The second part of the sexual harassment series, held February 19 in Jenkins Auditorium, focused on what businesses need to do in order to handle the increase in sexual harassment cases reported in the work place. The panel consisted of a Bryant alumnus, who was a victim of sexual harassment; a female resource manager; and a personnel and human resource manager.

Attorney Jennifer Wood an- swered the most asked question of what constitutes sexual harassment. She described it as "sexual attention of an unwanted nature." For example, if someone were told, "grant me sexual favors or you won't get hired or promoted." It also includes working in a sexually harassing environment that may include sexual photos or comments.

According to Dr. Frank Bingham, Chair of the marketing department at Bryant, most employees who are accused of sexual harassment are shocked. Therefore, the panel all agreed there is a need in the business community for discussion on the topic within the company. Many of the human resource and personnel managers are now implementing a training manual that includes step by step instructions on how to deal with sexual harassment.

The overwhelming publicity the Clarence Thomas case received thrust the topic into the public eye. Sexual harassment policies were not enforced earlier because no one really knew how to define it. Now the subject is getting more complex within companies because of the increase in women entering a male dominated work force. There is more access to legal representation for victims of sexual harassment.

David Zito a human resource manager from AT-Crom, described sexual harassment as a time bomb that needs immediate attention. Already his company spent an estimated $5,000 on its first sexual harassment case due to the loss of work time and outside legal counsel.

The panel's advice was that if you feel you are a victim of sexual harassment in your company you should confront the person immediately to stop and if that doesn't work, report it to a superior immediately. It is then the company's responsibility to react immediately by investigating the complaint.

Professor Shares Research with Colleagues

As part of a series to bring Bryant colleagues together to share research, Professor Judy Litoff spoke of her World War II letter writing project to members of the Bryant faculty yesterday. Litoff began research into the letters written by women in the War, in 1988.

She and co-author David Smith, a professor of history at the University of Maine, Owron, sent out a writers query to every daily newspaper in the country, but did not expect the huge response they received because they were told G.I.'s in combat were under orders not to keep personal letters.

After receiving twenty five thou- sand letters "we knew we had un- covered a gold mine," said Litoff. The letters tell how roles of American women changed drastically during the War because women became more independent and self-reliant due to their entry into the work force. "For me," said Litoff, "history comes alive in these letters."

Presently Litoff is working on compiling all the letters on micro- film so they can be used for re- search. In addition, she is using the Fox Pro computer program to create a data base of the writer, recipient and donor of the letters. Each entry includes a brief biography of the subject as well as the key topics discussed in the letters. Unfortunately, this is very tedious and is expected it to take five years. Litoff continues to receive en- couragement from her letter donors and sends out a b-weekly newsletter to all 700 of them. "Hopefully this will become a life long project," said Litoff.
You're Missing the Point In This Case!!

Since its inception, the Senate has released Election Results. Yet, since 1982, election results have been inconsistently released. It is ironic that the results were released even in the turbulent collegiate atmosphere of the 1960s and 1970s, but not in the progressive 1990s.

At yesterday's Student Senate meeting, a motion was made to prohibit the release of numbers and percentages of votes received by candidates in the Senate's Executive and Legislative council elections. Unfortunately, that motion was passed by a 15-1 vote, with 6 abstentions.

During the discussion which preceded the final vote on the motion, some Senators claimed that results should not be published because losers would be upset or "have their feelings hurt." One senator theorized that people would be afraid to run for election if they knew the results would be public. Another senator claimed: "... it's too small a school to get away with publishing the results." And yet another senator said that rank order of results could not be published because then "some senators are going to feel less important than others."

Egos are not the point. Some senators insist that Bryant is not the real world, but merely a "bubble." This is inconsistent with Bryant College's self-proclaimed purpose of "Preparing the Leaders of Tomorrow." As one student from the audience observed, "This is the real world; as much as we want to face it, it's in inception." Beautiful Green Image

In a continuing effort to promote a cleaner environment, Bryant has installed a second campus recycling plan.

Beginning last week, all of the six-pack plastic rings received by Bryant's vending division will be collected for shipping to a recycling plant in the Midwest. The project is a joint effort between Bryant and Michael Lynch, a Bryant alumni, who is a manager of ITW, Hi-Game Inc., located in Illinois. ITW is a company which specializes in the recycling of plastic six-pack rings.

According to environmentalists, six-pack rings pose a danger to many animals. Unsuspecting birds and animals will swallow the rings or get caught around their necks and suffocate. In addition, plastic rings can be devastating to plant life because they are not biodegradable.

"We at Bryant feel that businesses must take some responsibility for the environmental issues that they affect," said Matt Andrews, President of Bryant.

The Bryant Environmental Action Club, has agreed to support the effort. Mr. Marko Romjak, President of BEAC, said BEAC will try to persuade the operators of other campus food service facilities to participate in the recycling project.

Two months ago, Bryant instituted its first campus recycling policy, which was to recycle all glass bottles at the Country Comfort.

Bring Bryant Basketball Back from the Dead

Bryant men's basketball is 3 and 22 for this season, 14 and 64 for the last three seasons under coach Ed Reilly. How long must this misery continue?

