Sixth Annual Investment Seminar To Be Held

Bryant College will hold its Sixth Annual Seminar on "Investment Decisions Today" on Saturday, November 17, in the College Auditorium. This day-long event, sponsored by the Finance Department of the College, will feature executives of the Foxboro Company and an editor of an investment magazine as well as an expert in oil stocks. Dr. Harry F. Ennis, President, will welcome guests to the Seminar.

The Seminar will begin at 9 a.m. and end at 5:30 p.m. Interested persons are invited to register by telephoning or writing the Bryant College Business Office.

Among the speakers will be Professor Leo Mahoney of the Bryant Economics Department who will speak on "The Outlook for the Economy in 1974."

Chairman of the Board of the Foxboro Company, together with Robert Cossor, Treasurer, and John Poller of the Treasurer's Department, who will discuss the past, present and future of their company from the individual investor's viewpoint, is John O. Stewart, Assistant Vice-President of the Rhode Island Hospital Trust National Bank, who will have as his topic, "An Oil Analyst's Look at the International Oil,"

Mr. Ennis stated two basic reasons for resigning from his post. The first reason is that the job requires more effort than a full-time member can give. Camper said, "my primary responsibility is my academic commitment." He said that he could not spend as much time with his students and at the President's desk this year as it is necessary for him to be a good academic administrator.

The second reason for being resigning is that he feels "a sense of frustration and inability to be able to accomplish as much as I would like." He said that there are some serious problems on campus that must be diagnosed and solved before the College can make any progress on problems it is not the teacher's job. Camper feels that the College hasn't planned ahead.

When asked if he had had any problems as faculty backing is concerned, Camper's response was, "No, not really. In the broad sense, the faculty has evidenced no doubt concerning the fact that I am not going to stay on." He said that there are problems with the faculty, but "the problems are not with support," and that there has been almost complete support from his fellow faculty members.

According to Camper, the Faculty Federation has done a number of things during the past seven months. It has established a somewhat better communication network with the Board of Trustees. It has established a number of ad hoc committees on the faculty, and it has made some informal agreements with the President of the College to look into problems areas. Camper considers these to be generally productive things.

"What bothers me," said Camper, "is that these things are the result of innovation from this end rather than from the other end."

Camper's major criticism is that the Federation doesn't get a rough trust from the Administration. "They started

Zeiger To Lecture

Mr. John C. Zeiger, Assistant Professor of Management at Bryant College, Smithfield, Rhode Island, will be the lecturer at the seventh meeting of the ten-week Women in Organizational Management Seminar at Bryant College, November 13, 1973 from 6:15 to 9:30 p.m.

Professor Zeiger holds a B.A. and M.A. from the American Academy of Management and Beta Gamma Sigma, Columbia University, respectively.

Mr. Zeiger and his wife reside in Cranston, Rhode Island. They have three children.

Ex-foreign Service Officer Under Kennedy To Address Students

Mr. Roland A. Berardo, who has served under presidents Kennedy, Johnson and Nixon, will be the guest of the International Student Organization on November 15 at 10 a.m. in the Faculty Dining Room.

Mr. Berardo spent 20 years working as a Foreign Service Officer in the United States and abroad, including the organization for European Economic Development in Paris, and posts in Madrid, Sweden, Spain and Portugal. On Thursday, he will talk about the dramatic changes that have taken place in Foreign Policy. Mr. Berardo has won the reputation of being a very dynamic speaker. At present he is Executive Assistant to the President of Columbia National Bank. He is residing in Westerly, Rhode Island.

All Bryant community is invited to attend.

Student Affairs Discussion

The Office of Student Affairs is in the process of continuing informal discussion sessions with resident students on a number of issues. An additional session is being asked to be held of interest for students on campus.

One-hour sessions cover topics as social life, dorm conditions, and general attitudes of resident students toward these areas. The sessions are being held twice weekly for a three-week period. Each session is attended by 15 different, randomly selected students in order to get a varied sampling of attitudes. Leading the discussions are Mr. Peter Barlow, Assistant to the Vice President of Student Affairs; Mr. Tiny Davis, and Dr. John Nord, both resident counselors. According to Mr. Barlow, these sessions enable us to gain feedback from the 'average' student concerning items of mutual interest.

First Baptist at Bryant

by Paul Carroll

Last Sunday, the first Organizing Service ever held at Bryant College took place during the informal agrément with the Chapel. Shantil Nikole Cox, the daughter of Mr. and Mrs. John York, graduated from the College Chapel, Father Dornak then preached a sermon with Father Barrette welcoming Mr. and Mrs. Cox and Mr. and Mrs. Ralph Krogh, the parents of Shantil Nikole; and thanked them for allowing the Bryant Community to share with them the bringing of their child into the Kirk, and then after the prayer, Father Barrette then read a letter from the Bishop.

Father Barrette explained to the congregation that a Christian is a "Christ Belier," which will grow because of the faith of the parents. He asked the congregation to think seriously about what was taking place, to think about what is it with Church that asks of them, and to make a new commitment to Christ. The greatest of the apostles, Shantil Nikole then joined Father Barrette on the altar where she recited a prayer and was baptized by the Catholic Church. He presented Mr. and Mrs. Cox with a letter and a cross.

Continued on Page 6

controversial letters dealing with the roles and responsibilities of students, faculty, administration, and trustees.

