Dear Mom,

At long last we've all settled. Been trying to write every day but somehow couldn't get around to it.

It was really wonderful to hear your voice on the phone New Year's Eve. Golly, it's been such a long time since we talked with you. We were both so sorry to hear that you were all alone.

Remember we mentioned going to the moon's pitchers. That's as close as we got. We were both so tired from moving we just waited for 12 o'clock and after a weak "Happy New Year," fell asleep. Sumed was really beat cause he'd had to do most of the real work.

We had dinner at the Post on New Year's Day and were so disappointed cause they didn't have turkey.

How are you feeling now? Are you and Bobby both recuperated? Sure hope so. Take care.
of yourself. There's so much flu going around. Damn her too.

Did you manage to get any sheets? We've tried and tried to get some down here but they're impossible to find. We need them so badly and I will certainly appreciate your getting them.

Is Don home for good or was he just on leave? It was nice that he could get home. We sent him a Christmas card but he probably won't receive it for years cause we sent it overseas.

My hospitalization wasn't any good. A family contract has to be in effect for 15 months before you can use it. For a baby. Mother & Daddy sent us a money order though, and that surely will help a lot.

Tudd's going to take the course in Radio's probably as soon as he completes the history course. He can really use it! As Daddy will probably remember. This one will be a pleasure though not like the history course.

Tudd doesn't do much flying as he told you on the phone. He just gets his 4 hours a month.
in so we get the flying pay.

Did the pictures of the babies around the tree turn out? We can hardly wait to see them. Godly, Ace really does a marvelous job with a box camera. Hope he has a job now. It really must be tough. The jobs just don't pay anything.

How is Nannie? Is she going to have a baby? We're praying for her. What did the Dr. say? Let us know as soon as you hear anything.

Well, it's supposed to be about 4 more days now. We're going crazy with the suspense. Hope will come in time or early. He's supposed to be born on the 11th, but the Dr. said that kid came anything from the 10th to the 20th. Godly, sure hope it's close to the 10th.

All the good shows are coming to the Field & we're trying to see them all. Probably won't be able to see the ones we want to. Godly babies are so indefinite.

Haven't any idea how to take care of a baby & it's awful. Don't know what
we need so anything. The only thing I know is you need millions of diapers but gee, don't even know how to put one on. Hope it's something that just comes easily.

We've been having quite a bit of rain lately & the Alabama River is really high. It's supposed to reach 41 feet by Thursday. Normally it's about 26 feet, I think.

What weather. Last night we only had a slight over us & we still warm - It's just like summer.

Give our love to everyone & tell Nannie & Bobbie I'll answer their letters soon. Take care of yourself & please write soon.

Lots of love,
Dottie & Judd