Before we can answer this question and find a solution to this torment, we must take a look at what is actually wrong with the men's basketball program.

There are two causes that underlie the team's current problem. These two are 1) the poor job of coaching by the staff, and 2) the lack of support by the administration.

First the poor job of coaching. Attention should finally be directed to the insubordinate performance of Ed Reilly and his coaching staff in their third year tenure. Reilly has posted a winning season, a five-hundred season, or a season that deserves any amount of respect. A record of 14 and 64 is horrid, even for teams who are trying to rebuild their program.

Furthermore, Reilly recruited six scholarship players to become the nucleus of a future league contender, but one of these recruits is being used for his strengths.

For example, sophomore David Burrows, one of the leading scorers in New Hampshire high school history at 200ppm, is struggling now to maintain a five-point game average under Reilly's tutelage.

However, even with all of his shortcomings, Reilly doesn't have to carry all of the blame upon his shoulders. There is a greater foe that Bryant must overcome to break the seasons of painful embarrassment - the Bryant fans.

Unfortunately, the administration has trained the community to expect losing seasons. The men's team has become a face on the other campuses, and the administration apparently does not care to change this "loser" image.

This reputation directly affects the players. It destroys their morale. A team that thinks like a loser, plays like a loser.

Because of their old, unkempt uniforms, the men's team was actually laughed at by the Assumption crowd last month. The Athletic Department could have replaced the uniforms a long time ago, but they didn't.

And then there is the matter of Julius Sacko, a thousand point scorer, who gave his heart for four tough years at Bryant and who still, almost a year after his graduation, does not have a commemorative plaque.

Doesn't Julius deserve the same respect that others who have played for Bryant received when they reached this milestone? And will William C. J. Simmons' and Richie Rose's plaque on the wall as well?

It would be very easy to discredit these observations as a matter of "sour grapes." However I speak, I think, for many on this campus who regret not going to a school where excellence extends to athletics as well as to academics. Competitive sports teams promote school spirit, which in turn brings a campus together to form a strong community.

Bryant has everything it needs: the facilities, which are among the best in the conference, the student body, who are ready to support their team, and talented players, who are ready to step up and meet the challenge.

The administration can overlook this opportunity, or it can hire a new coaching staff, put the necessary time and money in the program, try to promote school spirit, and bring Bryant basketball back from the dead.

Daniel R. Cox, Former Player, Concerned Student
Women Beware

Over the last year or so, I have noticed an alarming number of women coming forward: claiming rape, sexual harassment and affairs concerning high ranking officials. It leads one to wonder if women are losing their moral or whether women are cowering. I feel the answer is a little of both.

In a country where the sexes are finally reaching equality, there is a fear throughout the male race. A fear that says if I sleep with a woman, I will have to post bail in the morning. Abused, right. I am sure there are the thoughts William Kennedy Smith had before he found his name splashed across every newspaper across the country, for a purported rape at the Kennedy’s Palm Beach home.

it seems that a woman does not take into consideration that the accusation is out of time, whether proven or not, ruins a man’s life. No! How about Jennifer Flowers who has been kicked around by Democratic Presidential Candidate Bill Clinton of a ten year affair. Only after the columns were written was it reported that Ms. Flowers had been paid $100,000 for the story by Star magazine, a supermarket tabloid. Bill Clinton has all but fallen out of the presidential running, as shown by the latest polls, after the alleged affair with Ms. Flowers.

We have yet to see the negative repercussions of the accuser made by Anita Hill to Supreme continued, Barkow, page 8

Public Safety Beat

Disorderly Conduct: On Friday, February 11, 1992 at approximately 8:00 pm, a fight took place between a group of two male vehicle drivers at the Entrance Control Station (ECS). The fight was quickly ended and no one was injured. By 9:00 pm, one of the students involved in the fight had called Public Safety several times concerning information on the earlier incident. The dispatching officer informed the student that Public Safety is unable to give out any information concerning the incident. The student became angry and demanded the officer over the telephone. The student also threatened the officer, intimating that he would go to the Public Safety Office and assault the officer.

When the student arrived at the office, he was very loud and argumentative. He began striking the dispatcher counter with his fist, making it impossible for the officer to conduct business. The officer noticed that the student had blood shot eyes and that his face had been smashed in, resulting in a large cut on his mouth. The student was told to leave the office and to return in the morning. Admitting that he had been drinking, the student refused to leave the office.

The dispatching officer then contacted his supervisor and the Smithfield Police Department. The individual quickly altered his attitude and was allowed to leave the Public Safety Office.

Assault to a Public Safety Officer: On Saturday, February 22, 1992, a Public Safety Officer was responding to a fire alarm in Residence Hall 2 (RH2). When a student walked towards him with an open beer. The officer asked the male to close the bottle. He began to pour it out, then took another drink. The officer then asked the student to dump out the remaining beer and to produce identification (ID). The male gave the officer a name and a social security ID number, but did not produce a school ID card. The officer informed the male that a report would be filed and that he may continue on his way.