Camper wants to become more deeply involved with students, but says that there is no place to do it. Most of the faculty offices are held by one person—and many are shared by two faculty members. Camper said that this is an organization that operates dealing with crisis rather than in terms of planning.

New dorms are being built right now to house more students, and Camper feels that Bryant should concentrate on getting better and not on getting bigger. "The money for the new dorms could have been given to other things like scholarships, Camper wants to make students feel as if they are a part of the College for their whole lives; not just for junior and senior year."
DEAR EDITOR,

To the Bryant Community:

Last weekend the Administration decided to start locking the dormitories at 11 p.m. This decision touches most students on campus; however, the College did not have the courtesy to get the students’ point of view. To top it all off, many students were unable to enter their dorm rooms when they needed to because the locks were not all operational. Therefore, we were unable to enter our dormitories to study or to make and break our social agreements.

The Senate is here with the students. The Senate’s purpose is to represent the students.

1. Please, if any student has an idea they may want to present to the College, see any of the Senators or myself. We would like to help you.

2. If any faculty member or administrator wants some student input, contact us and we will spend as much time as you wish discussing it. That’s why we’re here.

I’ve been told there are three ways to get things done: the right way, the wrong way, and the Bryant Way. If the Senate, the faculty, and Administration get on the same side, we may just amass ourselves.

Respectfully,

FRANKLIN W. WELLS, Editor

ALL Teachers are NOT Forgetting Their Job

Dear Editor,

In response to the discontented anonymous student, who in last week’s issue decided to stereotype the Teachers at Bryant and then ignore several criticisms at the faculty in general, I tend to be in total disagreement.

What ever happened to the teachers being understanding, helpful and concerned about their students? There is no evidence that a student is interested in the brains of these men…, it was once my impression that it was not only to teach but also to let us learn from their experiences. These lessons that are passed upon a great change of pace in areas where we might very well be subjected to “totalitarian theory,” if they were unable to interpret that which they had to offer to us and “… our futures at stake.”

After a week’s illness recently, I was faced with solving the problems of my minor three classes for a whole week. Nevertheless, the teachers, ALL of whom helped, and further, offered tips, which was far beyond the scope of their “job.” Dr. Floyd and Mr. Ealey are examples of the understanding material we had the chance to experience. Instead of flying off the handle and generalizing, I will be logical and practical. Each of the teachers probably has close to 100 students, and yet they unsenably offered their assistance. I’m only out of 150 and don’t deserve any special attention not available to all students.

Again, I can’t and won’t speak out about ALL teachers, but I think 5 out of 5 is a damn good showing for the faculty, don’t you?

Sincerely,

KURT SCHOTT

Your Senate Cares

Dear Editor,

In the last issue of the Archway, I expressed my deep concern by Paul Carroll which may have missed the students. Mr. Carroll referred to the “caring and sometimes irritable moody,” but I don’t see why he should have stopped there.

I do not see why he should have stopped there. It is true that our senators are not the best in words, and they are very “confusing.” I would like to explain why. If a Senate meeting accomplished nothing, the meetings run very smoothly. But when attempted to have private sessions which is the Senate has had, and your goals become a confusing and chaotic situation. It hardly calls this “bitten off” more in the last five senate meetings. It seems as if, the past senate meeting has in my opinion. It is for this reason that I am sure we will give the importance of being “confusing” as Paul pointed out.

The very fact that you have read this into this Letter to the Editor shows that you are concerned with your senate. Therefore, I thought you might be interested in know what we have been doing in the last five Senate meetings. In the next issue of the ARCHWAY I will list our goals, what we are in the process of doing and a summary of what your Senate should mean to you. Your Senate cares. We meet every Monday in #324 at 3:15 and our meetings are open to come in and judge for yourself.

Thank you,

RICHARD W. SCHIEBEL HUTH

P.S. The senate office is located between THE ARCHWAY and the LEXICON (apartments). We welcome any comments and/or criticisms.

Sincerely,

RICHARD W. SCHIEBEL HUTH

DECEMBER NEWSLETTER

“Scrounge for the Lounge”

by Kevin McGarry

Paul Carroll

In the past few weeks a number of letters have been published in The Archway stating the grievances of commuter and dormitory students. The seige of letters began with the flagrant attack of the “Seven Unhappy Commuters,” concerning the lack of consideration given to Commuter rights and privileges. As the violin music played softly in the background; they stated their grievances concerning the change over of “their” lounge into a pool room, the lounge being used as a “juke box, and a howling machine”—all with the intention of seeking equality for all students.

In the second episode of the “Smithfield Seven,” “Six Happy Dorm Students” retailed their rights of the dormitory students. Finally, after three weeks of Commuter Constipation, the “Name Withheld Kid” walked off with the “Dysnetery Discourse Award.” He infers that some form of security should have been exercised “to see that only commuters were admitted” into the lounge. We don’t see why he should have stopped there, and why not exclude Catholics, Jews, and Baptists also? When all is said, let’s exclude the female sex—better still why not turn it into a men’s room for Eumuchs?

We urge the “Smithfield Seven,” the “Six Happy Dorm Students,” the “Name Withheld Kid,” and anyone else who feels they should have a grievance in relation to the Dorm/Commuter conflicts to show their “true” concern through action by attending the first meeting of this committee. Anyone wanting to serve on the committee should contact Rick Corrente or Karen Benoit or leave a note in their mail box in the Senate Office.

