How come those athletic types always get the girls?

Photos by Jef Stein
OPINION

With the world falling apart around us and everyone losing their heads, it’s nice to know that we at Bryant are keeping ours. I’m keeping mine in cold storage in an attempt to keep it from boiling over. For the past five weeks I have attended five Senate meetings, and for the past five weeks I have left each Senate meeting with a fantastic headache, lost and bewildered. For some unknown reason, the Senate meetings always end up in confusion and chaos. They usually start out nicely; but due to some irresistible drive among certain senators not to be outdone by other senators, they become hell-bent on the idea of turning the second half of each meeting into a fiasco. People start talking all at once, showing no respect to whoever has the floor; and build into a chorus of cacophony. I look forward to these Senate meetings not because I’m an interested student, but because of the juicy “discussions” which follow the adjournment of each meeting.

I am disgusted with the lack of respect and common decency which is displayed at these meetings. I doubt that giving each senator a copy of Robert’s Rules of Order will help, because I’m sure that they don’t respect the person who drew them up enough to read them. This article is not directed to the entire Senate, but rather to those few who persist in turning each meeting into a three-circle ring. I sincerely hope that there will be a better show of respect at the next meeting and that everyone will have the decency to keep their mouths shut while someone else is speaking.

Alton Mott - Bryant Controller

Dear Editor,

Effective immediately, Alton Mott is appointed as Controller for Bryant College. In addition, he will be the President. The President will also be responsible for those departments directed by David Aderholdt, Ken Benoit, Steve Bryan, Charles Snyder, and the Dining Service operation. These responsibilities will remain in the hands of each department until the appointment of a new Vice President for Business Affairs.

Ms. Mott comes to Bryant College from Hashkin & Sells where he was a senior accountant and was assigned to the Bryant account. He graduated from U.R.L. with a major in accounting and was awarded “distinction.” He is a member of both the American Institute of Certified Public Accountants and the Rhode Island Society of Certified Public Accountants.

He presently resides in West Westport, Massachusetts, with his wife and two children. The Motts plan to move to the Smithfield area.

From the Office of the President

Amnesty?
Yes or No?

Dear Editor,

On Wednesday night (October 31), no reprints of the article, “No Amnesty” by Jerry Norton were placed on bulletin boards, but a few copies were brought in by hand. This was an attempt to get some reaction by the students.

The article, which was published by the Young Americans for Freedom was reprinted and put up by one of our members. We expect to place more articles up on different subjects. We urge the student body to read them, to agree or disagree — read them and then have something to say. Hopefully, you’ll start to get involved in the world around you.

We hope in the future we will be able to form a chapter of Y.A.F. at Bryant. We would then be able to lead debates — but only if the students are interested.

Keep your eyes open and read articles put up for your reading.

A Young American for Freedom

Are Teachers Forgetting Their Job?

Dear Editor,

What ever happened to the teachers who are understanding, helpful and concerned about their students? Here at Bryant I feel that the teachers are forgetting the purpose of their jobs. We students come to college to learn, but the teachers use the help of our teachers. As of now, we sit down in the classroom and learn the material through our books. If this is the case, then why don’t we stop wasting our time and money in school and just go to a bookstore and buy the texts?

It seems to me that a teacher’s objective is to help the student learn; not to ridicules for them what they don’t know. I realize that the students have to give their time, effort, and participation in and outside of class in order to get good grades—but a student is not a computer; he needs to be talked to and be told to think for his own use. We are human beings and should not be taught in the same method that a computer programmer uses to program his

When we go for extra help we try to get the “right answer” but don’t worry if the student of the teacher the teacher blames the students for not studying when the adult average is quite low. Many students come to class and are prepared for a test only to find very unfair questions before

Chairman—not so much from excitement, but from intregue. I was completely boggled by the fact that it took 20 minutes just to accept the minutes of the last meeting. From there on in, it was like listening to the Whitehouse’s explanation of Watergate! Everyone who was somebody had something to say about everything, but nothing that anybody and amounted to anything because these purported somebody’s have nothing that is anything to say about everything. If this last line confuses you just keep saying to yourself, 2:15, 3:15, 3:15, 3:15, 3:15. But through it all I stuck it out, the old business, the new business, the monkey business, and while the Senators gave each other the business (which is only fitting since Bryant is a school of Business).

