The Genesis Of California's Political Trials

Karen Wald/AFS

"If you put men in cages, and treat them like animals, how do you expect them to behave?" a prisoner once asked. In the California prison system it seems clear that most of the prisoners have retained the essential characteristics of their humanity far better than have their jailors. But injustice heaped upon injustice inevitably produces rage, and then retaliation by the prisoners--followed by charges against other prisoners, more often motivated by vengeance than justice, more often singling out militant prisoners than those who may have been guilty. Most often, the weapon used in this deadly game was racism.

Of the many recent and ongoing political trials relating to prisoners in California, almost all can be traced to January 13, 1970, when three unarmed black prisoners were shot to death in Sol Lead Prison, or to February 26, of the same year, when another black prisoner was gased to death in his cell in San Quentin. What followed was a series of retaliatory attacks on guards, and reprisals against prisoners who had dared to protest the original killings, or had the audacity to support and defend those accused of exacting justice upon the guards.

A chronology of the prison struggle--omitting food and work strikes, and other mass organizing and resistance--helps put some of the current political trials in perspective.

January 13, 1970

Diane Ronci '71, and Joseph P. Maceda, Jr. '59, are the co-chairmen of the Senior Luncheon Committee. Diane is a legal secretary in Providence, Joe is a purchasing agent for the Robbins Company in Attleboro.

Because of the special attention being shown to the seniors, no guests other than the seniors and President Evans will attend.

January 16, 1970

Sol Lead. Guard John Mills is killed. George Jackson, Fleeta Drumgo and John Chuchette are indicted. The three become known as the Soledad Brothers. (Hugo Pinelli, a black latino, is among those who sign affidavits and write letters describing the killing of Nolan, Edwards and A. Miller.

February 25, 1970. San Quentin. Black prisoner Fred Billingslea is tear-gassed to death in San Quentin. Willie Tate, who witnessed the killing, and two other black prisoners, Rachel Magee and David Johnson, file affidavits in a suit protesting Billingslea's death.

July, 1970, Sol Lead. Another guard is killed. Prison officials say they find a note saying, "Two down, one to go." Dr. Drumgo, and Chuchette were in another location. Seven other blacks are killed.

August 7, 1970. Marin. James McClain defends himself in a retrial on charges of assaulting San Quentin guard in retaliation for Billingslea. (His trial ended in a hung jury.) Rachell Magee and William Spatafora, Ohio University, Vice President of ABCA.

The College will host a reception for conference participants and early registrants on Friday evening, May 12. All scheduled activities will be held in Bryant's Unistructure on the new Smithfield campus, which opened in September.

The complete schedule of activities and registration information may be secured from the ABCA Program Chairman, Dr. Lionel Wyld, professor of English at Bryant. Membership in ABCA is not required for attendance at the conference.

Students are welcomed and encouraged to attend and listen to any or all of the speakers. A small charge must be paid by students if they wish to attend the reception or any other scheduled activity.

Alumni - Senior Luncheon June 2

On Friday, June 2, the seniors will be honored by the Bryant College Alumni Association at a special luncheon to be held in the main dining hall.

Philip Hayden '59, President of the Bryant College Alumni Association, will open the festivities at 11:30 a.m. by welcoming the seniors and other alumni to the occasion.

After the meal is served, President Harry F. Evans will bring greetings to all those in attendance.

The Alumni Association's guest speaker will be Walter C. Tillinghast '53, who has recently been elected Secretary and Director of Semco Printing Center of Albany, Inc. Mr. Tillinghast is also President and Director of Spaulding Company, Inc.

In addition, he is the Secretary and Director of Semco Printing Center of Philadelphia, Inc. Mr. Tillinghast presently resides in Massachusetts where he is very active in civic and political affairs.

Editorially Speaking

Nixon's Political Power Play

On May 8, 1972, President Richard M. Nixon made what many believe is the most explicit show of power since the Vietnam Conflict erupted many years ago. Many reliable sources across the nation have openly expressed the feeling that Nixon's escalation of the war by mining the harbor at Haiphong and other smaller ports, by cutting off all rail and other means of transportation and communication, and by ordering stepped up naval and air operations, will place the U.S. in a worst situation than it found itself in the Bay of Pigs Invasion during the Kennedy Administration.

Nixon's broadcast to the nation, which stated that the actions he ordered in Vietnam are not directed toward any other nation, is in my opinion, an open show of power indirectly aimed toward the Soviet Union, since it is the Soviet Union that is the largest supplier of weapons and munitions to North Vietnam.

I do not believe that very many people have thoroughly considered the consequences of Richard Nixon's show of power. If the U.S.S.R. decides to show the U.S. and the world its capabilities, just one more move by either side could very easily and quickly blow the face of the earth out into space.

Looking at this entire situation from President Nixon's side of the coin, there is a show of power by the United States which Nixon feels and hopes will encourage the U.S.S.R. to suggest to North Vietnam that the time has come to return the P.O.W.s and bring a long overdue end to the war.

If Nixon's political power plays work, and the U.S. waits until the end of the stated four month withdrawal period, the war will be over, the U.S. forces will be returning to the states right behind the P.O.W.s, and Tricky Dick Nixon will have fulfilled his promise to end the war, just weeks before the people go to the polls in November.

President Nixon is still playing that game of chess with the big Red Man and has checked him with his queen.

No one man should have the power and authority to play games with the fate of the WORLD for his own personal gain.

