An Easier Way

Changes In Public Affairs

The Office of Public Affairs has recently instituted new changes in its policy concerning the use of College facilities by various college organizations and outside groups. In the past, clubs which held their meetings in classrooms were required to pay a five-dollar deposit. This requirement has been dropped because it was becoming a burden on the club budgets.

A new procedure for obtaining the use of facilities has also been put into effect. A new simplified request form has been made up, making it unnecessary to make out duplicate copies. The purpose of these forms is to supply information to the Office of Public Affairs, so that they can coordinate the various functions being planned with what is available in facilities. After receiving permission from the Office of Student Affairs to have whatever activity is being planned, the persons involved may then go to the Office of Public Affairs to make arrangements for the use of the necessary facilities.

This new request form enables the group to state what its specific needs will be. Whether it be electrical equipment, food and beverages, extra chairs, or security guards which are needed for the function, the Office of Public Affairs will help to see that these needs are met. Since this form has been completed and sent in, the Office of Public Affairs sends out copies to the various departments whose services will be needed. This new system helps to coordinate the activities of the organization planning the event. It helps to get what you'll need and consolidate the services of many departments into a bank of information.

In the past, groups have not made arrangements through the proper channels to use facilities beforehand and have discovered too late that these facilities are unavailable because someone else was already using them. See Mr. Paul Zangari in Public Affairs if you are planning a function. Be sure to allow for a good amount of time so that arrangements can be made. You should see Mr. Zangari at least a week before the date you'll be needing the facilities. The Public Affairs Office is here to help the students, so please use this invaluable service and make things easier for yourself.

Chilean Student Addresses ISO

A most interesting discussion on Chile took place at Bryant on Thursday, October 11, when Mr. Gustavo Paradis, a graduate student at Brown, gave an informal talk on his native country, Chile. The talk was sponsored by the International Student Organization. It was attended by both students and faculty.

Mr. Paradis was very candid and informative in his discussion. His talk was received warmly.

His talk was received warmly. Mr. Ben Kassabian, President of the ISO, in commenting on Mr. Paradis's talk, urged Bryant students, whether they are international students or Americans, to join the ISO, to participate in its activities and to make it possible to continue to offer interesting and informative programs such as the Chile talk.

The next epicurean event in the fabulous international dining hall will be the International Dinner in Cranston, on Friday evening, October 26, at 7 p.m. The dinner will feature five splendid Greek dishes and will be accompanied by Greek music and dancing.

Dining Hall To Be Dedicated

In a formal ceremony on Friday morning, October 25, 1973, the Main Dining Hall of Bryant College will be dedicated to Leonard L. Salzman for his generous gift to the College. This is one of the largest contributions of money ever given to the Smithfield College.

Mr. Harry F. Evarts, President of Bryant, will welcome guests and act as presiding officer at the ceremonies. Clarence H. Gifford, Jr., Chairman of the Board of Trustees, will introduce Mr. Salzman and extend the gratitude of the College Community to Mr. Salzman for the family contribution, which makes possible the continued use of this beautiful and majestic dining hall by generations of men and women studying for careers in business. Mr. Salzman will respond.

Mr. Salzman is President of the Adams Drug Company, and has been in the business for over 50 years. He is also a member of the Board of Trustees of Bryant College, and has been a long-time supporter of the College.

Nearly 150 relatives and friends of the Salzman family and officers of the College are expected to attend.

scrumptious Greek dishes and will be accompanied by Greek music and dancing.

If you have taken part in previous international dinners that have been sponsored by the ISO, you will certainly want to miss this event and its Greek audience. Tickets are available from ISO members.
FOOD FIGHT

Dear Editor,

Congratulations to everyone for their outstanding behavior last Friday in the dining hall. Your usual outburst of stupidity and flock of common sense really impressed itself during the food fight.

My first question is what did everyone expect to accomplish? Obviously, you wanted to show the ARA how mighty and powerful you are in just how far you can throw blueberry pie. What did you accomplish in the food fight? First, there was no food available Saturday morning which is just what students who did not take part in the food fight deserved. Second, I'm sure there are legions of damage to the dining hall not to mention those who had to clean up your childish folly.

The ARA has the responsibility of serving about 500 meals per day. With so many problems that arise when feeding a large number of people there are bound to be some bad meals. However, it is my opinion that the majority of the meals served are good. Now that you have all gained the experience, prices, there is usually a varied selection.

