Salmanson Gets a Facelift

Submitted by
ARA Services
A few weeks after the last issue of The Archway was made, the oldest resident of the Old Hall, the Salmanson Dining Hall, has been renovated. The new edition of the dining hall has been renovated and is now ready for students to enjoy.

The new renovation includes a new dining area, added seating, and a new menu. The new menu includes a variety of dishes, including vegetarian options.

The renovated Salmanson Dining Hall is open for business and welcoming students to enjoy their meals in the new environment.

Service Theme for Convocation

Susanne Martone
The Archway Staff Writer

The Archway Staff Writer is pleased to announce the upcoming Convocation, which will take place on the campus.

The Convocation will feature guest speakers and entertainment, including music and poetry. The Convocation will be a special event for the entire community.

Financial Aid Director Speaks Out

Julia Aroschen
The Archway Staff Writer

Director of Financial Aid Jim Dorrian addresses the issue of financial aid.

What happened to the student's need for financial aid?

Jim Dorrian: At the end of March, the financial aid budget was updated to reflect the current need of students.

What happened to the student's need for financial aid?

Jim Dorrian: At the end of March, the financial aid budget was updated to reflect the current need of students.

What did financial aid decide to do to accommodate these students?

Jim Dorrian: We have decided to increase the financial aid budget by $2,100 for the next academic year.

How did this increase affect financial aid?

Jim Dorrian: The increase in financial aid will help students with their current financial needs.

Expanded Use Of Point System

Bryant “One Card”

Submitted by
the purchasing department

All resident students, other than those residing in a townhouse, must participate in a meal plan. If you purchased a Meals Plus Plan, you will be entitled to a number of meals, plus there will be a balance of “points” on the card which may be used as discretionary spending money at the following locations:

The Bagel Express, Bookstore, Heritage Dining, The Scoop, Subway, Toppers, Images, The Info Desk. Within a few weeks, your One Card will also enable you to use the laundry facilities and soda machines located in residence halls and townhouses.

Students and staff desiring to purchase points for use with their Bryant ID - One Card may do so at the Bursars Office. There is a minimum purchase amount of $25.00. The value of points purchased will be available for the following days usage.

The College has also negotiated agreements with Automatic Laundry and Coca Cola for the use of points on their equipment. Over the next several weeks, equipment will be installed which will allow students to activate washers, dryers and soda machines with the debit or vending stripe on the One Card. In the interim, the machines will operate as they did in the past, by depositing coins. Once the system is fully operational, students will be able to use either their Bryant One Card or cash.

To operate laundry or Coca machines using One Card, students will need to obtain a new ID card in Public Safety which will have two magnetic stripes. There will be no charge for your replacement card. However, you will be required to exchange your current ID card for the new one.

Public Safety will publish times when photos can be taken for the new ID card.

For your convenience, there will be two Card Value Centers (CVC) installed on campus. One will be located outside Faculty Suite A (across from the ATM machine), the other will be located in the Bryant Center near the exit from the South Dining Room. These machines will allow users to transfer points from the 38" ABA stripe, to the 1 1/4" vending stripe. Users can increase the value on the vending stripe by inserting currency in the CVC units. The CVC will accept currency in the following denominations: $1, $5, $10 and $20 dollar bills.

Please Note: If you lose your One card, anyone finding it will be able to activate Coke machines or laundry privileges. Having dollars on the vending stripe is like having cash. For this reason, we are restricting the dollar value allowed on the vending stripe of your ID to one dollar at a time. You may add cash to the vending stripe at any time, by visiting either CVC unit. Since these are strictly student funds, please be careful with it.

As in the past, if you should lose your Bryant ID, please report it to the ASA office immediately. ASA will continue to lock out cards for dining hall entry when the card is reported as lost, but we cannot prevent anyone from using the vending stripe.