Crisis At Bryant

Bryant College is faced with a crisis in this year of 1972. The faculty members of the community which represent the liberal faculty are leaving. They are departing our hollowed halls for academic areas more suitable for education, THE ARCHWAY was fortunate in interviewing two of these departing faculty members last week. Both pointed out that student motivation is of prime need here at Bryant. The overused word "apathy" was implied.

Apathy on the students' part of apathy on the faculty's part? This question can be argued both ways but I must realize apathy stems from lack of interest in his society. The society we are living in today is the famed "Bryant Community." As the Providence Journal termed it, "The Miracle of Bryant." By building an 18 million dollar campus, the college has jumped ahead. First the college should have put an end to the general disfunction on the part of the student. A more diversified faculty membership is the answer to an "end of apathy." With more liberal instructors to offset the basic conservative instructors of the business school, the students can obtain a better education. And isn't that what we are here for—an education?

The college has to do something to keep some moderate liberal faculty at Bryant. An all-conservative faculty membership helps to only increase apathy and thus retard the learning process. The crisis of this coming year might be squelched if the college takes it on itself to hire with a more liberal mind. Bryant needs an improved labor force and the students of Bryant, the employers of the teachers, the people who pay out the money, need some professors who are in some ways different.

Bryant Community Dissatisfied

With Marilyn Mitchell

To turn the tide so to speak and give an opposing view to the reasons for leaving of Miss Mitchell, I would like to start by saying that the title is my first and foremost niemise. Miss Mitchell says she is and I quote “more than happy to see her go. Miss Mitchell also feels that Bryant students and teachers of Bryant are prejudiced against blacks. When I read this, I had to laugh, because in my opinion she is the most prejudiced teacher or instructor of (what) against whites and men in general that I’ve come across in my fifteen years of school. To end, I would like to say that I feel Miss Mitchell used Bryant Community Dissatisfied on her own personal gain.

Letters to the Editor

The Legislation Of Life and Death

Politics is a filthy game. It transforms normally honest men into treacherous thieves. It relinquishes power, and power corrupts. In recent years, we have seen how greedy individuals use the power of the lobby to further their dirty work. In our decaying urban areas, we have witnessed the demolition of substandard housing. With the displaced families unable to afford better housing, they are compacted into a tighter slum area. Disease, rats, and drugs, feast on this forgotten segment of our society. Feeble attempts have been made to legislate action groups, but they can never relieve the shame, the hurt that festers within.

Various politicians have come out in support of abortion reform, while others remain uncommitted. Do they feel that they are dealing with human lives? For the majority of those who believe it, there is only one who has the power to give and take away life.

The most abhorrent legislation of life and death is the Viet-Namese War. A man sends young men off to die for a cause whose ramifications have shaken the very concepts upon which this country was built. War is ugly; it costs both in terms of material and more important, in the lifeblood of a nation.

As students, or as simply concerned individuals, is it our task to voice our dissent, through our newly acquired voting power. We must not become the complacent, uncaring homebodies our elders would have us be. The time is at hand, we hold the power to put an end to the legislation of life and death.

**TRANSCENDENTAL MEDITATION**

**as taught by Maharishi Mahesh Yogi**

One hundred Bryant students on Monday night met with two men from the Students International Meditation Society to learn about a new life style. Ted Smith and Mark Barlow outlined how Transcendental meditation taught in the style of Maharishi Mahesh Yogi can help a person in his daily life to understand himself and the world around him. The lecture was one in a series to be held at Bryant. The main purpose of the two men speaking was to introduce the Bryant students to this new fast growing awareness. Through meditation, Mr. Smith said, "a pure creative intelligence is born, the mind and heart is expanded making available one's full potential."

The talk lasted about an hour and a half in which the two men told of the advantages of meditation. Mr. Barlow stated that, "with meditation stress is reduced, body energy is increased, reactions are increased and a more total awareness comes into being."

The lecture that was presented Monday night was one in the series of seven meetings required in becoming a successful meditator. The meetings to follow consist of a second instruction period, and then three group sessions of self evaluation.

**Free - Pollution Test For Cars**

The Rhode Island Tuberculosis and Respiratory Disease Association and the Junior League of Providence, working with the Atlantic Richfield Company, offers an eight-day schedule of free testing for exhaust emissions. These tests are designed to promote public awareness of the major source of air pollution--the auto--and to demonstrate how proper engine maintenance at modest cost can reduce emissions while improving engine performance and gas mileage. These tests will be conducted between 10 a.m. and 4 p.m. at the stated locations, and will take about ten minutes. The following is a schedule for the test program:

- May 16 & 17: Warwick Mall
- May 18: U.R.I., Kingston
- May 19: Aquidneck Shopping Center, Middletown
- May 22: Apple Valley Mall, Smithfield University Heights, Providence
- May 24: Barrington Shopping Center
- May 26: Wampanoag Mall, East Providence

Your participation in this program is urged, as there aren't many of us who don't pollute with autos.

**1972-73 GLC Elections Held**

**Is Anybody There?**

by E. McLaughlin

The orientations presented by a college to incoming students supplies crucial facts necessary for successful completion of the first semester. The quality of student orientations may well determine the percentage of withdrawals during the initial semester; the semester of truth for most students. The Bryant College administration is well versed in presenting a more than adequate orientation program for high school students and transfer students. For veterans, however, improvement is possible.

The orientation needs of a veteran are more complex than those of a recent high school graduate for several reasons. The veteran has been divorced from the educational world for a substantial length of time. There are constant improvements, innovations and changes of academic policy which the veteran is usually unaware. He has no guidance counselor to keep him informed.