To make a short story long, I found at the end of the meeting that I was rubbing my eyes, not from all that cigar smoke: but rather from my smoke that was blasting out of the ears of all the Senators. In ending, I would just say that it was an attempt to get someone to raise his hands and say a few minute details. Rather than attacking Robert’s Rules of Order and each other, why not try uniting and working together for the satisfaction of some problems that face the Bryant College Students.

 Succesfully yours in activity fees, DICK TRACY AND THE KODAK KID

SEX, SEX, SEX

Dear Editor,

While watching an old Mae West movie the other night and hearing her say, “Come up and see me sometime,” I brought to mind an article that was in The Archway a few weeks ago, which solicited students to attend and get involved with the Student Senate. The following day, unable to concentrate on my work school, I found myself repeating two words. They rang in my mind, they pulsed in my blood, they had control over my entire actions all that day. 3:15; 386; 3:15; 386; 3:15; 386; 3:15; 386. The time passed and finally there I was; ROOM THREE HUNDRED EIGHTY-SIX! [at 3:15] ME! Little moist-nosed me! Nobody! But here I was among all those senators, their briefcases in hand, 25 cent cigars clamped firmly between their teeth and their beat-up London Fog coats draped nearly over their forearms.

A blush over the masses as the gavel was dropped. I was as proud as punch that I’d gotten myself such a Jim Dandy seat way up in the front row where I could actually hear and participate in the discussion. I touched those men of fame, the do-gooders, the Bryant College Senators. The Senators having taken their seats, the shuffling of papers ceasing, and the fact that the news reporters and camera men had slithered themselves all four corners of the room, I knew the start of the meeting was about to take place. Already I found myself on the edge of my

LITTLE MAN ON CAMPUS

THE INTELLIGENT PAPER - GRANMA - IT STARTS

Their eyes. The text is either too long or contains questions which really weren’t stressed in class. The objective of a test should be to quiz the students’ knowledge, not to trick or catch the student.
Dormitory Doors
To Be Locked
Starting on Friday, November 2, the outside doors to the dormitories will be locked at night by members of the Security Force. Doors will be locked at 12 Midnight on Sunday through Thursday nights and at 2 a.m. on Friday and Saturday nights. They will be unlocked by the Maintenance men in the morning. These hours are tentative.

Personality Weekend

Personality Weekend at Bryant College is scheduled for November 1-3, 1973. This event, co-sponsored by Phi Sigma Nu and Fraternity Philanthropies, will open with personality judging on Thursday, November 1 at 8:10 p.m., in the Auditorium. The judging will consist of situations and questions to contestants to indicate their reaction to unusual circumstances.

On Friday evening, November 2, the Coronation Ball will be held at the Eka Lodge, Smithfield, starting at 8:30 p.m. The winners will be announced at midnight.

THE BRYANT COLLEGE COMMUNITY
is cordially invited to attend the Christening of Shriners Nikola Cox During the Catholic Mass to be held in the Auditorium
Noon November 4, 1973

Officiated by: Father Donat A. Barrett Catholic Chaplain

Music by: The Goodway "IT'S A GIRL!"

Human Relations in Business

"Human Relations in Business" lecture, to be featured by Dr. Eileen Morley, Professor of Management at Harvard Business School, will be held on November 6, 1973. This lecture is scheduled for November 6, 1973. This lecture is scheduled at 8:30 p.m. in the conference room at the Harvard University, and is open to all members of the college. Dr. Morley's professional experience includes positions in personnel management in England, and the Rockefeller Corporation; a fellowship in clinical psychology at Massachusetts General Hospital and Human Relations Center, Wellesley, Massachusetts; and most recently, as research assistant for a study in Career Structures, Harvard Graduate School of Education, and technical associate at Harvard Medical School. This position was previously held at the Harvard Medical School. A member of various professional organizations, Dr. Morley has written a number of publications dealing with vocational competence and human behavior. Among these are "Career Development, Growth, and Crisis," and "Organizational Systems: General Systems Approaches to Complex Organizations." "Human Services in Complex Work Organizations: Work Allocation: An Analytical Look at a Current Business and Social Problem,"

ISO Greek Dinner Night

A Gala Event

The ISO-sponsored Greek Night dinner that was held at the ARBI Inn last Friday, October 26, turned out to be one of the greatest events on the ISO. The ISO was sponsored by the powerful Omicron Abinthe to the traditional Greek dishes, delicious Greek desserts, to the energetic Greek dances (from Bryant and Brown), and it was an authentic Greek event, complete even to the Greek flag over the date.