You have expressed your desire for action and the Student Senate has responded and shown its concern by setting up this committee. It is now up to you, the students of Bryant College, to act in a positive manner, and to work to achieve a more united student body.
Pre-Registration 1974

Today is Friday, November 9th, the 313th day of 1973 with 52 to follow.

The Moon is approaching its full phase.

The Student Advisory Curriculum Committees along with the Registrar's Office has designated a new system for pre-registration. We feel that this new method will be beneficial to all. Following is our report:

Goal: To register students in a more orderly manner while still allowing students to choose their courses, teachers, and times.

Who Gets What?

In a order in which a student pre-registers will be determined by his birthday (month and day) and classification number. In previous years the order was determined only by the classification number and month of birth. The computer will determine the order of these dates.

The new system gives the ARCHWAY a timetable (showing the order of birthdays and classification numbers) will be given in the following format: For example:

<table>
<thead>
<tr>
<th>Date</th>
<th>Time</th>
</tr>
</thead>
<tbody>
<tr>
<td>Sept. 10</td>
<td>8:00</td>
</tr>
<tr>
<td>Mar. 4</td>
<td>8:00</td>
</tr>
<tr>
<td>Oct. 10</td>
<td>8:00</td>
</tr>
<tr>
<td>Oct. 21</td>
<td>8:00</td>
</tr>
<tr>
<td>Feb. 9</td>
<td>8:00</td>
</tr>
<tr>
<td>July 1</td>
<td>8:00</td>
</tr>
</tbody>
</table>

Note: Approximately 50 students per hour.

Students will not be allowed to pre-register before their time. This new method will allow a student to come in a few seconds

Due to the fact that a proper scheduling plan will be made at the scheduled pre-registration time or in consultation with Dean Alberg, there will be NO work letters. If you come late to pre-register, you will be making up a schedule for any relevant reason; be sure or not you will get the Registration's Office for help. The counselor understands the problems students can have besides work letters such as teacher-student conflict, and overtime conflict. Mr. Alberg has designated this new system so students who cannot come in time to pre-register even though it may mean having him wait.

This new system will help all students in the best possible courses at pre-registration. In next week's ARCHWAY will appear the times table for pre-registration which begins on November 26, 1973.

Frankly Speaking

Frankly Speaking

A VIRGO? I KNEW YOU WERE A VIRGO THE MOMENT I SAW YOU.

ON THE LIGHTER SIDE

Something for the kids:

Nutritional value of the junk food.

For years now, Professor Theodore Hedrick has been warning students about "junk food" children eat.

Chocolate, a badgke confection that supplies even more protein than pepperidge farms or swiss cheese.

Some kids don't care for the cheese because it doesn't taste like the milk chocolate they're accustomed to eating.

The cheese consists of scraps of cheddar, gouda or other cheese, whose products are:

When experiments first started making chocolate, they tried to make it sell at 25 cents a pound. To stabilize the consistency of the cheese.

"The problem turned out to be an advantage," says Hedrick. "The milk acidified the chocolate a higher protein content than most other cheeses."

Hedrick and a group of colleagues worked to come up with an edible product and in 1966, a stable, consistent food item emerged from their laboratory.

On the product was considered satisfactory, the task was turned over to the university's dairy plant and chocolate was marketed.

CFBF Meeting

The Highlights

by Mark R. Gay

Last week on Monday, October 29, the Committee for Better Food at Bryant had the pleasure of touring our kitchen facilities. Our tour was led by Mr. Gene Hemmingsen, who did a splendid job.

The first stop on our little trip was the meat freezer. This is where all of our meat is stored. The freezer is equipped with lots of storage space. We saw the vegetable box, the dairy box, and the dry goods box which houses all of our canned goods.

An interesting stop was the garbage room. This is where the garbage is stored until it can be taken off campus. This garbage is removed three times a week.

The last three stops included the paper storage room, the bake shop, and the detergent boxes. All of our soap products are stored well away from the food preparation area.

After this tour, the group went to the administrative offices of ARA-Bryant. We looked at every aspect of the set up here at our school. It was interesting to note that ARA presently employs 108 people. It is also interesting to note that the entire kitchen is invention once a week. We run a tight ship here at Bryant as far as laboratory is concerned. All the paperwork of ARA-Bryant was at our fingertips including meat plans, purchase order sheets, inventories, etc. This was most useful.

The mess at the top had thoroughly surprised that we weren't getting ripped off, we discussed the institution of the various Senates which steel tubs for Halloweens. At last we learned how to use any equipment as well as a rental fee which both must be paid. We even looked at which piece of equipment you are borrowing. Both needed. If a damage has been done in the past to objects that had been lost.

If ARA and the students get together, the problem is solved. At the end of the month, pick up your tray and put it back. We know you are leaving it on the table. If you don't, we can meet ARA Bryant on a happy, medium ground.

Fred Leonard, a junior majoring in Accounting and Systems Management, was elected this fall as Speaker of the Council of the Student Senate. As Speaker of the Council, Fred is a representative of the Legislative body of the Senate to the Executive Council. It is his job to set up the various Senate committees and to get them organized. Fred sought this office because of his interest in improving the Senate. This year's Senate has been trying to get on its feet, and Fred feels that change must come from within the Senate.