After checking the student’s name ID, the officer, noticing that the student was a resident of RH2, then asked the student to identify himself. The student was then asked to the office and to return in the morning. Admitting that he had been drinking, the student refused to leave the office.

The dispatching officer then contacted his supervisor and the Smithfield Police Department. The individual quickly altered his attitude and was allowed to leave the Public Safety Office.

this afternoon. If you are in support of... the Senator’s efforts to end the tyranny that is being enacted at Bryant College, I ask you to join us.

Carroll also wrote under the pen name of Madame Lovuvda. In the February 28, 1975 issue of The Archway, four days before the strike, Carroll’s column “portrayed the tension that existed on campus at the time.” Dr. Lyons said.

In that column, Lovuvda/Carroll wrote of Events, ‘Why hasn’t this man of position, the leader of this community, taken action on [cannabis]?’

He continued, “this college is more than 100 years old and Dr. Evans has been President for five years. That’s a lot of time, and rather than solving our problems, they’ve been moving the issue to the place where the stench is unbearable.

He concluded, “This editorial may be one student’s interpretation of the actions of the student body and student government. It may be blamed on me by the administration ... but this is not necessary.

You see, I don’t need my head handed to me. I already knew where it’s at.”

His final editorial was representative of the struggles he had with the administration of the college.

Addressing his comments toward the administration, Carroll wrote, “I want to thank all of those people who made a point of making my life miserable... You think I write un-believable things? Well if it weren’t with all the hairs floating around this place... They want this, they want it, they want — what am I, Santa Claus? When will you realize that you can’t go on coming and brown nosing people like you want to be brown nosed? Every time I bend over, I get kissed!”

Following his graduation in May, 1975, Carroll took over his former part-time newspaper printing business, Limecirk, Inc. At the time of his death, Carroll served as president of Limecirk and as special activity officer at Brown University.

Students for a Safer Campus

Damaged Lawn

On Wednesday, February nine- teenth at 4:04 pm, Physical Plant reported a group of students on a pickup truck driving through the grass behind the Bryant Center. The students had repeatedly damaged the lawn that area.

When Public Safety arrived on the scene, the truck had left with several automobile tires intact throughout the area. The truck followed the trucks to a pickup truck at the front of the Bryant Center. He began ob- taining information on the ve- hicle when the owner came out of the Bryant Center inquiring about the situation.

The officer started explaining about the damage that had been caused by the vehicle, when the owner became very agitated and disrespectful. The officer in- formed him that he must go to the Police Department to file a re- port and a Witness Statement. The driver agreed and accompa- nied the officer to the Public Safety Office. After filing a re- port, the vehicle owner was in- formed of college rules and regu- lations regarding driving on cam- pus. He apologized for his earlier behavior and left the office.

Bite the Tuition Bullet

Well, at this time of year again, students. That's right, time for RHE students to buckle down and get ready to scream bloody murder against the one thing that we dread even more than midterm exams the day after Spring Break: Tuition Increases.

I'm sure you recall (like fudge you do) that last year around this time, I proposed a solution to the problem of chronic tuition increases. I proposed manufacturing a product called The Mark Pliehek Trustee Election Seat For the Control of Chronic Tuition Increases. The idea behind the product was that when a trustee brought up the topic of tuition increases, the election mechanism, cleverly disguised in his or her chair as an ordinary looking seat cushion, would trigger a programmed trustee through the roof of the Unstructure and directly into their European car.

I thought the idea had a great deal of potential, due to the fact that colleges tend to raise tuition with the timing of a protracted nuclear strike. However, it appears that I miscalculated the liability involved in the form of real dead trustees. In actual tests that I just thought of, done with actual trustees, not one of them arrived at their car alive. Oh, well, we all make mistakes, right? But this time I've come up with a sure fire idea for controlling chronic tuition increases. It's a revolutionary idea that I've been thinking about for at least the last five or six minutes, and I'm certain that liability will be lowered by not consulting a lawyer to find out if it is actually legal.

Right now, even as you read these words, the Board of Trustees is meeting to discuss the pros and cons of raising tuition. Thanks to some obsolete new technology that owes its success to the fact that I'm making all of this up, we are able to bring you the live conversation from the meeting. We can't identify any of the trustees because we have no visual capability, plus we are too lazy to look up any actual names of actual trustees. Trustee 1: "I'd like to turn our attention to the issue of tuition increases."

Trustee 2: "Are we raising it?"

Trustee 1: "What are you, hill?! Of course we are."

Trustee 2: "Oh. Sorry. All in favor say 'aye.' (sound of Trustees acting in lemming-like fashion, voting nearly unanimously for the increase.) Opposed say 'nay.'"

Lone Brave Trustee: "Er n... I... I... (pause as every eye in the room turns toward the lone brave trustee who refused to follow blindly, penetrating into his soul with glances that would send Superman back to Krypton, until he decides to change his vote) Uh... I mean... I'm ashamed... I mean... say 'aye.'"

Being the keen observers of human nature that you all are, I'm sure you all immediately noticed what the major problem is in controlling tuition increases. That's right! The trustees actually had the chance to propose the tuition increase. What we need is a product that will keep trustees mouths closed during the entire length of the actual meeting."

