**News of the Star Dusters**

The Star Dusters have played at the "frosh" assemblies at the beginning of this semester as well as at all the other school assemblies and activities, including the "Marching Millionaire" programs. Under the direction of Professor Ralph S. Handy, the "Dusters" have really been busy dusting off the campus dance floor. They have added life to the assemblies with their catchy tunes and jumping feet.

Last semester the band lost some of its musicians; consequently, they are in need of two trombone players. Anyone who is interested can contact the music department. The Star Dusters will "fit" you into their组织 when you audition. They have also taken part in an extracurricular activity by being elected to the Granite Mountain High School Fighting Bear, and Joe Fusella will be served as the captain.

The Star Dusters are really zippin' Along. Why not join the bandwagon and have a lot of fun with them.

**Your Voice Is You**

Secretarial Practice students were treated to a last week treat when Miss Marguerite M. Lambert and Miss Mary McGahara of the New England Telephone Company gave a very interesting lecture on the importance of a well-cultivated voice.

Voice recordings of different modulated tones were played for the girls to demonstrate the "types" of voices. Colorful sketches were shown to give the listeners a mental picture of the face behind the voice, which proved very interesting and raised a laugh from everyone present. Each student then recorded her own voice, and the reaction of each student was studied upon hearing a recording of her voice. The results of the experiment were quoted from the same words of a reference book.

Dr. Barritt, who was introduced to the Star Dusters by the President of the International, stated that he felt he might be able to help them.

**Alumni Week Ends Marks Tau Epsilon Anniversary**

Alumni week-end will mark the 25th Anniversary of Tau Epsilon.

Tau Epsilon was founded in 1929 by Edward Wrenn, Milton Israeloff, and Alfred Benoit. Since its founding the fraternity has been under the guidance of its members who, at that time were college baseball and basketball. The fraternity was founded for the purpose of promoting friendship, social, and welfare among its members.

One of the most outstanding achievements of the fraternity in recent years was the contribution in 1951 of the most points of blood collected by any organization in the Student Community. The outstanding features of the fraternity is its treatment of Negroes with its educational democracy. It is a "Capitalist Millionaire" who inspired the students to demonstrate an agreement of their economic strength.

One of the main functions of the fraternity in recent years is its contribution to the American Boy's Home and Boys Ranch, which are transformed the traditional "Hill Week" into "Help Week." The winning of the "Help Week" award in 1929 enabled the fraternity to obtain its first furnace and its first television set.

In recent years, Tau Epsilon has undertaken the task of helping to establish a radio station for the benefit of the underprivileged children of the city. This is due to the superb of the alumnae, including the alumni of the last few years, who have left their mark in the history of the fraternity.

On the evening of May 22, the brothers of Tau Epsilon will be guests of Dr. Henry L. Jacobs, President of the University of Michigan, at a dinner in the name of the fraternity. The co-operation of Dean Merce, Alumni President, has been a great help in planning this gala event and the lovely surprise of Tau Epsilon will be more than a surprise to their guests. The united effort of the fraternity will be a great help in making the celebration a success.
To All Archway Readers

The idea of the "coffee hour" is to bring the girls together more frequently. Plans are being made for a party for Sandy Platt, our former President, who recently left school. It is scheduled for March 26. Everyone is looking forward to it.

The BROTHERS OF ALPHA THETA PROUDLY PRESENT MISS ARLENE JACOBS AS OUR CHOICE FOR MAY QUEEN. Arlene, whose identity as the recent baby of the week is revealed in this issue, is better recognized around campus as she appears in the upper right-hand corner of this column. The brothers decided that Art Vetary activities on the campus and her winning personality will win her the title of May Queen. The chairmen for this coming campaign is Dick Giambarba. Congratulations and good luck to our President, Fred Kieschie, on being elected the new president of the Greek Letter Council. Last weekend Atlantic was in the house. It was Mr. George E. Kiszko, founder and first President of Beta Iota.