For you pampered babies who just can't eat this "Miserable" food, you should not feel as though you are being poisoned. A simple solution would be to have students pay their food bill on a semester basis if they want food service. This would solve the double tariff thing you don't have to eat.

It's about time we started acting like mature adults. The food fight was a real blunder. As a final comment to the ass who suggested the demonstration: I hope you get everything you deserve.

Name withheld by request.

Have Your Cake
And Eat It Too

It's good to see the student body in a unified effort, however, the food fight on Friday, October 12 did not accomplish what it set out to do.

There are more effective ways of voicing your opinions about ARA food services.

An unorganized mob brings about more damage than change. A planned movement by an organized body has proven more effective in the past.

We can bring about a change with the support of the community. You have shown a strong desire to have changes made concerning the food service. Your student representatives have shown, through past performance, that changes can be made when approached through the proper channels.

We need your SUPPORT AND PARTICIPATION!!!

If you want to help achieve the goals of The ARCHWAY, Student Senate, and Greek Letter Council, submit your name and your ideas to the Student Senate Office and you will be contacted by Peter Lockatell, a Junior Senator, who will be in charge of the investigation committee.

Be INVOLVED

Dear Editor,

I wish to address the following letter to the Student Body of Bryant College and particularly to the Freshman Class.

As your Senator, it is my responsibility to serve you. I am open to suggestions, questions, complaints, or whatever it is that you feel the Student Senate should be involved with. I will bring the recommendations of the Student Senate on your behalf and see to it that your desires are contemplated.

An unorganized mob brings about more damage than change. A planned movement by an organized body has proven more effective in the past.

We can bring about a change with the support of the community. You have shown a strong desire to have changes made concerning the food service. Your student representatives have shown, through past performance, that changes can be made when approached through the proper channels.

A SPECIAL LOUNGE FOR CONVERSERS?

Dear Editor,

I've been reading about this controversial issue long enough now, and I feel it is my right to express my opinion on the subject. Why should the commuters have a special lounge. The dorm students don't have any private rooms except their suites, which is their living quarters. For you commuters who haven't opened your eyes yet, the soda machine is where it always was, along with the other vending machines. For those of you who feel it is too hard to carry a sandwich and a cup of soda upstairs, you may eat in the dining hall. As for refrigerators, the only ones that dorm students have are what they rent or buy and who use. If you really want cold soda all you have to do is insert 20 cents in a soda machine and you will have it.

As for opportunities for roommates, I feel there are many possibilities for students to buy snacks there during the times they use their fund for scholarships for students taking courses in Hotel, Motel and Institutional Management, as well as to defray expenses for trips to hotel shows in Boston and New York.

Therefore, all those who had helped organize and those who participated in making this event a success.

OKTOBERFEST: A SUCCESS

Dear Editor,

At the end of a hard weekend of fun entertainment, everybody felt they were back at the campus, even if it was for the annual Oktoberfest in the student center. The Servittum Club was proud to see so many of you turn out and participate.

As many of you know, the Servittum Club is composed of hotel and institutional management majors and other students who have some interest in the hospitality and accommodation industries. With the ever increasing responsibilities of the Servittum Club sponsors and participants, it is not surprising that the benefit of the student to learn by practical applications.

The Servittum Club is a non-profit educational organization. In respect to its many purposes, they use their fund for scholarships for students taking courses in Hotel, Motel and Institutional Management, as well as to defray expenses for trips to hotel shows in Boston and New York.

Therefore, all those who had helped organize and those who participated in making this event a success.

Emile Ross
Treasurer, Servittum Club

HELP US HELP THE FOOD

Dear Editor,

To the Editors-In-Chief:

For the benefit of the students, the Bryant College Student Senate has set up a special committee to investigate the food operations of Bryant College. It seems to me that student reaction to this committee has been quite skeptical.

In regards to pleas and written notices circulated to the students this week, I have received absolutely no feedback whatsoever. It has been easy for the students to sit back and complain, but is the problem being solved? The committee to investigate the food operations of Bryant College will fail as all others have before it, and the students will be left to blame for that fact. Put aside that skepticism and see me (Peter Lockatell) at the Student Senate Office about joining this committee.

Sincerely,
Peter Lockatell, Chairman
The Senate Committee to Investigate the Food Operations of Bryant College
"Registration Policy Dominates Talk at Senate Meeting"

by Paul Carroll

At last Monday's Senate meeting, Speaker of the Council, Fred Leonard, requested that the Senate take some action concerning the new registration policy being instituted by Dean Alberg. In response to this motion, Howard Flaim which reads as follows, "I would like to propose that the Student Senate recommend that the registration procedures in order to study the effect and or possible problems that could arise." This motion was passed with a vote of 14 for, 4 against, and 1 abstention.