The Vote, continued from page 1

the dissemination of information from the Senate. You only want to present information that is beneficial to the Senate."

In voting on the motion, four senators, freshmen Josh Harman and Mark Towle, and juniors Jesse Adelman and Matthew Pisicelli, originally abstained. They later changed their votes to "yes."

The issue of releasing vote totals was brought up last year from the September freshman election, the Executive council election in March, and the Legislative council election in April. The Senate voted at an All-Senate meeting on September 23, 1991 to not release the freshman election results after a request for the results had been made.

This decision created a controversy among the student body. Two letters were immediately submitted to the Editor of The Archway; one pro and one con on the issue at hand. In one letter, senior Michael Chagas stated, "I believe wholeheartedly that the Bryant Community has a right to know the details of Senate elections because they are, whether they like to believe it or not, elected officials representing their fellow classmates."

Another letter blasted The Archway for not reporting the event objectively in a "quest for journalistic dirt."

Other topics at the Senate meeting included plans for organizing a Spring Weekend committee, Special Olympics dates, and notification of when housing deposits are due.

Also, the six candidates for the Executive council-Mike Yaffe and Rob Panunella for president, Trea Gross for vice president, Doug Tucker and Jenne Rice for treasurer, and Janie Wojcik for secretary-gave speeches.

All students are invited to cast their ballots for the Executive Council president, vice president, treasurer, and secretary on Monday, March 2 and Tuesday, March 3 in the Rotunda.

Candidates for President

My name is Michael Yaffe and I am a candidate for Senator President. Over the past few years, I have had the pleasure of working with virtually everyone on campus wide events. Now, I would like to continue this work by serving you in a higher capacity.

During the past year and a half, I have been the Senate Programming Board President. This has allowed me to develop a working relationship with everyone on campus. I see myself as the Senate President, I have the opportunity to work closely with most of the student organizations and Student Senate. I do feel that this year past and a half of leadership experience, the work I have done and many of the other campus organizations, does make me the most qualified candidate for Student Senate President.

I would like to take this opportunity to restate you of two very important things. If I am elected, I will do everything in my power to fulfill the election increase. Also, if there is an issue that is important to the campus, I will be the student's representative to the administration, the administration's representative to the students. So if you want experienced and straightforward leadership, on March 2nd and 3rd vote Mike Yaffe for President.

Miko Yaffe

Candidates for Vice President

Hi! My name is Tara Gross and I am running for the position of Vice President of the Student Senate. Bryant College has and will continue to go through many changes, many of which will affect the students. Having already served two of the Senate, I have seen many issues come forward which have been influenced by the student voice and representation. I feel that if I continue to have a strong voice and the student voice representation, we can continue to have our opinions heard and acted upon.

I have worked on numerous committees including, Chairperson for Parents' and Family Weekend, coach the Sophomore class and being a member of the Food Operations, ADHC and Fundraising Committees. Through these committees and many others, I have experienced the time and effort that it takes to get results achieved. I am a very dedicated worker and I am confident that any task given to me will be done and done correctly.

I am very excited for the upcoming year and the new issues that will be brought before the Student Senate. I feel that if elected as Vice President, I have the enthusiasm needed to accomplish new goals and ideas, yet I have the knowledge of being apart of the Senate for the past two years. So on March 2nd and 3rd, remember to vote Tara Gross for Student Senate Vice President.

Tara Gross

Candidates for Treasurer

My name is Douglas G. Tucker and I am running for the office of Treasurer of the Student Senate at Bryant College. I am currently a junior and I am majoring in Finance.

In the past, I have worked in the department of payroll at the Ocean City Beach Patrol in Maryland. This consisted of specific duties such as the processing of time sheets (over 150 employees) with the use of Lotus. I was also in charge (crew chief) of six other lifeguards. In this job, I was responsible for the scheduling of my crew. I was also responsible for the lives of hundreds, if not thousands, of people daily.

For the past two years I have been the Campus Representative for the Smith Corona Corporation. This position involves high volumes sales and the responsibility of dealing with customers and individual who have needs for computer hardware. Through this position I have developed vast experience in the transfer of funds with individuals and businesses.

The position of Treasurer of the Students Senate is one of responsibility and hard work thus, I feel I am qualified for this position. I have proven in the past that I am both responsible and hard working. Upon my return of this past paid position I would like to prove to you, the students of Bryant College.

Douglas G. Tucker

Jennie Rice

Most people do not realize the time and commitment it takes to be on the Student Senate or what we do and how we run. I have been a part of the Student Senate for the past two years and I understand the commitment one needs to put into the position of Treasurer. I have the experience and the know how to take over this position and run it thoroughly and effectively. I have sat on the Ways and Means committee, which fairly allocates senate funds to all recognized clubs and organizations, so I fully understand the budget process. Another main project for the treasurer is financing Parent's and Family Weekend. I have chaired events for this major weekend as well as headed in various other ways, so I am prepared to finance this weekend. In the past, I have worked closely with the previous treasurers who have helped me learn and understand this tedious budget process and maintain a record of all Senate finances resources.