Fred has much to offer to the Senate. His knowledge of organization and willingness to work and devote his time to the Senate are his chief assets. Fred feels that the Senate is getting up on its feet. The major problem which it must overcome is to better represent the student body. This has been difficult in the past because of a constant change of the leadership of the student body. This constant change resulted in a lack of continuity within the Senate. The Senate has to work with professional people, and Fred feels that the Senate can work with them in a professional manner. He feels that the students don't really realize what the Senate is doing, and they don't realize how much of the work is done in the committees behind the scenes. One of the things which the Senate has worked on this year is the registration policy of the College. Differences which the Senate, is presently working closely with the faculty on a new evaluation program. The results of this evaluation will be compiled into a cross reference filing system which will be available to all students. The Senate is also responsible for the movie which are shown at the College. Fred stated that not only do we have the best selection of movies anywhere in the country, but they are shown five of charge.

One of the goals which Fred feels the Senate should work toward is the better keeping of historical records so that they can be of value to future students. He also related that the Senate's first priority of internal organization has been solved and that it can now better concentrate on the problems of the student body.
Alan Olinsky Speaks Out

Alan Olinsky came to Bryant Community College in 1971 after teaching for a year in a New York high school. A native of New York, Mr. Olinsky holds a Bachelor Degree in Business Administration and a Masters Degree in Math Education, both from Hofstra University in New York.

A former member of the Curriculum Committee and a present participant on the Calendar Committee, Mr. Olinsky has taught in the Mathematics Department since he came to Bryant. In discussing the move to Bryant, Mr. Olinsky feels that the College is still suffering from its transition to an educational institution. To explain further, he feels that the Administration has a tendency to make decisions as a profit-making organization which it used to be, instead of acting as the non-profit institution it is.

He feels there is a major problem facing the Mathematics Department which he feels is directly related to this transition. In interviewing one of his students, Mr. Olinsky states that they are allowed to have 50 plus ten percent in their accounts per class, and that the Administration takes advantage of this as a means of minimizing total productivity of the campus. Although math classes may be as large as it is, there is a major crisis facing this department. He is faced with an overcrowded room of students who are of a heterogenous nature which makes the level at which the class is to be taught a difficult decision. On one hand he stands for the chance of losing the slower, less math-background student, which on the other hand he may be boring students who have a head start.

Improved Security Measures on Campus

In an effort to better protect the Bryant Community, a number of changes have been recently put into effect. The Security Department under the direction of Mr. Robert Gardner, has implemented the following changes, particularly in the dormitory village.

1. At the end of last year, double lock type locks were installed on all suite doors, preventing the use of credit cards as skeleton keys.
2. This year, a cross reference record system has been put into use to bring to the attention of the Security Force any build-up of crimes of a particular type or in a particular area.
3. Exterior locks on the dorms have been changed to a new self-locking system which locks the door automatically after a certain hour. This is to prevent the entrance of any unauthorized persons into the dormitory.
4. Devices to double lock windows will be distributed to all dormitory students, particularly in the dormitory village.
5. A new dormitory has been made for the installation of lights to be mounted on the dorms to illuminate the dormitory village.
6. The student patrol force has been increased in the dormitory village and in parking areas, and stronger restrictions have been placed on the parking permits not associated with the College who parks in the campus—especially in the dorm area.
7. Mrs. Gardner would like to take this opportunity to give some advice to the students concerning the protection of their personal property.

1. Don't keep large sums of cash in your rooms.
2. Record all serial numbers of television sets, stereos, records, cetera, for identification purposes.
3. If possible, observe and report any suspicious persons either in the dorm area or in the dormitory village.
4. Lock both the suite door and the room door when you leave.

Student Senate Poll

On Security Regulations

Effective Sunday, November 4, 1973, all dormitory doors will be locked at 12:00 Midnight, from Monday through Thursday, and at 2:00 a.m. on Fridays and Saturdays. (This excludes the temporary situation in which time doors will not be locked until all locks are adjusted to fit students' keys.) The dormitory doors will be locked purely for security reasons. This period is not a restriction on students' curfew or partial hours. Mr. Robert Gardner, Director of Security, is simply trying to end the recent rash of burglaries which have occurred during the occurrence of more serious crimes. Security report that 80 percent of all thefts occur between 11 p.m. and 2 a.m. Through this policy, Security is preventing "outiders" from wandering throughout the dorms at any hour of the night. We would like to re-emphasize that any student may have or be a welcome visitor at any time.

The Student Senate's committees on Dorm Life and Buildings and Grounds would appreciate the cooperation of all dormitory students in this survey so that we may help the students attain satisfaction converting this policy.

PLEASE COMPLETE THE FOLLOWING FORM AND HAND IT IN AT THE ROTUNDA:

ARA's Galloping Gourmet

Ray Hamilton

In 1968 at age 15, little did he know that by working in his uncle's bakery he was on his way to bigger and better places and a career which would lead him to__-where else—Bryant College.

The person of whom I speak is another little kid (and probably a taken-for-granted on the part of most students) face at Bryant. It is none other than Ray Hamilton, the Galloping Gourmet at Bryant College. Ray attended the Culinary Institute of America (then in New Haven) and attained an Advanced Pastry Chef's training. Of the 150 students who graduated in 1965, only four of them were majoring in Baking; and of that quartet, Ray is the only one still practicing baking, as the others have switched to cooking careers.