A study of text-book prices and shortages is being conducted by Alan Cho and Fred Leonard. Alas Cho will submit his report to the ARCHWAY to be presented in two parts.

The vacant third-honoree Senate seat was filled at Monday's meeting. It was being sought by Luchy Golabek and Howard Flaim. Both students have worked with the Senate in the past and were well qualified for the position. In a secret ballot, Howard Flaim defeated Luchy Golabek; but Ms. Golabek stated that she would continue to run on a personal level about the food fight which occurred last week. Greg stressed that this kind of action in the cafeteria never helps to improve matters.

Fred Leonard announced that a warning notice had been issued to Arnold Sylve because he missed two consecutive Senate meetings. This is standard procedure and was only a warning to bring to his attention that if he misses another meeting he will have to appear before the Legislative Council to show cause for his absence.

The Senate Ways and Means Committee invites all interested students to contact Mike Lynch in the Senate Office. Unfortunately, parliamentary procedure was not up to par at Monday's meeting and Rick Corenta was cut off by Senators who wanted to adjourn the meeting. Rick had wanted to make a motion to set up a committee but was unused to doing so because of lack of order at the close of the meeting.

The subject of too much starch and too much grease was the second item on the agenda. The Committee stated that the food indeed contained too much grease and most of our food was too starchy. Particular mention was made of the veal cutlets and the sausage. The staff of the dining room promised quick attention to this problem. They are changing their brand of veal cutlets to another type.

Salads were discussed next. The first item brought up was the fact that the salads were tossed without the protection of plastic gloves. This problem has been taken care of. The Committee also stated the fact that the salads contained more dressing than lettuce. If you have eaten a salad lately, you can see the change with the addition of tomatoes, olives, cucumbers, and sometimes bacon.

The Committee mentioned the fact that the desserts have been stale. The girls are now cutting the desserts closer to serving time, and they are throwing away any desserts that they face.

As the meeting neared its close, the problem of sanitation was discussed. Hairnets were to be provided for both the men and the women. The condition of the silverware and the glassware was also discussed. The machine should be fixed in the very near future. The problem of flies in the food, the dining hall, and the kitchen was talked about, and lastly, the cafeteria staff told the Committee that they exterminate both the dining hall and the kitchen every night. An exterminator has been coming in to kill the pests.

The problem of "bad food" is not totally the fault of ARA. Our cafeteria works under constant pressure to feed as many people as they do. Billions are needed as well as a larger grill. Storage space should be enlarged, and more money for food is needed.

We, the people of the Bryant College Community, do have some problems with our dining service, but these problems cannot be solved with the tactics we have used thus far. We must take a little more of a helping hand--to help solve the problems we face.
The point is to

"o

-Office of the Dean of the Academic Administration.

New york, Beware!

by Dan Adelrold

Those students who reside in New York State or even visit the state should be aware of the newest law put through by Governor Cuomo.

The law began on September 1 and is not only designed for the big time pushers but for all small time pushers as well. It is for the small time, one-point-a-week smoker, too.

This new drug law encompasses the whole range from Narcotics and Amphetamines to pot. Each crime and its penalty is determined by the quantity involved.

Marijuana sales is a Class C felony which means any amount sold can bring from one to fifteen years in prison. Possession is a Class C or D felony or misdemeanor depending again on the amount; however, as little as 1/4 of an ounce can bring from one to seven years imprisonment. If you are busted and it's your first offense, you can usually get probation (it's available); but for all other violations of the marijuana laws, prison is necessary for those over 18. (For those under 16, Juvenile Delinquent Family Court Act.)

The penalties for the drug laws are simply involved with rigid penalties. The penalties are stricter and the quantities are much lower for felony crimes. In laymen's terms, you can get busted for a smaller amount of dope, i.e. one joint.

Supposedly the point is to get addicts, pushers and pushers to end their addiction and stop people from unlawful sale and possession of illegal drugs and "to make the streets safe for you and your loved ones."

Many individuals feel that this new drug law will have little or no effect on offenders-those who smushed in the past will

continue to. Whether this is true or not, the fact still remains that the drug laws are on the books and remain as harsh as ever. The Rockefeller-initiated law has classified the occasional smoker in the same category as the murderer, rapist and armed robber. These students who are planning to travel or live in New York, you should be more cautious than ever before!