A veteran would find additional orientation on several areas valuable. The GI Bill is mentioned to him during his separation briefing, but only in the most general of terms. He needs specific information on where to apply, how to apply, how the GI works for him and the appropriate action to take in the event of error. The availability of counseling services to assist him in readjusting to civilian life should be emphasized. The combination of a difficult and lengthy readjustment period and the academic pressure of the first semester may result in his premature withdrawal from school. The veteran should be informed of all types of scholarships offered by the State, school and nonprofit organizations such as the Lions' Club. Once again the veteran has had no guidance counselor to explain eligibility criteria or the mechanics of application.

P resentation of an orientation for veterans could be accomplished by the regular staff provided by Bryant College, a representative of the veterans' Administration and a delegation from the Veterans' Club to answer relevant questions and provide general assistance for veterans.

Returning from active duty to college life is a difficult and demanding task. With the assistance of all concerned and an appreciation of veterans' particular problems, Bryant College can assist the veteran in preparing for a successful program of study. Let's give it a try in September.

Servitium Club Brings BC To
Boston Hotel Show

Bryant College was represented last week at the Hotel-Motel and Restaurant Show by the Servitium Club. A booth was allocated to the club for the purpose of introducing Bryant’s Institutional Management Program to various professionals in the field of accommodations and Food Service. A number of other colleges and universities were also present.

The three days that the Servitium Club participated in the show were very successful. Mr. Wallace Camper, department head of the I.M. Program, commented favorably on the efforts of the participating students. Members of the club were assigned certain hours to work at the show to insure proper coverage to the booth. The job of each student manning the booth was to answer any question asked by persons enquiring about Bryant and the I.M. Program. They also showed interested guests a brief about the new Campus and its modern facilities. The viewers were very impressed with the New Look of Bryant College.

The students working at the show were also able to spend their leisure time viewing the rest of the exhibits throughout the Hynes Auditorium. Many found it very interesting and educational, others found it very beneficial to their appetite. On both levels of the auditorium, many booths occurred by food processors and distributors had samples for passing observers. The line of products displayed were innumerable. One could start with a cup of juice for an appetizer then move down the line of booths for either a sample of soup or salad. On the next floor one would find several choices for the main course. In another area, a beautiful young lady would serve ice cream for dessert. Then whether you preferred coffee or beer you would only have to walk to another booth for your desired beverage. As one may guess, most of the Bryant students interested, one could stop and talk to the personnel manning the booths and inquire further about the claim of Bryant’s representatives were more than willing to discuss any subjects you cared to know about the firm. Second, Bryant’s mere presence at the show was beneficial to the college, students and an particular the Institutional Management students. Occasionally men who represented businesses in the New England area stopped by the booth to offer prospective summer employment for the students in the I.M. Program.

Many of the students not only enjoyed the chance to get away from the old routine of classes but sincerely made an excellent impression on all those who stopped by to visit. As an

Commuter Survey Planned

by E. McLaughlin

During the recent weeks the commuter issue has sparked unusually vehement charges and counter-charges between dorm students and commuters. While dorm students may be justified in claiming a special commuter apathy, they might recognize this “apathy” as evidence of more subtle problems existing in the Bryant community.

Once the rhetoric of opinion is cleared away, it is an undeniable fact that a commuter will not undertake a second 10 to 40 mile round trip except for what he considers a worthwhile cause. Therefore, on Tuesday, May 16 between 9 a.m. and 2 p.m. the Archway will sponsor a commuter survey in the Rotunda to obtain a consensus of commuter opinion on various aspects of Bryant life. Hopefully, all commuters will participate in this survey, to be of any significant value the survey must receive more than a token response.

Give five minutes of your time to help rectify some of the problems that you gripe about to your friends.

Domini

The Dominican Order is for men who put their minds where their mouths are.

The Dominican Order is an Order of preachers. But it is an Order of men who base their preaching on intensive contemplation—time spent in study and prayer—so that when they do speak, they have something meaningful to say.

The goal of the Dominicans is the salvation of souls through preaching, but not preaching in just the narrow sense of the pulpit. Rather, it is preaching in the expansive, apostolic sense that uses anything any channel available to communicate Christ and evangelistic truth.

In the Dominican Order, each person is recognized for the uniqueness of his personality while living in Christian Community with others—and sharing his ideas and experiences. Prayer, study and apostolic action are the chief occupations in a Dominican house. They form a unity because Dominican study is a loving, contemplative study of truth.

The Dominican Order places a premium on developing an individual’s ability to accept responsibility. Everyone is given a share in decision-making, from the top to the bottom of the Order’s government. Areas of responsibility outside of the Order include: parish work such as counseling and confessional retreats, missions, teaching in universities, colleges and high schools, writing, publishing and research. If you like to think before you speak, perhaps you would like to become a Dominican. For more information, mail the coupon below. Or phone Fr. Quigley or Fr. Gerard at (401) 665-2477. A 24-hour answering service is available; you are invited to call collect.

Cheech and Chong

( A Biography )

Ever since hard rock revolutionized the record charts, comedy albums have been hard pressed to find a niche. Bob Hope and Black Sabbath mix about as well as oil and water, and rock fans, the bulk of the record buyers, have been content to stand and dance rather than sit and laugh. Until Cheech & Chong came along.

Cheech & Chong are members in good standing of the hard rock society and their first album for Ode Records, subtitled “hard rock comedy,” was a hit on the record charts and earned them a Grammy nomination. They play to SKO audiences at clubs and in concert across the country. Like Laurel & Hardy, Lenny Bruce and other comedians before them, Cheech & Chong reflect and poke fun at the values and beliefs of their audience and their humor is expressed in terms like the Los Angeles smog.

