Architect Chosen For New Campus

Idealized campus layout submitted by the architectural firm of J. Robert Hillier. This is only a tentative layout of the proposed buildings, and not in any way a final design.

The Executive Committee of the Board of Trustees of Bryant College has named the architectural firm of J. Robert Hillier, Architect, as designer of master plan phase I of the Tupper Campus. J. Robert Hillier is a Princeton, New Jersey, based firm that has to its credit the planning of buildings for Drew University, Fairleigh Dickinson University, and Rutgers University, among others.

Mr. Hillier met this week with the members of the long-range campus planning committee to discuss the services performed by his firm. This committee is composed of four members of the Board of Trustees, with Dr. Heslelt, Dr. Mercier, Mr. Delmonico, and Mr. William Smith representing the administration; and Mr. Boulet, Mr. Clark, Mr. Reynolds, and Mr. Manion representing the faculty. The committee is also composed of four ex-officio members; Dr. Jacobo, Mr. Hagan, Mr. Cedergren, and Mrs. Hochberg.

Advising the committee are Administrative and Faculty Department Heads, in consultation with members of their respective departments, and by a Student Committee consisting of John Horton, Donald Dutcher, Meredith Fetter, Douglas Heslelt, and Robert Munro. Mr. Hillier has stated that members of his firm will take up residence in Providence while the master plan is being drawn up. This will insure constant lines of communication between the architect and all members of the Bryant College community. Work on master plan phase I will begin immediately and run until approximately June 1. If work proceeds as anticipated, it is possible that occupancy of the new campus may take place by the fall of 1971 or 1972.

One of Mr. Hillier's basic proposals is to divide the campus into three sectors: live, learn, and play. This can be seen in the idealized layout of the campus appearing on page one. It should be noted that this is merely a tentative layout, and not in any way a set design. President Hoslelt has repeatedly stressed that the final decision on the plan will be the result of the collective judgment of the entire Bryant community.

Coordinating the living and recreational aspect of planning is Dean William C. Smith. Under this heading falls the planning of dormitory and gymnasium facilities and other related areas. Dr. Mercier will coordinate all planning in the area of academics. The faculty will meet with Dr. Mercier, yet at the same time will meet independently with their respective department chairmen. Administrative planning and related services will come under the direction of Mr. Frank Delmonico, Mr. Joseph H. Hagan, Director of Planning and Development, will be overall coor­

dinator of the project, reporting to the Chairman of the Board of Trustees and the President.
Youth Fare To Be Abolished - Unless . . .

By Lynne Gittings

Well, here you are at, Hillsgrove yielding a large unready airplane. You buy your $89 youth-fare identification card in your pocket. It's Spring recess; the dormitories are quiet. You have planned on catching a one o'clock plane that gets you into Washington, D.C., at two. Your parents have made special arrangements to be able to meet you. You make your way to the ticket counter where you are informed in twenty-five words or less that youth fare has been abolished. Where do you turn next?

Unfortunately, this may be the fate for students at Bryant as well as those from colleges and universities all over the United States. Complaints by several bus companies concerning reductions in plane fares for youthful travelers have been forthcoming for some time. The Civil Aeronautics Board at first refused to consider the complaints, but last year National Trailways Bus System, a trade association of bus companies and TCO Industries, Inc., won a Federal court order requiring the CAB to investigate. The bus concerns assert that complaints of youthful travelers unfairly dis-
The Case of the Floating Coffin

Claude Frickevel was awakened from his light sleep by the conductor's monotonous voice dreaming out "Dinkleville... Dinkleville," this trip to Dinkleville. Claude arose from his seat and made his way back through the car to the exit and jumped to the station platform.

This was the dream of forty years, to return to Dinkleville, the town of his birth, the one place left in Claude's narrow world where no one hated him.

The train station was older now, and in a terrible state of disrepair. As a matter of fact, it was about to collapse. But still it brought back memories. Claude walked through the station and out to the main street; it was obvious that the station had not seen a traveler in many years.

As Claude walked the old street, he became aware of its absolute desolation. There was no one in sight. There were no barking dogs, or screaming kids, or noisy wagons, or vendors selling their wares; only silence. The street was more grass than pavement, and in many places the years of rain had worn small caverns into the once busy thoroughfare.

Claude turned the corner and passed the village green. But the village green was green no longer. Instead there were brown weeds and stacks of tumbleweeds adorning its once neat landscape. This green had seen many happy years. Many parades with their gayly colored marchers and brassy bands had tramped the grass; but no longer.