As this is an entirely new procedure here at Bryant, we ask that you please work with us in gauging the maximum benefits allowed. Please direct any questions, concerns or thoughts on this new system to Pauline Fisk, Manager of Support Services, at extension 6320.

The Archway would like to dedicate this issue to the memories of Finance Professor Jack H. Rubens and basketball player Omar Shareef.

Bryant will miss these great men.
Feeling a little lost on campus? If you are like most freshmen entering college for the first time, you are probably confused and a little bit scared. After all, this is a big transition in your life. But there are ways to make life at Bryant more comfortable. By getting involved with one of the approximately 60 organizations on campus you will not only be gaining valuable experience, but making life-long friendships. For most, these options may be better than playing ping-pong and Sega which have traditionally been favorite freshmen pastimes.

Why get involved? When you enter the "real world" in your short years, employers are looking for effective leaders and managers. The only way to gain this experience in college is to get involved with the organizations on campus.

In the campus scene section of this issue there is information on some of the organizations available. The best thing to do is to check out the signs hanging in the rotunda and Bryant Center and attend a few meetings. This way you can find your own special niche.

You may choose to be a part of the representative body of students through the Student Senate, or become active in planning campus activities and entertainment through the Student Programming Board (SPB). You may choose to become part of campus media through WMFE, the on campus radio station, The Ledger, the campus yearbook, or The Archway. There are also fraternities, sororities, athletic and intramural teams to join. The list goes on.

Many of today's student leaders on campus joined their organization freshman year. Talk to them and they will tell you they wouldn't be where they are today if they hadn't attended the first meeting.

Even though you are here primarily for an education, there is so much more to learn outside of the classroom. Consider it part of your education to get involved. These are the best years of your life - make the most of them.
Bryant Remembers Teacher of the Year Jack Rubens

Julia Arrochon
Arrochon Staff Writer

Bryant students will miss Finance Professor Jack Rubens this fall for several reasons, among them his relaxed attitude and affable demeanor and his challenge to all students.

Rubens was 38 when he died of a heart attack on June 15, the same day he was scheduled to give a presentation on the influential economics theory of John Maynard Keynes.

The cause of death, according to friends and students, was a heart attack. The Medical Examiner’s report, which is pending, will determine the exact cause of death.

Rubens’ teaching style was characterized by his enthusiasm and his ability to make complex economic concepts accessible to students. He was known for his ability to connect with his students and for his infectious love of the subject.

Rubens was a member of the faculty at Bryant for almost four years. He was a member of the faculty at the Bryant’s department of finance and an associate professor of finance.

Rubens was a member of the faculty at the Bryant’s department of finance and an associate professor of finance.

Students voted Rubens as Teacher of the Year last year along with Science Department Chair Doug Levin.

Rubens previously taught at Kent State University, Ohio and Cleveland State University. In addition, he wrote numerous articles on banking, finance and real estate. His excellence was recognized by some of the positions he held: charter member on the board of directors of the American Real Estate Society; member of the editorial board of the Journal of Real Estate Portfolio Management, and co-editor of the Journal of Real Estate Literature.

"Jack had many talents," said Vice President of Academic Affairs Michael Patterson. "He was a fine teacher, a successful researcher and a strong academic leader. The common thread running through all these abilities was a very sharp mind." He added: "We will miss him, but we will always remember his contributions to our university and to our students.

A memorial service will be held on October 17 at noon in Rooms 2A and 2B in the Bryant Center. A memorial scholarship will also be established in Rubens name.

Finance Professor Jack H. Rubens

Bryant Mourns Basketball Player

Angelo L. Corradino
Arrochon Staff Writer

Omar Shareef, a 20-year-old Long Island native and a forward on the men’s basketball team, died Sunday, August 14 as a result of injuries suffered in a car accident.

Shareef, more affectionately known as "O," was a passenger in the back seat of a Ford Bronco which struck a utility pole near his Long Island home. He was pulled from the truck and taken to an area hospital where he remained in a coma until his death.