It was an event that appealed to all segments of the Bryant community: students, faculty, and administrators. It was an event where activity lived up to expectations.

Credit for this extremely successful affair should go in general to all the members of the ISO, but also in a very special way to Nick Stamboulis, who spearheaded the plans for the event.

Dr. Lebovitz, faculty advisor, was presented with a plaque for his dedicated services to the ISO. Accidentally, he missed it as Dr. Lebovitz brought some Greek guests just for the purpose of checking to see if the food and refreshments were genuinely Greek.

Photo by Jeff Millman

Members and Guests of the International Students Organization enjoy Greek delicacies, buffet style.

Counseling Office

Knox Speaks

Bryant College now has added another person to its counseling staff: Mr. Joy, a counseling intern from Rhode Island College, will be spending the semester here. She will be available in the Counseling Office on Mondays and Thursdays from 9 a.m. to 3 p.m. As a reminder, Miss Morgan's office hours are: Monday, 9-10, 11-12; Tuesday, 10-11, 1-2 Wednesday, 9-10, 11-12; and Friday, 9-10 and 11-11.

Photographer Wanted

NO BLUE SHIELD NO PENSION NO BENEFITS NO PAY

Must have own equipment. Anyone interested see Jef in the Archway.
Registration Begins December 26

by Mr. Cartwright

Prestigious graduation programs have been distributed to all evening students who attended the assemblies this week. For those who missed the meetings you may get the materials at the Evening School Office.

Students electing not to preregister will be mailed Spring registration materials in early December. For these students registration will begin December 26 by mail or in person.

A survey of the evening students is being conducted to determine fall courses which are still available for the summer evening session, possible change in the starting time of evening classes and the interest in Friday evening classes.

Mr. Keeley has started to conduct a Law Enforcement seminar in the Spring. Some law enforcement students are one or two credits away from completing their law enforcement requirements. This two credit seminar will be offered to eliminate that deficiency.

Again this year the Pilot Freight Carriers, Inc. of Winston-Salem, North Carolina have made a scholarship fund available. The purpose is to promote the transportation industry. Any evening student who is not a served by national assistance from another source will be considered for funding. The student does not have to be majoring in transportation, however, the funds will be allotted to cover the tuition for transportation courses only. For non-transportation majors these courses can be used as professional electives.

Mr. Keeley solicits scholarship assistance in writing to the Evening School Office. The decision of the distribution of funds will be made late in November by Mr. Mega, Mr. Kenny and L. Application deadline is November 17.

Pat Keeley—Not Just Another Pretty Face

by Paul Carroll

Peter Loetz—Walter Brennan? Shlockey? W.C. Fields? No, it's Pat, not yet another pretty face at Bryant College. There are just a sampling of the caddies of characters which populate the faculty, and above all, one of the most outstanding teachers at Bryant—or anywhere else, for that matter—Mr. Keeley equally enjoys teaching English and looking for in a teacher. Direct, intelligent and enthusiastic, understanding, concerned—his list goes on and on. His presence at the university is the highest academic caliber, yet they are strolled with a servile fact that any student can appreciate.

A native of Boston, Massachusetts, Mr. Keeley presently resides in North Scituate. He received his B.A. in English from George Washington State and then went on to Providence College where he earned his master's degree. After teaching at P.C. for two years, Mr. Keeley came to Bryant College and has been here for the past seven years. He is the latest addition to the major committees at Bryant including the Student Liaison Committee, Student Grievance Committee, Trustee Nomination Committee, the Rhode Island Educational Federation of which he was President, and he is presently involved with the Curriculum Committee.

In an exclusive interview with Mr. Keeley during his lunch (I mean, lunch) hour, I was not at all surprised to learn that he is an avid reader. An author in his own right, Mr. Keeley has had his first story published and is a member of several professional organizations. Mr. Keeley is also a great sports fan and sports enthusiast, as can be attested to by his constant role on the tennis courts and his participation in the faculty/student football games. Mr. Keeley's hard work and unwavering dedication have not gone unnoticed at Bryant and he has been honored in the past with the "Smucker's Award," and last year he was the recipient of the coveted "Screw Award." Mr. Keeley is very optimistic about the future of Bryant—which he considers to be a top-notch college. He feels that the success of the college depends on the respect that its members have for one another, and he hopes that there will be a clear and honest expression of ideas in an atmosphere of calm, intellectual exchange. Mr. Keeley has found administration, particularly Dr. Evans, to be helpful in directing the faculty concerning their needs and suggestions. He hopes that the student body will have a continued growth and appreciation of the intellectual, and says that his only disappointment is that all too often it is the average student who influences the superior student, and he wishes it were the other way around.