Rhode Island Philharmonic Opens 29th Season

Lorin Hollander, an accomplished concert pianist, displayed his talents as a soloist last Saturday at the Rhode Island Veteran's Memorial Auditorium. The concert was comprised of the Overture to Eugeneone by Weber followed by Shostakovich entitled Concerto for Piano and Orchestra No. 2 in B Flat Major, Op. 83. The impressive recital left little doubt as to the well deserved prominence which the 29-year-old Hollander has attained during the 17 years which he has performed before the public.

Symphony No. 6, Shostakovich deferred from the norm of traditional concerts in this piece. He formulated the symphony around three movements rather than the customary four. The usual commencing Allegro movement was never incorporated into his sixth symphony.

After a brief intermission the featured soloist, Lorin Hollander, entered center stage with Francis Madera, the conductor, to begin Brahms' pianoforte concerto. The concert of October 18 was the first in a series of concerts by the Rhode Island Philharmonic Orchestra.

On the Lighter Side

There's a lot of pressure for American usage of the metric system. N.P.I. has a report in Chicago.

Might as well get used to the idea. The United States will eventually accept the metric system.

That's the opinion of President William Lazer of the American Marketing Association. He says the steady drift in the United States away from adoption of the British system and toward the metric system of weights and measures will accelerate in the next few years.

Lazer and others believe the switch is absolutely necessary if the United States is to maintain leadership in technology, industry and world trade.

In a recent poll, the association found 68 percent of its members in favor of shifting to the metric system within five to ten years. It points out that United States and Britain are the only industrialized nations that have not adopted the metric system and Britain is converting steadily.

Lazer says education the American public to metrics will be much easier than most people imagine. "If it will make shopping easier and will compel package makers to package their labels easier to understand."

Lazer points out that the truly international units, gallons and pounds actually are difficult for the housewife to convert to pits of her everyday lives, but all metric conversions are as easy as money conversions and simplify the buying process.

There are two psychological factors about metrics that could prove amusing when the system is adopted in this country.

When automobile speedometers are converted to kilometers, drivers driven to 100 miles an hour may think he's hot-rodching when actually he will be doing only 62 miles an hour. But a woman whose weight has shot up to 190 pounds may be deluded into false smugness because the scale shows she is "down" to 82 kilos.

Although we are all aware of the Student Security Force at Bryant, few of us are cognizant of the fact that there are five members of the Security Force of the female gender. They are: Elizabeth Monahan, Teacher Education Major; Karen Major, Law Enforcement Major; Lois Puro and Nancy Christmas, Legal Secretary Majors; and the newest member of the force, Patricia Lane, Teacher Education Major.

The girls, all resident students, participate in a six-week training program. Robert Gardner, Chief of Security, conducts this program which consists of Principles of Security Organization, Security Ethic, and Patrolling. Other areas of study are covered, including aspects of life saving, for which Mr. Gardner brings in a professional for presentation.

Although the girls are trained in all phases of security, they are currently working on special assignments for Mr. Gardner, ranging from desk and secretarial work to patrolling the University on evening shifts. Mr. Gardner feels that the girls are not endangered and that having them on the force is not only a safety asset to the College because of their capability.

Notice

Savage Messiah will be shown once Wednesday night at 7:30 p.m., and again Tuesday at 11:45 p.m., for the benefit of the college community who cannot make our Wednesday showing. The response to this second showing will help in determining the continuation of such a program. Any suggestions from students concerning movies and other entertainment on this campus is welcome. The Student Senate does care about you.

Notice

To all students: Because of the holiday, the Student Senate meeting will be held in the lounge at 3:15 Sunday, October 22. All students are invited to attend the meeting. If there is an inconvenience to those students using the lounge for studying purposes at that time, contact the Student Senate office. Special arrangements will be made to set up a classroom designated for studying.

The锁定 evening room and the day are changed because of the holiday on Monday, October 23. It will be held in Room 360 from 3 to 5 p.m.
Student Senate Report

Outlines

Textbook Troubles

This will be the first in a series of reports concerning the textbook problem at Bryant College. Report Number I will be concerned with the facts alone. The succeeding reports will deal with solutions and recommendations. It should be stressed that work is in the process at the present time on this issue and will continue. The report will include tables which we feel will project to the Bryant Community a better perspective of the problem.

PART ONE

Every semester, some students in some classes are short some required textbooks. However, this familiar problem now has affected a majority of the students in an even more severe way. Because the Senate is supposed to represent the interests of the student body, the Ad Hoc committee has investigated this problem and discovered some interesting paradoxes.