News of his death hit the Bryant Community hard. Concerned students and followers of the basketball program phoned the school for information. Members of the men’s and women’s basketball teams also attended the funeral services in Long Island last month.

Shareef, a 6-foot-5, 195 lb. forward for the Bulldogs, was a member of the class of 1996. The Elmont, NY, native played high school ball at Long Island Lutheran, where he was a member of the Atlantic Coast Conference basketball team.

If you’re in the financial fast lane, TI Business Calculators make the most sense. Try one at your local TI retailer today, or for more information, call 1-800-TI-CARES.

EXTENDING YOUR REACH™

Texas Instruments
and college. Even those students who gain weight among incoming students usually put on extra pounds. The obvious answer is what you eat. Thankfully, there are some simple tips:

- Eat sensibly. It may sound simple, but many fall in a trap of not eating properly. It is important to consume lots of fruits and vegetables and avoid eating a lot of junk food high in fat. If your body is used to eating cereal for breakfast, a sandwich for lunch and dinner, don’t start your day by eating French toast and a doughnut for breakfast.
- Limit sweets. Admittedly this is not easy to do when there is chocolate cake staring you in the face as you enter the line. Do not compensate for a bad dinner by eating two bowls of ice cream and cookies. Not only are these foods high in fat, but they aren’t nutritious either.

Avoid ordering pizza at 2 a.m. It can happen before you even realize what you are doing! First you are hungry and then you find out other people on your floor feel the same way. Soon you are devouring needless calories and grams of fat.

Stay active. You will definitely gain weight if you eat everything bad for you and then sit all day long while you study. Join the fitness center, an intramural sports team, or take a walk. Not only will the exercise increase your metabolism, it will also reduce stress.

Be an educated eater. Read the nutritional information ARA provides and select those foods lower in fat.

However, if you do gain weight, don’t panic. Almost everyone does their first year! Eventually, you will learn the right way to eat while you are in college - just in time to cook your own food in the townhouses.
A World Of Firsts

Cindy Gale
Archway Editorial Consultant

I've sat here, staring at this computer screen all day trying to come up with a topic for a Welcome Back Article which would give you a comical and in-sightful look into college life.

I pondered talking about bringing too much stuff to college, living with a roommate, food, the laundry, even the food from ARA.

But none of them seemed to work.

I finally sat back and thought a minute and realized what all these things had in common...at one point, they were all firsts.

You know firsts, the things you do for the very first time you will never, ever, ever ever forget, college is four years of firsts.

For most of us, it is the first time we are away from home, the first time we are in a room or a place of your own, the first time you have to eat food not served by your Dad and Mom...and on and on.

Being away from home is difficult. Enough said. Here they are, in a strange place with people you don't know, where you are to spend the next eight months of your life.

You have to adjust to a new way of living, and sharing your bathroom with several other people, but most of all, you have to get used to living on your own for the first time.

Yes, that's right! You don't have to answer to anyone anymore! No one will yell at you if you come home at 3am on a school night, if your room is a mess, or tell you to eat your vegetables. It's all up to you, which can be fun, but can also be very scary.

It's true you can do almost anything you want, but there are times you will miss home very much. Getting sick first time away from home is not the greatest feeling in the world. You miss everything from your favorite show on television to your bed. But it's all part of growing up and being on your own, and after a while you do get used to it.

Freshman year is a world full of firsts waiting to be discovered. You have to share a room with a complete stranger, which could be a nightmare, especially if you are living with someone for the first time.

If you have roommates with a sibling most of your life, having a roommate will probably not be that different.

But living with a complete stranger in a strange place can be difficult. After all, you have to tell Mom or Dad your roommate is being annoying and expect them to do something about it.

You also eat your first college meal, and we all know what a tasty treat that is. We'll never forget that first meal and neither will our stomachs. Then, there is the first cell phone, the first new friend, the first exam... you don't have to answer to anyone anymore!