Mr. Keeley's success as a teacher is due to his respect for his students and fellow faculty members. He is about as deeply concerned inoffering students something which will make a difference in their lives as any other president. Mr. Keeley feels that this is his responsibility in this process—and not simply a training for a job. He wants to see students grow into a socially and economically aware individual.

"I can say to any New Englanders out there who have not yet been witness Air Force, I think Mr. Keeley's classic colloquies is to sneak a peak into one of his classes (make sure he's sober and in a good humor), or better still, attend one of his classes. It will be a rewarding semester—outside of the courtroom..."
Preregistration Survey

1974 Spring Semester

As part of its program of refining its 1974 Spring Semester entrance procedures, the Graduate School is preparing a preregistration survey which will be mailed out shortly to all MBA candidates currently enrolled in the Fall Semester and to all those who should be enrolling in the Spring Semester.

Among the questions asked will be whether, as a result of changes, some graduate students would prefer to enroll in late afternoon and Saturday morning classes. The Fall 1973 survey indicated some interest in such classes.

Changes in AACSB Standards for Admission

The American Assembly of Collegiate Schools of Business (AACSB) has modified its interpretations of standards of admission by adding provisions that allow for a greater weight of scholastic curves versus ATGSB scores. This means essentially that a student who has a good cum but who does not test well on the ATGSB exam may become admissible to MBA programs.

Since the Graduate School at Bryant in its MBA admissions policies is guided by the AACSB standards, it welcomes the new modifications that encourage greater flexibility in admission considerations.

Mr. Ray Caine Addresses MBA Alumni Associates

The newly-formed MBA Alumni Associates had their first on-campus program meeting at Bryant on Tuesday, October 30. The featured speaker was Mr. Ray Caine, Executive Vice President of Continental Airlines, Inc. Mr. Caine is also a member of the Graduate Business Advisory Council of the Graduate School, Mr. Caine spoke on "The Rhode Island Economic Climate From the Public Relations Point of View." His talk generated a spirited discussion and many questions.

At the conclusion of the meeting, Brian Drought, MBA 73, Consumer Credit Officer for Old Stone Bank, was asked to take on the post of Program Chairman for future meetings of the Associates. The next meeting is being planned for early December. The Associates meeting is an excellent example of how our Advisory Council coordinates with our MBA graduates.

Committee For Better Food At Bryant Update

The third meeting of the Committee for Better Food at Bryant was held on Thursday, October 22, 1973. Present were Mr. Hank Steinberg, the District Manager for ARA, Peter Babbitt, Gene Heminway, and Mr. Bill Tamul, the Food Production Manager for ARA at Bryant, and the members of the Senate sub-committee.

The first item on the agenda was Peter Babbitt's resignation. Mr. Babbitt left Bryant, on Friday, October 25, and is employed by Butler Hospital in Providence. Mr. Babbitt gave much consideration concerning his resignation. Gene Heminway will fill in for Babbitt until a replacement is found. Many people in the area are being considered for the job. The new replacement should be hard at work within two weeks. We, the students of Bryant College, wish Mr. Babbitt all the luck in the world and thank him for his cooperation.

Next, the talk of the meeting turned to the subject of student managers. These managers, who will be employed by the cafeteria heads, will stand at the front of the house on weekends and evenings. Their job will be that of a "go-between" for the students and the managerial heads of the cafeteria.

We talked about the dishwasher next. Since the month of September, the dishwasher has absorbed over $15 in repairs. A representative of the manufacturer is coming down to look at the machine, and if it cannot be repaired once and for all, they will have to look into the acquisition of a new machine.

The heads of the cafeteria took the talk to the possibility of the Committee taking a tour of the kitchen to see all the aspects of food preparation at Bryant. The Committee agreed with enthusiasm. Now was the chance, (only kidding)!!!

We then asked if it was possible to have music piped into the cafeteria during meals. This idea is being given serious consideration.