After attending the Culinary Institute, Ray was trained in the hotel field, Ray worked in several bakeries where he claims, "you instantly work with older bakers; and being young with new ideas, you don't stay in one place very long."

Ray came to Bryant when the new campus opened in 1971 and is a native of Providence. Ray's position is managerial in that he is in charge of the "bakery." The only person who works in the bakery is Carmino Delibello, who comes in at Bryrtes in the morning. Ray feels they have a good working relationship and that if they are having problems they are there to put out what is asked of them and they simply do it. This is for the sake of avoiding any misunderstandings or complaints from Bryant's students.

In discussing AARA and the Administration, Ray is very optimistic, "I think they understand me alright," and he feels that "as long as everyone works together," there won't be any problems. Ray was appointed to read about the &c ripption of rotten pies and slut cakes in a recent article on the bakery. The Archway. All he has to say is that everything is baked and turned out perfectly. From that point he has no complaints unless they are long they may keep something.

Recently Ray turned out his first book, "The Complete Cookbook for Bryant. The occasion was the Halloween Party and any of the people who attended will testify the cake was truly a work of art. It consisted of 150 pounds of cake and weighed 110 pounds. Take Some More Stuff: Custom decorations and turn Ray Hamilton loose for six hours and the results can be exciting. Ray's confectioners delight, which some students demanded enjoyed.

Rothenberg to Address SBANE

On Friday, November 9 at 7 p.m. there will be a prayer service followed by the large picket line at Almacs supermarket in the Wampum Mall on Turanion Avenue in East Providence. The service and picket line will be sponsored by the United Farmworkers Union under the leadership of Chihuahua. Representatives from Rhode Island churches, labor unions, and community groups will be present. Demonstrations will take place at Almacs because this supermarket is the largest chain in the state selling grapes and non-UFW lettuce. We want to show them and other stores that the average consumer does have the power to halt, by their interest. It is up to the shoppers to cooperate with the Security Department to see that the opportunity to steal is eliminated from the campus.

Amendment Views Given To Bryant College Students

On November 5, the Young Republicans at Bryant College sponsored a panel discussion of political, social and economic interests in the Koffier Rotunda.

This group of students plans to hold those non-partisan series on a weekly basis throughout the college year.

Senator Arthur Kiddor spoke on "SUCCESS & Disclosure of Campaign Finance.", Senator Kidder is a Representative from the school of Engineering.

Senator Joseph Walsh, Democrat from Warwick, spoke on "Legislative or Qualifications of Office.", Senator Raymond Gomes, Democrat from Providence, gave his views on the Lotteries and Constitutional Amendments Revisions.

Mrs. Janet Hartman, delegate to the Constitutional Convention, gave her views on the four-year terms for the Governor, Lieutenant Governor, Secretary of State, Attorney General, and General Treasurer. She also spoke on Legislative Compensation.

The program is open to the entire Bryant College Community. Bannie Ross, a senior at Bryant and Chairperson of the Young Republicans, was in charge of this event.

Mr. Joseph O'Donnell, Jr., Representative of North Smithfield, spoke, O'Donnell was also the moderator.

On November 5, the following statements came over UPI wires: "Despite a referendum of seven key constitutional questions, a light voter turnout is expected in tomorrow's state-wide voting and in the balloting in the five communities for local officials. Also, on the referendum will be the issues of an industrial building and the recreational building authority. Local elections will be held in the communities of North Providence, Pawtucket, Central Falls, Woonsocket, and North Smithfield.

Governor Philip W. Noel yearned old RI voters to approve all seven constitutional amendments and the two building authority questions on the November 5 ballot.

The Governor said that the passage of these significantly enhance the litigations of the demands of these rapidly changing times.

Governor Noel said passage of the industrial building authority and recreational building authority guarantee increases is "absolutely essential to our efforts to overcome effects of the navy cutbacks and develop strong, diverse and diversified economy for Rhode Island."

Radio Update

Many Bryant students are asking whatever happened to the radio station?

Within the past few weeks, we have modified our construction permit which has been through a long delay and is now awaited for. Professional engineers have been recruited for the purposes of wiring studios to allow broadcasting to commence.

A lot of people have worked hard to get the station off the ground, converting it from theory to practice. We have been getting an excellent response from interested students and have coordinated good, solid committees to work on programming, scheduling, music coordination and advertising. Disc jockeys have been trained as well.

We hope to begin broadcasting throughout the school soon this semester; but as previously reported, our FM broadcast will be delayed until early next semester.

We still can use some help, but we take no offers are accepted. So if you have something to contribute, or are interested in becoming a constructive asset in Bryant Radio, we have meetings every Tuesday, at 3 p.m. in the Radio Room, located within the Commuter Library.

This is your station—Make it what you want!
Education Today

A presidential panel says schooling should not be the only path for young people to follow into adulthood.

For all their simplicity, the ideas of permanent daylight savings and year-round schooling have increased to the point where society should consider other routes to adulthood.

One of the panel's major conclusions was that society moved so effectively from the work era-in which young people were trained for the work world as soon as physical maturity was reached-to segregate young people from adult and younger children, and even concentrate their relations to a single age group.

One way to increase the age mingled wide opportunities for young people would be to give them vouchers at age 16 to be used for their discretion for education or training at any subsequent point in their lives. The vouchers could be equivalent in value to the average cost of four years of college but could also be applied toward "a wide range of skill training as well as higher education." 