BETA IOTA ITHA'S May Queen Committee, headed by Charles Donohue, has submitted the primary rules and regulations for the competition. The campus has been split into five sections to facilitate voting, and interested groups may take part in the competition. The group that wins the most votes will be declared the winner.

The BROTHERS OF "KAPPA TAU" ARE PROUD TO ANNOUNCE THAT MR. AND MRS. WILLIAMS WILL BE THEIR CANDIDATES FOR MAY QUEEN. Ann and Bill from near Woodstock and at present she is in 4B1 at Amherst. The brothers are planning a party with their sister security, Alpha Phi Kappa. A dance is scheduled with refreshments and entertainment. The brothers are also planning for their combined dance to be held as part of the competition.

The singers of Alpha Phi Kappa have ordered shirts and jackets, and you will see them wearing their blue jackets with blue and golden emblems soon. Also, sorority pins are expected to arrive very soon. All sisters will support Kappa Tau's choice for May Queen, Arlene Jacobs.

Facelitting Job—Maybe?

The Archway is your paper. We want in the paper what you as students want in it. We are very often hear comments such as "Why read it? There's nothing in it." "Why did they put that in—nobody cares or likes it," or "I say—we (the staff members) only put in the Archway what they want. They never come around and ask what we think about anything.”

In an effort to find out whether the readers of the Archway do and do not like what you read, I'm conducting a personal opinion poll. The results of this poll will be an adjoining column in this issue. The publication, the Archway wants as many satisfied readers as possible. The staff members are students like you. Our job is to publish a newspaper which is always looking for news. If your story isn't out of its department, he'll see that it gets to the proper party.

This IS YOUR SCHOOL PAPER, so get acquainted with its staff members and we will work together to make the Archway what you want it to be.

SALLY WEIGELT

Music Grapevine

By Gladys Kinsey

O.K., MUSIC FANS: any news if you're really up with the recent hits? How many songs can you pick out of the following: O.K. MUSI.

Koolik! Koolik!

Ray Charles: 'Yes' "I'm from the sorrow's house across the street and I'd like to borrow 10 CUPS of sugar!"

Art Blakey: "Take a look at the sorrow's house across the street and I'd like to borrow 10 CUPS of sugar!"

Your wife, Venus De Milo

P. S. Please, never use my love. If you do, I will take your place in my heart. You're the only one who can love me. You're the one I love more than anything in the world. You're the one who understands me. You're the one who can make me laugh. You're the one who can make me cry. You're the one who can make me happy."

Till we two are one, adios, adios.

Amigos.
Your secret love,
Venus De Milo

Toby, the Big Block Bluesman too, there's positively so dancing, and I wanted to do the Fiftin' Walks with you. So just make me love you and hold me close out here you're my everything. Then if you love me cross the bridge and get the man with the banjo, and we somebody steal the wedding bell belonging to the Tennessee church bells. But till then, turn around, boy, and let me love you, cur when you come some- thing's that are. Ain't that a grand and glorious feeling, and if you can't get over, I'll still feel like a stranger in paradise you're nearer; and you're all that I need.

Just to change your change your mind, I've got the Jones boy close to me and I can't love you, but I can't be changing partners during our dance. So, my restless lover, please be my mine and call me yours.

Till we two are one, adios, adios.

Amigos.
Your secret love,
Venus De Milo

Hilarious Exhibition of Lennes Student-Faculty Basketball Enjoyed by Capacity Crowd

The night of March 17 marked an unusual evening of entertainment for the students and faculty of Bryant College. Following the regular season, a few movies were shown in the student-faculty basketball season sponsored by the Teacher Training Society.

On Tuesday, March 9, Sigma Iota Beta and Sigma Iota Chi got the first game off to a good start. Right up to the third quarter it was still anybody's game, but then SIGI held SIGC down enough to pull ahead by 11. Ann Case took the high scoring honors for SIGI with 14 points and Anne Moore for SIGC with 18. The last quarter, SIGC put up 18 points on the team with the help of Queenen Kanonal and Ann Case, and won by seven, 35-28. SIGI's high scorer was Ann Case with 12 points and Dee McNeil for SIGI with 10 points.