Claude turned into the street where he once lived. All the houses were still there, just as he had remembered them. But now they were empty, as were all the other houses in town. Many had boarded up and many were just left open to the elements. It was getting dark now and the empty homes and street took on eerie and shadowy characteristics.

Soon Claude came to his own home. It was empty like the others, and abandoned. He stood for several moments before attempting to enter. Perhaps he was wondering about the houses' occupants; he had heard nothing from them for at least thirty-five years or more. Finally after peering a hole from the front window he managed to gain entry.

He was in the den now. It was different than he remembered. All the furniture was still there, but now it wore sheets and a thick coating of dust. The power was off, and Claude had no matches, so navigating was at best difficult. As he worked his way through the den he noticed a light coming from the living-room. Perhaps it was a reflection from the sun; but that was impossible, for the sun had set ten minutes ago. He entered the livingroom to investigate, and to his shock there was a coffin sitting in the corner of the room with a single candle burning atop it.

As he approached it, the coffin began to rise from the floor and move in a circular motion about him. He was in the middle of the room now; too far from the door to run and too scared to try. The coffin kept getting closer and closer. The circle got smaller and smaller. The situation was getting serious. The coffin was very close now and getting closer. With only a few seconds left before the coffin would be on top of him, Claude did the only remaining thing; he reached into his pocket and pulled out his Smith Brothers Cough Drops, popped one in his mouth, and the coughin' stopped.

McGovern Named Honorary Phi Tau Brother

Congratulations also to Bill McGovern on his becoming an honorary brother of Phi Kappa Tau. We are all very proud to have a man with Bill's attributes in our fraternity.

Congratulations to the basketball team on two victories against Duta and T.E.P. With the talent available Coach Rod Nicotelli is hoping to have a very victorious season.

As a result of a lot of hard work and planning, Phi Kappa Tau has set up its first Alumni Weekend. Past brothers will be present at our Chapter Installation and will attend an alumni party and banquet in their honor. The brothers are looking forward to the weekend so they can reminisce about the old days when KT first started. The data set for this is the weekend of March 25.

Now that two weeks of pledging has passed, all fraternities will agree that everything is moving smoothly with the new length of the programs instituted. Many pledges are progressing in the strong tradition of KT.
U.S.S.R. Not For Middle East Peace

By Barry Sapirstein

On Thursday night, General Itzhak Rabin, Israel’s Ambassador to the United States, presented an interesting address at the Ayres Hall on the Brown University campus. General Rabin was commander of the Israeli military during the recent war. He has been at his present post as Ambassador since March of 1966.

General Rabin was born in Jerusalem in 1922. He was taught farming by his father and at this time enlisted in the underground army during the British Mandate. He started as a guerrilla fighter and climbed to rank of Commander of the Israeli military during his twenty-seven-year career.

General Rabin presented himself with three questions which in answering he hoped would explain the situation in the Middle East. His first inquiry was to what extent can peace be achieved or our cause be judged as a ‘failure.’ Before answering the questions, he clarified some points for the audience. "The Arabs can lose many wars and still survive, whereas the Israelis have always been ‘defeated’," General Rabin quoted the first Prime Minister of Israel, Mr. Ben-Gurion, saying in explaining in what manner Israel must protect herself at any cost. Peace can only be achieved if the two parties make the peace themselves. A forced peace from the outside will not be a lasting peace—a lasting peace is wanted by the Israelis.

The Israelis want recognition, open boundaries, and a free exchange of thought and ideas with all the countries of the Middle East. General Rabin mentioned that there would not have been a war if the Russian military advisors in Egypt had thought the Arabs would lose the conflict. They were sure the Arab nations would defeat Israel. One of the reasons why peace has not been achieved in the Middle East is that the Soviet Union does not want peace in the Middle East. The Soviet Union wants a political solution short of peace so there will be an ever-constant tension in the Middle East.

The second inquiry was the absence of realistic prospects for peace in the Arab world. The Arab nations will not try another war in the Middle East because they fear another defeat. The Soviet Union will not back another war in the Arab nations because the Arab nations will not fight alone. The reason why the Soviet Union will not back another Arab war is that the Arab nations will lose the war, and she will not risk another defeat. Israel does not need the military advisors to help her win a war. The Israeli soldiers do not want another war, they hate war. To avoid future wars, it is their hope to make Israel strong both politically and militarily.

