Bet a Iota Beta Becomes Affiliate of Tau Kappa Epsilon

The Brothers of Beta Iota Beta are very proud to announce that as of December 21, 1967, we have become a recognized affiliate of Tau Kappa Epsilon National Fraternity.

Tau Kappa Epsilon was founded in 1899 at Illinois Wesleyan University and has grown to 234 active chapters where it stands as the largest college social fraternity. With its chapters, its Leadership Development, an independent research bureau, its Employment Placement Service, and its non-restrictive membership clauses it helps to bring about in our brotherhood a better world.

As an affiliate of Tau Kappa Epsilon the brothers and future pledges of BIB retain, for the present, their name, activities, constitution, and by-laws. However, the members of BIB will start to use TKE materials for rushing, as well as TKE manuals in pledging and every day operations. This affiliation period will last until Beta Iota Beta completes certain requirements which include submitting a lengthy formal petition. But they expect to be fully chartering by May or early must fall at the latest.

BIB hopes this National affiliation with Tau Kappa Epsilon will benefit Beta Iota Beta, the Greek Letter Council, and Bryant College.

Union Signs Major Policy-Making Agreement

As a result of an agreement made between the Bryant Faculty Federation and the Bryant College administration on the 19th of December, 1967, two new committees have been officially recognized as major academic policy-making organs of Bryant College. The two committees are (1) The Committee on Faculty Rank and Appointment, and (2) The Curriculum Committee. Each committee is composed of representatives from both the Faculty and the Administration.

The Committee on Faculty Rank and Appointment is responsible for considering appointments, salaries, promotions, increments, and the release of faculty members. The immediate task confronting the committee is to establish criteria for appointment, rank, and promotions. The membership of the Committee is composed of the President (ex-officio), the Vice President for Academic Affairs (non-voting), the Vice President for Financial Affairs (non-voting), and three members elected annually by the Bryant Faculty Federation from the faculty of the college. The faculty representatives for 1967-68 are Louis H. Cronk, Associate Professor of English; Henry L. Foley, Assistant Professor of Accounting; and Earle A. Mason, Associate Professor of Business Administration.

The Curriculum Committee's duties are to review the offerings of various programs in all schools of the college and determine the addition, deletion, and revision of courses and degree programs. The Committee's first business shall be to clarify the academic objectives of the college. The Bryant Curriculum Committee is composed of the President (ex-officio), the Vice President for Academic Affairs (non-voting), and four other members elected annually by the Bryant Faculty Federation from the faculty. Current faculty representatives on this committee are Wallace S. Carpenter, Instructor in Business Administration; James R. Estey, Instructor in History; Thomas A. McIvor, Associate Professor of Economics; and Clarissa H. Patterson, Assistant Professor of English and Secretarial Studies.

BRYANT STUDENTS STAGE RALLY SUCCESSFUL SHOWING . . .

Bryant Students have finally awakened to the reality of the world around them. On Wednesday, December 13th, a student-organized rally was held in front of South Hall to present to the administration of this institution certain grievances that had to be aired. The fury on the part of the students was brought to a head the week before when the registrar's office published the new exam schedule for this semester. It happens that the schedule has been tightened up to the point where many students have one exam after another in three days' time.

Among the complaints by students is the cut system here at Bryant. Many feel that, at this point in the school's history, it is time to change—to get in step with other educational institutions.

The problems encountered in taking six courses and in dropping courses, the problems of determining what professors are teaching what courses, the rule that every course must be found to derive solutions to the various exams in a week's time, and the ways that the students found out about our tuition increase and other college developments are among the many reasons which led to Wednesday's rally.

With the coming of Christmas, the rally was appropriately timed. During this season, it was hoped that the soft hearts of our superiors might be found to derive solutions to these and other problems. Let us hope that 1968 will find Administration-Faculty-Student communication helping to remedy problems and increasing understanding among all the interests at this college.
LETTERS TO THE EDITOR

An Open Letter To The Student Body

On the occasion of my resignation from the Editorial Board of the ARCHWAY, I feel that it is necessary to inform you, my fellow students, of some of my reasons for resigning my position. After working on the school newspaper for several years, I have found resignation to be the only course to correct the present prevailing internal problems.