The second game was a thriller from the word go. SIGI and KDK fought it out to the bitter end, with SIGI capturing the victory by two points, 34-32. Throughout the first half it was basket for basket; then Vivian Langlois and Mini Pi made an effort to rack up enough counts for SIGI to pull them out of the tight squeeze by four points with a final score of 43-39. High scorer for SIGI was Martha with 18 points and Mini Pi for KDK with 17.

On Thursday, March 11, Theta Chi and Alpha Xi Delta had another close game with Theta Chi winning 25 points to Delta's 23. Holly, Marrett, and Wal­ther came out with another win. Holli Hollar reallyrocked off the baskets, taking the scoring honors for Theta with 25 points. Nice game, Heather. The final score was 33-29. Dee McCracken was high scorer for Phi with 15 points.

Sigma Iota Beta ran away with Alpha Phi Kappa in the second game, with what might be a record breaking score of 65-28. Alpha Phi just couldn't stop SIGI no matter what they did, but they put up a good fight. High scorer for SIGI was Martha with 32 points and Vivian Langlois was high scorer for KDK with 15 points.

Theta came up with another win in the second game, when they beat Alpha Phi Kappa, 54-23. They had the upper hand throughout the entire game and really racked up points. Holly Hollar made 27 points for Theta and SIGI scored 13 points for Alpha Phi.

**As I See It**

By SÁM GALARNAU

Last Monday most of us heard Dr. Irving H. Bartlett give a very interesting speech on his recent tour of Africa. He pointed out that one of the most important barriers to peaceful international relations was the fact that racial and color discrimination are still present in this country. He also brought in view the point that the first step in overcoming this barrier must begin at home, right here with everyone of us.

It is granted that this problem of racial and color discrimination and segregation has improved a great deal over what it was, but it is still a long way from being completely cleared up. Most of us do not realize it at the present moment, but very shortly these problems are going to rest on our shoulders and many of us are going to be faced with the problem of racial discrimination.

The first question most people retaliate with, when you ask them if they actually are qualified for the good qualities in their class, is: "What can I do by myself?" There is much you can do by yourself and with others. You can start by overcoming your own hatred and small prejudices. After you have successfully overcome your own, you can CONSTRUCTIVELY show other people how and why they should overcome their prejudices.

I have a little example which proves how foolish discrimination and prejudice actually are. When we are buying apples, do we choose green ones, yellow ones, red ones because of their color, or because of the tree they come from? No we do not, but we do choose them according to the tree they come from! We do not do it, but we do choose them. For their goodness and flavor. Why, then, should we say that one person is not as good as another because he has a different colored skin or comes from a different nationality (tree), instead of choosing this person for the good qualities in him.

Do not ever forget that our United States has been made into the great nation it is today by peoples of all races, colors, and creeds; not by a select few. Let's keep it that way, shall we?

Just a word about elections: choose wisely, vote for the best candidate. Your class for the dance (at the gym) will receive a $10 prize. The next five best suggestions will receive $2 each. Here is a chance for some people to have a good time and make some money at the same time. In case you didn't catch the gimmick—the name of the dance is "YOU NAME IT!"

The "Newman Club" is busy planning to send delegates to the New England Convention of Newman Clubs which will take place at Holy Cross. Our president, Bob LeFrancois, wishes to extend thanks to all those who attended the St. Patrick's Dance and for making it a success.

Our Last Baby

Did you guess our baby of the last issue? You did! Well, for those who didn't it was the President of S.I.B., Miss Arline Jacobs.

**Who is This?**

Now for this week—Our baby this week is a male. He and his mother live in Providence, both natives of this city. Baby X graduated from Mt. Pleasant High School and is now a second semester student. He is president of his fraternity and well I can’t tell any more! Who is it?

An active verb shows action; A passive verb shows passion.

Today's Chesterfield is the Best Cigarette Ever Made!

"Chesterfields for Me!"

John Hodick