The last inquiry is, to what extent in the absence of peace, living in the shadow of another war during guerrilla warfare, will the Israeli people fight the Arabs for a good country? Israel wants to build a good country in the Middle East. It is building Arab ideals and Western democratic ideas. The Israelis wonder why the Arab media, just tells about Israel’s conflicts with the Arab nations and not about the national programs. She is building schools, factories, irrigating land, and helping herself nationally, but none of this is ever publicized. The Arab nations seize 600,000 refugees and put them in camps. They do not support these people; the United Nations does not help. Eighty percent of this money comes from the United States. The Arab nations seize Arab land and wealth of 600,000 rich refugees. About 100,000 of these people live in Arab countries and Israel allows its refugees to live in Israel or return to the Arab nations. Israel also requires the Arab nations to allow the refugees in the camps, but she cannot take them into Israel alone.

Israel does not need the Arab

(Continued on Page 5)
Zayre Exec. Outlines Retailing Future

By Sheldon D. Schwartz

Last Monday, Delta Omega Professional Society held its things including the scheduling of the school year and was happy to welcome as its guest speaker Mr. [name], an executive representative from Zayre Corporation. In 1965 Mr. Kaplan began his employment with the Zayre Corporation as an Internal Auditor. When his training had ended, he became a Senior Internal Auditor responsible for the opening of new stores, the training of new store personnel, and the maintaining of operational policies within the stores. Since 1965, Mr. Kaplan has been in Personnel Administration where his duties are varied.

Mr. Kaplan’s talk was directed toward the Discount Store Industry with emphasis placed on the inner workings of Zayre Corporation itself. He commented with a short history of Zayre, stating that the first store was established in 1956 at Hyannis, Mass. In 1956 the company grew to six stores, in 1960 to ten stores, and has since developed into a chain of stores that are taking a volume of $600 Million.

He stressed the success which discount stores have achieved during the last decade and cited the population trend as the principal factor in the migrations of people from suburbs to have made the discount store concept one of the most successful and well-ventured.

The success of Zayre’s,

Mr. Kaplan explained, was due largely to its proper time of entry into the industry, the type of merchandise which it sells, and its attractive prices. Zayre stores carry hard and soft lines made especially for Zayre’s and a mix of popular brands.

In addition, no defective merchandise or “seconds” make up any part of Zayre’s Soft Goods Inventory. Mr. Kaplan next explored some of the operational aspects of his company. He noted that unlike many conventional retail department stores, Zayre stores do not have Merchandise Managers, Promotion men, Buyers, Assistant Buyers, etc. Rather, its organizational chart consists primarily of a store manager, Assistant Store Managers, and Department Managers. The entire operation of the store, including Merchandising and Promotion is the responsibility of the Store Manager. All buying, however, is done centrally — that is, for all stores at once. This ordering in vast quantities is what enables Zayre’s, and other discount stores, to offer such low prices for their products.

Zayre’s orders Merchandise by a computerized register system. With this system in place, the cashiers ring out a computerized punch tape which records the type, quantity, and style number of the goods leaving the store. The tapes of each store are sent to the main headquarters and fed into computers which tabulate the merchandise sold and determines the total amount of merchandise to be ordered from vendors of all the cities.

This process is also called the Automatic Replenishment System.

Mr. Kaplan concluded his speech with an outlook on the future of Zayre Corporation. Its rapid expansion has been the greatest challenge for the business. However, to follow an organization very much similar to that of Sears and Roebuck Co. which has regional centers located in different sections of the country. By 1971 it is expected that Zayre’s will have established ten such regional centers, each being responsible for the profits of the store in its area.

A speaker painted a very bright picture for the future of Zayre Corporation. The company has been projected to double in size within the next five years, having a chain of 360 stores and operating in the vicinity of $1 Billion.

A question and answer period followed Mr. Kaplan’s talk which proved to be very stimulating. Not only were his interesting guest speaker, a handsome steel dinner, and the bright atmosphere of the Adolphus Inn Restaurant the ingredients which made this first meeting of Delta Omega another very successful evening.

Cut System (Continued from Page 4)

your grade. However, it is certainly far from proper for you to think that a faculty member is going to do you any favors at the end of the semester when you didn’t even have enough interest now in the course to show up for classes.

The purpose of the initiation of such a cut system is so that if you miss a number of classes, you are still allowed to take a final without having to get on your hands and knees with a sob story. Also if one has to miss a day of classes for a legitimate reason (at least one the student feels is legitimate) he does not have to make explanations to the professor. However, it is still wise if you are not, and don’t like to make a habit of it, to let your professor know why you are out. In this way, you are showing your interest in the course. Let’s try to make some good stories, please!

A Comment From Dr. Haslett

The following was received in a communication from Dr. Haslett. It is interesting that the discussion of the regressionapproval of the cut system.