I admit that my experience as a student of the ARCHWAY is to be considered as a major lesson in life. However, simple logic has guided me in the job I have done. I believe that if one is qualified for the position of Assistant Editor, I had hoped for marked improvement in the paper. All can note that over the past few months numerous format and content changes have been made as evidenced by some of the recent issues. However, the prime force which ought to motivate our student newspaper is absent. Simply, the ARCHWAY is not reflected in the student body through the Student Activity Fund. The paper is composed of articles contributed by students required of all of us. The fact that such an activity as the newspaper is put together by the students would lead one to believe that editorial policy is finalized only by the students that operate the paper. Unfortunately, in the case of the ARCHWAY, this is a fallacy. Certain incidents during my tenure raise my concern. Revisions of the newspaper have convinced me that my conclusions as to the causes and furthermore, these problems have led to my decision to resign.

In effect, you, the students of Bryant College are stockholders in the paper and are to be made aware of the problems that are causing the decrease in the quality of the paper. It has been my opinion over the past few months to be a part of the student body. I have had partial responsibility for the make-up of the paper. It is to be realized that the paper is published "BY THE UNDERGRADUATE BODY OF BRYANT COLLEGE." Marvin Friedman

New Year's Dorm Dinner Held

It was New Year's Eve last year when the opening of January 3, when dorm students were treated to a party-style dinner. The only table dressing was a top of popcorn, chocolates, and the music of Bryant's own Social Endevor, the Bobcats.

Three complete serving tables were set up to speed the lines up, but on the dining room was a buffet. Various types of salads, meat and fruit, and all kind of food were available in keeping with the spirit of the occasion.

EDITORIAL

Colleges are newspapers, the voice of the students at most schools of higher learning. The freedom to say what one feels is seldom infringed upon. At times on administrative, faculty, and the student body till the front and editorial pages of college newspapers throughout the country. An editorial position is looked upon with dignity and importance. When an opinion is expressed, common courtesy is shown by evaluating the statement for what it is worth.

The Bryant College Archway falls far short of this sketch of a college newspaper. Students fear writing to the editor because of the possibility of retaliation. Respect for the newspaper is lacking not only by the student body but also by the Archway staff members. The staff join the student body in September in the hope that a newspaper will be published that they can be proud of. Once the writers submit their articles for publication, the work of the paste-up crew begins.

This crew is composed of three Archway editors. Although the crew spends a lengthy period of time determining how the paper is to look and what is to be included in the paper, changes occur that are beyond their control. When students devote as much as ten hours a week to the publication of a newspaper, they find that the copy published is totally different from what was set up, dinamy is taken over by the editor. An obvious attempt at censorship is not to be taken lightly.

Just because the Archway is an extra-curricular activity, it doesn't mean that the paper should not be taken seriously. An obvious sign of the Archway, I feel that it is my duty to remind EVERYONE that the paper is published "BY THE UNDERGRADUATE BODY OF BRYANT COLLEGE." Marvin Friedman

Reflections In An Hour Glass

By V. L. Robinson

The worst of times The best of times

The John Birchers The March of Dimes.

The worst of years The best of years
A vale of tears

The final power

Self-destruction finds The final power

Comas greatest age The final power
Comas basest age A vale of tears

On an eark page

The ambitious man

Seeks to write his name in shifting sand.

**The Archway**

**Wednesday, January 10, 1968**

**Reply to Mr. Friedman**

By Arthur K. Smith
Archway Faculty Adviser

Contrary to the implications of Mr. Friedman's editorial, the Archway has been completely under the control of Bryant College students since the beginning of the fall semester. The writing has been done by the students, the format of the paper has been done by the students, and any censorship actions taken have been taken by students.

It is time for all readers of the Archway to know exactly how the 1967-68 Archway operated. And it is time for low co-editor-in-chief and the assistant editor to operate within the constituted framework of the Archway organization and not either to exceed their authority or to make it look as though they are being censored anywhere they are prevented from being dictatorial.

