Dear Service Members,

Your package just arrived and I thank you very much for your kindness. It is an extreme pleasure to see any address in Southern New England and the request a stone throw from my home town of Fall River.

I went to London on furlough and saw many historical sites. Some of them are Buckingham Palace, Westminster Abbey, House of Parliament, 10 Downing St., Big Ben, and St. Paul's Cathedral.

Big Ben is peeling forth on the radio. "This Is The Army" is the play. "This Is The Army" is the same playing in London now. It is the same playing everywhere in the same area. And everything is the same as far as the states except for far north have been added. The papers in this country have been added. The papers in the country are running about this play. The King and Queen attended one of the performances and the papers showed their congratulating and the papers showed them congratulating.

Lest Thanksgiving is just around the corner and all of us have much to be thankful for this year. Sincerely,

[Signature]