“Since sincerely hope that each student will react to the less stressed with a sense of responsibility and demonstrate that better, not poorer, scholastic performance is the goal of this change. There are certain undesirable situations which may result from extreme reaction to the more permissive regulations which should be pointed out to you here.

Excessive cutting before and after holidays might very well reduce some classes to the point where the classes would be canceled, thus reducing the number of contact hours and creating an unhappy feeling on the part of those who did report for the class. In some schools this has been carried to the point where fines were levied for failure to attend prerequisite classes. Specific attendance regulations may have to be set up for this and other problems areas unless student reaction is characterized by "auto-

Please keep in mind the fact that the new policy will be reviewed at the end of the trial period to determine whether it has had a beneficial or detrimental effect on the morale and efficiency of the administration of the College. Let’s make it a successful experiment.”

As a student I ask you to take this new cut system seriously so that we can prove to the administration that we are as ma-

As I RECALL, THIS WISH — YOU MADE THIS LAST APPRENTICE TO TELL ME YOUR PLAN TO MAKE UP ALL THE TIMES YOU OWE ME."
PLEDGE ACTIVITIES -- FIRST WEEK

Good News for Pledges: It's 1/3 Over
By Sharon DeMerchant

Well Pledges, one-third of pledging is already completed! Maybe now people will believe us when we tell them that we have adult pledging.

Congratulations to Rosie Rotundo for being elected Pledge President.
ASA had another very successful cake sale. Our pledges really did a great job helping to bake and sell. Betty Crocker would be very proud of you.

We've heard of sand kicked in your face, but this is ridiculous! This is the hard way to eat a SAND-(snow)-wich.

The future brothers of Zeta Beta Tau Fraternity huddle around their new mascot, Moish. Following the completion of the mascot, the pledges took turns guarding and caring for their new found friend.

National College Queen Pageant
One of our students, here on Bryant's campus, could be the next National College Queen. The winner will receive more than $5,000 in prizes, including a trip to Europe and an automobile. One college girl from every state will be chosen and then be flown to West Palm Beach to compete for high honors.

This Pageant is the annual event which gives recognition to students for their scholastic ability, leadership qualities as well as poise and personality. For full details—and a free entry blank—just write to National College Queen Contest Committee, P.O. Box 935, Anderson Station, N.Y., N.Y. 10023.

Pledges seem to keep their noses to the grindstone as the program or indoctrination continues without a hitch. This was part of one fraternity's study of local ancient landmarks.

---

The brothers' cars received a long deserved bath, only to drive into a blizzard the following day — much to the chagrin of hard-working pledges.

After this session with the brothers, one pledge will have little problem fitting into his desk today.

SQUEEZE THE LEMON!!
This appears to be the cry of one delighted pledger as he "squeezes" a pledge through his paces.

Story Of A Secret Bryant Fan

By the Sports Reporter

In watching the exciting Bryant basketball game the other night against Sacred Heart University, I noticed a young man who looked no more than 10 years old cheering his lungs out for Bryant. The cheerleaders mentioned they had seen him before, but no one was sure who he really was. The sports reporter decided to talk to this young man and find out a little more about his interest in Bryant.

His name is Steven Zerelli, nicknamed Steve, 11 years old, from West Haven, Connecticut. He has a great interest in sports of all kinds and became interested in the Bryant team when he heard of Bryant's record through one of the students at Bryant.

He attended the soccer game that Bryant played against New Haven College in New Haven. Disappointed with the way the Bryant team was playing, he sat through the entire game making comments. One comment he made to a Bryant student, while watching the game was, "Hey, when we play down at the school we play better than that." At the soccer game, the first time he saw Bryant in action, he watched intently making comments about certain plays this writer didn't even understand. He said he realized this was Bryant's first year so it's tough, but he looks forward to a successful season next year.

Steven Zerelli was one of the angriest people at the referees, aside from the coaches and the team. There were times when he yelled out to the refs such choice words as "Put on your glasses, you're missing a good game" and "How much are you getting tipped by Sacred Heart." At one point he got so angry he wanted to trip the ref as he went by, but Steve didn't.

Steve went small and unobtrusive when he wanted to get autographs of the team, especially from his favorite player Ben Hillman. But whenever a game in overtime created so much excitement that Steve, with his little red and pen, was lost in the crowd, which was congratulating the team for a job well done.

The biggest thrill of the evening for Steve and for some of the players was when he was invited into the locker room to get the autographs of members of the team. He didn't know who was more excited—the team or Steve.

