderful to hear that Ben Redfern was rescued. I heard free through the censors that he was missing and I had

Saturday
him up for lost.

Harry Smith is in OCS at Camp Lee, Va. Bob Connor, the other member of the "horrible three," (the last the captain has never been the same since we left) is a tgt on a B17. He's a ball turret gunner and anti radio gunner + right now is overseas, where I don't know. I'd hate to think of the damage if we ever get together again.

Although I've been in service for about 9 months, no sign of a furlough until I graduate, which should be in April.

If you know "Babe" St. Antonine's address, would you please send it to me. But I heard, he was flying with the heavy in New Found land.

Best of luck, & thanks again for boosting my morale.

By best to the Profs, the Carroll's, Rita Cannub, Party, and all the rest.

A/c George Greenman
Sq. C Group 4

P.S. BOBBIE BANZER - didn't mean to forget you. Maxwell Fieldy, Ala.