We found something new that people could relate to,” explained Tommy Chong. "For old-timers like Cheech, it was a realization that we could make a living by our music and comedy, and for the younger generation it was a reawakening of the point of view of a long-haired hippie dope freak!"

Chong was born in Enid, Oklahoma and Alberta, and began show business as a guitar player in R&B bands around western Canada. His group Bobby Taylor and the Vancouvers, was discovered by Berry Gordy and signed to Motown. They toured and recorded with a song written by Chong, "Does Your Mama Know Bout Me?," the label’s first protest tune. When the group broke up, Chong moved to Vancouver to direct the stage show for a family-owned topless night club. He had seen various improvisation groups such as the Committee on San Francisco and Second City in Chicago and began experimenting with that form at the club. Eventually he became one of the actors as well as the director in a troupe that consisted of three hippie freaks, a mime artist and four topless dancers. The show was well-received and played to packed houses for nine months until they broke up. One of the actors was Rich Martin, better known as "Cheech." His uncle nicknamed him "Cheecharrone" after his delicacy made of deep-fried pork skins because he was "all proney looking" when he was a kid. Nicknames were common in his family, others being called "Chata, "Chema," "Chug," "Chango" and "Seco." Cheech was born in "scenic" Watts, California. He sang in various folk and rock groups such as Mother Fitcher’s Blues Brothers and Rompin’ Ritchie and his Rocking Rubeens. He got a degree in English from San Fernando Valley State College and then left for Canada to escape the draft and work for Eli Drabenduck, Canada’s most famous potter. Among other things, he played in a dice and dance trio that worked hotel dining rooms, delivered carpets and was a ski bum, before he met Tommy Chong.

While directing and appearing with his improvisational team, called the City Lights, Chong also managed the club in Vancouver and took note of the clientele. "The average patron was a drunk or a pervert," he remembers. "But the dancers were expensive, so we replaced them with topless actresses. That way the club retained its image and its audience."

As the group developed, the audience began to include non-drinking patrons. "The more we charged, the more we sold. That was the key to it all."

The group, called the Cheech & Chong Scammers, performed until the group was unhappy with the management’s policies. The group disbanded and Chong decided to come west in search of greener pastures. (one album later) they headlined at the Troubadour for five sold-out nights.

Chong stayed together as a duo. They gradually built a following in western Canada and climaxed their stay there by winning over an audience of 5,000 at the Gardens Auditorium in Vancouver. By then, Cheech had broken his leg and earned a 4-F status, which meant he could go back to the States. They decided to come to Los Angeles, the Big Time.

To begin with, they found little call for heads doing a standup comedy routine. So the act began to evolve. They played at many of the small clubs around town before every kind of audience. It was at one of their many appearances for free on "hoot" nights that the Troubadour Club that Lou Adler heard them, and shortly after signed them to a contract with AIP Records. (one album later) they were on the charts, comedians and fans alike gather these days, Cheech & Chong receive the sincerest kind of flattery: imitation.

Thoughts For Sound — Bryant Spring Weekend

from Rich Charnack

Among the nevers for our first year in the country is our own Spring Weekend. Fortunately, like every English fraternity weekend, the Bryant Spring Weekend offers wholesome entertainment on and off campus, and, thanks to the Student Senate, a free outdoor concert.

This Friday night, May 12, will feature a folk concert at a fee designed to fill a need in the Bryant culture. The English appearance of Malo. In its first season of sound, Malo has proven outstanding in its appeal to students and to the Student Senate. The venue is the Bryant Hall, a large, open-air auditorium. The production is designed to create some auxious moments to all who appreciate Latin style (Santana and Laura Nyro). Featuring Carlos Santana’s own little brother on guitar, the group is among good company as The Bryants Palace produces another first. James Montgomery and the band will also appear marking a fine night for lovers of good blues.

Saturday night will feature two comedy enthusiasts. Cheech and Chong. Wherever Davey’s real at may prove an abundance of hilarious vibration and in preparation may create an abundance of smog.

Also appearing will be Cheech and Chong. Wherever Davey’s real at may prove an abundance of hilarious vibration and in preparation may create an abundance of smog.

A new musical weekend ever, Bryant offers some form of entertainment at a nominal charge. The admission for the night concerts is $3.50 per person, per night and for the talent procured by Skip Cherven and Friends, this charge is comparatively small. We must thank the coordinated efforts of the Student Senate and Concert Consultants for their time and effort and should attempt to attend all of the shows to provide an incentive for more shows of the same dynamic adventure in the future.

1972 Graduates

Dear Graduating Senior.

It has been a tradition at Bryant College for the graduating senior class to give the school a gift. The class of 1972 is the first class to graduate from the new campus in Smithfield. Our gift this year should have special meaning and be of a quality in keeping with our unique place in Bryant’s history.

Mr. J. Robert Willard, the architect who designed this already-famous campus, has been consulted and has agreed to design an appropriate sculpture at no charge to the class. The sculpture will represent jointly the two themes: Bryant’s move to Smithfield, and the Class of ’72 as the first class to graduate from the new campus.

Success depends on you: We need your pledges — and if possible we hope you will check off three times on the enclosed Gift Card. The above-mentioned Local Bank will make our prestaged gift reality — something we can take back and start in future years. And something that will identify us all as members of the Class of ’72.