If anyone is wondering what the hell happened to the London Broil last Wednesday, here's the scoop. It was cooked differently than it had been in the past.

Things are shaping up now as far as the food at Bryant is concerned. This proved that things can be accomplished through peaceful actions, rather than immature and unnecessary outrage.

A Look At Bryant's Returning

HEAD COACH TOM FOLLIARD—For Tom Folliard, this campaign marks the sixth season as Bryant's head coach. Compiling an 86-42 record, Tom has led the Indians to three Naismith Conference titles and four N.A.I.A. regional berths. Last year's 20-6 team finished as runnerups in the N.A.I.A.'s by defeating Boston State (74-71), but losing to Quinnipiac. Folliard cannot possibly improve on their already unblemished Naismith Conference record of last year (10 wins, 0 defeats) but hopes to repeat the feat again. United Press International voted Coach Folliard small college "Coach of the Year" and District 32 Region, N.A.I.A. and the Naismith Conference coaches honored him with the same title.

ASSISTANT COACH LEE DRURY—This is Lee's second year as Bryant's assistant basketball coach. Lee was freshman coach at Brown University for three years and assistant coach of Springfield College prior to joining the Bryant staff. Drury played ball at Springfield and was Co-Captain of the 1965-66 squad. Lee and his bride, Eileen, make their residence in North Providence.

RICK SHANLEY—Rick is the only returning senior on this year's squad. An excellent team leader, his exuberant style of defensive play makes him a solid ball player. "Baby Bull" is playing his third year in a varsity uniform and should have plenty of playing time. Rick was called upon last year when Coach Folliard needed an exceptional man in a 2-3 defense. Not an outstanding outside shooter, Shanley's quickness in setting picks, and moving without the ball makes Bryant's moving offense click.

BOB MOLL—This is Bob's third year in a varsity uniform. A resident of Fairfield, Connecticut, Bob plays both forward and center with aggressiveness. Bob has worked hard both from the outside and around the basket. Moll has crashed the boards during the past few practices and should continue to improve. Last year, Bob had the opportunity to start in his first varsity basketball game at Bryant.

NED BOHAN—One of two junior year's squad. Bohan was second (166) in Rhode Ernie in New England. The "sparks of the Indian. The three year star, his totally unselfish play, creative improved outside again lead the another N.A.I.A. 5'9" guard from has worked extremely during the summer on his outside shooting defense. No quickest player on most essential playmaker. Despite slight five-nine, it has handled opposition quite effectively.

by Steve Sadetsky
Photos by Steve Sidoruk
Dave Sorafine—Dave has already established himself as one of the best big men in Bryant’s basketball history. An excellent outside shot, Dave will again assume the role of starting center. In a clutch performance, Sorafine threw in 28 points in one of the most prolific shooting displays ever exhibited by a Bryant player. With 14 for 17 shooting and seventeen big rebounds, Sorafine earned the respect of many coaches attending the N.A.I.A. playoff game against Boston State. Dave was awarded Honorable Mention in E.C.A.C.’s poll for Players of the Week. Sorafine had a 26 point-20 rebound effort against Clark University earlier in the season. Last year, Sorafine was the leading shooter, both at the foul line and in the field. Dave, at 6’9” is without a doubt an integral part of Bryant’s team play.

Tom Dupont—An excellent leaper at 6’2”, Tommy received valuable and clutch varsity experience on last year’s championship team. A good outside shooter from the 15-22 foot range, Dupont has showed poise under pressure. Against Bentley, Tom converted four of six outside shots when the Indian’s leaders had to sit the bench due to foul trouble. This year Dupont’s primary job will be rebounding at the forward position.

Charlie Armstrong—the 6’10” DYNAMO from Waterbury, Connecticut is back again. Doubling last season by playing both sub-varsity and varsity ball, Big Chas played in a total of 26 games. Charlie established a new Bryant College Sub-varsity rebound record last season, snatching off 28 errant shots. The opening game of the campaign showed Armstrong with 24 points. In varsity competition, Big Chas ran off a streak of eight points in a span of less than two minutes. The leading rebounder on the Sub-varsity team is back again.

The aforementioned players all are instrumental in the Indian’s style of play. Coach Tom Folliard told all prospective candidates at the season’s preliminary tryouts, “This team will be running, rebounding and fastbreaking from now until the end of the season.” Since that initial tryout, the team has been selected. All twelve members are working themselves into an extremely strong state, mentally as well as physically.