If elected to the position of Student Senate Treasurer I will, as I have in the past, commit myself fully and work as a vital team member of this organization. Also promise to represent the student body as well as all clubs and organizations fairly as a member of the executive board.

Please remember to vote JENNIE RICE on March 2 and 3 in the rotunda. Thank you in advance for your support.

* Treat Yourself Right
The Alpha Phi sisters had a great weekend! Thanks to Heidi and Christine for putting up with us! Our pledges: Switl, Whiskas, Blistum and Rebok enjoyed themselves with all the events this past weekend! Keep it up you're almost there!

We would like to congratulate the new brothers of the Fraternity that ended! Good luck to those still pledging!

Friday night came and it was great to see all our Alumni - it made the weekend a definite weekend!! Thanks to Rebok on the Friday night come and it was great to see all the Greeks together at the Comfort! Many sisters later ventured to Dorm 2. Thanks for the entertainment!! In awarde: Six - Zont, Space - Tonk and S.O.T.W. - It that's it for now, till next week!

BEAC
by Mario Rosenbloom
"ACTION IS OUR REWARD!"
- Spidersman
The last meeting was on Tues. Feb 25th. We had pizza, compliments of Ronzio! We updated the group on campus events BEAC will be participating in. If you are interested in helping out for hunger Clean Up, please contact a BEAC board member at the next meeting.

The meeting gave us a chance to talk about our concerns and goals for the environment. Also, we did some brainstorming for future events and speakers.

We won't be having a meeting until after spring break. Please keep an eye open for flyers regarding the next meeting. Check out the campus scene after break for additional info!

Have a great, relaxing and safe break! It's only 9 days away!

Betta Sigma Chi
by Ed McCalister
Congratulations go out to the new brothers of Beta Sigma Chi: Rublic, Field, Burgis, Mack, Synd. Thanks goes out to the sponsors of Alumni weekend.

In sports, Beta A was beat on a controversial buzzer beater 105-104 by Sig Ep in intramural basketball Monday night. Honors go out to Roe who ripped down 26 rebounds. The game was hard fought with only one final injury.

Next week, another special guest writers. Until then, bye.

BHC
by Nicole Clouser
Things are rolling for National Hunger Clean-Up Day (NHCD) on April 11th. At the last meeting we organized groups for NHDC: recruitment, publicity, fundraising and worksite. We also voted to who 50% of the money will go to from NHCD. The money will be given to St. George's Soup Kitchen and Amos House. The other 50% goes to the National Campaign for good causes. Also members signed up to help with Special Olympics on the day of the event. Next meeting will be on March 4th at $50 in Papito Dimino Hall. Hope to see everyone there and new members are welcome.

Bryant Players

Hey, yo, EVERYBODY! There's gotta be somebody out there who continued, Campus, page 10

---

YOU'VE JUST BEEN CLEARED FOR TAKE OFF.

You can get a lot more out of life when you set your sights a little higher. Which is what applies for the American Express Card is all about. When you get the Card, it's easier to do the things you want to do. And with the student savings that come along with it, you can do even more.

Fly roundtrip on Continental for less than $100 each way. Student Cardmembers receive four travel certificates. They can be used to fly anywhere Continental Airlines flies in the 48 contiguous United States. Two for the school year; and two for the summer. Depending on where you fly, each school year travel certificate is good for $129 or $189 roundtrip-and each summer travel certificate is good for $69 or $99 roundtrip.

Savings that upgrade your lifestyle. As a student Cardmember you get more than great travel savings. You also save money on everything from clothing to long distance phone calls. All for a $35 annual fee.

Obviously, savings like these say a lot about the value of the Card. And having the Card will say a lot about you. For one thing it says you have a handle on what you spend, so you don't have to carry over a balance. It also says you're smart enough not to pay interest charges that can really add up. So take a few minutes now to call (have your bank address and account number ready), and apply for the American Express Card.

With all that the Card offers you, not even the sky is the limit.

Get going, call 1-800-967-AMEX.
Campus, cont. from page 9 plays the piano. Bryant Players needs this somebody to play for BYE - BYE BIRDIE. Please call Sun at 232-8362 or Allin at 232-6058. There are a thousand reasons why you should. Air Jordan says Pump Up and Jun with us. NIKE says fun. You say Bryant says. We Need You!!! Of course, there’s always the services, companies, fairs and fun of fun, fun, fun. Anyone can have fun, and we’ll even offer occasional free pizza at reheartals. Get with the program.

With the season’s last dinner theater so keen watching for more details. In addition, a POLF “Tourname-...

Delta Chi

by John Dorrocch

The Gamma class is nearing the honors floor and marked the occasion with a Tropical Festival Friday evening. All the brothers and the marines had their famous time - good job guys! The action continued with the Greek Extravaganza at the Comfort South night where our dining hall over held all. Due to a no show from Sig Ep S, the B team attended a basketball clinic sponsored by the Smithfield High Class of 1995. The focus was on how to accept defeat at the hands of a college team. We learned well.

