**In September, the present Junior class of Teacher-Training students will begin their Senior year at Bryant, by getting the knowledge they have acquired to practical use as they start full semester of practice teaching in various schools around Rhode Island.**

**In the rather conservative decision in the Student Senate, a faculty vote was held concerning the reorganization of the Student Government.**

**Hats Off to a Sturdy Bryant Student**

**Jerry Balemian, 2d Semester Student, Takes Over Reins**

Last night at The Farm approximately fifty members of the Archway Staff, Mr. and Mrs. Smith, and Mr. and Mrs. E. Gardner Jacobs enjoyed an excellent roast beef dinner at the regular end-of-the-semester banquet. The social gathering was followed by the entertainment which the dancing that followed Editor John Murphy presented. Among the guests to the numbers of the staff who are graduating. After the presentation of the pills he introduced Jerry Balemian as the new editor.

Although Jerry is only a second semester student, he has become very well-known on campus. Last semester he wrote for the Archway. He's a member of the Board of Directors of the R.A. & A., and also Alumni Secretary of his fraternity, Beta Sigma Chi. This semester he found his devotion of most of his attention to being Editorial Editor of the Archway. Along with winning his hair out, as this paper's editor and a A.A.P. student, Jerry has been elected to the Presidency of his fraternity.

As for activities off-campus, he has his battles full there too. He's working hard to pay for this house and will just bought. He's remodeling it, too (in his spare time).

We of the Archway Staff wish Mr. Balemian the best for his second term. We hope that he receives the same type of cooperation from his staff that he gave to the Editor and staff of this semester.

**Student Senate Reorganization Plan Tabled**

**New Editor Announced at Archway Banquet**

**Haverhill Award Granted Bob Paul**

By JOAN TODE

Another victory has been added to the achievements of an active, well-known, and well-liked person around Bryant. That person is none other than Bob Paul. It has been announced, by the Haverhill Award Committee, that Bob is the recipient of the Haverhill Award for the year 1954.

**Prominent Musician: A Bryant Graduate**

Tommy Masso needs no introduction to the students and alumni of Bryant College. Almost everyone that has attended Bryant has dined to the soft sweet music that Tommy furnished for many of Bryant's affairs. Tommy always helps to bring that "once big happy feeling" to any occasion at which he plays and it understandable because he is a graduate of Bryant College.

---

**Greek Letter Debate Highlights Senate Election**

Elected as officers at the June 21 meeting of the Senate were Paul Dunne, President; Edward Betros, Vice-President; Rosemary Newman, Secretary, and Eddie Betros, Treasurer.

It was the opinion of many of the senators that the great majority of the rather conservative election was the question of just what mixtures in the Greek Letter organizations were necessary to give the Greek Letter Council "equitable representation".

Bob Paul, outgoing President told this reporter that to restore an adequate balance of power to all interests in the Greek Letter Council the organization should be limited to four seats. He also said that the new administration will try to work along the lines mentioned above.
Bryant College Students at Beaches and Banquets
The Sports Whirl

BY BOB PAUL

This will probably be the last appearance of this column. The next issue of THE ARCHWAY will most likely be the yearbook which will have room for this column. So let's dig into the February freshmen who have announced their love for sports, and what has happened on the sports scene during the past semester.

How many of you remember it being that February freshness took from the ferocious winter's chill? We've had 73-40 with the fresh well under control.

Basketball action was red-hot again this season. Sig Sigma Nu, Tau Epsilon, and Alpha Theta Chi were the teams at the close of an unseasoned season. They took the title games from the day league champs--Alpha Theta Chi! Girls' basketball was the most exciting sports action of the season and probably the most exciting in many semesters. Sigma Iota Beta, with sharp-shooting Anne Minder at the helm, split the two rounds of play with Sigma Lambda Theta, but went on to take a thrilling two out of three games playoff series for the championship. Of the fifteen games played between the two teams, none had more than a five-point difference in final scores. Sigma Iota Beta also took two crowns, winning the girls' bowling title this semester.

The outcome of the softball season is yet to be decided. Phi Sigma Nu, Tau Epsilon, and Alpha Theta Chi are the playoff contestants. The games are on Thursday with the winner taking them to a big meal in honor of the great job they have done this season. Sigma Lambda Theta 'looks to be the girlie champs since they have defeated every team at least once already. If they should go undated, it will make two seasons in a row for them.

I'm a little check on the sports highlights for the semester. The question at hand is who will win the five tennis championships titles that are up stake right now. I've made my predictions on the lines of an old adage, "You can't predict the future, but it's fun to try." I have a feeling that the "next week" is going to be a fun one, and it's sure to keep us on our toes. But it's going to be a fine season--a little break was needed to bring things back into focus. And I'm sure that the "next week" will be a fun one, too.

Here is Good News for Bryant Athlete:

-Bryant has decided to add a women's basketball team to its already formidable roster. The city has finally allowed the college to obtain some more land behind the left-field fence, and the fence will be moved back a considerable distance to allow for better facilities, including the field leveled and repaired. If all goes well, next year's ball games should be played on a field that the students can be proud of. So much effort has been made of some of us, until next season (Weekend)选秀 from the sports staff.

As We See It

BY SAM GALEMMRE

I mentioned last week that the Student Senate had embarked on an organization of the Student Senate. This issue has commanded much more interest and enthusiasm from the student body than was at first expected. The main reason for this is that there seems to be a real desire to have the working force of the Senate and to decrease the voting power of the Greek Letter Council.