Some students received textbooks as late as five weeks after the beginning of the course. As a result of this writing, we have not received some of their required texts. Students who received their textbooks late had the tremendous problem of trying to catch up with the rest.

"The teachers are having as difficult a time as students in trying to correct this situation. The big question is who or what caused this problem. We felt this had to be answered."

We first spoke with Mr. Lou Petrucci, Bookstore Manager. We found that last year he was left with over $2500 in non-saleable, non-returnable books. The dollar value lost would have been much higher if the thousands of dollars worth of unsaleable textbooks couldn't have been returned to the publishing companies.

Historically, the bookstore orders between $50 and $60 thousand worth of books per year. The state books that are now left cannot be returned to the publishing companies because most allow only a 20 percent return. An exception to this rule is the Holt-Rinehart Publishing Company. However, their books aren't as popular with the students.

Petrucci has a very difficult job in trying to "guessimate" the number of books to order for each class. He said, "I feel the main concern is for the students, but I can't have the bookstore lose thousands of dollars each year in unsaleable and unreturnable textbooks. It's a dilemma!!"

The bookstore manager has to take the totals from the register and subtract from these estimates 1. How many students will drop out; 2. How many will add; 3. How many will share books; 4. How many will purchase used books; and 5. How many will not want the book at all? Past trends are used, but are not always reliable. It is much more difficult than most people realize.

Mr. Petrucci has to order the books for both the day and evening divisions. Last semester, when he was conservative in choosing quantities for the graduate division, "It worked out fine." Petrucci continued, "After losing too much money on textbooks last year, I was conservative—too conservative."

Mr. Petrucci is trying to develop better methods of estimation. "I want to feel I'm doing a better job each year." His most recent idea is to keep a card file on every book that is purchased. This will give him a better idea of how many used books are on campus. Some publishing companies are more difficult to work with than others. This year, for the first time, the bookstore manager met with the Department Chaimen. Petrucci feels that this was a "great step forward." They agreed to purchase more books from publishing companies which have the most reasonable return policies. However, this is sometimes impossible. In this committee's opinion, the bookstore manager is not fully responsible for the shortage.

Next week, the Senate Ad Hoc Committee will present Part 2: The teachers' side, the students' side, and some possible solutions.

--END--
Trinity Square Repertory Company Begins Wednesday Under New Roof

A new theatre season begins this Wednesday, October 24, at the New Trinity Playhouse in Providence. This regional theatre is among the best and foremost in the country for introducing novel talents and innovative dramas. For those who relish the theatre as its plays offer a season at Trinity promises to be another fine one in a succession which included such works as Fister's, The Caretaker, An Enemy of the People by Ibsen, A Streetcar Named Desire by Tennessee Williams and more recently, The Royal Hunt of The Sun by Peter Shaffer and Molière's amusing school for Wives to name just a few.

For those who are not familiar with the repertory company background the following is a brief history of Trinity's existence.

Late in 1964, a small group of citizens decided that Rhode Island needed a legitimate theatre company. Subsequently, in 1965, director Adrián Hall was brought to Rhode Island, aided in recruiting, and a professional company began.

A surprising level of dramatic excellence soon brought public recognition and acclaim. The University of Rhode Island, Rhode Island School of Design, and the Rhode Island State Arts Council pledged $3,000 to convert a gymnasium into a playhouse. And Trinity began to perform at the Rhode Island School of Design Theatre as well as at the Trinity Square Playhouse. In 1973, Trinity Square was the first regional theatre to perform at the Edinburgh International Festival in Scotland where the Company presented a new play, YEARS OF THE LOCUST by Norman Holland. The company also participated in the 1969-70 ANTA (American National Theatre and Academy) Showcase for Regional Theatre in New York City. What's more, it had become a cultural center for all of New England.

In November 1972, Trinity announced the formation of Project Discovery (The Federal Laboratory Theatre Project) which had grown to give live theatre to over a half-million high school audience members. Trinity also participated in the 1969-70 ANTA Showcase for Regional Theatre in New York City. What's more, it had become a cultural center for all of New England.

The New Trinity Playhouse-a replica of the original Trinity Square Playhouse. Photo by Rhault

federal grant covered a substantial part of operating and production expenses for three years, enabling the development of an exceptionally high level of artistic expression and maturity. Now five years old, the program continues through support of the state.