We need a minimum of $5,000 and we’re hoping even to exceed that goal! Please fill out the Gift Card and return it to the Development Office, located in the Public Affairs Center on the second floor of the University. Filling in all three boxes, or even one, is possible for us to raise the money, even if you don’t have the cash now.

Thank you.

Mark T. Singer, Chairman
Senior Class Gift ’72 Program

Please fill out the Gift Card and return it to the Development Office, located in the Public Affairs Center on the second floor of the University. Filling in all three boxes, or even one, is possible for us to raise the money, even if you don’t have the cash now.

Thank you.

Mark T. Singer, Chairman
Senior Class Gift ’72 Program
Last week it was learned by the ARCHWAY that the perennial student and member of the Bryant Community will finally be leaving us. Yes, Dana Lampert, Gardiner Hall R.A., cafeteria worker, and ARA stooge, has called it quits on Bryant.

Dana is currently employed by A.R.A., the college dining service, as a cafeteria worker, and accepted a position with A.R.A. Slater, an international company with offices and kitchens all over the world. After training he was assigned to the Dining Services at Bryant College. He is currently engaged to a girl named Cheryl who is also employed by A.R.A. at another school.

The ARCHWAY and the rest of the Bryant Community wish Dana the best of luck and remind him that he'll always be in our heart (burn).

Dana Leaves

The Greek Letter Council of Bryant College has recently been going through a process of resocialization. Resocialization is an applicable term because we are no longer of the "old" Bryant College but of a new progressive institution of learning, social environment, and experimentation.

We, therefore, feel that the future of the Greeks is quite bright and filled with the light of advancement.

Through the initial year of experimentation the Greeks have operated as sixteen separately unique affiliates of a controlling body, and have now advanced to a stage that indicates to the members that the time has come to begin a drive to strengthen this controlling board.

Thus, the stage is set for a new Greek Letter Council. The sixteen representative members have weighed the priorities of the future and have elected those leaders who will now advance us through the future.

Now, our leaders are beginning to centralize the activities of the GLC affiliates and through this centralization the hope of added strength seems to be brighter.

On the other side of this coin, we have the fraternities who are forever supplying the social events of this new progressive institute, thus, the new progression is somewhat stagnated without the old subculture of its environment.

Perhaps our most important contribution to the New Bryant is our optimism for a brighter future. We are confident in our leaders, secure with our workers, and perpetuated by our initiatives.

To summarize:—man watch out. The time has arrived! We're alive with our individual fraternalism and loyalty to our Greek brothers. We can't fail because we are needed on this campus because there are still those who believe in working with others to augment their social environment. And you know something—we're here to stay—and grow—and laugh.

Tune In Tomorrow

Final Call

**Sickle Cell Anemia**

Sickle-cell anemia is a particular disease in that it only strikes blacks. Indeed, the history of the disease goes back at least several decades of years. It is estimated that in 400 American blacks have the disease and that 2 in 25 are carriers. It is in an estimated U.S. black population of 20 million, there are approximately 50,000 American blacks suffering from this often-fatal disease. The sickle cell trait, does in a harmful way, the following immunity from malaria, a fact which accounts for the fact that native Africans did not suffer from malaria in tropical Africa during the colonial times.

Sickle-cell anemia is an hereditary defect in hemoglobin, the oxygen-carrying portion of red blood cells. The shape of the normal red blood cell is crescent-like. Hence the name Sickle cell. By virtue of this defect, acute abdominal pain and/or acute pain in the extremities, apparent blood clots and swelling may ensue.

One can contract the
disease in one of two ways:
1. receipt of a gene from both parents, in which case the recipient is homozygous.
2. receipt of a gene from one parent, in which case the recipient is heterozygous.

The homozygous recipients are usually the ones who constitution the morbidity (illness) and mortality (death) statistics. Even if currently (unluckily), the disease in a homozygous recipient is not life-threatening, it is apparently to his or her to extremely high altitudes or at great depths, i.e., swimming activity is to be avoided.

Dr. Robert M. Nalbandian of Grand Rapids, Michigan has done considerable research for the disease—the administration of area in small amounts. If not done carefully, this can lead to convulsions and death. The treatment is to seek to diagnose the disease. There is a simple blood test that is also used for diagnosis.

Dr. Peter Wielscha of the Boston City Hospital relates a story of a black soldier in a German Hospital a couple of years ago who underwent an

**Ecology Anybody Anyone?**

There are approximately 2,000 day students enrolled at Bryant College this semester of which 3,200 hold firmly to the old Bryant tradition of burying their heads in the sand.

The plight of the Bryant College Ecology Action Committee is a perfect example of this lack of interest. Organized at the beginning of the semester, a grand total of TEN people have shown an active interest in promoting an ecology program here at Bryant. Let's see that leaves 2,290 Bryant students who must enjoy a smog-burned eyes, trash wherever they turn, rivers and ponds turned unto sludge from industrial waste and community sewage, woods covered into super-highways we don't really need and wildlife poisoned by man's "progressive" insecticides. It won't just go away, you know. Anyone who feels that the pollution from other parts of the country "don't affect me" has yet to stand on the beach where the air is so thick you can see the clouds of filthy air hunched over Rome. The Open City, 180 miles away, or read that there isn't a single place on earth where the rain and snow don't contain man's polluted stuff. And when that smog from Los Angeles as culling desert plants in Nevada, several hundred males and a

**Dad Is A Dud**

Barnum said that a "sucker" was born every minute. Millions of them "buy" war under the guise of patriotism; become addicted to alcohol or other drugs in a search for something better; become Jesus Freaks or Vedanta apostles, or automatically glorify bits and pieces of institutions without quite realizing the depth of sympathy involved. Frauds? No. Misguided? Yes.