Finally, Skidder, our new Goodwill Representative, would like to personally congratulate the new brothers of TEP, Sig Ep, TKE, and Beta and sends his continued support out to all other pledges.

Delta Kappa Epsilon

by David Manuel Santos

Quo? Passo? No much quota. In the third annual Greek machine won their first game of the season by beating Pi Kappa Phi last Thursday night. More than listening from the bus. Are they goin' guys gonna learn? In case you haven’t noticed, the Natalie brothers are not talking. They are probably taking a break on the half time or the half time. Quo? of the week: “Pathetic!!” Dilemma of the week: “Who should we have a quota from?” Phi Sig Sig Top Call!!

Pi Kappa Phi

by Chaz Prokop and Teddy Rykowski

Just another night of relief. Pi Kappa Phi not exempt for pledging and oc- cational basketball game. Both A-A and B-A had high losses last week. Hope everyone enjoyed the presence of their alumni this weekend. Another day or two and we could be visiting scenic Bryant for a week-end of festivities.

Congratulations to whoever has finished their quota in this gets in the paper. Quiz of the week: “What are you talking about?”

SHRM

by Shawn Poulin

Attention SHRM Members!!

We did not have a meeting last week, but we hope everyone is planning on coming to our next scheduled meeting.

March due to Spring Break, so we hope to make it very productive. It will be at 7:00 in Room 2A of the Bryant Center.

Any new members as well as old members are always welcome!! Hope to see you there!!!

Sigma Phi Epsilon

by Derek Fairchild

The brothers of Sigma Phi Epsi- lon are glad to be finished with pledging, and would like to congratulate all our new brothers. This week started fairly early Saturday morning. It was also a very busy weekend.

Monday night we had some rare guests on the floor, thanks a lot to Kinesis. The new brothers experi enced their first Brothers Get together on Wednesday, it was a good time, too. The Good Samaritan of the week goes to Bagg for his efforts to find the lost black fleece on Mon day night. Our friend for the Al le nese Director, thanks for keeping us updated on all our games, keep up the good work.

In Sig Ep Sports, the A Beta team had a strong victory over Tuesday, Rob Krista was on an injured recliner, the A Beta team beat Pi Kapp 22-10, what an offensive showing.

Special Olympics

by Heather K. Calderone and Tracy Markiewicz

We’ve gotten off a great start! Thanks to Lori Matheson for all her hard work, she put into organizing last Friday’s events. SigEp, Beta, and TKE can’t wait to hang out with you guys. See, we told you it was worth it! For the rest of the fraternity pledges, hang in there!! The weekend was relaxing while our pledges were away and our Alumni were up. On Friday night we had visitors from many organiza tions, which was quite an interesting evening. We started off Saturday night early on the floor which turned into a Greek formal at the Comfort on Saturday night. It was good to see new brothers and other guests.

Quo? of the week: “Pathetic!!” Dilemma of the week: “Who should we have a quota from?” Phi Sig Sig Top Call!!

Sigma Pi Epsilon

by John Nieratko

Congratulations to our new brothers of Pi Kappa Phi, Fatso, Chunky, Tattoo, Dydo, Roland, Marbles Mushmash Pickles. The future of Sigma Pi Epsilon looks like it will be strong for many years to come. I would also like to congratulate everyone else who finished this past week and the weeks to come. You all are going, good luck and I hope at the end of all this Bryant college will have a lot more pride and fun.

This is exactly what this “campus” needs — a bigger, stronger Greek community! Hang in there sisterhood/brotherhood is just around the corner!!

Happy Birthday Piggy! Our confi dences go out to Fred and your entry into the ICU. Beware — Greetings! Is the good news of what is an incredible pace. Beta Theta...

Tau Kappa Epsilon

by Brian Deleurent

Firstly, I would like to introduce you the new brothers of Tau Epsilon Phi. They are; Perp, Pisa, Puck, Pesta, Ptho, Pine, and Pate. Congratulations guys, now the fun begins. The weekend on the floor was a real good one. Saturday night was awesome hanging out with all the new brothers and old friends. Unfortunately, Slick and Jace found out the hard way that you must be careful where you rest your head. Then on Sunday, a few of us were hung over but playing a few games we all felt better.

As for sports, TEP baseball is still on the rampage. TEP C defeated Beta in a real close game last week. Let’s try to get the score a little higher next time guys. TEP B is also doing well with their victory over DX on Monday night. Before I bring the week to a close, I have a word for the “Big Three” Murry, my wife needs your good nutrition in a bowl, just do this.

Theta Pi Alpha

by Tara J. Reilly

Greetings and Salutations! Well Friday night was a great success! Everyone started off on the right foot Friday either at the Comfort or the Bryant Center. Approximately one had as good a time as we did, Saturday started early for most at Personnel and was proposed nicely to the Comfort, with little lag time. It was nice to see so many alumni from everywhere. Finally, congratulations to the brothers of TKE, Sig Ep, Beta and Tep. For the rest of the pledges - Hang in there sisterhood/brotherhood is just around the corner!!