Making all final decisions about questions of policy, the kinds of articles to be published in the college newspaper, and any other manner of creating controversy are five members of a Student Editorial Board. This student government body consists of Bryant undergraduates, four of whom are on the Archway staff and one who is not. When any controversy arises about anything whatsoever, a majority vote of this student group decides what action will be taken. If there is time for extended deliberation and debate, the members of the Editorial Board get together and talk matters over in a leisurely way. If there is not time for a leisurely debate—for instance, if an article must be published, or a pasted-up dummy of the paper—the members of the Editorial Board do not have all censorship activities in their own hands. These statements also show too well how the cause of anger can bring about an example of a very short memory on an individual's part. Has Mr. Baruch with a group representing six weeks ago, acting with absolutely no authority, he assumed the right to censor articles written by Archway representatives of the Greek Letter organizations? Has he forgotten that without consulting anyone—much less the members of the Editorial Board—he deleted paragraphs from fraternity and society articles? That he told none of the students submitting these articles that the Archway would not publish them? That he 'silenced' as much authority as would be invested in all officers of the editorial in-chief, the faculty adviser, and the Editorial Board combined? That he attempted to go before the student government body and lay down the law (a law he created himself) about what the Archway would accept and what it would reject? Has he forgotten that archway was practically thrown out of the meeting and told not to come back? Initiating such an arrogant act of censorship, Mr. Baruch was dealing with a group representing almost one-half of the student body who must be classified as contributing individuals.

Mr. Friedman's second-paragraph statement "Students are fearful writing to the editor because of the possibility or retaliation" has been explained by one of the staff members as meaning that some students are afraid of teachers who could not break criticism and might rank students who offended them. It is doubtful that any teacher or administrative officer at Bryant College would ask unfair retaliation against a student who used the Archway to express an opinion if the student's opinion had any validity, was expressed in reasonable language, and was substantiated by truthful facts. The present problem is the result of students who want to express themselves while in the heat of anger about something and are most willing to incite other students to anger than to start a reasonable debate that may lead to a desirable conclusion for all concerned. The Editorial Board wants a good Archway and intends to make it a first-rate STUDENT PUBLICATION.

**Letter of Resignation**

By Gary LaPierre
Archway Faculty Adviser

The statement in Mr. Friedman's letter of resignation seems motivated by a desire to make away with readers because the members of the Editorial Board do not have all censorship activities in their own hands. These statements also show too well how the cause of anger can bring about an example of a very short memory on an individual's part. Has Mr. Baruch with a group representing six weeks ago, acting with absolutely no authority, he assumed the right to censor articles written by Archway representatives of the Greek Letter organizations? Has he forgotten that without consulting anyone—much less the members of the Editorial Board—he deleted paragraphs from fraternity and society articles? That he told none of the students submitting these articles that the Archway would not publish them? That he 'silenced' as much authority as would be invested in all officers of the editorial in-chief, the faculty adviser, and the Editorial Board combined? That he attempted to go before the student government body and lay down the law (a law he created himself) about what the Archway would accept and what it would reject? Has he forgotten that archway was practically thrown out of the meeting and told not to come back? Initiating such an arrogant act of censorship, Mr. Baruch was dealing with a group representing almost one-half of the student body who must be classified as contributing individuals.

In his letter of resignation Mr. Baruch states that "on more than one occasion I have discovered (only after publication) that the general design has been materially altered." If Mr. Baruch had been specific, he would have explained that his "more than one occasion" actually meant "two occasions." The first was the announcement of staff promotions (one of which was Mr. Baruch's own elevation to assistant editor) and the other was the story about the demonstration. In the case of the story of the staff promotions, space had been requested for these articles two weeks before the new promotion list had been written, and the omitted article—an editorial by Richard Hurst—was printed in the following issue of the Archway. The space required for the staff promotions story was a great deal less than Mr. Baruch had required for his letter of resignation. The second incident, which he describes as a censorship action taken by a "majority of the Editorial Board," seems to be the story of the demonstration which the Editorial Board ruled on and which has been explained fully in the letter to Mr. Friedman.

**Indians Unfrocked**

The Bryant College Indians, currently 4-0 and ranking 17th in the nation, are playing 17.5 points per game and have pulled down an average of 4.5 rebounds per game for a 13.0 average.

**Lifters Corner URGES PHYSICAL FITNESS**

By Ron Gomez
The Uses and The Effects of Isotonic and Isometric

In today's world of modern conveniences, physical fitness has become a phase of more and more concern. The late President Kennedy is probably the best known person for rec-ent emphasis on physical fitness. What is the importance of physical fitness? The importance lies in the fact that the American can make is the most physically sound man in this land. From this it has also been ac-cepted that lack of exercise and obesity are the greatest contributors to heart attack. Can what be done about this situation?