Off The Shelf
Colleen Anderson
Reference Librarian

American and European periodicals.
The library is open Monday-Thursday from 7:30 a.m.-Midnight, Fridays from 8 a.m.-9 p.m., Saturdays from 10 a.m.-6 p.m., and Sundays from Noon-Midnight. The reference staff includes 3 professional reference librarians: Tom Magill (x5278), Colleen Anderson (x5279), and Connie Cameron (x6299).

The reference librarians are at the desk to answer general questions, direct you to specific reference sources you may need, and to assist you with your research topic.

Simplify, simplify.

Henry David Thoreau

Hey, that’s not a bad idea.

The Hodgson Memorial Library offers students one of the most technologically advanced library collections in the Northeast. The library houses 12 database products, including UMI’s Power Pages. Power Pages consists of five different indexes networked together to provide the user with comprehensive coverage of national and regional business news and research as well as general interest articles. The network also has the capability for full-text reproduction of many of the indexed journals, a feature that allows patrons to print out a quality copy within seconds at the network print station. Completing the collection are 125,000 circulating volumes, more than 5,000 reference books and government documents, and subscriptions to more than 1,200

Welcome Class of 1998

Barry Cotter
Director of Health Services
Health Services extends a warm welcome to all new and returning students. We are located in Residence Hall #16 and offer a variety of programs and services.

The clinical staff includes a part-time physician, two full-time and one part-time certified family nurse practitioners, two full-time registered nurses and a health educator.

The hours are Monday thru Friday, 8:30-4:30 P.M. EMTs from the Office of Public Safety are available at 232-6001 when Health Services is closed.

Students who are ill or have health problems are welcome to stop by for treatment and advice.

You may want to take advantage of some of the following programs and services:

1. Treatment for illnesses and injuries
2. Daily delivery of medications
3. List of referrals to off-campus specialists
4. Laboratory services available (can be billed to your health insurance)
5. Disabled student counseling

Dorian,
Cont from Page 1
did not receive financial aid?
JD: There were a large number of students who fell into this category. We contacted their supervisors to see if they wanted a particular student to return because they had special skills or were already trained.

What was the result?
JD: Six students were unable to be referred.

Why was there initial anger over these changes?
JD: I think the word got out that students couldn’t work if they didn’t have financial aid. Our office was getting a lot of calls regarding these issues and students became frustrated if they couldn’t get through. We were able to work with department supervisors. Therefore, students with special skills were able to keep their jobs. It is important for students to remember if they didn’t get asked back to their jobs it was the department’s choice not the choice of financial aid.

What are some of the concerns you have with this new policy?
JD: We are concerned there may be some more departments who will submit requests for rehires. We are also concerned about meeting the need of all the students who want to work. However, we plan to branch out the job opportunities on campus. There will be 52 jobs made available by ARA and physical plant will be looking for help as well.

What if a student really wants to work, but doesn’t have financial aid assistance?
JD: There are plenty of jobs off campus and they are available to anyone. Traditionally students who did not have a car could not work off campus, but now the bus travels into Providence. Many state organizations such as the Northern Rhode Island Chamber of Commerce and some small businesses have contacted financial aid. If a student is interested in finding employment off campus the financial aid office is willing to help place them in job. We are an advocate for the students and we try to support them in any way we can.

“Hey, that’s not a bad idea.”

AT&T Universal MasterCard.

Delta Chi

by Frank L. Milazzo
Welcome back everyone. I hope you all had a great summer because there is a long semester ahead of us. To all the new freshmen the Brothers encourage you to get out and get involved in campus life. Join a club, play a sport, but get involved. If you are interested in Greek life go and check out all the fraternities and sororities. Come up to the second floor of Residence Hall 3 or Townhouses B6 and E1 and visit the brothers of Delta Chi.