On his way home from the game Steve commented, "I don't think I could take another game as close as this one. I'm sure the coaches and team would agree.

Today Steven Zerelli is proud as he marks down the score of another victory for Bryant on the schedules which he proudly displays on his wall with his newly signed autograph of the team hanging next to it. He can't wait till someone can take him to another game.

Bryant should be proud of Steven Zerelli. Wouldn't it be great if more Bryant students had the same spirit for our team.

We have a team to be proud of—even if it takes a ten-year-old boy to make you realize it.

TKE Over Phi Sig 50-29

The TKE basketball squad added another victory, with a convincing 50-29 win over Phi Sig. Good all-around play by both the starters and substitutes provided the TKE men with their second win in as many starts.

Congratulations to alumni Brother Kenny Silvas on his recent marriage. All the Brothers would like to give their congratulations and wish him well in the future.

Thanks to Brother Matty Peruck for his great wedding party. Everyone had a fantastic time. Also, Delta Sig's annual P-Party was a booming success. Next year, however, gives our pledgees a chance to relax during pledging's trying times; it also gives the opportunity to meet new and interesting people.

Skill Department Expanding

After experiencing two defeats at the hands of TKE and Phi Tau, TEP's basketball squad is eager for success in the skill department. Coach Rick D'Amato has some fine players in D. J. Duflo, Ira Stone, Bob Gardiner, Gene Bibe, Al Cooper, and Marc Petruzi, and with a little shaping up, the team could very easily end up high in the fraternity standings this season. Of its two first games, TEP did very well against a more experienced Phi Tau team.

Larry Evans is to be congratulated on his new post as G.L.C. representative for the planning of next year's two fraternities' weekends.

Finally, as TEP's pledge program finishes its second week, all fifteen of our pledgees seem to be doing well. Just remember, pledges, don't give up!

Both Sides Shoot Well

Delta Sig's basketball team opened with a convincing victory over ZBT last week. The hard-fought game was marked by excellent shooting on both sides. Leading the way for Delta Sig in scoring was Fran Roib who tallied 21 points. Jerry Campanella's playmaking and Al Wolfe's board work were decisive in any victory. Our basketball team really played well, and if this is any indication of how they are going to play in the future, we certainly must be considered contenders for the championship.

Congratulations to alumni Brother Kenny Silvas on his recent marriage. All the Brothers would like to give their congratulations and wish him well in the future.

Thanks to Brother Matty Peruck for his great wedding party. Everyone had a fantastic time. Also, Delta Sig's annual P-Party was a booming success. Next year, however, gives our pledgees a chance to relax during pledging's trying times; it also gives the opportunity to meet new and interesting people.

The brothers of Zeta Beta Tau would like to congratulate the members of their 1959 Pledge Class: Glenn Adelson, David Arai, John Rosewall, Mike Bower, Gary Bower, Bill Field-

ways. The outstanding con-

Bob Yeates was also named all action in the closing min-

Coach Billie Steers's

Running off 13 consecutive points late in the second half,

point of the game seemed to be when Coach Adelson shouted Don Gray for Ben Billie when

Don Gray got into foul trouble. Don

This was the first time in defense and drove in for layups each time to the Indians safely ahead. Ben

Don has recovered from his bout with mononucleo-

and looks to be at full strength now, a fact which will be very helpful to the team in its drive for a berth in the N.C.A.A. Tournament at the end of the season.

Gray was the high scorer for the game with 14 points, fol-

lowed by Ben Billie and Dave Greenblatt with 12 each. Greenblatt along with Bob Chuprevich helped control the boards.

Sunday night, the day of the big snowstorm, the Indians<br />

the hot shot of Dave Greenblatt who had 24 points, victory defeated Nason College 89-79 before a crowd of 250 people at the Griffith Gymnasium.

Tuesday night, the Indians traveled down to Bridgeport, Connecticut, to play Sacred Heart University. The final score of the game was Bryant 76, Sacred Heart 92 in overtime.

Ben Billie scored 6 points in the overtime game and in

Bryant overcame the loss of 6 players on fouls to defeat Sa-

red Heart. Greenblatt, Gray, Peckham, Zilliol, and Chupre-

vich all fouled out of the game.

The Indians were unable to catch up the loss of George Yates, who did not play at all because of a stomach ailment.

The Sadie Squad and Ben Billie helped the Indians win the
to victory in the overtime period.

Bryant was behind 58-55 with one minute gone in overtime when Bob Chuprevich fouled out. Ben Billie taking the effects of a leg injury then took command and led Bryant to victory, with 2 foul shots and 2 baskets.