So you want to get more involved on campus? Expanding your horizons can add to your college experience. And you don’t have to be an upperclassman to try it. Whether you’re looking for something to add a little spice to your college life or to get involved in something that will help you grow, there are many opportunities to choose from.

We’re looking for some enthusiastic, cash-obsessed, and slightly unorthodox (okay, totally unorthodox) new members for Council Travel. Positions are available for council fees. Council Travel is a student-run, student-funded travel service. If you’re interested, give us a call at 232-2086 or a visit to our office on the second floor of the Mac Library, Room 211.

FREE 1992 Student Travel Catalog!

The Student Travel Catalog is a valuable resource for students who are planning to travel. It contains information about various travel opportunities, including domestic and international trips. Students can use the catalog to plan their trips, find out about available travel options, and make arrangements for travel arrangements. The catalog is available for free, and it is a great resource for students who are looking to expand their horizons and explore new places.

In addition to the Student Travel Catalog, there are many other resources available to students who are interested in travel. These resources can include student travel groups, travel clubs, and travel websites. By exploring these resources, students can find like-minded individuals who are interested in travel and can work together to plan their trips. Additionally, students can look for travel-related events and activities on campus, such as travel seminars and travel workshops, to further expand their knowledge and experiences.

In conclusion, whether a student is interested in travel for leisure, educational purposes, or personal growth, there are many resources and opportunities available to them. By exploring these resources and opportunities, students can expand their horizons and gain valuable experiences and memories that they will carry with them for a lifetime.

Men's Basketball Continues Losing Skid

Angelo Corradino
Archway Sports Writer

The Indians continued their season with a game losing streak, dropping their record to 3-23, against Merrimack, American International, and St. Anselm's. Tuesday against Merrimack was the last home game to be played by Senior Rich Rose, Scott Meyer, and Jack Newbauer. Unfortunately, the outcome of this game was 97-73 in favor of the opposition. Sophomore, Glenn Tarrro had 15 points, and Rich Rose and Dave Burrows each had 14 and five rebounds.

Gary Duda and Steve Curran of Merrimack had 24 and 23, respectively. Curran and Duda were the same two players that broke down Bryant's defense exactly one month ago during the first meeting of these two teams. The contest against A.I.C. took place last Saturday. Bryant was down nine at the half, 28-37. They came back in the second half to match A.I.C. 43-43. A.I.C. walked away with the win 80-71. The team was lead in scoring by Rose who had 19.

Burrows pulled down eight rebounds off the glass. Against St. A.'s, Burrows shined with 25 points followed by one of his captain's, Rose with 16 points. Down by 13 at the half, Bryant generated 59 second half points to out score St. A.'s, 59-50. This proved to be too little too late for the Indians as St. A.'s maintains the lead and won, 80-84.

Bryant will face Springfield College tonight at 7:30 at Springfield College. For the Indians, it was one of the most successful Olympiads ever. In total, the U.S. won 11 medals (five gold, four silver, and two bronze).

Speed Skating gave us our first, and most medals. Bonnie Blair from Champaign, Illinois took the gold in the women's 500-meter short track. The United States also had success in Alpine Skiing. Hilary Lindh from Juneau, Alaska won the silver in the women's downhill, and Diann Rolfe, Portsmout, NY tied Anita Wachter, from Austria, for second in the women's giant slalom. Also making its Olympic debut was freestyle skiing ( moguls). Donna Weinbrecht, of West Milford, N.J., became the first person to win a gold medal in the moguls. Nelson Carmichael, Steamboat Springs, Colo., won the bronze in the men's slalom. figure skating was another area where the Americans fared well. Gold medal favorite Krista Yamaguchi, Fremont, Calif., did what was expected of her, despite falling during her routine. Nancy Kerrigan, Stoneham, Mass., took the silver. Cathy Turner also won the gold in the 500-meter short track.

Pam Perrault warms up during softball practice yesterday.

Olympic Wrap-up; How the Hometeam Fairied

Angelo Corradino
Archway Sports Writer

The largest Winter Olympic games in history came to an end on Sunday, leaving us with many memories.

Women's Basketball Look Toward NE-10 Play-Offs

Angelo Corradino
Archway Sports Writer

The women’s basketball team season is winding down, and their record is dwindling as well. The Lady Indians went 1-3 last week, in their NE-10 matches.

The team’s only win of the week came Tuesday night at home against Merrimack.

Bryan jumped out to a quick 34-27 half time lead, and never looked back, eventually winning 69-64.

The buzzer-beater, half senior Heather Houle was fouled and hit both ends of a one and one to become the newest member of the 1,000 point club.

“it’s so fitting that Heather got her 1,000th points on senior night,” coach Mary Burke said. “She has been a team leader all year and has kept the team together.”

High scorers in the game were Holly Grinnell with 24, Houle with 16, and Bridget Casey and Jennifer Spencer, each with nine. Spencer also had ten rebounds and Kim Ross had ten assists.

A scary moment for the injury plagued Lady Indians came late in the second half when Heather Houle was scrambling for the ball and was pushed to the ground. She laid there, clenching her back for a few moments, and left the game within moments.