Last season was an exceptional squad. Bryant lost six outstanding players, including two who accumulated more than 1,000 points apiece. The goal of this year’s team is to again take the Naismith Conference title and enter postseason playoffs. Mickey Finn again will be the advisor for the cheerleaders. As any team member will tell you, stands full of enthusiastic fans stimulate team play and motivation. This season slate 26 games (12 at the Smithfield campus + one at the Providence Civic Center). Students, faculty and administrators are urged to give their utmost support and loyalty to the Sub-varsity and Varsity basketball teams representing the Community of Bryant College.

Returning Lettermen (Billy Goudailler, Paul Melvin and Rob Hammel saw limited action in varsity uniforms, therefore retaining first year status.)

Next Week—Six New Faces in Varsity Uniforms.

Anyone interested in being a manager for the basketball teams, please contact Mr. Folliard in the Athletic Office.
“My experience was that most Africans are very friendly, warm, generous, helpful, and that most of them were able to accept me as an individual person for whom I am, instead of the many stories they have heard about American stereotypes, and despite the political and social problems which we manifest in our society and which Africans find hard to accept.” James Estey, Assistant Professor of history, had an experience that very few of us will ever have. This summer, Mr. Estey traveled to Africa to learn more about the people and countries he would be teaching about next fall. What was Mr. Estey’s purpose for going to Africa?

The main purpose was adventure. I went all by myself. I knew I would go sometime in my History course was coming up. The second was that of the Lozi in Zambia. He gave two examples. The first was the Kikuyu Tribe in Kenya, and the second was that of the Lozi in Zambia. He also said that he did have contact with some traditional forms. “I would like to say that one of the most important results of Western contact has not been much elaborated on for years. As I was in Kenya there was almost a national scandal about people coming across the border from Ethiopia and Uganda on elephant raiding parties. There is some sort of tradition that if you drink the dust from an elephant’s tusks and a man has some sort of problems with his sexual potency that this will solve it. But therefore, the elephant tusks are getting a fantastic price. These men go out, kill the elephant, take off the tusks and leave the elephant there. This is a real problem. Tigers are extinct in Africa. There is no meat and there are increasingly rare; so that although there is plenty of wildlife visible in many parts of Africa the problem of conserving these animals is becoming increasingly serious.”

Medical care was brought up during the interview. Mr. Estey said that this is a very serious problem. “There are sections of Africa where there are no medical facilities at all. There are sections of Africa where there is a doctor for every 20,000 people. It has one of the highest rates of infant mortality in the world.”

**Mr. ARCHWAY - November 2, 1973**
Kowalski Plays Karlowicz
(and others)

Henryk Kowalski, the renowned Polish-born violinist prodigy who emigrated to this country with his wife and children one year ago, will play his biggest American public concert on Sunday, November 13. Professor Kowalski will perform at Avery Hall on Brown's Pembroke Campus at 8:15 p.m.

Born to an intensely musical family (Kowalski's father was a violinist and composer), by the age of seven Kowalski had played concertos with Polish symphonies. At sixteen he appeared as soloist with the Warsaw Philharmonic, and at eighteen he won first prize in violin and conducting, by the story for concerts in many countries. When he surfaced it was to eleven he won first prize in violinist and conductor), by the story for concerts in many countries. When he surfaced it was to

From 221 Transcendental Meditation in the United States in 1965 to 350,000 in 1973, with 15,000 to 20,000 beginning the practice every month, from the Beatles and Mia Farrow to official recognition from State and City governments and endorsements of leading scientists, educators and doctors; from a "non-dog-turn-on" to "a significant method of reducing stress and developing creative intelligence"—this is the story of the Science of Creative Intelligence and its practical techniques of Transcendental Meditation, brought to the world by Maharishi Mahesh Yogi and the subject of an introductory lecture Tuesday evening, November 6 at 7:30 p.m. in the Auditorium at Bryant.