There are two types of exercises which can help condition the body. One type is known as isotonic exercises and isotonics. This exercise can be called a static exercise, because when the exercise is performed there is no movement in the muscle. Isometrics and isotonic exercises are not the best thing for the situation. If they are done alone they detract from the flexibility of movement in the muscle. In order to prevent this, some exercise should be done with another type of exercise called the isotonic. The isotonic exercise may be called a dynamic exercise because the movement in the muscle when the exercise is being performed. Some examples are calisthenics and weight lifting.

According to the latest statistics released by the National Collegiate Sports Service in New York, Bryant College, with 365 points, is currently 17th in the nation, division team average of 69.8 points per game. On the other hand, the Indians have scored 365 points for an average of 92.5 points per game.

By Paula Pascone

On Wednesday, December 13, 1967, the members of the Youth Guidance Council of Bryant College staged a Christmas Party for "little brothers and sisters" in the gym-auditorium. The children arrived by bus at 4:45 p.m. and were basically concerned with the food that we had promised them. They didn't seem to notice the crepe paper streamers hanging crossed from the ceiling or the brightly lighted Christmas tree on stage. After they were convinced we meant business when we said "hands off the food," they settled themselves in chairs in front of the projection screen. The house lights dimmed and the ball was soon filled with animated sounds of Donald Duck and Chip & Dale. Following the cartoons, a few of the members and the children gathered around the piano for Christmas carols. Appropriately, we sang "Santa Claus Coming To Town" and Santa (Howard Duckworth) entered, stage right, with a bag full of goodies. The children stood in line to receive their gifts and hurry off to the banquet table. Sandwiches, soda, cookies and cake, and, of course, ice cream kept the tots busy and happy. A short breath of fresh air as they made their way back to the bus, and the kids were on their way back, each with a miniature candy cane. We were exhausted but happy. It was all worth it.

By Chips Danielson

The Beta Iota Beta Fraternity wishes to congratulate our candidate, Beth Whitmore, on being selected as the new Kiernan. All the boys ranging in age 7 to 12 at the Boys' Club are truly excited and look forward to next year and our brotherhood activities.

Congratulations to T.E.P. on a fine "For the Spirit" Week End. Everyone that attended had a great time, in spite of the fact that the Turtles didn't come. Congratulations to our Phi Queen Carol on doing such a fine job. We're all proud of you! S.I.X.'s Annual HoJo Party was a real success with lots to eat, lots to drink, and lots of laughs. The girls presented a skit, a fairy tale to be exact, which turned out to be quite a laugh. We hope to see all of you that attended again at happy hour, and interviews commencing soon.

We're doing great in the sports field so far. The bowling team did a fine job last week winning all four games. Also congratulations to our volleyball team on making another game. Keep it up, girls!

Last but not least—Congratulations to Kromo and the Babs on their recent pinning; also congrats to O'Thea and Petal on their newest pinning. Best of Luck to all of you!

By Rich

On Tuesday, December 12, 1967, Beta Iota Beta Fraternity presented its second annual Christmas Party for about 60 kids ranging in age 6 to 12 at the Boys' Club.

The party began at 6:30 and everyone there was thoroughly entertained. The party started with shuttle races, Nancy versus Shirley races, sack races, and a free throw game with a basketball. After the games were over, everybody ate all the cookies, ice cream, sodas, and milk that they wanted.

At this point of the party, the tension was really building for the arrival of Santa Claus who made our Canadian "Lad", Garley Delrace. All the boys got their chance to talk to Santa and get a present from him.

The chairman for the project was Roger Hatch, and it was his duty to make sure all the kids got a present from Santa. All the boys were very happy and we are all looking forward to next year and another party at the Boys' Club.

CONGRATULATIONS TO T.E.P.

On Sunday, December 10, at 3:00 p.m., the Turtles couldn't attend, but we know you all had a great time. Again, thanks for your participation.

Turning to the sports scene, T.E.P. was eliminated in the vol­leyball suite and Phi Delta Phi in the bowling suite. All the brothers performed great, and after losing our first round we came back strong with a second round victory. Our third round wasn't as successful though, and that's probably our biggest problem. A.D. Gene Biben for doing such a fine job coaching. All the guys had their hearts in the games and showed true T.E.P. spirit. Everyone played their hearts out, and we're all proud of our fine efforts.

Two T.E.Pmen took the bite over the holidays. They took Al Cooper 2 years and Barry Zimmerman 6 months (shows the difference in their technique), but Al finally pinned Ronnie Cohen, and Barry pinned Barbara Weinstein. Belated congratulations to Marco Pisoni for doing such a fine job.