Panel Chairman James Coleman of Johns Hopkins University said in a foreword to the report: "Youth: Transition to Adulthood" that the length of the time before young people are trained for the work world as "as social physically maturity allowed." The schooling era that young people are kept out of the work force now as long as possible.

"We believe," the report says, "is now time for a third phase in society's treatment of its young, including schooling, but one that is defined not by limitation to it." 

The new phase would be directed toward alternatives that emphasize the self-centered objectives of acquiring skills and knowledge and the objectives that relate to responsibilities affecting other persons. In the first, course, "the independence and job opportunities would be emphasized. In the second, experiences with persons different in social class, culture and environment would be emphasized."

Continued from Page 1

Daylight Savings Time All The Time

A change of pace in the day's news.

How would you like daylight savings time year-round? It's a possibility, U.P.I.'s Bob Robinson reports.

Daylight savings time ended, and while some may consider the change a welcomed rest from the heat, others may be disappointed. The end of daylight savings time marks the start of winter, a time when many struggle to get enough sleep and deal with the colder weather. However, some may view the end of daylight savings time as a welcomed opportunity to adjust to the shorter days and cooler temperatures.

The impact of daylight savings time on health and well-being is a matter of debate. While some argue that the change can disrupt sleep patterns and affect mood, others believe it can help individuals feel more energized and alert. Regardless of one's viewpoint, it is clear that the end of daylight savings time marks a significant shift in the day's routine for many.
Policies Governing Student Activities

1. All student activities held on Bryant College property must be approved, in writing, by the Student Affairs Office.
2. All raffles, lotteries, and other fund raising events conducted by students or student organizations must be approved in writing by the Student Affairs Office.
3. Any individual, group, or organization sponsoring an event at which alcoholic beverages will be sold, either directly or indirectly, must obtain a Class F liquor license from the Town of Smithfield through the Student Affairs Office.
4. Organizations which fail to comply with the established policies and procedures will forfeit the privilege of conducting activities on the Bryant campus.

Conditions for Approval:
1. Assurance that all College regulations, local, state, and federal laws concerning fire and safety regulations, necessary security, and conduct will be followed.
2. Indication that the activity is appropriate to the purposes and constitution of the sponsoring organization.
3. Availability of financial resources on the part of the sponsoring organization if the event is a financial failure or if property damage is incurred.
4. Assurance that no group or individual will accrue private financial gain from sponsorship of the event.
5. Precautions to ensure the physical safety and health of the participants.
6. Coordination of timing of each event to prevent conflict with affairs sponsored by other organizations.

Procedures for Scheduling Student Activities
1. Any student or student group wishing to sponsor activities which require the use of College facilities must initiate its request in the Student Affairs Office, who will determine, in accordance with the aforementioned conditions, if the group may schedule the activity.
2. A Student Activities Application Form must be filed at least one week (two weeks if ARA food is required) prior to the date of the event under consideration for approval. Forms are available in the Student Affairs Office.
3. The authority for determining the availability of space rests with the Special Events Coordinator in the Public Affairs Office. (Space Reservation Request Forms are available in the Special Events Coordinator's Office.)
4. The student or student group sponsoring the activity is responsible for making all necessary arrangements with Security and Maintenance. If the dining areas are desired and/or food needed, arrangements must be made with ARA.

The Grief That Came To Dinner

In the hustle and bustle of this workaday world, we often forget these somber occasions of the past that gave us an "inner glow," a feeling of contentment and security. We should not permit the memory of these joys to interfere to fade away into the depths of darkness; rather we should cherish them and guard them dear to our hearts forever and ever, because we can learn from the past. And as we all know, "history does repeat itself."

In an effort to keep alive the memory of these happy college years, I would like to remind all of you that next Thursday, November 16, is the first anniversary of the "Festive Fogarty Gaii Feast." Yes friends, it has already been a whole year since the Pepto Bismol panic struck Bryant College last fall, when nearly 100 students succumbed to one ailment or another. But, let's be realistic folks, we all know that it wasn't the food in the cafeteria which caused the midnight vomiting citing. It was proved beyond a shadow of a doubt that it was a virus and, of course, I needn't tell you how things spread among those promiscuous students. Well, folks, there's nothing to fear any more because that's all in the past. Or is it? All I ask is that you keep an eye on the campus. If you're focusing on the window on Thursday night in remembrance of the brave souls who weathered the storm and kept the toilets flushing. Bon appetit.

by Paul Carroll

The Ledger Meeting will be held on Tuesday, November 13, 1973, at 3 p.m. in the Ledger Office.

The new swimming pool hours are as follows: 10 a.m. to 10 p.m. Monday; 10 a.m. to 11 p.m. Tuesday; 10 a.m. to 12 midnight Wednesday; 10 a.m. to 1 p.m. Thursday; 10 a.m. to 5 p.m. Friday; 11 a.m. to 5 p.m. Saturday; 11 a.m. to 10 p.m. Sunday.

FRATERNITY and SORORITY PRESIDENTS: If candidates, lists of officers, crests, and write-ups are not submitted to the Ledger by December 13, you will be run and have your picture under the local news section.

MBA Highlights

The Academic News Letter

By Dean Jabanski
MBA PROGRAMS
SUMMER SESSION 1974
Institute of Business Administration

All too often we have questions that are left unanswered or are answered incorrectly and end up as problems to be solved. The faculty does not know where to go for the answers. The purpose of the MBA New Letter is to provide you with information that you ask for and answer your questions and help you know where to go for the answer to others. This supplies the answers to some frequently asked questions aloud on to some of the things you should know.