During the last half decade, extensive scientific study of Transcendental Meditation, said to be an effortless, natural procedure easily learned by anyone, has been conducted at over 80 universities and research institutes. What are the real or supposed benefits of the practice? Sepein, says Joe Orsati, a spokesman for the Providence chapter of the International Meditation Society, the educational organization which reached Transcendental Meditation, may be in for a surprise. The list of scientifically verified results of TM is impressive:

- TM produces a state of rest and relaxation deeper than sleep, reducing the heart’s work load 25 percent and significantly eliminating stress, tension and anxiety.
- TM raises IQ, improves learning ability, develops creativity and promotes clear thinking and efficiency in action.
- Mr. Orsati says that the technique "expands the conscious capacity of the mind" and "unfolds the full potential of the mind."
- Psychological studies show that TM reduces increased emotional stability; greater happiness and self-confidence, reduced hostility and self-doubt. Drug use of all kinds, from this practical technique—both in clinical medicine and for the general public—are enormous," says Dr. R.K. Wallace, pioneer researcher of TM at Harvard Medical School.

Miami's running game is the strength of their offense. The triple running threat of Jim Kiick, Mercury Morris, and Larry Csonka is the premier running tandem in football. Last season Csonka and Morris each reached the 1,000-yard rushing plateau. As far as the passing game is concerned, Bob Griese is a very consistent punter. He went on to rush for 1,251 yards, and won the NFL's overall rushing crown. Furthermore, O.J. Simpson went to his first Pro Bowl in '72, and promptly walked off the field with the game's Most Valuable Player Award. After the game, Pittsburgh's Joe Greene commented, "Man if that guy had some blocking in Buffalo, they'd have to ban him from the league." In the space of one year, the fortunes of O.J. Simpson had taken a sudden and auspicious turn.

While "Juice" was taking a much needed post season rest Coach Saban was already preparing Simpson's smashing '73 debut. His offensive line had performed well despite the potential blockers who figured in his long runs. Simpson exploited this hidden talent by teaching the technique of drive blocking to his offensive line. This move would leave O.J., six yards behind line of scrimmage at the snap of the ball.

With his 9.4 speed, Simpson could easily be in "overdrive" when the block is back and a bit wide of the scrimmage. Needless to say, O.J.'s running style was better covered.

The Bills were obliterated by serious injuries throughout the 1972 season. After an ineffective offensive line lost five guards, two tackles, and a center. The porous offensive line did not deter the enthusiasm of "Juice." He went on to rush for 1,261 yards, and won the NFL's overall rushing crown. Furthermore, O.J. went to his first Pro Bowl in '72, and promptly walked off the field with the game's Most Valuable Player Award. After the game, Pittsburgh's Joe Greene commented, "Man if that guy had some blocking in Buffalo, they'd have to ban him from the league." In the space of one year, the fortunes of O.J. In their most impressive outing to date, the Bryant Cross Country Team outlasted their opponents from Salem State College and New Haven College. The team scores showed the Indians winning with 15 points. Salem State finished a distant second with 30 points while New Haven finished third with 39 points.

The meet was held here on the Bryant course last Saturday. Coach Jim Gambarella's runners once more entered six men and the results could not have been much better. Five of the six Bryant runners crossed the finish line together, creating a five-way tie for first place. In addition, a new Bryant course record was set as Captain Dave Stone, Steve Olson, Rich Collard, Bob Kashmanian, and Gary Diggie all finished at 27:12.5. Bill Skinner of Bryant also ran well as he finished seventh in the field of 16.

A New Haven runner named Horst Evans kept the Indians from making it a complete sweep as he crossed the finish line at 27:38, but the lead was quickly erased.

Judging from this impressive team outing, it appears that the Bryant runners are now reaching their season peak. It couldn't come at a better time, either, since four more tournaments will be held in the next two weeks. Competing next week will be the Rhode Island Small College Championships, followed next week by the N.A.A.A. Championships and then in the N.A.A.C. Championship.

In New England, Bryant placed very well in three of these four tournaments, finishing first in the Rhode Island Small College Championships, third in the Tri-State Tournament, and fifth in the N.A.A.C. Championship.

In New England, Bryant's coach Russell Gabell said that the Bryant team was competing against much bigger schools from all over the New England area.

BASKETBALL PREVIEW

Bryant Harriers Defend Title

Despite a first place finish by RIC's Jim Gallagher, the Bryant College Cross Country Team won and has not lost a race since the opening meet of the season. Gallagher closed the scoring with a sprint, but no other team was able to match the high standards of the Bryant runners.

The race was won by Bryant's Rich Collard, Bob Kashmanian, and Gary Diggie, all finishing in the top six spots. The race was held on a beautiful autumn afternoon, and the conditions were perfect for a fall race.