Emotional ill health in the U.S. is directly related to genetic forces which become convoluted due to cultural themes. Mother's Day helps to keep America's family weak. It should be abolished. It won't, of course, since mothers (and most women) will utilize sinner for this ploy; religion in its appeal to men is emotional as well as intellectual or organizational. Is God a man or woman or spirit? No matter, some say, we have religious services in honor of mother's day. It's blasphemous theologically and terribly unsound mental hygiene. Why? It defies a person who is very much a human being; it helps develop self-concern in a setting where no one person (in the family) is supposedly better than anyone else; it at once kills the spirit of cooperative living while reflecting the bankruptcy of a cultural capitalism. My "Mom"—there's no one like her. Millions don't believe it but feel forced to live out the farce for fear of social disapproval. Seated on her throne, gobbling up candy which she doesn't need; surely; reading inap cards worthy of a junior high poetry class; listening to commercials which appeal to her vanity only; all of this because of simple biological fact of tubes. The cards and candy naturally make money, so who cares about the splitting of the real family, composed of husband and wife, and all the kids? Manufacturers don't since they appeal only to individuals; very seldom to groups, or group loyalties. Groups create standards; groups engage your mind; individuals are more prone to set out their emotions regardless of any solid goals. A rap

We don't call our new beer "Super" for nothing.

Maximus Super is different from ordinary beer or ale or malt liquor. One can and you'll know just how different Maximus Super really is. You'll also know how we arrived at its name.

Pinto Project

The Pinto Project has again been uncorralled for the spring semester. Under the guidance of Dr. James Gould, Chairman of the Marketing Department, the Pinto Project has initiated its fourth semester at Bryant College with approximately 20 students taking part.

The Ford Motor Company has provided those workers on the project with the unlimited use of a fully insured 1972 Pinto for an eight-week period. In return, those working on the project will submit a report to the Ford Motor Company dealing with various marketing aspects. Among the topics being investigated are: appeals the car has to different people; the Pinto vs. the Cortina; and various advertising strategies.

Dr. Gould feels that the project is a success in the sense that it extends the students' learning beyond the classroom. Through the project, the student is able to get involved and had mobility by the use of the car in any manner he desires.

Sickle Cell

Cont. from page 7 emergency operation for appendicitis. It was one of several such operations upon the same patient, each operation having been negative. Dr. Winter, who was not at the hospital at the time of the emergency admission/operation, would have given a probably diagnosis of sickle-cell anemia if he had had little or no knowledge of the sickle-cell trait, and would understandably mistake abdominal pain for appendicitis.

Dr. Winter also indicates that sickle-cell anemia was a common malady among black pilots in World War II, who frequently experienced severe and violent attacks of pain upon reaching high altitudes. At that time there was little remedy for the pain or for the disease.

Sickle-cell screening clinics are set up across the United States. Blacks from the Caribbean, Africa and Latin America, as well as those from the U.S., should call at their nearest medical school Medical Committee for Human Rights, or Black Panther health clinic for information on the simple diagnostic blood test. Mrs. Lelia Morgan, a Bryant visiting lecturer in biology will be happy to answer any individual questions.

Servitium

From Page 4 added attraction to the show, Mr. Camper arranged to have tours of the Sheraton-Boston and the Sheraton-Plaza hotels on Wednesday. A small group of fifteen students visited both hotels. They were given a tour of the whole complex including the behind the scenes operations of maintenance, kitchen facilities, housekeeping, and front desk. Both hotels were different in that they catered to different types of clients. The Sheraton-Boston catered to conventions, whereas, the more classic Plaza was more of a transient guest facility.

The Servitium Club is looking forward to participating in next year's show with the hope that they will be able to have more to offer at their booth in the coming year.
P.C. Defeats Bryant At Home

By Peter Lockstell

After a four meet road trip, the Bryant College Track Team returned home to take on Providence College, Clark University, Gordon College, and Rhode Island College last Saturday. As expected, Providence College completely dominated the running events. The Friars had some 60 first place points en route to a staggering 131 1/2 overall point performance.

Monday's program is a Moto-Serambles sanctioned by the AMA and sponsored by the Long Island Sports Committee. This event is an off-road racing "first" in that it will use "Serambles" scoring (short, sprint-type races) on a Moto-Cross course. The promoters feel that it is more exciting to see fifteen or more short races than sit through the usual three long and boring events.

Live rock music will be presented Saturday and Sunday at the conclusion of racing until 8:00 p.m. There is no charge for this beer, sodas, and other refreshments will be sold.

As a bonus to Indianapolis 500 fans, a closed circuit TV presentation of the race will be shown Saturday evening at no charge if technical arrangements can be made.

The Race Circuit will open for free camping to ticket holders at 6:00 p.m. Friday, May 26. A reduced price scale has been put in effect for this weekend with tickets costing $3.00 for Saturday, $4.00 Sunday, and $3.00 Monday. Two day combination tickets are available at $5.00, but the best deal is the weekend ticket which gives the bearer free access for the entire event at a cost of $7.00.

These unusually low prices are made even more attractive by the student discount. The bearer of a student ID card valid for the Spring '72 semester will be entitled to an additional $1.00 discount.

To get to the Bridgehampton Race Circuit, take the Long Island Expressway to its last exit (Isleford), follow Route 24 to Route 27 to Bridgehampton. The route will be marked by Bridgehampton Race Circuit signs.