Trinity Square's artistic and administrative staff were expanded and the company began to perform at the Rhode Island School of Design Theatre as well as at the Trinity Square Playhouse. In 1968, Trinity Square was the first regional theatre to perform at the Edinburgh International Festival in Scotland where the Company presented a new play, YEARS OF THE LOCUST by Norman Holland. The company also participated in the 1969-70 ANTA (American National Theatre and Academy) Showcase for Regional Theatre in New York City—where another new play was performed, Roland Van Zandt's WILSON IN THE PROMISE LAND.

At present, the company works at the Playhouse while its second home is a replica of the original Trinity Square Playhouse, a former madrillary house in downtown Providence. During the coming 1972-73 Season, the Majestic will become not only a new home for Trinity Square but a cultural center for all of New England.

First series of plays at the Lederer Theatre Project, 201 Washington Street, Providence, Rhode Island.

DOWNTOWN AT THE NEW TRINITY PLAYHOUSE (6 plays; 280 seats; dark Mondays).

Play No. 2 opens on November 28 and closes on December 22.

Play No. 3 opens on December 26 and closes on February 3.

Play No. 4 opens on February 17 and closes on March 17.

Play No. 5 opens on March 27 and closes on April 22.

UPSTAIRS AT THE LEDERER THEATRE (5 plays; 800 seats; dark Sundays).

Monday through Saturday at 8 p.m., matinees Wednesday, Saturday, Sunday 2:00 p.m.

Play No. 1 is BROTHER TO DRAGONS by Robert Penn Warren. It is a revival of the 1968-69 production concerning a scandal involving Slavery and the Family of Thomas Jefferson.

Play No. 2 is TWELFTH NIGHT for high school audience. Financed (or not)

Play No. 3 is BROTHER TO DRAGONS by Robert Penn Warren. It is a revival of the 1968-69 production concerning a scandal involving Slavery and the Family of Thomas Jefferson.

Play No. 4 is BROTHER TO DRAGONS by Robert Penn Warren. It is a revival of the 1968-69 production concerning a scandal involving Slavery and the Family of Thomas Jefferson.

Play No. 5 is BROTHER TO DRAGONS by Robert Penn Warren. It is a revival of the 1968-69 production concerning a scandal involving Slavery and the Family of Thomas Jefferson.

The Grandstand View

In baseball circles, Oakland Athletics' owner Charles O., while on a personal visit to the west coast with controversy. In fact, many fans wonder if Finley is not leveling the playing field to enhance the game. In any case, Mr. Finley has added spice to this year's exciting World Series by trying to fire back second baseman Mike Andrews. The game was the result of Game Two of this year's Series Classic. In that game, Mike Andrews was called upon to play second base after pinch-hitting for Ted Kubiak. Since Kubiak had replaced Dick Green earlier in the game, Andrews was the only available lefthander in the second base. Even though Andrews and Finley have been good friends this season, Athletic skipper Dick Green himself felt Mike could handle his duties in the game. The 12th inning proved that the former Red Sox star was not equal to the task.

After one Met had been hit with a pitch, Andrews entered the game. Two successive ground balls were hit in the direction of Andrews. On both plays Andrews could not make the putout. New York took advantage of the mistakes and proceeded to score two runs. Pitching for the Mets was Rafe Dahl, and the New York Mets had ended the 1973 World Series at a game a piece.

There is no question that Mike Andrews was the most disappointing player in the A's locker room. He had let his team down. He had let himself down. Regardless of how guilty Andrews felt, Finley was already preparing the worst punishment of all for Andrews. Andrews, one of the most of Oakland players were willing to lend a hand for their trip to New York. Andrews was a great player, but he didn't want him in the office. With owner Finley also in attendance, Mike was asked to sign his release. He then asked Finley if he was not fit to play baseball for the A's. Finley would not say yes.

The real tragedy of this whole affair is the Lords of Baseball cannot rid themselves of such a pest! He will continue to ruin the lives of Blue, Odom, and Finley. He will suffer and eventually the entire A's team will suffer. Finley has succeeded in creating more player disputes and squabbles than any other man in the history of baseball. It's no wonder why the Andrews thing comes as no surprise to the average sports fan. With this new move, Finley has realized any good that he might have from the A's owners.

The real tragedy of this whole affair is the Lords of Baseball cannot rid themselves of such a pest! He will continue to ruin the lives of Blue, Odom, and Finley. He will suffer and eventually the entire A's team will suffer. Finley has succeeded in creating more player disputes and squabbles than any other man in the history of baseball. It's no wonder why the Andrews thing comes as no surprise to the average sports fan. With this new move, Finley has realized any good that he might have from the A's owners.