Many times our academic counselors get the question, "What average must I have to stay in school?" We hope that all students are aiming for the best possible performance and not just enough to "stay in school." But, since this information is vital to some students and of interest to others, a statement of college policy in this area may prove helpful.

The following grade point averages which serve as guidelines for academic warnings, probation, or dismissal follow.

Special Counseling

Relationships

Sessions

For Freshmen

Group meetings have been planned this week for all the various concentrations to be distributed as an aid to the students for the upcoming weeks to acquaint first semester freshmen with their academic majors. If you have any questions, feel free to ask.

In addition, results of the Strong Vocational Interest Blank will be returned and explained.

Students will be notified in class that the first group is scheduled to meet. Every effort should be made to attend.

State to Show Plans for Snake Den Park

The first phase of a master plan for the development of Snake Den Park in Johnson will be shown to local officials this Sunday at the Farm Dome according to Bryan Gebert, Jr., State Director of Natural Resources.

In addition, a lease for the Farm Dome portion of the park will be given to R. L. Historical Foundation Inc.

The historical group, which has leased the farm for several years, will also become involved in a Biennial celebration at the farm. To assist them, a long-time member committee divided equally between their members and Johnson residents is being formed.

Robert Pirraglia, Chairman of the Johnston Biennial Celebration Committee, will name the local members of the new agency.

Plans and pictures related to the park master plan will be shown Sunday, according to Mr. Murphy, who said that the complete plan is expected by next May.

The Academic News Letter

Guidelines For Warning, Probation, and Dismissal

If any student reaches the end of his seventh semester and has a slightly subminimal average, he may be placed on Probation II and reassigned to a nondegree status. He may, at his own risk, continue in attendance with the knowledge that he is being reassigned to degree status depends on his still maintaining a 2.00 average. The minimum level of performance in the early semesters is progressively set very low in order to give the student a chance to succeed. If a student is ultimately going to receive a degree, he will have to improve his performance so as to have a 2.00 average. If he cannot raise this average to the very minimum in two years, there is a serious question as to whether he is spending his time and money wisely.

The over Riding thought in issuing all academic notices is to do justice to the student.
Maybe the way to change the world is to join a large corporation.

We don't make a lot of noise, but this is where it's really happening. You see, a large corporation like Kodak has the resources and the skill to make this world a little more decent place to live. And we intend to do what we can to see that this is exactly what happens.

Take our home city, Rochester, New York for example. We cut water pollution in the Genesee River by using natural bacteria to dispose of unnatural wastes. We cut air pollution by using electrostatic precipitators in a new combustible waste disposal facility. We helped set up a black enterprise program in downtown Rochester, and we've been experimenting with film as a way to train both teachers and students— including some students who wouldn't respond to anything else.

And we didn't stop with Rochester. Kodak is involved in 47 countries all over the world. Actively involved.

Why? Because it's good business. Helping to clean the Genesee River not only benefits society... but helps protect another possible source for the clean water we need to make our film. Our combustible waste disposal facility not only reduces pollution... but just about pays for itself in heat and power production and silver recovery. Our black enterprise program not only provides an opportunity for the economically disadvantaged... but helps stabilize communities in which Kodak can operate and grow. And distributing cameras and film to teachers and students not only helps motivate the children... but helps create a whole new market.

In short, it's simply good business. And we're in business to make a profit. But in furthering our business interests, we also further society's interests.

And that's good. After all, our business depends on society. So we care what happens to it.

Kodak
More than a business.
The fuel and power shortages predicted for the winter already have begun to develop, but there definitely is no shortage of suggestions for coping with the energy crisis.

Interior Secretary Rogers Morton recommends long underwear. The wool bureau advises switching from synthetics to woolen clothing. Exhortations and admonitions of this sort are pouring in from all directions. Oil, gas and power companies plug conservation in their advertising. A return to daylight saving time, a nationwide 50 mile-an-hour speed limit and curtailed use of public buildings have been suggested. And if this isn't enough, here are a few more ways to save electricity, gasoline and heating oil.

Replace the chandeliers and other electric lighting fixtures in your home with walnut blusher lamps. Your Eskimo friends will be glad to send you a supply of blusher, or if you have a spare bedroom, you can mine your own walruses, which adds to the fun.

With central heating readily available, we have tended to overlook a major potential source of warmth; namely, body heat.

Three or four cows, for example, give off enough body heat to keep the average sized room comfortable in moderately cold weather, especially if you wear a light sweater. (Note: This method void if you drink your car in a northwesterly direction, taking advantage of the magnetic currents that flow along the polar axis and attract the metal parts of the vehicle.

Communes, where possible, should move to the southeast suburban, and motorists living below the 42nd parallel should take their vacations in Maine.

Physicists tell us that hot air rises. But we spend most of our time down on the floor, where the air is cooled. If we spent more time up near the ceiling, we could lower the thermometer by five to ten degrees and save upwards of 27.0 percent on heating oil consumption.

"Due to excessive abuse of the ping pong tables and their accessories, there will be a $1.00 deposit charged to use each ping pong paddle. The deposit will be refunded if the paddle is returned in its original condition."

Eco

The Ecology Club is presenting an ENVIRONMENTAL AWARENESS PROGRAM next week, November 12-15.

