Assembly Held To Celebrate U. N. Week
At an assembly held on Thursday, October 22, the International Relations Club presented a United Nations program, featuring Mr. Harrison Cleveland as the speaker.

Mr. Cleveland, a native of Canada, is a member of the United Nations Delegation in New York. In his speech, Mr. Cleveland spoke of the United Nations as a driving force for peace throughout the world. He stressed the fact that it is important for people to realize that a nation's action on any issue cannot be a free choice. Each country must compromise a little in fulfilling a position that would be acceptable to all.

The five most important points of view of United Nations members were covered by Mr. Cleveland. Among these were the differences in terms of a country's economic development and an economically underdeveloped nation, the political position of a country's colonial view, such as the one United States holds.

Mr. L. Harrison Cleveland discusses current world problems with members of the administration and student body following his speech at the United Nations assembly.

Hard Work Beats High I. O.
Cincinnati, Ohio—I. O.—"Motivation and plain hard work mean a great deal more in succeeding academically than either intelligence or reading ability." This was the conclusion reached by Dr. Walter J. Clarke of Xavier University after completing research that obtained for him an I. O. degree this year from Stanford University.

Dr. Clarke used 120 Xavier freshmen for "guinea pigs" in his original research tasks. He measured three types of reading—a oral and silent. A tape recorder played back the oral reading and recalled responses of the students in order to give him a better insight into his reading tests. Each test took about one hour to conduct, and Dr. Clarke worked on the project over a ten-year period, when long before the graduate and undergraduate psychology courses became a part of the curriculum. Clarke's thesis, entitled "An Individual Reading Test for College Freshmen," has been published by University Microfilms, Inc., Ann Arbor, Michigan.

Of the two fundamental qualities of reading, comprehension and speed, Dr. Clarke stated that comprehension is the more desirable to cultivate since it was found to be important for scholarship and, in all cases regardless of IQ, heading speed, independent of its association with intelligence, did not prove to be important for scholarship. "Many Xavier students tend "Hard Work" (Continued on Page 2).

Kirk Smith Elected Bryant Trustee
At the annual meeting of the Board of Trustees held last Wednesday evening in the Directors' Room of the Rhode Island Hospital Trust Company, Mr. Kirk Smith was elected a member of the Advisory Executive Committee of the Board of Trustees at Bryant College.

Mr. Smith is a well-known Providence attorney of the firm of Edwards and Angell. Mr. Smith is a Brown graduate. Since his graduation he has been very active in many phases of public interest.

Mr. Smith will long be remembered as a member of the ROTC committee which formulated the proposed re-vamping of the Wagner Act. The

Get in the Swing—And Sing!
Recently there has been much talk about the need for more school spirit. How about jumping in the ring of things and signing the new words by Bryant Alumni Mater, written by Mrs. Mary J. Agelby. For the benefit of the freshmen and the other students who have missed the already-mentioned phases—the world as it is:—

Hall to thee dear Alma Mater; Bryant College true.
Loyal sons and loyal daughters, Bryant hall to you.
Join the chorus, sing her praises, faithful we will be.
Bryant College Alma Mater, hall, all hall to thee.

(Sing it to the same tune)

Kneel Your Student Government

Now that the school year is well underway, it is a good time to analyze the college government that we will live under for the next few semesters. You must know your government, whether it be city, state, national, or college, if you are to be a good citizen. Knowing your government will also be helpful in bringing your student activities problem to the proper student or administrative committee. The reason why many students do not resolve any situation after making a request or a complaint is that they do not go directly to the person or group that is responsible for hearing them.

Let us study the government of Bryant College from the flow of authority and responsibility angle. The Bryant College Board of Trustees governs the policies and operations of all departments. The flow of authority then goes to the President, Vice President, and Director of Student Activities. At present, the Vice President is Ann Haven. The Director of Student Activities, under his authority is the Director of Athletics, the Student Senate, and the Greek Letter Council. At this point student responsibility begins.

The Student Senate is the chief governing body. It is handled entirely by students who are the representatives of every organization and club on campus, including the newly formed class officers. The Greek Letter Council, which is responsible to the Student Senate, has been formed to promote and conduct the lateral social activities on campus.

Members of the student body can voice their opinions, complaints, or requests through their class officers, or through the heads of the organizations to which they belong. Learn who your representatives are and rely on them to voice your opinion.