NOTICE
Some people still have not obtained their refunds for the cancelled stage production, "THE CHALLENGE". Refunds for advanced ticket sales can be obtained by presenting your ticket(s) to anyone in the ARCHWAY office.

If you wish to donate the amount of your ticket to The Spectrum House, a drug rehabilitation center, please inform the ARCHWAY of your intentions and arrangements will be made.

The Bridgehampton Racing Group will offer free camping and student discounts to its START OF SUMMER MOTORCYCLE RACING CLASSIC to be held May 27, 28, and 29.

A spokesman for the Bridgehampton Racing Group stated, "It's been a wearying and depressingly winter for most colleges and we'd like to show our involvement with students by offering them the chance to relax and enjoy themselves as varied and exciting a weekend as possible at the lowest possible cost."

Over 400 top-flight eastern racers are going to be on hand for the three-day Spectacular which includes road racing, Moto-Serambles, Stunt Riding, Clapper displays, Trials Riding demonstrations, Wheelie Contest and music.

The Bridgehampton Race Circuit is situated on Eastern Long Island, overlooking Peconic Bay and just six miles from miles of free ocean beach. No days program will start before noon or last past 6:00 p.m.

To afford everyone in attendance the chance to visit these scenic bathing spots.

Plans call for AAMRR Road Racing practice to be held Saturday morning and early afternoon with two sanctioned races starting at 4:00 p.m. One of these is the "Street Production" class which features motorcycles identical to those ridden on the streets by everyday riders. It is expected that the new 750 cc water-cooled Suzuki Two-Stroke racers will make a bid to lower the existing lap record.

Sunday's events will start at 1:00 p.m. with 4 races: the 200cc, 350cc, 500cc and "Open" class. There will also be a Wheelie Contest, Custom bike show, stunt and Trials riding between races. This is the second event in the four race Schafer American Championship series.

Besides the usual cash and trophies there will be contingency cash and product awards with an additional first lap leader bonus prize.

Monday's program is a Moto-Serambles sanctioned by the AMA and sponsored by the Long Island Sports Committee. This event is an off-road racing "first" in that it will use "Serambles" scoring (short, sprint-type races) on a Moto-Cross course. The fact that Providence College dominated the running events here came as no surprise to anyone. The Friars have a strongly supported team and do not hesitate to compete against...
Bryant Bows To Worcester State

Bryant scored its only run in the first inning as Bob Antignano scored on Raine Black's single. However, Bryant managed seven hits, two of which belonged to Tom McDonald. In the first inning, Bryant took a second with a 121ft. 3in., while teammate Raine Black took third with a 128ft. 6in. mark.

Elsewhere in the field for Bryant, Murray Williams was the triple jump and Gary Morgan upset Tom Walsh in the triple jump. The victory gives Bryant a second place overall.

In Intramural Softball, up to Wednesday May 10, the number of teams left in both the men's and girls' division championship has been reduced. Four are left in the men's (K-TA, RAIDERS, TK-A, and Delta Sigma Pi) and girls' (BSB-A and BSO). The girls' division was lead by BSB-A who won games versus SLT and SIB-A in the six-place tournament. The boys' division was won by RAI-A, 4th, and 6th round games in the losers bracket over Phi Sig, BLACK, and SIB-A. Bryant College's team was one of the teams that made it to the final.

In the women's division, K-TA won 4th, 5th, and 6th round games in the losers bracket over Phi Sig, BLACK, and SIB-A. Bryant College's team was one of the teams that made it to the final.

In the men's division, K-TA won 4th, 5th, and 6th round games in the losers bracket over Phi Sig, BLACK, and SIB-A. Bryant College's team was one of the teams that made it to the final.

The best Mr. Walsh could have was a toss of 166ft. 2in., a good second place overall.

In other track happenings Wednesday, Mark Shoham, Dave Stone, Roy Lapides, and Mark Robbins also turned in noteworthy performances for their team. Mark took second in the pole vault with a new personal best of 12ft. 6in. Dave Stone recovered after two straight unimpressive performances to take a 1st and a 3rd place in the 800m. Roy, on the other hand, turned a third place in the 1000m street. Meanwhile, Roy took a third in the mile and he later turned a third place in the three-mile event. Mark Robbins avoided a Bryant shutout in the 120 high hurdles by taking a fifth.
**Trials**

August 21, 1971. San Quentin, George Jackson is shot to death by a prison guard in San Quentin. Two other prisoners and three guards are also killed. Attorney Stephen Bingham and six prisoners are accused of “conspiring” with George, and of murder. The six prisoners are: Fleeta Drumgo (See above, January 13 and 16, 1970), Willie Bloe (See October 25, 1970), David Johnson (See February 25, 1970), Hugo Finell (See January 13 and 16, 1970), Luis Talamantes and Johnny Larry Spain.

The last two prisoners were arrested in reducing intercell tension among prisoners and in organizing intercell hunger strikes and work stoppages. The others were all involved in some way with rebelling against, or protesting, the deaths of other black prisoners, or they are being accused of retaliation against guards for those deaths. The San Quentin Six case, Angela Davis, Rachel Magee, Geronimo and Justice—all grow out of the killing of black prisoners in Solitude and San Quentin in the first two months of 1970, when prison guards or officials apparently decided that race-baiting was no longer working to keep the prisoners divided and under control, and began selective assassinations. The cycle still goes on today.