“Merrimack plays physically. That’s the way they are coached,” coach Burke added. “The refs have to be on top of that, and they weren’t.”

Saturday, the team faced AIC losing in the last two minutes of the game, 71-69.

High scorers in the game were Spencer with 22, Houle with 19 and Grinnell with 13. Spencer also had 15 rebounds. Her performance in this game qualified her for the ECAC and the NE-10 weekly honor roll.

“Spencer played unbelievable against AIC she had 22 points and 15 rebounds, most of it coming in the second half. She was sick which made her performance even better,” coach Burke stated.

The Lady Indians played St. Anselm’s last Wednesday and lost.

“We got into foul trouble early and couldn’t play defense,” coach Burke said. “We only have seven players which makes it harder.”

Bryan earned a play-off birth and will take on Bentley, number two in the nation, on Sunday.

“We match up pretty well; they don’t have a lot of size,” coach Burke said when asked about the game.

“If we go in with a good mind set we stand a chance. They are beatable this year and if we play up to our potential we could upset them,” she stated.

Coach Burke would like to thank her seniors on the team for their leadership.

“We have gotten great leadership for them all year which has allowed us to continue to have success. That makes a great basketball team. We couldn’t have done it without them.”

The team has also gotten help from other recruiting places.

“Julie (Fitzgerald) has come off the bench and played intense defense. She is a big boost,” coach Burke concluded.

The team will travel to Springfield to play their final regular season game on Thursday. They will travel to Bentley on Sunday for the NE-10 Playoffs.

Men’s Track Looks To Three-Peat

Mark Plisek
Archway Sports Writer

The men’s track team is opening the 1992 season with one thing on their minds.

Three-peat.

The team, winners of the Tri State Conference Championship the last two years, is the favorite to capture the title again this year. A veteran squad, the team lost only two seniors to graduation last year. Pole vaulter Michael Hebert and shot put record javelin thrower Jeff Sparfven graduated last May.

The team is anchored of six seniors, including tri-captains Roger Steven, Sam Thompson, and Scott Voss. Augmenting the squad are a number of returning internationals, as well as a strong freshman class.

A good recruiting class has given the team its strongest distance squad in many years. Stevens, who was also co-captain of the cross country team last fall, leads the distance runners, which also includes sophomore Pete Grissel, Ray Moncrieffe and Paul Daley.

On paper, the team has no glaring weaknesses. Veterans are augmented by strong freshmen in most events. Thompson throws the javelin and anchors the weight squad, which also includes powerhouse Phil Morin throwing the shotput.

The sprinters are led by Voss, junior Aaron Schaeffer, and sophomore Ian Pratt. Voss also anchors the jumpers, competing in the long and high jumps. Transfer student will help to take up the slack of the loss of last year’s Tri State long jump champion Steve Weis to transfer. An all rookie pole vault squad looks promising in pre-season workouts and should be competitive in the Tri State conference.

Head Coach Harry Smith is optimistic about the team’s chances for a three-peat. “We have a very strong squad this year. If we stay healthy, we’ll be tough to beat.”

Racquetball Ends Regular Season

Submitted by
Racquetball Team

The Bryan College Racquetball Team won four matches and lost one during the past two weeks in Binghamton and Albany, NY.

The Racquetball Team scored four wins, two by shutouts, in defeating SUNY Plattsburgh 20-6, Marist College 18-0, RPI 16-4, and SUNY Albany 16-4.

Bryan lost their closest match of the year to SUNY Binghamton as the result of a tie at 10-10. ECRC league rules state that if a tie should result, the match winner will be determined by the team with the most total points.

SUNY Binghamton had the most points winning by a total of 376-356. The women’s wins were the key by SUNY Binghamton match as they picked up five wins to force a tie.

Number one Bobbi-Jo Bell won her singles and doubles matches as usual, but #3 Tricia Colozzo, #5 Maria Acaemora, and the #2 women’s doubles team of Tricia Colozzo and O’Connell provide the key wins for the Binghamton match.

All five wins came in straight games as the women’s team continues to emerge as a league power. The women shut out their opponents in the Marist and Plattsburgh matches and beat RP16-3 and SUNY Albany 6-3.

This past weekend, Bryan soundly defeated RPI 16-4 and SUNY Albany 16-4 in the best wins of the season.

The men’s team went 10-1 in both matches, clinching at least a tie before the women won it again with six wins in both matches.

With these final two wins, the Racquetball Team continues on a roll into the Regional tournament, where they have chance of winning a Regional title.

The men’s top six players should receive one of the top four seeds in each of the singles divisions. The women should also expect to receive some good draws in the tournament. Bryan, winning five of the last six matches, finished the ECRC season with a 5-4 record.

The Racquetball Team will have two weeks off before travelling back to Albany, NY for the Eastern College League Regional tournament on March 13-15.

Last year, Bryan finished right in the top ten in the tournament and is projected for the top three this year.

Athletes Honored on Senior Night

The senior basketball players from the men’s and women’s basketball team were honored prior to the men’s basketball game on Tuesday against Merrimack.