Preambles

Look for a possible revision in the rules of the student policies in the near future. Efforts are being made to bring a wider program for student participation into effect. Also watch for changes in the regulations governing inter-collegiate sports.

The Lost and Found

The Archway suggestion box turned up after a long un­available rest in the janitor's closet. All comments and suggestions will be gravely accepted and considered. Drop your ideas in anytime. The box is located in the cafeteria.

marked mechanical difficulties with their reading. It is im­possible to compare results with other colleges since the test has only been adminis­tered at Xavier. The data of the investigation tend to support an unexplained improvement of reading comprehension in the median programs designed to improve college scholarship. Data not reported to indicate the need for research on the influence of such factors as desire to succeed, constancy of purpose and level of aspiration.

"What's Wrong With Bryant Fellows?"

To begin with, this is not a critical column but merely an article to strengthen fellowship, not an out-of-favor scene. A point of the comment around campus during the first few weeks of school, pertaining to Bryant freshman class, but not entirely limited to it, has been concerning the question, "What's wrong with Bryant fellows?"

The question when asked by freshman fellows has seemed to be an honest question reaching to the heart of the matter. The question when stated by the girls seems to mean that there is something definitely wrong with the fellows.

I believe a lot of the reason for this problem is the attitude that the freshman fellows seem to take. They go out to dance, stand around holding up the walls all evening, and when they return home wonder why they had such an unemployment. Now fellows, if you start to start reasons if you are going to have an enjoyable time, you have to make it that way. If it is your duty to go out and ask a girl to dance, not her place to come to you. All after all of it is, I believe it is not enough to drive through Connecticut the other day, I saw a couple of signs that showed considerable ingenuity. One on the back of a truck said, "Learn to remember names. Start with ours." The other was over another small road that said, "Readers and Treasure." I would like to see: Dagmar and Dorothy Collins exchange garages.

While I am on the subject of women, I think I will close this column with a question I heard from my step-mother many years ago when she overheard me saying something complimentary about a girl. I knew, "Remember a girl's reputation is at least, the most beautiful and the most fragile of things."
SPORTIN' WITH THE INDIANS

BY BERNIE GOLDSTEIN

The wheels of progress regarding sports on the Bryant Campus are now in motion. By this time you read this article the first match in the bowling league will have been completed, and I am glad to announce that both men and women are participating this season. The gate была Tuesday afternoon on Sunday, 1st.

For the benefit of President Art Kohl, Athletic Director Carl Densett and Karl McLear have started what looks like one of the best bowling teams that B. I. E. has had in years. In addition, "Well!" Peck, head of B. I. E.'s "Soo" Queens Committee, has made the preliminary moves to make B. I. E.'s candidate, Andy Bowling, the choice contestant in the 1953 "Soo" Queen Race. B. I. E.'s fall semester Kappa Party was held last Tuesday in the gym. Field Master Don Lamoree and his committee, including Lou Sacco, Frank Williams, and Dick Darril along with the other brothers really gave our guests the once-over which of them stacked up to B. I. E.'s requirements.

KAPPA TAU

This seems to be the right time for matric, and now we're talking about the big one, let's not forget the one K. T. and Alpha Phi Kappa held last week at St. Peter's Hall in East Providence. From what I hear they all had a great time. By the way, the O'Neil is K. T.'s choice for the girl who will top the 1953 "Soo" Queen crown. K. T. and Alpha Phi Kappa will hold their combined mixer in the gym on November 9. Don't forget all you fellows and girls who hold invitations.

BRYANT CHRISTIAN ASSOCIATION

Miss Ethelred Johns, secretary of the Student Christian Movement in England, spoke yesterday to members of the Bryant Christian Association and other guests. This meeting included group singing as well as an inspiring talk by Miss Johns. The Student Christian Movement was developed at Oxford University and students seeking to bring the Gospel to bear on all phases of their lives. It brings together the interreligious activities of more than fifty famous Christian Organizations, twenty-five church groups, and the excellent YMCA and YWCA, and is dedicated to the task of binding students together in a common Christian faith and fellowship.

Girls' League Gets Under Way

By Anne Moore

With the cold weather setting in, all the sports-minded students are talking about winter sports, such as bowling and basketball.

The security intramural bowling league has been set up and the pins have been flying for one week now. There is a great deal of interest and competition in the entire league, which consists of the following sororities: Alpha Phi Kappa, Kappa Delta Kappa, Sigma Beta Beta.
