THE CLASS OF 1952 AND THE GENIE

The graduating class of August 1952 left a legacy to members of their class and succeeding classes who were accepted for graduate work at institutions of advanced learning—The Genie Fund.

Recipient of this year's Genie Fund grant is Walter A. Jachem of Pawtucket, Rhode Island. He will enter the Wharton Graduate School at the University of Pennsylvania in September to study for the Master of Business Administration degree.

Walter received the Jeremiah Clark Barber Award at commencement exercises for making the most effective use of his native ability in mastering the subject matter of his college program.

Initiated with a contribution from students, the Genie Fund was perpetuated by the interest, creativity, and hard work of fund-raising committees selected through the Student Senate from succeeding classes. Recent Student Senate committees, however, have not had the success of their predecessors. There have been various factors contributing to the steadily decreasing amounts added to available funds, but the Student Senate this fall will again attempt to add funds to the Genie.

Should their efforts be unsuccessful, the Genie will disappear, having provided financial assistance to nine alumni during their graduate work at colleges and universities including Columbia Teachers College, Harvard Graduate School of Business, Boston University, Springfield College, Cornell University, Suffolk University, and the Wharton School of Finance at the University of Pennsylvania.