Two Ecology Films will highlight the program at 12:00 Noon on:

Wednesday
November 14
Room 386

Also, a display of books on environmental topics will be featured in the Library all week. We hope that you will be able to participate in our environmental activities.

PL
Six New Faces in Varsity Uniforms

by Steve Sadetsky

Improvement

The 1973 Chon County Season was not a great one for the Red Raiders. Despite this, the team was able to improve with some new faces in Varsity Uniforms. The Bayard College basketball team had an outstanding season, with new faces including Rob Hammel ('4), Walt Washington ('4), Chuck Giorgio ('2), and Paul Mohin ('4).

Walt Washington—Walt is also a freshman making the varsity squad this year. A New York City resident, Washington is an excellent dribbler and handles the ball well, as well as his natural quickness. Washington continues to improve his ball handling and will also work on his shot throughout the year. Walt may become the third freshman to be selected (Ned Bohan and Dave Sorello are the others) for the Bryant College Indians.

Paul Mohin—Mohin is a native of Danbury, Connecticut, and has shown great promise in his first season. He is expected to contribute significantly to the Bryant basketball team.

Chuck Giorgio—Giorgio is another talented freshman who has shown promise in his first season. He is expected to make a significant contribution to the team.

Rob Hammel—Hammel is a native of Danbury, Connecticut, and has shown great promise in his first season. He is expected to contribute significantly to the team.

Third in

The Bryant College Cross Country Team has a chance to place five of its six performers in the NAIA Nationals at Kansas City next week. Yes, the Indians have a chance to go to Kansas City! The opportunity arose out of a fine performance by the entire Bryant team at the NAIA Sectionals held at Gordon College this Wednesday.

In the meet, Bryant finished a close third behind Southeastern Massachusetts University and Eastern Connecticut, and there was a margin between Eastern Connecticut and Bryant which was a slight edge over Bryant.

The winner of the race was Mike O'Shea of Providence College. Mike toured the Franklin Park Course in a fine time of 25:19. In the second half, however, Coach Giorgio was forced to put on his next set of drawers which enabled Frank Carrigan to lead the team down field for Phi Sig's second score of the game. This time it was Carrigan to Steve "Hot Dog" O'Grady.

Betta made one last drive, but it was stymied by good defensive pressure from Al "Bong" Butcher. Coach Giorgio congratulated both teams for a fine effort.

N.A.A.I.'s

Gary had been in a mild slump, but his performance was more than satisfying for Coach Jim Gambardella.

On the other hand, Steve Olson was a disappointment. Steve could only manage a 23rd. Steve had a great race at Franklin Park on Monday. In the New Englands, Steve finished a strong 10th. On Wednesday, it was not Steve's day and his time showed it.

Rich Collard turned a 21st, Bob Kashmanian and Bill Skinner were 22nd with a time of 26:50. Overall, Coach Gambardella was quite satisfied. "Diggie continues to have great promise for the future. Kash and Skinner ran good races, they're making steady improvement," added Gambardella.

In the second half, however, Coach Gambardella came out strong as they scored on a 2-yard touchdown pass from Frank Carrigan to Easy Mark Gohlich. Fine finish, assisted with neither team able to mount any threats. Then, with a minute and a half left, Captain Walt Washington led Taylor for a 50-yard touchdown pass. Taylor was successful on the two-point conversion, and the final score was Phi Sig 13–KT 0.

INDEPENDENT CHAMPIONSHIP GAME
BRYANT CONCLUDES SEASON: Stalemates Quinnipiac

by Lawrence Selvin

Typical of this year’s team movement, Bryant hit the ground running in his fourth season. The former Flyers player completed his second full season as head coach and was named to the Associated Press Poll’s Southeast region team. The Flyers were ranked for the second consecutive year, finishing 22nd in the final AP poll.

The Bryant College Soccer Team was shut out 1-0 by the Hoosick Valley College team in the Playoffs.

The game was played before very few fans as a rainy and windy Thursday afternoon at Bryant on October 28.

The win advanced Hoosick Valley, based in Clifton Park, New York, to the next round in the Section 2A division. This move was not unexpected.

The game was played in the pouring rain, with strong winds gusting up to 30 miles per hour.

The game was a hard-fought battle, with both teams putting in a solid effort. The Flyers were able to control the ball for most of the game, but the Hoosick Valley defense held firm.

The Flyers’ best chance to score came early in the first half, when a pass from the left side found its way to the center of the penalty area. A shot from the penalty spot was saved by the goalkeeper, but the rebound was cleared off the line.

In the second half, the game remained scoreless until the 80th minute, when a cross from the right side found its way to the penalty area. A shot from the penalty spot was saved again, but the rebound was cleared off the line.

The Flyers’ best chance to score came late in the game, when a shot from the penalty spot was saved by the goalkeeper, but the rebound was cleared off the line.

The game ended in a 1-0 victory for the Hoosick Valley College team. The Flyers were unable to score against the tough Hoosick Valley defense, which held the ball for most of the game.

The Flyers played well, but were unable to convert their chances into goals. They had several opportunities to score, but were not able to take advantage of them.

Bryan Bryant, the head coach of the Flyers, said after the game, "We played well, but we need to be more clinical in front of goal. We had several opportunities to score, but were not able to take advantage of them. We need to work on finishing in front of goal in order to win more games."