We were founded as a law fraternity at Cornell University in 1890. Today there are more than 120 chapters around the world with such distinguished alumni as president Benjamin Harrison and actor Kevin Costner. Here at Bryant our brothers are involved in a wide variety of activities from intramural sports, to helping out charities, to other organizations on campus. So if you get a chance, come up and meet the brothers. Find out all we have to offer you.

Well, I'm out of here for this week. It's going to take a while to recover from the summer. Good luck to everyone first semester. See you on the far side.

Finance Association

by Sandy Connors
Welcome back. I hope that everyone enjoyed their summer break. For new Bryant students, I would like to explain what B.M.A. is all about. We are an organization with 100 members and growing. B.M.A meets every other Monday starting September 19th at 7 p.m. in Pappalardo Dining Hall.

We host guest speakers from every possible avenue in marketing. We are a very active club in campus social events and were awarded Club of the Year this past spring. It is B.M.A.'s goal to continue as a strong and productive group. We look forward to new faces and encourage all students no matter what major to check B.M.A. out. We have a lot to offer, so take advantage.

The club's first meeting is Sept. 19. You will see more details next week.

The executive board looks forward to meeting you soon.

Phi Kappa Tau

by Joe Greenberg
It's the first news article this year and let's make it a good one! I'd like to start by congratulating all of the brothers for their recent installation. It was worth the wait.

Welcome back. I know you're all happy to be here, I know I am. We're looking forward to another great year in the history of Phi Kappa Tau.

We would like to welcome all new freshman and incoming transfer students to Phi Kappa Tau. You are all welcome to come down. We are located in the pit of storm '94. I'm going to be a great year. I can feel it. Phi Tau Top Dog!

SPB

by Sandy Connors
Hi everyone. Welcome back and I hope that you had a great summer.

For all the new people on campus, SPB is an organization that is involved with the planning of many campus wide events, such as movies, comedians, and the four major weekends including Spring Weekend. Our first meeting will be at 8:30 p.m. Monday, September 19 in Rooms 2A and 2B in the Bryan Center.

I hope to see many new faces with new ideas. Come to the meeting to see what we are all about.

Are You A Morning Person?

Then we have the perfect job for you!

The Archway has an opening for a distribution coordinator. Duties include delivering finished paper boards to Seekonk early each Thursday morning and distributing the paper around campus Thursday afternoon.

This Is A Paid Position.

For more information, call The Archway Office at 232-6028
The women's golf team is looking for new members. If you are interested, contact Dr. Kristen Kennedy at 232-6316.

No one will be turned away.

1994 Intramurals Flag Football

1. Returning players physically
2. Meeting
   New Candidates and Veterans Intramural office
   Wednesday, September 14, 4:00 p.m.
3. Tryouts
   Monday, September 19, 3:30 p.m., on the field.
4. Fall games begin September 25, schedule is incomplete.

On Deck
This was relatively easy series with the Rangers sweeping the three games.
Next up for the Rangers, were the Washington Capitals, and once again they swept their opponents to advance to the Eastern Conference Finals.
In the conference finals, the Rangers faced off against the New Jersey Devils who proved to be a worthy opponent.
The Devils won game one and looked to be in control of the series at the start. However, Ranger captain Mark Messier had a different outlook on things.
Prior to game six, Messier guaranteed a win for the Ranger fans. As a result, Messier turned in one of the greatest performances in sports history.
The Rangers were down 1-0 going into the third period, and that is when the captain took over. Messier scored three goals, including an empty netter, for the win, and to force a decisive game seven.
Shareef, cont. from page 3
had his career best game against Bentley two years ago.
In an interview with The Providence Journal-Bulletin, Assistant Athletic Director said Shareef would frequently inspire other athletes looking for a boost.
"Oumar went out of his way to brighten everyone's day. He was a genuinely nice kid," Fichera said.
"When people needed something to smile about, they'd go to Oumar." Fichera believes the shock of Shareef's death will be difficult to cope with.
"Everyone knew 'O, not just the athletes," she said. "It will be difficult in the fall when people come back and see Oumar's name on our honorboards."