The idea is toshape-wholesale with the idea of cutting down the working force of the Senate, for even at its present number, it is too large to take care of the work at hand. I do believe that the voting power of the Senate would be reduced and that the voting power of the Greeks would come to 50%. It seems to me that the Greeks are the majority of the total voting power and that the Greeks have the right to be there. I also believe that the Greeks are the majority of the total voting power and that the Greeks have the right to be there.

At the last meeting of the Senate there was a motion on the floor to let the student body decide the issue. This I was very much in favor of at the meeting. I thought that it was a little skeptical when seeing what seems to be genuine student interest turn out to be nothing but free-talk talks. I say this because of the result of a recent meeting. The Senate meeting was attended by approximately 35 students, to decide how their representatives should vote on this motion.

Less than 30 students appeared to voice their opinion on the matter. The student body has been complaining about not knowing what is going on, not being able to have a voice in things, and not having a say in things. I have one hope, one hope I have one hope, and it's that I hope to see the student body become more involved in the decision-making process. It seems to me that this opportunity is in great need of being taken advantage of.

The Sports Whirl

By BOB PAUL

Tau Epsilon ended up in top spot. In the second half of the tournament, the Tau Epsilon group was quite formidable, and they ended their second half by beating Alpha Theta Chi.

Alpha Theta Chi, first-half winners, are now having difficulties as of late among several matches. The Alpha Theta Chi group and Tau Epsilon, respectively. At one of the matches,Alpha Theta Chi was missing three men from their line-up.

Phi Sigma Nu has started in the winning road and ended up tied in a tie for second place along with Alpha Chi. The green and gold, champions of last year, are now pushing through the top three. Right-handed Bob George of Phi Sigma Nu is one of the few who have been in all the matches played. At the last game, Phi Sigma Nu won by a single point and ended up on the short end of the game, 0-4. Phi Sigma Nu was unable to salvage a single base hit and ended up on the short end of the game, 0-4. Phi Sigma Nu was unable to salvage a single base hit and ended up on the short end of the game, 0-4. Phi Sigma Nu was unable to salvage a single base hit and ended up on the short end of the game, 0-4. Phi Sigma Nu was unable to salvage a single base hit and ended up on the short end of the game, 0-4. Phi Sigma Nu was unable to salvage a single base hit and ended up on the short end of the game, 0-4.

On the softball front, we saw a win for Mary Sweeney and her team. It was an exciting game, and it was one of those terrible struggles.

The seniors on the team were all fighting for their future, and they looked to us. We want to thank you for your support. We are looking forward to next year's season. This is the last game for this week, and we hope to see you all next week.

The Trip

This trip has been planned for months. We have worked hard and saved for this trip. And maybe we'll even see a great Capri! The great Margarita they say it's a sight. We must see it, especially at night. The water is the best, it's clear, it's beautiful and live never to be forgotten. And when we see the Italian island we'll see where our next trip will be. We will be having our next trip to Capri.

The Glamorous Three

JoAN LOMALGO

Many how many centuries of history have the majestic Gray Capri line been seen? Long on the cliffs, it has been a site. And as the sun sets in the west, it is a site to behold. The great Margarita they say it's a sight. We must see it, especially at night. The water is the best, it's clear, it's beautiful and live never to be forgotten. And when we see the Italian island we'll see where our next trip will be. We will be having our next trip to Capri.

The Glamorous Three
Bryant Training Invaluable in New Business Venture

"My company has hired hundreds of college graduates. Many of them are on their toes, but there are too many of them who couldn't recognize an opportunity if it graced them right in the face!"据此，尽管存在一些挑战，但Bryant认为教育对每个人的职业生涯都是至关重要的。

Tom O'Reilly, who will be graduated from Bryant College this August, and Jack Sciacca, a former Bryant student, saw an opportunity last December and they grabbed it with a vigor which would draw glances from the lips of the abovementioned executives.

Tom and Jack are partners in the firm of Oran Creations located at 151 Westmorland Street, Providence. The Oran Creation company carries three main lines: Awards (trophies, giftware, etc.); Sportswear (shirts, jackets, etc.); Athleticwear (gym uniforms, football jerseys). They are prepared to serve手续费 customers, schools, clubs, and even Navy and army Contracted Firms. Plans are being made to prepare a catalog which will allow students to think of their education as a business opportunity to use proper education it be to their advantage.

The application of one’s own knowledge and facts and not enough memorization of information, is the only method of true learning. Why so much knowledge is gained—why so much is forgotten—why so much is not remembered? Each reason for this failure should be a deterrent to the company, Tom and Jack.

Much time still would be wasted if there were not the proper way to use one’s mind entirely by one’s self in free discussion and in consultation.

Sound decisions are made on good judgment. And good judgment can come only from minds trained to proper thinking—not from minds that have been trained to know facts.

Recorded data and textbook knowledge play an important part in a proper education it is certain, but the facts remain that unless the minds of students are trained and made capable of a better judgment, the students themselves would overrule the many misstatements of facts and illogical remarks now being made in classrooms throughout the country.

Enjoying "The Pause That Refreshes"

When I was a student at Bryant, I was able to procure a book, 'The Pause That Refreshes' by Arthur Palmer Jr. The book was a little gem, and it is one that I still enjoy reading today. The book is a collection of essays on the importance of taking breaks and finding time to refresh and recharge.

The book is a great read for anyone who wants to learn more about the importance of taking breaks and finding time to refresh and recharge. It is a great read that I highly recommend.