Congratulations to Jane Gorman and Michelle Ostrander, and Ronnie Ruster as he announced his engagement.

Betty Culver, getting ready for a sensational week-end. Keep it up girls, Stil Goldman who is looking toward bigger and better things, pinned Dennis Goldsberg not long ago, and alumni brother Dave Seigal recently announced his engagement to Maria Giacomi. Congratulations to all our candidates for the coming term.

By "Wacky"

This is the day for congratulations and best wishes; so I might as well get started.

First — Congratulations to Shayne and Gene on their recent pinning. We're all happy for you. Congratulations to T.E.P for a sensational week-end. We're sure that everyone who attended had a great time. Final congratulations to Jane Gorman and Michelle, you did a fine job.

DEK had their Christmas Party at Linda's last Saturday, and all freshmen and independents were invited. I'm positive everyone had a great time, and we all thank Linda and her parents for "taking us in." We really appreciate it — THANKS!!

Dr. Russell Resigns
Vice-President's Position
Leaves to Fill National Post

By V. L. Robinson
Dr. Charles H. Russell, Vice President for Academic Affairs at Bryant, has left the office he so ably filled since 1963 to become associate director of the newly created National Commission for the Study of Nursing Education in Rochester.

New York. The Commission, headed by E. Allen Wallis, President of the University of Rochester, will be composed of fifteen leaders in the health disciplines, higher education, the social and physical sciences, and business.

Since the publication of his independent study, Liberal Educa­tion and Nursing, in 1958, Dr. Russell has continued his studies in this field. He has been appointed to this National Com­mission as an educator outside the field of nursing to assist in making an exhaustive survey with the purpose of alleviating the problems now facing hospitals and all the medical and health institutions in the re­cruitment and training of nurses.

Dr. Russell received his bache­lor's degree from Dartmouth College and his master's and Doctor's degrees from Teachers College at Columbia University.

He was an aerial Gunnery with the Air Force during World War II, serving in Europe. In July of 1962, Dr. Russell came to Bryant College as Assistant to the President in 1963 he was elevated to Vice President for Academic Affairs. Before his affiliation with Bryant, Dr. Russell was Associate in Higher Education of the New York State Department of Education having served as assistant to Dr. Karl J. McGrath, Executive Officer of the Institute of High­er Education at Teacher's Col­lege, Columbia University.

Dr. Russell has written many articles on higher education and lectured widely on the subject. Before becoming Dr. McGrath's assistant, he taught social re­lations courses at the Junior College at Boston University and served as supervisor of student teachers in the social studies department at Teachers College.

Dr. Lionel H. Mercier
Appointed Vice-President

Dr. Lionel H. Mercier, long­time Dean of the School of Business Teacher Education and Secretarial Science at Bryant College, was appointed Assistant to the President and Acting Vice-President for Academic Affairs for the coming semester.

This announcement was made last week by Dr. E. G. Gardner, President.

Well-known in local educa­tional circles, Dr. Mercier most recently published a report on business education in the public institutions and on the broad­ening of business education.

Dr. Mercier holds degrees from Bryant College, Rhode Island College, Teachers Col­lege of Connecticut, and Calvin College of Boston. He has also done advanced study in education in State Extension at Yale University, Trinity Col­lege and Boston University.

A native of Connecticut, he joined the Bryant Faculty in 1939 after teaching at the Union Junior High, the Farmington High School, and the Moody Business Institute in that state.

The articles on business education in several periodicals he has also lectured on this subject in educational institutions and on the broad­casting media.

His background also includes considerable experience in the world of business. He has occu­pied executive positions in sev­eral firms including that of Business Manager of the Connect­icut Schools printers.

Dr. Mercier resides with his wife, the former Gertrude Robinson, at 255 Loney Drive, Riverside, Rhode Island.

HOW TO SEE EUROPE
FOR ONLY $300 A DAY: NO. 2

Last week we discussed England, the first stop on the tour of Europe. Today we will take up your next stop—France, or the Pearl of the Paris, as it is generally called.

To get from Rousillon to France, one graces one's body and swims the English Channel. Similarly, to get from France to Spain, one graces one's body and soars down the Pyrenees. And, of course, to get from France to Switzerland, one graces one's body and wriggles through the Simplon Tunnel. Thus, as you can see, the most important single item to take to Europe is a value full of graces.