**Tennis Team Has A Ball In Portland**

This past weekend the tennis team traveled to Portland, Maine, to participate in what might have been the most poorly run tournaments in N.A.A. history. In the meeting to decide where the tournament would be played, University of Maine Portland Graham won the decision due to a promise of excellent facilities. Upon arriving, however, the promised facilities were nearly non-existent, and the scramble was on. This meant that the participating teams had to travel all around Portland looking for courts, only a few of which were elementary school gym classes, junior high girls, and the like. Needless to say, that all involved were by this time extremely annoyed. So much so that one coach completely lost his temper and almost walked away from the tournament. No names will be mentioned, but if you’re really interested, ask John Gough, because after the dust had cleared Bryant finished a respectable fifth out of the nine teams entered. In the tournament, the team stayed at a Howard Johnson Motor Lodge where a few interesting developments occurred. It will not go into details here but Peter Charland almost got his neck broken playing with songs and Jon (chokes) Jenkins, did not choke for once and turned in one of the best performances of the evening. Overall the tournament while being poorly run was a ball for the Bryant team.

**Bryant 9 Wins Two**

Bryant vs. Nichols

Scoring the winning run in the thrilling third inning, Bryant defeated Nichols College 4-3. Bryant opened the scoring in the first as Bob Antignano walked and eventually scored on Matt Bernardy’s single. Nichols tied the score in the third. In the seventh back to back doubles by Jeff Deppeit and Bob Antignano put Bryant ahead again, but Nichols again tied the score in their half of the seventh. Going into extra innings with the game tied 2-2, Bryant pushed across a run in the ninth, as Matt Bernardy, who reached second on a two base error scored on Ernie Crowell’s single. Nichols snapped the score again on the bottom half of the tenth Bryant’s final run on back to back singles by Bob Antignano and Norm Trahan, Bryant’s third run. Going into extra innings with the score tied 2-2, Bryant pushed across a run in the ninth, as Matt Bernardy, who reached second on a two base error scored on Ernie Crowell’s single. Nichols snapped the score again on the bottom half of the tenth Bryant’s final run on back to back singles by Bob Antignano and Norm Trahan, Bryant’s third run. Going into extra innings with the score tied 2-2, Bryant pushed across a run in the ninth, as Matt Bernardy, who reached second on a two base error scored on Ernie Crowell’s single. Nichols snapped the score again on the bottom half of the tenth Bryant’s final run on back to back singles by Bob Antignano and Norm Trahan, Bryant’s third run. Nichols snapped the score again on the bottom half of the tenth Bryant’s final run on back to back singles by Bob Antignano and Norm Trahan, Bryant’s third run.

**Table Tennis Results**

The finals of the first Bryant College Table Tennis tourney was held last Thursday in the gymroom. In the finals were Leroy Owens and Bernie Formal. Bernie got into the finals by defeating Ken Chin three games to one, losing the first and then defeating Kenry in the next three. Next Bernie met Neil Goldman. Neil quickly won the first game, but Bernie came back to win two. Neil then won a very close fourth game forcing the match into a fifth game, which Bernie quickly lost.

The class B finals were then held before the finals were finished. Mark Gohlick played Bob Finnegan. Mark won a very close first game 12-10 and a better played a 2nd game 21-19. At this point, Bob was tired and lost his third game 21-14 as Mark Gohlick won the class B started to hit 100%. Bernie then started to play offensively but Leroy’s offense was too good. Leroy won the next three games to win the finals 3 games to 1. I would like to thank the Archway for their picture coverage of the finals, which was zero.

**Softball**

from page 14

JACKS and TEP, to lead the way. KT-A will play the winners bracket championship game between TRE-A and DeltaSig, for the losers bracket championship. The winner of the winners bracket championship will play the winner of the losers bracket championship for the overall men’s division championship.

**P.C.** from page 13

The bigger university track teams in New England. On the Bryant side of the picture, the Bryant track team deserves a lot of c. In practically every event at Bryant has entered, this is the first time the team has managed to give Coach Reinhardt a substantial amount of team points. The final score of Saturday’s meet was Providence 131 1/2, Bryant 103, Gordon 25, Clark 7 1/2, and Rhode Island College 4.
You thought the war was ending.

You were wrong.

Maybe you made the same mistake as everybody else. You thought the war was over — at least as far as you were concerned. Sure, people were still dying — but they had yellow skins. That's not the same as your skin.

But you were wrong. The war isn't over. It's just been moved up about 30,000 feet.

One man can really end it.
But he needs your help.

George McGovern will end our involvement in the war. All of it. Immediately. IF he becomes President. Of course you knew that all along. But maybe you thought he couldn't get the nomination. And maybe you thought nobody could beat Nixon.

Now Massachusetts has shown you were wrong again. George McGovern CAN win. He DOES appeal to a broad range of Democratic voters. And he CAN win here. And as for Richard Milhous Nixon — somebody had better beat him, or we'll have four more years of “winding down the war.” — by means of more planes, more bombs, more human misery, and who knows? Maybe more troops for that “last big push that will finally win it.” And maybe you'll be one of those troops.

This war has got to end. You couldn't make Richard Nixon really end it if you demonstrated every day, all day, from now until November. But you can help George McGovern end it.

We need bodies. And we need more than we've been getting. We must send a message to New York and to California that George McGovern can win. And most important, we've got to send that message to the Democratic Convention in Miami.

Whatever you've done so far, it's not enough. Call us at 274-1660 and volunteer to do the hard and unglamorous work of canvassing for George McGovern. That's the way to demonstrate effectively.

Let's make some real changes in Washington.
God help us all if we don't.

Call 274-1660
to volunteer

President McGovern '72