No, I am wrong. The most important thing to take to Europe is a value full of Marlboro Cigarettes—or at least as many as the customs regulations will allow. And if for chance you should run out of Marlboro in Europe, do not despair. That familiar red and white Marlboro package is as omnipresent in Europe as it is in all fifty of the United States. And it is the same superb cigarette you find at home—the same pure white filter, the same zestful, mild blend of tobaccos preceding the filter. And, of course, to get from France to Switzerland, one graces one's body and wriggles through the Simplon Tunnel. Thus, as you can see, the most important single item to take to Europe is a value full of graces.

Next week, every week, the best cigarette you can buy the whole world over is filter-tipped Marlboros—soft pack or hard pack. And, of course, to get from France to Switzerland, one graces one's body and wriggles through the Simplon Tunnel. Thus, as you can see, the most important single item to take to Europe is a value full of graces.

To: All students

1963 Max Hilton
Grievance Committee To Be Formed at Bryant

The Grievance Committee of Bryant College is a channel of communication between the students, faculty, and administration. The sole purpose of this organization is in acting as an instrument to insure "justice" in all affairs.

I. Membership

The grievance committee shall be composed of seven members, each of whom is to be appointed by the president of the student senate.

The president, and shall appoint, as chairman, a senator, who by his (her) persuasive qualities will do the most to enhance the committee's standing in the eyes of those with whom it shall deal.

The president, and shall also appoint, as members, to the committee, each of whom is to be appointed by the president of the student senate.

II. Operation and Procedure

Forms shall be provided and given to each member of the committee; and each member of the committee is to present his or her case directly to the committee.

It is advisable that both men and women and commuters and resident students be represented on the committees. These should not have authority to act in a prohibitive amount of extra-curricular activities. (Our campus is small; it is not possible for any student to be in too many committees.)

Please keep a record of all grievances and any grievances of a similar nature.

III. Grievances

There are two areas in which the grievance committee does not have authority to act in behalf of the student body.

Disputes between faculty and students are to be handled by the committee.

Failure to submit, by March 4 instead of February 19 as previously scheduled.

Bryant To Be Represented At Model Assembly

By Roy Dempsey

At the September 29 meeting of the World Affairs' Forum, the members began to make preparations for their annual trip to the United Nations Model Assembly in New York. The meeting, held in the assembly room of the Student Center Building, was mandatory for only those members in attendance who had demonstrated sufficient eligibility to represent Bryant at the Model Assembly.

Last year six members of the W. A. F. made the trip to New York. For five days the members attended and participated in discussion at the U. N. Students from across the nation attended the Assembly, and they were addressed by the distinguished ambassadors from the Soviet Union and the United Kingdom. A delegation from Bryant also met and asked questions of the assistant Ambassador from Afghanistan. The meeting with the assistant Ambassador was very staged in order to give the members a chance to further their knowledge about the countries represented at the Assembly.

It is interesting to note that at the Model Assembly represents a country that is not a member of the U. N. or hope to be in the near future. The students participate as if they were the delegation from the country they are representing.

The last meeting of the W. A. F. was held on December 4, Mr. Philip Anderson, Mr. Paul Deluca, and Mr. Howard Landers, talked to the members of the Delta Omega Professional Society at the Delta Omega Professional Society in the Admira Inn, Cumberland, Rhode Island.

The topic of his discussion was "The Computer Dilemma in Business." Mr. Anderson discussed the various systems involved, the costs of installing the systems, and showed the members through visual aids and slides the computer's techniques employed to set up a system. He also discussed and showed statistics of the size of the business in the present and those expenses they expect in the future.

Mr. Anderson graduated from Dartmouth College in 1967. He joined Radican Associates in April, 1967, as Vice-President. He has been responsible for several consulting and systems contracts, and is responsible for R.A.T.'s planning for future needs in such areas as personnel planning, the R.A.T. chí also operates a Data Center, and the setting up of R.A.T.'s Education Division. Mr. Anderson is also the Vice-President and a Director of the Rhode Island Chapter of the Systems and Procedures Association.

As a special guest, Delta Omega was honored to have Mr. Robert Redfield, President of Radican Associates, and a 1957 graduate of Bryant College.

The last meeting of Delta Omega would like to remind all members that the next dinner meeting will be held on March 4 instead of February 19 as previously scheduled.
